Definition of Financial Measures

Financial Measures	Definition
Adjusted EBITDA	Operating income + depreciation and amortization (excluding depreciation of right-of-use assets) + share-based payment expenses ± other operating income/expenses
Adjusted EPS	Adjusted profit / ((number of issued shares at the beginning of the period + number of issued shares at the end of the period)/2 - (number of treasury stock at the beginning of the period + number of treasury stock at the end of the period)/2)
Adjusted profit	Profit attributable to owners of the parent ± non-recurring income/losses (excluding non-controlling interests) ± tax reconciliation related to certain non-recurring income/losses
Non-recurring income/losses	Gains or losses from disposals of shares of associates, expenses relating to company restructuring, gains or losses from the sale or impairment of property and equipment, and income and expense items that the Company believes are unusual or non-recurring in nature which do not reflect the Company's underlying results of operations

Effective from Q1 FY2022, the Company has changed the adjustment items for adjusted EBITDA and adjusted EPS.

Supplementary Information

All comparisons in this report are year over year unless otherwise stated. The current definitions of adjusted EBITDA and adjusted EPS are applied retroactively to FY2021. Please refer to “Definition of the Financial Measures” for the current definitions.

Average Exchange Rate During The Period

(In yen)	FY2021	FY2022
US dollar	112.39	135.50
Euro	130.55	140.99
Australian dollar	83.06	92.66

Forward-Looking Statements

This document contains forward-looking statements, which reflect the Company's assumptions, estimates and outlook for the future based on the Company's plans and expectations as of March 31, 2023 unless the context otherwise indicates. There can be no assurance that the relevant forward-looking statements will be achieved. Please note that significant differences between such forward-looking statements and actual results may arise due to various factors, many of which are outside the Company's control, including changes in economic conditions, changes in individual users' preferences and enterprise clients' needs, competition, changes in the legal and regulatory environment including changes in laws and regulations or guidance, interpretation, enforcement or practice relating to laws and regulations, fluctuations in foreign exchange rates, climate change or other changes in the natural environment, the impact of the spread of COVID-19, the occurrence of large-scale natural disasters, and other factors. Accordingly, readers are cautioned against placing undue reliance on any such forward-looking statements. The Company has no obligation to update or revise any information contained in this document based on any subsequent developments except as required by applicable law or stock exchange rules and regulations.

Note Regarding Reference Translation

This document has been translated from the Japanese language original for reference purposes only and may not be used or disclosed for any other purpose without the Company's prior written consent. In the event of any conflict or discrepancy between this translated document and the Japanese language original, the Japanese language original shall prevail in all respects. The Company makes no representations regarding the accuracy or completeness of this translation and assumes no responsibility for any losses or damages arising from the use of this translation.

Third-Party Information

This document includes information derived from or based on third-party sources, including information about the markets in which we operate. These statements are based on statistics and other information from third-party sources as cited herein, and the Company has not independently verified and cannot assure the accuracy or completeness of any information derived from or based on third-party sources.

U.S. Disclaimer – Unsponsored American Depositary Receipt (“ADR”)

The Company does not support or encourage, and has not consented to, the creation of any unsponsored ADR facilities in respect of its securities and in any event disclaims any liability in connection with an unsponsored ADR. The Company does not represent to any depositary institution, bank or anyone nor should any such entity rely on a belief that the Web site of the Company includes all published information in English, currently, and on an ongoing basis, required to claim an exemption under U.S. Exchange Act Rule 12g3-2(b).

History

Organizational Transitions

The Company was founded in March 1960 in Minato-ku, Tokyo, Japan as the University Newspaper Advertising Company, publishing job advertisements in university newspapers. Following that, we began handling advertising for multiple university newspapers, and in October 1960, we established the University Advertising Co., Ltd. as a corporate organization. In 1962, we launched our publication *Invitation to Companies*, and in April 1963 changed the company name to the Japan Recruitment Center, Inc. In August 1963, the company name was further updated to Japan Recruit Center, Inc, a predecessor to today's Recruit Holdings, Co., Ltd. Please refer to the timeline below for further information regarding organizational transitions.

Business Fields Expansion

Recruit Group was established in 1960 as a job search magazine for university students. In 1962, we developed the "Ribbon Model," our guiding business model in which we create platforms that connect business clients with individual users. With this model, we have since widened our range of HR businesses to meet mid-career recruiting, placement, and staffing needs. We have also expanded into the life events and lifestyle fields to serve the housing, automobile, bridal, travel, dining, and beauty industries. Recently, we have introduced software as a service ("SaaS") business tools to support operations within small and medium-sized enterprises ("SMEs"), such as retailers and restaurants.

Digital Transformation

The Company began using computers at a time when their use was still limited, putting digitization into practice for increased efficiency. Following the introduction of a supercomputer in the 1980s, we transitioned from paper magazines to online media in the 1990s, and then to mobile platforms. Not only did this allow for faster and more convenient delivery of information, but it also transformed how individual users and business clients interact, through the development of groundbreaking tools such as online reservation systems. Today we continue the evolution of digital solutions through the development of SaaS solutions.

Globalization

In the 2000s, the Company entered the global market with a bridal business in China. Although this ended with a withdrawal, this experience helped us to shape our mergers and acquisitions ("M&A") strategy, and we later succeeded in expanding our staffing businesses to the US, Europe, Australia and beyond. Further, the acquisitions of Indeed, Inc.* in 2012 and Glassdoor, Inc.* in 2018 have led to the successful establishment of our HR Technology SBU, spearheading the growth of the Company as a whole and bringing the number of countries we serve to over 60.

March 1960		Foundation. Started as an advertising agency specializing in job ads in university newspapers.
1962		Published <i>Invitation to Companies</i> which consolidated recruitment information for university students and established the two-sided marketplace business model.
August 1963		Japan Recruit Center, Inc. was established, a predecessor to today's Recruit Holdings Co., Ltd.
1968		Introduced the IBM 1130 Computing System, becoming the first company in Japan to use this groundbreaking computer.
1971		Established Recruit Computer Print, a company specializing in digitized pre-production processes focused on adopting leading-edge publishing technologies.
1976		Launched operations in the housing information industry in response to the oil crisis induced recession, and achieved rapid growth.
1980		Launched Travail, Japan's first career change magazine for women, published 5 years prior to Japan's legislative enactment of The Equal Employment Opportunity Law.
April 1984		Changed the company name to Recruit Co., Ltd.
1984		Launched the magazine Car Sensor. It was born from a training program for new employees and focused on the used car market.
1985		Against the backdrop of the privatization of Japan's telecommunications industry, launched Information Network Service operations and Remote Computing Service operations.
1985		Established Recruit U.S.A. Inc. to support Japanese companies with local hiring in the US.
1987		Established the Supercomputer Research Institute, aimed at developing insights into how to meet the challenges and opportunities of the approaching era of a data-driven society.
1990		Launched Jalan, a magazine about travel and leisure optimized for easier booking.
1993		Launched Zexy, a bridal information magazine born from our new internal business proposal system, "Ring."
1995		Launched Mix Juice (Currently ISIZE) marking the start of our online media business.
1996		Digitized our job information magazines and launched RB on the NET (Currently Rikunabi) and Digital B-ing (Currently Rikunabi Next).
2000		While the Company expanded its businesses in the field of life events such as housing and bridal, it also launched lifestyle information magazine HotPepper (Currently Hot Pepper Gourmet) which contains dining guides and coupons.
2000		Launched ISIZE Travel (Currently Jalan net), a platform for making accommodation reservations online.

2004		Launched the bridal information magazine Zexy in China. This experience helped the Company shape M&A strategy for global expansion.
2007		Launched Hot Pepper Beauty, an online beauty salon appointment reservation service.
January 2008		Moved the headquarters to Gran Tokyo SOUTH TOWER (Marunouchi 1-9-2, Chiyoda-ku, Tokyo, Japan)
July 2010	 	Acquired US-based staffing company, The CSI Companies, Inc.* and implemented our Unit Management System. With this acquisition, we began M&A-driven global expansion.
2011		Launched Juken Sapuri (Currently Study Sapuri), an online learning service for college entrance exams, then expanded into languages and other subjects, successfully growing into an affordable high-quality online learning platform.
2011	 	Acquired Staffmark Group, LLC* in October, Advantage Resourcing Europe B.V. (Currently RGF Staffing UK Limited)* in December and expanded our staffing business in the US and Europe.
2012		Developed SALON BOARD, a cloud-based online reservation management system that improves operational efficiency at beauty salons through digitization, replacing paper-based reservation books.
October 2012		<p>Through an incorporation-type split the Company became a holding company, Recruit Holdings Co., Ltd., and established the following companies:</p> <ul style="list-style-type: none"> - Recruit Sumai Company Ltd. - Recruit Marketing Partners Co., Ltd. - Recruit Lifestyle Co., Ltd. - Recruit Technologies Co., Ltd. <p>Through a joint incorporation-type split by Recruit Office Support Co., Ltd.* newly established:</p> <ul style="list-style-type: none"> - Recruit Administration Co., Ltd. (Currently Recruit Co., Ltd.)* <p>Through an absorption-type split, transferred businesses to the following 100% subsidiaries of the Company:</p> <ul style="list-style-type: none"> - Recruit Career Co., Ltd.(Former Recruit Agent Co., Ltd.) - Recruit Jobs Co., Ltd.(Former Recruit HR Marketing) - Recruit Communications Co., Ltd.(Former Recruit Media Communications Co., Ltd.)
October 2012	 	Acquired Indeed, Inc.* (founded in 2004), a job search engine based in the US. This marked our full entry into the HR technology business, which has since revolutionized the HR industry through disruptive digital innovation.
2013		Released AirREGI, a point of sale (POS) system for SMEs of various industries such as retailers and restaurants, using smartphones and tablets to enhance operational efficiency of their businesses.
October 2014		Listed publicly on the First Section of the Tokyo Stock Exchange.
2015		<p>Expanded AirREGI's functions and also launched AirPAY, a payment system service that accepts various payment methods including credit cards, electronic money, and QR Codes¹.</p> <p>¹ "QR Code" is a registered trademark of DENSO WAVE INCORPORATED.</p>

2015		Established Recruit Institute of Technology (Currently Megagon Labs) to work with external organizations on research and development of AI, machine learning, and other new technologies.
2015		Acquired the staffing companies Peoplebank Australia Ltd* in January and Chandler Macleod Group Limited* in April, companies with leading market positions and strong business fundamentals in the Australian market.
2016		Launched Indeed Hire, an innovative recruitment service that goes beyond the job advertisement business.
June 2016		Acquired USG People Holdings B.V. (Currently RGF Staffing B.V.)*, a leading European staffing company with a presence in the Netherlands, France, Germany, and Belgium among other countries, marking our full entry into Europe.
April 2018		Reorganized the Company and established a managing company for each SBU that oversees the operation of its subsidiary companies: <ul style="list-style-type: none"> - HR Technology SBU: RGF OHR USA, Inc.* - Matching & Solutions SBU: Recruit Co., Ltd.* (Former Recruit Administration) - Staffing SBU: Recruit Global Staffing B.V. (Currently RGF Staffing B.V.)*
2018		Launched AirSHIFT, a system for the management of shift work using a SaaS solution, thereby contributing to operational efficiency in the service industry where labor shortages are a major problem.
June 2018		Acquired Glassdoor, Inc.*, a leading online job and company information site founded in the US in 2007. Glassdoor has developed a database of information and reviews posted by users, bringing transparency to the job seeking process and strengthening our HR Technology business.
2018		Launched Indeed Assessments, a platform that helps employers automate the screening process so they can quickly find candidates with the skills they need.
2020		Launched Indeed Interview, a video interviewing platform designed specifically for interviewing and hiring, which was created to allow employers to quickly adapt to virtual hiring needs during the pandemic so job seekers could interview safely from the convenience of their homes.
2021		Launched Indeed Hiring Platform, a new solution that allows employers to manage the hiring process – from posting through interview – directly on Indeed, with no additional software. Job seekers who meet an employers' objective job criteria can automatically advance to an interview.
April 2021		The following mergers were carried out in the Matching & Solutions business. Integration of seven core operating companies and functional companies into Recruit Co., Ltd., SBU Headquarters. <ul style="list-style-type: none"> - Recruit Sumai Company Ltd. - Recruit Lifestyle Co., Ltd. - Recruit Marketing Partners Co., Ltd. - Recruit Career Co., Ltd. - Recruit Jobs Co., Ltd. - Recruit Communications Co., Ltd. - Recruit Technologies Co., Ltd.
2021		Launched AirWALLET with COIN+ compatibility, the free and easy-to-use digital account management and payment application that allows users to seamlessly manage, charge, transfer, and withdraw money with COIN+.

2021		Launched AirWORK Applicant Tracking System (ATS), a hiring management system that allows users to create hiring websites and duplicate to Indeed for free.
2021		Announced its Commitment to Sustainability, which is to create a positive impact on society and the environment through all our corporate activities, and launched its goals in environmental, social, and governance (ESG), aiming to achieve them by FY2030.

2022		Launched AirINVOICE, an invoice management service that enables users to make payments from their smartphones.
April 2022		In accordance with the Tokyo Stock Exchange's market-segment restructuring, Recruit Holdings' stock was transferred from the First Section to the Prime Market.
July 2022		Changed the registered location of the head office to Gran Tokyo SOUTH TOWER (Marunouchi 1-9-2, Chiyoda-ku, Tokyo, Japan)

* Consolidated subsidiaries as of March 31, 2023.

* "Currently" in the chart above shows the name as of March 31, 2023.

Business

The Company started in 1960 as a business providing job information to students by placing job advertisements for its clients in university newspapers in Japan. Since then, the Company has consistently created and operated matching platform businesses connecting individual users and business clients.

Currently, the Company provides individual users around the world the best possible choices and supports business clients in improving their operational efficiency by utilizing technology and data, all enabling simpler and faster matching.

In the course of connecting individual users and business clients, the Company positions data security and privacy, including the protection of individual users' privacy, as a material foundation for its corporate activities, and has established appropriate structures and measures to support that position.

The Company operates its businesses through each of its three Strategic Business Units ("SBU"s): HR Technology, Matching & Solutions and Staffing and has established respective SBU Headquarters in order to further reinforce global, swift decision making. This organizational structure enhances the management capabilities of each SBU Headquarters and enables each SBU Headquarters to execute its own strategy. At the same time, each SBU collaborates closely to achieve the Company's three strategic pillars: Simplify Hiring, Help Businesses Work Smarter, and Prosper Together. The SBU structure also enables the Holding Company to focus on and strengthen its holding company functions, including strategic planning and execution as well as group governance and monitoring. Through these positive aspects of the SBU structure, the Company aims to increase its enterprise value.

As of March 31, 2023, the Company had 257 subsidiaries and 8 associates.

Business Overview by Segment

HR Technology

HR Technology consists of Indeed, Glassdoor, and other related businesses.

Indeed and Glassdoor are online matching and hiring platforms where people can find jobs and learn about companies. Both Indeed and Glassdoor have missions that are aligned towards achieving success for job seekers - Indeed's mission is to help people get jobs and Glassdoor's mission is to help people everywhere find a job and company they love.

Indeed created the job aggregation and search model that transformed the job search process for job seekers, and in doing so has become the leading job site in the world¹, attracting 330 million unique visitors per month² and 3 million employers that come to Indeed to hire each year³. Glassdoor has reshaped the way people search for and evaluate jobs and companies, by increasing workplace transparency for job seekers by bringing together jobs with user-generated employer reviews, salaries and insights. As a result, Glassdoor has become the recognized leader in company reviews and insights attracting 55 million unique visitors per month⁴.

Indeed and Glassdoor offer a suite of tools to help job seekers find available job opportunities, post resumes and create profiles, research company information and reviews, and schedule and conduct video and phone interviews. For employers, Indeed and Glassdoor offer solutions to recruit and hire qualified talent in an easier and more efficient way. Employers can post and advertise jobs and build their company's employment brand across both platforms, reaching a broad and diverse job seeker audience. Together, they provide an efficient source of candidates through a pay-for-performance job advertising pricing model and provide a range of products for employers to source, screen, interact with, and interview candidates. As a result, Indeed and Glassdoor partner to create a global talent marketplace where job seekers find jobs and employers find great talent.

³ Internal data based on the last 12 months of activity as of March 2023

⁴ Internal data based on Google Analytics, an average of each month's total of distinct cookie IDs visiting Glassdoor's site between October 2022 - March 2023

Matching & Solutions

Matching & Solutions consists of two businesses mainly in Japan, Marketing Solutions and HR Solutions. Marketing Solutions provides solutions which support business clients' operations such as customer acquisition, customer relationship management, and payments in a variety of industries, such as Housing & Real Estate, Beauty, Travel, Bridal, Dining, and others. HR Solutions helps individual users find jobs and helps business clients' hiring activities across a variety of industries.

Both Marketing Solutions and HR Solutions offer matching platforms which connect individual users and business clients, and cloud-based Software as a Service ("SaaS") solutions that utilize technology and data to improve the efficiency of the day-to-day management and operations of clients' businesses. Through these matching platforms and SaaS solutions, Matching & Solutions aims to create an "ecosystem" of solutions that support the operations of businesses in Japan to help improve their productivity and profitability.

Matching & Solutions respects the privacy of individual users and complies with data utilization in accordance with the "Personal Data Policy," while providing optimal choices through online platforms and print media that individual users can trust and use with peace of mind.

Marketing Solutions

The matching platforms for each industry include: SUUMO for Housing & Real Estate, Hot Pepper Beauty for Beauty, Jalan for Travel, Zexy for Bridal, Hot Pepper Gourmet for Dining, and others. The matching platforms generate revenue primarily from advertising while Travel and other services generate revenue from transactions.

HR Solutions

HR Solutions supports business clients' recruiting and hiring activities and individual users' job search activities through its job advertising services and placement services. The services include online matching platforms (Rikunabi for new graduates, Rikunabi NEXT, and TOWNWORK for part-time job seekers) and the placement service, Recruit Agent and RECRUIT DIRECT SCOUT.

SaaS Solutions

Matching & Solutions provides more than 15 Air BusinessTools, such as AirPAY, a cloud-based payment service, AirREGI, a point of sale (POS) system, and AirWORK ATS, a centralized application management service as well as other SaaS solutions specialized for industries where Matching & Solutions operates online matching platforms. The current priority is to increase the number of SaaS accounts.

Staffing

Staffing consists of two major operations: *Japan* and *Europe, US, and Australia*. Staffing offers temporary staffing and other related services primarily for clerical, manufacturing, light industry and various professional positions across a multitude of industries. The Company selects appropriate temporary staff, based on the skills needed by clients, from a large pool of workers registered with the Company, and then provides those temporary staff to business clients.

Both *Japan* and *Europe, US, and Australia* operations implement the Unit Management System, which divides an organization into smaller units based on differences in the markets they serve. Each unit is regarded as a distinct company, and the Unit Manager is given authority to make decisions to maximize each unit's profitability.

In *Japan*, the Company has been licensed by the Minister of Health, Labour and Welfare in accordance with the provisions of the Act for Securing the Proper Operation of Worker Dispatching Undertakings and Protection of Dispatched Workers, and operates temporary staffing services primarily through Recruit Staffing Co., Ltd. and STAFF SERVICE HOLDINGS CO., LTD.

In *Europe, US, and Australia*, the Company offers services through RGF Staffing France SAS, RGF Staffing Germany GmbH, RGF Staffing the Netherlands B.V., RGF Staffing UK Limited, Unique NV as well as other

companies in Europe, Staffmark Group, LLC and The CSI Companies, Inc. in the US, Chandler Macleod Group Limited mainly in Australia.

Employees

The Company including Its Consolidated Subsidiaries

As of March 31, 2023

Segment	Number of employees	Number of contract employees
HR Technology	15,606	83
Matching & Solutions	23,446	591
Staffing	19,313	1,236
Holding Company corporate function	128	5
Total	58,493	1,915

¹ The employees include employees that have been assigned to the Company from companies outside the Company and excludes employees that have been assigned to companies outside the Company. It also excludes that of contract employees.

² Contract employees represent the average number of contract employees during FY2022.

³ Contract employees include part-time employees and exclude temporary staff.

⁴ "Holding Company corporate function" represents employees in corporate functions of the Holding Company such as finance and risk management.

⁵ The number of employees increased by 6,736 compared to the previous fiscal year. This is mainly due to the increase of manpower for the expansion of the HR Technology business and the Matching & Solutions business, as well as the addition of part-time overseas employees to the total Staffing business headcounts, along with an increase in permanent dispatched employees in Japan. In addition, the headcount reduction announced in March 2023 by a subsidiary under the HR Technology business will be reflected in FY2023.

The Holding Company excluding Its Consolidated Subsidiaries

As of March 31, 2023

Number of employees	Number of contract employees	Average age	Average length of service (years)	Average annual salary (yen)
128	5	39.3	7.40	11,389,672

Segment	Number of employees	Number of contract employees
HR Technology	-	-
Matching & Solutions	-	-
Staffing	1	-
Holding Company corporate function	127	5
Total	128	5

¹ The employees include employees that have been assigned to the Holding Company and excludes employees from its subsidiaries. These employees are excluded from the original subsidiary's count and the count for the number of contract employees.

² Contract employees represent the average number of contract employees during FY2022.

³ Contract employees include part-time employees and exclude temporary staff.

⁴ Average annual salary includes overtime and bonuses. The average annual salary increase is due to a transition to a revised compensation structure as well as an increase linked to company performance.

⁵ "Holding Company corporate function" represents employees in corporate functions of the Holding Company such as finance and risk management.

Labor Unions

Employees are not members of labor unions. Management and employees have built a strong relationship and no special labor matters are noted.

Diversity, Equity and Inclusion

Recruit Group's diverse workforce has been at the source of our value creation since its very foundation. We recognize and value the differences between our employees, betting on the passion and ideas fueled by their curiosity to generate new businesses and services. Moreover, we have established a human rights policy to ensure that no discrimination or human rights violations are committed in our corporate activities. We are committed to providing fair opportunities for all individuals and respect their diverse life and workstyles. Please refer to "Sustainability Policy and Actions" in "Business Overview" for more information on our approach and efforts towards human capital and human rights.

Under these policies, we strive to create a work environment that is supportive, accommodating and fulfilling for all employees, regardless of their diversity dimensions or employment barriers. In May 2021, we have made Diversity, Equity and Inclusion (DEI) as a part of our corporate strategy, aiming to achieve full gender parity by FY2030, i.e. reach approximately 50% representation of women across all levels. To achieve this, we have formulated a three-year plan and are accelerating our efforts. We are also incentivizing our Executive Directors and Executive Vice Presidents in charge of promoting ESG initiatives, by linking part of their long-term incentive compensation¹ to the achievement of these targets. Please refer to "Prosper Together - Seek sustainable growth shared by all stakeholders" in "Management Philosophy and Strategies" for more information on the progress on our DEI efforts.

Recruit Group's Milestones for FY2030 Gender Parity Goal

As of April 1, 2023, the percentage of women across all levels, including in permanent employees, managerial and senior executive positions for Recruit Group² is as follows:

Company	Permanent Employees ³	Managers ⁴	Senior Executives ⁵
Recruit Group ²	49.8	39.1	22.0

¹ Compensation linked to ESG target achievement is set as part of the BIP Trust (Equity) compensation. Eligibility to receive this award will depend on whether or not the three-year target is achieved.

² For Recruit Group, we have aggregated data from the Holding Company, the SBU Headquarters and major consolidated subsidiaries under each SBU, including overseas subsidiaries. The definition of "Permanent Employees" is based on the Group's

proprietary classification for managing employment status. The definition of “Managers” and “Senior Executives” is as outlined in table footnotes 5 and 6 respectively, and differs from that of “Managers” (total of workers in managerial positions such as section manager or higher, excluding executives) in the Ministerial Order on the Plan of Action for General Employers under the Act on the Promotion of Women’s Active Engagement in Professional Life (hereinafter referred to as “Women’s Active Engagement Act”).

- ³ “Permanent employees” refers to those on indefinite contracts. It includes seconded employees that have been assigned to Recruit Group and excludes employees that have been assigned to companies outside Recruit Group.
- ⁴ Managerial positions refer to all positions that have subordinate employees. It includes senior executives under service agreements.
- ⁵ Senior executive positions are defined as Senior Vice Presidents and Corporate Professional Officers of Recruit Holdings and Matching & Solutions Strategic Business Unit (SBU), and CEOs of the Company’s major subsidiaries and heads of key functions in the HR Technology and Staffing SBUs.

The ratio of women in managerial positions, percentage of men taking childcare leave and gender pay gap in the Holding Company¹ are as follows:

Name	Ratio of women in managerial positions ²	Percentage of men taking childcare leave ^{3, 4}	All Employees	Gender Pay Gap ^{3, 5}	
				Permanent Employees ⁶	Part-time and Fixed-term Employees, etc. ⁷
Recruit Holdings	50.0	50.0	81.0	83.3	190.4

¹ While the Company bears no legal disclosure obligation under the Women’s Active Engagement Act and the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (hereinafter referred to as “Childcare and Caregiver Leave Act”), we have voluntarily disclosed to provide such information for reference purposes.

² Managerial positions refer to all employees who have subordinates, excluding senior executives under service agreements, as of Apr 1, 2023. It has been calculated in accordance with the Women’s Active Engagement Act, including seconded employees that have been assigned to the Holding Company and excluding employees that have been assigned to companies outside the Holding Company.

³ The majority of the Holding Company’s workforce consists of seconded employees from Recruit Co., Ltd., whose remuneration is determined based on our established mission grades and criteria. Given these employment and compensation determination circumstances, the calculation provided includes incoming seconded employees assigned to the Holding Company and excludes outgoing seconded employees assigned to other companies. It, therefore, includes incoming seconded employees among those registered in Recruit Co., Ltd.’s roster of workers (hereinafter referred to as “original employees”) for which its calculation is later provided. If calculated for the Company’s original employees, the resulting values would differ.

⁴ We have calculated the percentage of men taking childcare leave, etc. as referred to in Article 71-4, item (ii) of the Ordinance for Enforcement of the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (hereinafter referred to as “Ordinance for Enforcement of the Childcare and Caregiver Leave Act”), pursuant to the provisions of the Childcare and Caregiver Leave Act in the current consolidated fiscal year. Childcare leave, etc. includes both taking childcare leave prescribed by law and benefiting from leave systems, etc. for childbirth and childcare purposes.

⁵ Pursuant to the provisions of the Women’s Active Engagement Act, calculations are based on the current consolidated fiscal year.

⁶ “Permanent employees” refers to those on indefinite contracts.

⁷ We estimate the number of part-time and fixed-term employees, etc. based on their working hours as a proportion of the prescribed working hours of permanent employees (8 hours a day).

Additionally, the ratio of women in managerial positions, percentage of men taking childcare leave and gender pay gap in our major domestic consolidated subsidiaries, disclosed under the Women’s Active Engagement Act, and the Childcare and Caregiver Leave Act, are as follows:

Name	Main Business ¹	Ratio of women in managerial positions ²	Percentage of men taking childcare leave ³	Gender Pay Gap ⁴		
				All Employees	Permanent Employees ⁵	Part-time and Fixed-term Employees, etc. ⁶
Recruit Co., Ltd.	Matching & Solutions	30.4	64.2	76.4	80.5	101.0
Recruit Staffing Co.,Ltd.	Staffing	39.3	25.3	74.4	60.3	79.9
Staff Service Holdings CO., LTD.	Staffing	36.4	50.0	77.6	81.8	83.0

(24 other companies)⁷

¹ Under "Main Business" is the name of the Segment each company belongs to.

² Managerial positions refer to all employees who have subordinates, excluding senior executives under service agreements, as of Apr 1, 2023. It has been calculated in accordance with the Women's Active Engagement Act, including incoming seconded employees that have been assigned to the respective company and excluding outgoing seconded employees that have been assigned to companies outside the respective company.

³ Calculations are based on each company's original workers. We have calculated the percentage of men taking childcare leave, etc. as referred to in Article 71-4, item (ii) of the Ordinance for Enforcement of the Childcare and Caregiver Leave Act, pursuant to the provisions of the Childcare and Caregiver Leave Act in the current consolidated fiscal year. Childcare leave, etc. includes both taking childcare leave stipulated by law and benefiting from leave systems, etc. for childbirth and childcare purposes.

⁴ Calculations are based on each company's original employees, including agency temps dispatched through the respective company to other companies and excluding agency temps dispatched to the respective company in the current fiscal year. Accordingly, for the Staffing segment, figures include each consolidated subsidiary company's agency temps, i.e. our clients' temporary workforce (who we payroll on their behalf).

⁵ "Permanent employees" refers to those on indefinite contracts.

⁶ We estimate the number of part-time and fixed-term employees, etc. based on their working hours as a proportion of the prescribed working hours of permanent employees (8 hours a day).

⁷ The respective metrics of consolidated subsidiaries other than those of the major consolidated subsidiaries have been listed in "Other Reference Information."

Recruit Holdings and its main domestic consolidated subsidiaries adhere to the principle of "Pay for Performance." For permanent employees, regardless of age, year of entry, or any other factor, we determine their compensation based on their expected role and the extent of their contributions using a unique compensation structure we call "Mission Grade System," which ensures that there is no pay gap between male and female employees at the same Mission Grade and evaluation level.

Therefore, we have identified that the main challenge in reducing the pay gap between men and women lies in the low percentage of women in higher Mission Grades and managerial positions. To address this issue, we are accelerating our efforts towards our group's goal of 50% female representation in management and aim to increase the proportion of women in higher Mission Grades, including highly professional personnel.

Additionally, we believe that becoming aware of our unconscious biases, reducing preconceptions about workplace and working hours, and continuing our efforts to create an even more supportive, accommodating and fulfilling work environment for our diverse workforce will be instrumental to further evolve our organization into one where a broad range of talent can thrive. As a company group operating in the realm of "work" related industries, we are committed to promoting diversity, equity and inclusion in society at large through our corporate activities, including our services and operations.

Business Overview

Management Philosophy and Strategies

Management Philosophy

Recruit Group Management Philosophy is defined by its Basic Principle, Vision, Mission and Values as follows:

Basic Principle	We are focused on creating new value for our society to contribute to a brighter world where all individuals can live life to the fullest.
------------------------	--

Vision	Follow Your Heart We envision a world where individuals and businesses can focus on what really matters. The more people are free to pursue their passions, the better our future becomes.
---------------	--

Mission	Opportunities for Life. Faster, Simpler and closer to you. Since our foundation, we have connected individuals and businesses offering both a multitude of choices. In this era of search, where information has become available anytime anywhere, we need to focus more on proposing the optimal choice. We seek to provide “Opportunities for Life” much faster, surprisingly simpler and closer than ever before.
----------------	--

Values

Wow the World What we do isn't a job. We enjoy exploring what is possible for our future. We question the status quo, fail well and overcome with resilience. We are a force for change.	Bet on Passion We are a team of people fueled by curiosity. We respect and capitalize on each other's differences. We know that one person's crazy idea, when backed by data and research, can become the best bet.	Prioritize Social Value We, as global citizens, strive to contribute to a sustainable society through all of our corporate activities. Each one of us is committed to seeking out the needs of society and taking action for a better future.
--	---	---

The Company has developed a two-sided marketplace business model to align with its management philosophy. Through its platforms, the Company facilitates the best possible matches for the mutual benefit of both individual users and business clients.

In recent years, technological advancement has enabled the Company to improve matching efficiency, providing better matching outcomes for individual users and improving operational efficiencies for business clients.

Target Management Key Performance Indicators (KPIs)

The Company aims to invest in new businesses, research and development, and mergers and acquisitions (M&A) in order to achieve profitable growth over the long-term, and maximize enterprise value as well as shareholder value. Therefore, the Company has set adjusted EBITDA and adjusted EPS as target management KPIs.

Business Strategies

The Company strives to maximize enterprise value and shareholder value by responding to the rapidly transforming technology and internet landscape and by identifying business opportunities globally.

Through HR Technology, HR Solutions in Matching & Solutions and Staffing for the global HR Matching market as well as through Marketing Solutions in Matching & Solutions for Japan, the Company aims not only to provide online advertising business but also to be a solution provider to improve the business performance and productivity of clients' businesses by utilizing technology.

In an environment of high uncertainty, the Company believes that making a positive impact on society and this shared planet is key to achieving sustainable growth, and prospering together with all stakeholders through all corporate activities with a sound governance foundation is important. Therefore, the Company has set specific targets for environmental, social and governance (ESG) matters as a corporate strategy which will be monitored by the Board of Directors, and will take initiatives through dialogue with stakeholders.

The Company's business strategies are as follows:

Business Strategies of the Company

Simplify Hiring - Aim to simplify hiring by connecting people with jobs, faster and easier

The HR Matching market includes job advertising & talent sourcing tools, direct hire, retained search, internal recruitment automation, and temporary staffing. The Company is committed to making it easier and faster for people to get jobs, while reducing the cost and time to hire for employers across the HR Matching market.

The Recruit group is dedicated to automating many of the steps in the hiring process and to enhancing the quality and speed of matching in all HR matching markets it operates in. We aim to leverage the vast amount of data available in each service combined with AI and machine learning technology to simplify the hiring process and deliver greater value to job seekers and employers. The Company's long term vision is to more quickly, effectively and fairly connect job seekers and employers at the push of a button¹.

At the center of this strategy, HR Technology SBU operates a global two-sided talent marketplace that includes the world's leading online matching and hiring platforms² Indeed and Glassdoor. Every day, millions of job seekers connect with millions of employers of all sizes, from small businesses to large enterprises and staffing agencies, directly on Indeed and Glassdoor.

Job seekers can access more than 30 million jobs³ that have been aggregated from public sources or posted directly by employers to HR Technology's platforms and can access hundreds of millions of company ratings, company reviews and salaries⁴ to help them make informed job and career decisions. Job seekers are provided with a suite of tools and resources that make getting a job simple, fast and more human, including job search and recommendations, resume posting, career advice, and scheduling and conducting video and phone interviews.

For employers, both Indeed and Glassdoor offer solutions to recruit and hire qualified talent in an easier and more efficient way. Employers can post and advertise jobs and build their company's employment brand across both platforms, reaching a broad and diverse job seeker audience. Indeed and Glassdoor offer a range of products for employers to source, screen, interact with, and interview candidates and together they provide an efficient source of candidates through pay-for-performance and subscription pricing models.

The scale of the two-sided talent marketplace created by Indeed and Glassdoor is evidenced by the 3 million employers⁵ that use Indeed each year to hire, the 330 million Unique Visitors⁶ that visit Indeed, and 55 million Unique Visitors⁷ that visit Glassdoor each month to search for jobs, create resumes, research companies and participate in the hiring process.

Improving the matching process between job seekers and employers is vital to enhance the efficiency and effectiveness of the two-sided talent marketplace. This involves continuously refining the accuracy and timeliness of the information we use, in conjunction with AI and machine learning technology, to provide the most suitable job recommendations and the most qualified candidate pool available. Additionally, an essential element of this effort is to increase engagement with job seekers in our talent marketplace. By logging in and creating a profile, job seekers provide us with a better understanding of their skills and preferences, enabling us to offer more personalized job recommendations that are highly relevant to them. This not only provides a superior user experience but also helps job seekers find suitable opportunities more efficiently.

Furthermore, we also believe that it is crucial to understand the factors that drive successful and unsuccessful outcomes for job seekers and employers. Our talent marketplace facilitates interactions between job seekers and employers, such as messaging, calls, application submissions, interview requests and RSVPs, offers, and more. By tracking these interactions in our marketplace throughout the hiring process, we gain valuable insights into why job seekers and employers progress from one step to the next.

The Company considers the measured average number of hires per minute⁸ to be a Key Performance Indicator (KPI) that demonstrates our success in simplifying the hiring process. We believe this KPI indicates a successful engagement between job seekers and employers, which represents improvements in matching and automation, as well as improvements in employer engagement that help us measure more hires. In calendar 2022, based on internal measurement, an average of 23 job seekers were hired on Indeed and Glassdoor every minute.

The Company believes that by fully utilizing the Recruit group's business client relationships, offline and online data, combined with machine learning and AI technologies, the Recruit group's matching engine can be improved significantly, helping to simplify the process for job seekers and make recruiting more efficient.

RECRUIT AGENT and RECRUIT DIRECT SCOUT, the placement services in Matching & Solutions SBU, use the Recruit group's matching engine to streamline processes like screening resumes, which used to be done manually. By combining the matching engine with the data and knowledge from more than 60 years of operating HR businesses in the Japanese market, we will accelerate our Simplify Hiring strategy in Japan.

The Staffing SBU is working to improve the job seeker experience for temporary workers by applying data and automation to the traditional temporary staffing business, collaborating with HR Technology's app-based solution, Indeed Flex, to provide access to available jobs, salary choice and schedule flexibility.

The Company estimates the global HR Matching market was roughly 327 billion US dollars⁹ in 2022.

The Company believes that the size of the global HR Matching market increased significantly again in 2022, after initially rebounding in 2021 from the contraction caused by the COVID-19 pandemic in 2020.

The Company believes that the past two years of significant growth are reflective of a historically unique period in the global labor market brought upon by the economic recovery from the initial impact of the COVID-19 pandemic and how employers and job seekers reacted to the pandemic. While the Company expects that the HR Matching market will grow over the long term, the Company expects that the HR Matching market will contract in 2023 as labor markets, including employer and job seeker activities and

expectations, adjust and normalize, and are likely to be negatively impacted by overall economic conditions.

The size of the market in 2021 has been updated from the Company's initial estimate in the Q4 FY2021 Earnings Release as of May 16, 2022 based on information that became available after the publication of such initial estimate pertaining to each market listed below as well as revisions to the definition and scope of the Internal Recruitment Automation and Temporary Staffing markets. As described in more detail below, we revised the definitions of these two markets by adding the estimated annual revenue of the Applicant Tracking Systems¹⁰ ("ATS") and the estimated annual internal spending by employers on Background Checks¹¹ that can be reasonably automated and monetized by third parties to the Internal Recruitment Automation market, and adding an estimated annual revenue for each of the Talent Platforms¹², Staffing Platforms¹³, Vendor/Freelancer Management Systems¹⁴ ("VMS/FMS"), and the estimated annual spending by employers on Managed Service Providers¹⁵ ("MSP") and Recruitment Process Outsourcing¹⁶ ("RPO") that can be reasonably automated and monetized by third parties to the Temporary Staffing market. In addition, other markets in 2021 have also been updated from the Company's initial estimate in the Q4 FY2021 Earnings Release as of May 16, 2022 based on information that became available after the publication.

HR Matching addressable markets

(in billions of dollars)	2021		2022
	as of May 16, 2022	Updated	
Job Advertising and Talent Sourcing ^{17,18}	26	27	32
Direct Hire ^{19,20,21}	45	55	61
Retained Search ^{19,20,21}	31	36	42
Temporary Staffing ^{22,23,24}	88	108	128
Internal Recruitment Automation ^{25,26,27}	43	61	64
Total Addressable Market ("TAM") ²⁸	236	288	327

Job Advertising and Talent Sourcing: The global online job advertising and talent sourcing market is estimated by the Company to have been roughly 30 billion US dollars¹⁷ in terms of annual revenue in 2022. The global offline job advertising market, which the Company estimates was roughly 2 billion US dollars¹⁸ in terms of annual revenue, is expected to continue to contract as a portion of the total job advertising and talent sourcing market as demand in this market flows into online channels.

Direct Hire: The direct hire market, where companies are paid fees for placing permanent workers at employers, is estimated by the Company to have been roughly 61 billion US dollars²¹ in terms of annual revenue globally in 2022 and has historically been dominated by traditional relationship-based business models.

Retained Search: The retained search market, where companies are paid to search for employees to fill specific roles, commonly executive roles, is estimated by the Company to have been roughly 42 billion US dollars²¹ in terms of annual revenue globally in 2022 and is similarly dominated by traditional relationship-based models.

Temporary Staffing: The temporary staffing market, where companies are paid to find and employ, or facilitate employment of, workers for a temporary period, is estimated by the Company to have been roughly 585 billion US dollars²⁴ in annual revenue globally in 2022. The total gross profit for all staffing companies, which is calculated by subtracting the amount of salary for temporary staff and related costs from the total revenue, is estimated by the Company to have been roughly 116 billion US dollars²⁴ in 2022. Additionally, we

have revised our definition of this market to include the estimated annual revenue globally in 2022 for each of the Talent Platforms, Staffing Platforms and VMS/FMS markets, and an estimated annual spending by employers on MSP and RPO that can be reasonably automated and monetized by third parties (including an estimated reduction from historical spending due to cost savings achieved through automation). Given the related nature of these markets and the frequency with which service providers offer some or all of these services, the Company believes that it is appropriate to combine these markets as part of the temporary staffing market. Including these new markets, the Company estimates that the temporary staffing market was roughly 128 billion US dollars globally in 2022. The Company sees near-term opportunities to introduce technology-driven solutions that create efficiencies by automating human-driven processes involved in traditional temporary staffing services and over the long-term seeks to transform the market through these solutions. The Company intends to explore the development of new and innovative solutions in temporary staffing and apply them to new and existing businesses to capture future opportunities by leveraging data and technology.

Internal Recruitment Automation: The potential internal recruitment automation market, which the Company has begun to address, is estimated by the Company to have been roughly 64 billion US dollars²⁷ in 2022. The size of this market is estimated based on the historical estimated spending by employers on internal talent acquisition resources, and then estimating how much of this spending can be reasonably automated and monetized by third parties (including an estimated reduction from historical spending due to cost savings achieved through automation). Additionally, in order to more comprehensively capture the automation tools that are currently used by employers in the recruitment process, we have revised our definition of this market to include the estimated annual revenue globally in 2022 for ATS and an estimated annual internal spending by employees on Background Checks that can be reasonably automated and monetized by third parties.

The **Direct Hire, Retained Search, and Internal Recruitment Automation** markets have historically been characterized as business processes and methods that are highly dependent on manual processes in order to source and screen candidates, schedule interviews, and disposition candidates. The Company is currently aiming to develop highly efficient solutions for recruiters, hiring managers, and business owners at lower prices compared to the industry average, using data and automation to make getting a job and hiring an employee simpler and faster. As a result, the Company aims to further grow the number of employers it serves and increase the share of employers' recruiting budgets that it can capture.

¹ The Company is aware there may be legal restrictions in this area and so will endeavor that the Company's work meets those requirements.

⁸ Hires per minute is a calculation of hired signals per year on Indeed and Glassdoor, divided by minutes per year. A hired signal refers to the event when a specific job seeker is hired for a specific job on a specific date. Hired signals are counted either when an employer or job seeker explicitly communicates a hire occurred (e.g., via survey or web form) or when there is other clear evidence from Indeed and Glassdoor data that a hire occurred (e.g., from a resume or an Indeed message) and may not represent all hires facilitated by Indeed and Glassdoor.

⁹ Sum of the estimated size of addressable markets for the job advertising & talent sourcing tools market, the direct hire market and the retained search market in terms of annual revenue, the estimated size of the addressable market for the internal recruitment automation market in terms of the amount of current expenses of employers for internal talent acquisition resources that could be reasonably automated and monetized plus the estimated size of the addressable market for the ATS market and the Background Checks market, and the addressable markets for the temporary staffing market in terms of annual gross profit plus the estimated size of the addressable markets for the Talent Platforms, Staffing Platforms, VMS/FMS, MSP, and RPO markets, in each case based on the Company's estimates and third party market data as described in the notes below.

- ¹⁰ The Applicant Tracking Systems (“ATS”) market, where companies provides software and other tools to facilitate the tracking of applicants through different stages of the recruitment process, is estimated by the Company to have been roughly 1 billion US dollars in terms of annual revenue globally in 2021 and 2022 based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022 and SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update, respectively, as well as a growth rate estimated by the Company.
- ¹¹ The Background Checks market, where companies use digitized methods to verify and vet applicants’ background and credentials, is estimated by the Company to have been roughly 1 billion US dollars in terms of annual internal spending by employers that can be reasonably automated and monetized by third parties in 2021 and 2022 based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022 and SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update, respectively, as well as a growth rate estimated by the Company.
- ¹² The Talent Platforms market, where companies manage marketplaces that facilitate direct contingent work arrangements that enable a legal relationship between companies and workers, is estimated by the Company to have been roughly less than 1 billion US dollars in 2021 and roughly 2 billion US dollars in 2022 in terms of annual revenue globally based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022 and SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update, respectively, as well as a growth rate estimated by the Company.
- ¹³ The Staffing Platforms market, where companies manage marketplaces that facilitate automated match of candidates with relevant temporary assignments, is estimated by the Company to have been roughly less than 1 billion US dollars in 2021 and roughly 4 billion US dollars in 2022 in terms of annual revenue globally based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022 and SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update, respectively, as well as a growth rate estimated by the Company.
- ¹⁴ The Vendor/Freelancer Management Systems (“VMS/FMS”) market, where companies provide technology used to manage a company’s contingent workforce program, is estimated by the Company to have been roughly 2 billion US dollars in 2021 and roughly 3 billion US dollars in 2022 in terms of annual revenue globally based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022 and SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update, respectively, as well as a growth rate estimated by the Company.
- ¹⁵ The Managed Service Provider (“MSP”) market, where companies provide services associated with management of all or part of a client’s contingent workforce program through the use of automation, is estimated by the Company to have been roughly less than 1 billion US dollars in 2021 and roughly 1 billion US dollars in 2022 in terms of annual spending by employers that can be reasonably automated and monetized by third parties based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022 and SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update, respectively, as well as a growth rate estimated by the Company.
- ¹⁶ The automated Recruitment Process Outsourcing (“RPO”) market, where companies perform the partial or full internal recruitment function for a third party, from sourcing to onboarding through the use of automation, is estimated by the Company to have been roughly 2 billion US dollars in 2021 and roughly 3 billion US dollars in 2022 in terms of annual spending by employers that can be reasonably automated and monetized by third parties based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022 and SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update, respectively, as well as a growth rate estimated by the Company.
- ¹⁷ Estimated size of the global online job advertising and talent sourcing tools market calculated by adding together the revenue of HR Technology in the relevant year, the Company’s estimates for revenue of competing job advertising boards in the Company’s target operating markets in the relevant year based on third party reports and internal research, and the Company’s estimates for annual revenue of the talent solutions business of LinkedIn in the Company’s target operating markets in the relevant year based on publicly available information and internal research.
- ¹⁸ Estimated size of the global offline job advertising market derived based on the proportion of online to offline spending (excluding TV, cinema and radio advertising) in the overall advertising market in the relevant year based on third party reports and the estimated size of global online job advertising and talent sourcing tools market. The numbers in this chart are the sum of the global offline job advertising market and global online job advertising and talent sourcing tools market.
- ¹⁹ Source for 2021 as of May 16, 2022: SIA, Global Staffing Market Estimates and Forecast: November 2021 Update. Placement & Search market is derived by applying 14%, which was Placement & Search’s share of 2021 Global Staffing Revenue to 550 billion US dollars, the estimated 2021 Global Staffing Revenue, derived by applying the estimated 2021 14% growth rate to the estimated 2020 market of 483 billion US dollars. Direct Hire Market is defined as a segment of Placement & Search Market, which in turn is a segment of Global Staffing Industry Market. Direct Hire Market segment was derived by applying SIA’s Global Staffing Industry Market figure to country-by-country ratios of the relative proportion attributable to this segment within the total market based on proprietary third party market data. Retained Search Market is defined as the portion of Placement & Search Market not attributable to the Direct Hire Market and derived as the difference between these two segments.
- ²⁰ Source for 2021: SIA, Global Staffing Market Estimates and Forecast: November 2022 Update. Placement & Search market is derived by applying 15%, adjusted from 14% estimated in the prior year, which was Placement & Search’s share of 2021 Global Staffing Revenue to 620 billion US dollars, upwardly revised from the prior estimate of 550 billion US dollars, which was estimated 2021 Global Staffing Revenue. Direct Hire Market is defined as a segment of Placement & Search Market, which in turn is a

segment of Global Staffing Industry Market. Direct Hire Market segment was derived by applying SIA's Global Staffing Industry Market figure to country-by-country ratios of the relative proportion attributable to this segment within the total market based on proprietary third party market data. Retained Search Market is defined as the portion of Placement & Search Market not attributable to the Direct Hire Market and derived as the difference between these two segments.

- ²¹ Source for 2022: SIA, Global Staffing Market Estimates and Forecast: November 2022 Update. Placement & Search market is derived by applying 15%, which was Placement & Search's share of 2022 Global Staffing Revenue to 688 billion US dollars, which was estimated 2022 Global Staffing Revenue, derived by applying the estimated 2022 11% growth rate to the estimated 2021 market of 620 billion US dollars. Direct Hire Market is defined as a segment of Placement & Search Market, which in turn is a segment of Global Staffing Industry Market. Direct Hire Market segment was derived by applying SIA's Global Staffing Industry Market figure to country-by-country ratios of the relative proportion attributable to this segment within the total market based on proprietary third party market data. Retained Search Market is defined as the portion of Placement & Search Market not attributable to the Direct Hire Market and derived as the difference between these two segments.
- ²² Source for 2021 as of May 16, 2022: derived by applying a gross profit margin of 18.68%, which was calculated based on the weighted average of the top 3 publicly traded global staffing companies in terms of revenue in 2021 to 473 billion US dollars, which was the revenue of the temporary staffing market in 2021 from SIA, Global Staffing Market Estimates and Forecast: November 2021 Update by applying the estimated 2021 14% growth rate to the estimated 2020 market of 415 billion US dollars.
- ²³ Source for 2021: derived by applying a gross profit margin of 18.68%, which was calculated based on the weighted average of the top 3 publicly traded global staffing companies in terms of revenue in 2021 to 527 billion US dollars, upwardly revised from 473 billion US dollars, which was the revenue of the temporary staffing market in 2021 from SIA, Global Staffing Market Estimates and Forecast: November 2022 Update. Additionally, this revised market estimate includes the estimated markets for each of the Talent Platforms, Staffing Platforms, VMS/FMS, MSP and RPO.
- ²⁴ Source for 2022: derived by applying a gross profit margin of 19.85% which was calculated based on the weighted average of the top 3 publicly traded global staffing companies in terms of revenue in 2022 to 585 billion US dollars, which was the revenue of the temporary staffing market in 2021 from SIA, Global Staffing Market Estimates and Forecast: November 2022 Update by applying the estimated 2022 11% growth rate to the restated estimated 2021 market of 527 billion US dollars. Additionally, this revised market estimate includes the estimated markets for each of the Talent Platforms, Staffing Platforms, VMS/FMS, MSP and RPO.
- ²⁵ Source for 2021 as of May 16, 2022: Amount derived by applying an approximately 5% growth rate estimated by the Company to the estimated 2020 market of roughly 42 billion US dollars based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022. SIA's estimates are based on the assumption that 35% of historical spending on internal talent acquisition resources could be reasonably captured by current technology and that technology would result in 35% cost savings from historical spending. In the report, SIA notes given the challenges in making global estimates with incomplete information, and in estimating potential automation and savings, SIA advises readers to think of the estimated market size as a midpoint in a range with a 20% spread.
- ²⁶ Source for 2021: Amount derived by applying an approximately 11% growth rate estimate by the Company to the estimated 2020 market of roughly 55 billion US dollars based on SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): March 2022 and the updated assumptions as described below in SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update. SIA's estimates are based on the assumption that 40%, upwardly revised from 35%, of historical spending on internal talent acquisition resources could be reasonably captured by current technology and that technology would result in 28%, downwardly revised from 35%, cost savings from historical spending. In the report, SIA notes given the challenges in making global estimates with incomplete information, and in estimating potential automation and savings, SIA advises readers to think of the estimated market size as a midpoint in a range with a 20% spread. Additionally, this revised market estimate includes the addition of the ATS market and the Background Checks market.
- ²⁷ Source for 2022: SIA, The Evolution of Recruiting: Estimating the Addressable Market for Recruitment Automation (custom research commissioned by Indeed): January 2023 Update. SIA's estimates are based on the assumption that 40% of historical spending on internal talent acquisition resources could be reasonably captured by current technology and that technology would result in 28% cost savings from historical spending. In the report, SIA notes given the challenges in making global estimates with incomplete information, and in estimating potential automation and savings, SIA advises readers to think of the estimated market size as a midpoint in a range with a 20% spread. This market estimate includes the addition of the ATS market and the Background Checks market.
- ²⁸ As described above, the estimates of the job advertising & talent sourcing tools market, the direct hire market, the retained search market, the internal recruitment automation market and the temporary staffing market are based on internal estimates and independent market research in addition to third party market data. Accordingly, the estimates described above may differ materially from the actual size of such markets.

Help Businesses Work Smarter - Aim to improve the productivity and performance of clients' businesses through SaaS solutions in Japan

Help Businesses Work Smarter aims to contribute to improving productivity and profitability of our business clients in Japan, mainly led by Marketing Solutions, which provides vertical matching platforms and associated vertical-specific business support SaaS solutions, as well as business support SaaS solutions which work across all verticals, called Air BusinessTools.

The Help Businesses Work Smarter strategy will be achieved by consolidating business clients' operations within a single ecosystem, consisting of vertical matching platforms, SaaS solutions, and the HR matching services.

While building the ecosystem, the Company believes "the number of actions by individual users¹," "the number of registered SaaS accounts²," and "the gross payment volume, GPV³," are important KPIs.

The number of actions by individual users in FY2022 was approximately 420 million, an increase of 34% year over year. Actions by individual users includes the number of online reservations on our salon, restaurant, and lodging matching platforms and the total number of applications in our HR matching services. An increase in the number of actions in Marketing Solutions may translate into revenue growth for business clients, while in HR Solutions, it leads to an increase in matching opportunities between job seekers and business clients.

As of March 31, 2023 the number of registered SaaS accounts was approximately 3.18 million, an increase of 30% year over year. AirPAY, a cashless payment service, and AirWORK ATS, a recruitment management system, were primary drivers of the increase in the number of accounts, as these and other Air BusinessTools extend our services to new businesses outside our existing verticals, such as retailers.

The Company estimates that roughly 4.53 million⁴ business locations and stores in Japan are potential users of Air BusinessTools. Assuming each business location uses multiple SaaS solutions, we believe there is still significant opportunity to expand. An increase in the number of registered accounts represents the expansion of our customer base.

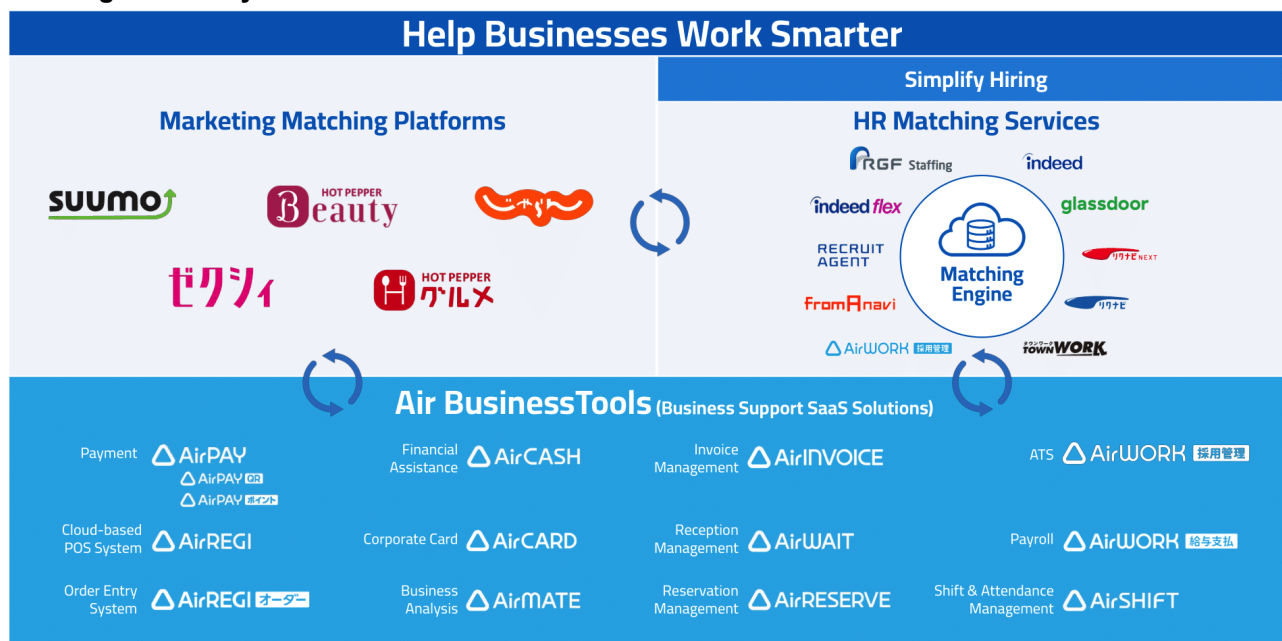

For FY2022, GPV reached approximately 1.3 trillion yen, an increase of 69% year over year. Apart from the increase in the number of AirPAY registered accounts, the growth in payment volumes is also due to the new online payment service offered through AirPAY. The newly launched online payment service is now available for both Hot Pepper Beauty and Hot Pepper Gourmet, following its introduction on Jalan net. This service enables individual users to make online payments for their salon bookings and restaurant reservations, which translated to GPV that we had not previously captured. GPV is important for the future expansion of fintech services, which, when linked with Marketing Solutions, we believe will become a new potential source of revenue in the long term.

During FY2022, new fintech services were developed and launched including AirCASH, a service allowing business clients to receive cash in advance based on their future revenue and AirINVOICE, an invoice management service, allowing business clients to complete payments with smartphones.

By integrating vertical matching platforms in Marketing Solutions with Air BusinessTools SaaS solutions, the Company creates opportunities to engage with business clients across many business operation services. Additionally, incorporating HR matching services into our offering will complete all business operations within our ecosystem, increasing the recurring use of our various products for business clients and ultimately resulting in greater lifetime value.

For example, Hot Pepper Beauty WORK, launched in February 2023, automatically links job advertisements by business clients to their pages on Hot Pepper Beauty. By providing realistic and reliable information to job seekers, such as salon staff profiles, clientele, and client reviews, Hot Pepper Beauty enables job seekers to have a concrete understanding of the work environment prior to joining a company. For business clients, the automatic integration with Hot Pepper Beauty eliminates the need to enter additional information other than the job information, allowing them to always have the most up-to-date job information available. This initiative combines a vertical matching platform in Marketing Solutions with an HR matching service to provide greater convenience for both job seekers and business clients.

Our Targeted Ecosystem

- ¹ The total of the number of applications on Rikunabi NEXT, TOWNWORK, and RECRUIT AGENT, the number of individual users who were referred to our business clients at SUUMO Counter, the number of online reservation on Hot Pepper Beauty, the number of hotel bookings on Jalan, the number of seats reserved on Hot Pepper Gourmet, and the number of payments through AirPAY during the period from April 1, 2022 to March 31, 2023.
- ² Cumulative number of registered accounts of paid and unpaid SaaS solutions provided by Matching & Solutions SBU in Japan as of March 31, 2023. Registered accounts refer to the number of stores and business locations that have registered for each relevant service including both active and non-active accounts.
- ³ Total gross payment volume of offline payments through AirPAY terminals, including QR code payments through AirPAY QR, and online payments through AirPAY ONLINE (Since the revenue generated from the payment processing fee we collect is based on a very small percentage of total gross payment volume, changes in total gross payment volume are not necessarily proportional to changes in our total revenue).
- ⁴ The Company estimated the number of business locations and stores that can be potential users of SaaS solutions provided by Matching & Solutions SBU as of June 30, 2022 in Japan by identifying the total number of business locations and stores of small and medium-sized enterprises in Japan (using the definition used by Small and Medium Enterprise Agency) based on the 2016 Economic Census for Business Activity conducted by the Ministry of Internal Affairs and Communications and the Ministry of Economy, Trade and Industry. Considering the solutions (including AirWORK ATS) provided by Matching & Solutions SBU in Japan as of June 30, 2022, the Company now believes it is possible to provide its SaaS solutions to all business locations and stores of small and medium-sized businesses regardless of the industry. Accordingly, the Company decided to count all such business locations and stores as potential users of its SaaS solutions. Matching & Solutions SBU continues to target potential users among small and medium-sized businesses as defined by Small and Medium Enterprise Agency based on the current major target for potential users of SaaS solutions.

Prosper Together - Seek sustainable growth shared by all stakeholders

The Company believes that it can make a positive impact on society and the global environment through its corporate activities. And by doing so, we can prosper together with all our stakeholders and take an essential step toward achieving sustainable growth. As we announced in May 2021, our environmental, social, and governance (ESG) goals have become one of the strategic pillars of our corporate strategy. The progress we have made toward these goals is outlined below.

Environmental (E)

We anticipate achieving our short-term goal of reaching carbon neutrality throughout our business activities in FY2022 - just as in FY2021.^{1,2} Our long-term goal is to achieve carbon neutrality across our entire value chain by FY2030.^{1,2} In order to accelerate our efforts toward this long-term goal, we set a three-year reduction target³ and signed on to the Science Based Targets initiative's (SBTi) "Near-term targets to 1.5°C."⁴ In recognition of our environmental actions, following 2021, we were selected in 2022 as a Supplier Engagement Leader, CDP's highest supplier engagement rating.⁵

Furthermore, we have also started contributing to the environment through our products. With Indeed Interview Platform, which allows users to complete job interviews online, we are avoiding Greenhouse Gas (GHG) emissions.⁶

Social (S)

As a leader in the global two-sided talent marketplace, the Company has made two commitments to create a significant social impact through its business in the area of work, which is an indispensable foundation for people's lives, and to contribute to reducing the duration of unemployment for all job seekers.

As part of our commitment to reduce the time it takes to get hired by half by FY2030, we are focused on expanding the collection and analysis of user data on Indeed. We made progress on this in FY2022, and in doing so, we discovered that there are large differences in job search duration based on the type of occupation as well as the salary range.

We made advancement in product development to shorten the time to get hired. For example, we observed that job search duration was 17% shorter when job seekers applied to open roles that were sponsored, and when those hiring employers used a Pay Per Application pricing model instead of a Pay Per Click model.⁷ In addition, the time to hire for employers decreased 16% when they used Indeed Assessments which enables skill-based matching.⁸

We set a goal of helping 30 million job seekers facing barriers get jobs by FY2030 by reducing bias and barriers in hiring that can make it harder for many job seekers to find, get and keep a job. We worked to reduce common barriers that affect people globally such as education, disabilities, criminal records,⁹ experience in military services¹⁰ and lack of work essentials¹¹ such as access to technology and transportation. We are proud to have been able to help approximately 3.9 million job seekers facing barriers get hired¹² through making advancements in products and partnerships.¹³

The diversity of Recruit Group's employees has been the source of our value creation from the very beginning. Betting on the passion and ideas of our employees has long been our competitive advantage. This is why our corporate agenda continues to prioritize a diverse, equitable and inclusive (DEI) workforce that empowers individuals and fosters innovation.

We are addressing our overall gender gap by working towards a group-wide commitment to increase the representation of women across the group companies to achieve approximately 50% in senior executive positions, managerial positions, and total employees within the Company by FY2030.¹⁴ To accelerate our efforts, we have also set a three-year target.

One such example is underway within the Matching & Solutions Business which operates mainly in Japan, where the gender gap is particularly significant. To increase representation of women, we worked to identify and reduce gender bias by clarifying the requirements for managerial positions and reevaluating what had previously been considered as must-have skills or necessary work styles. These efforts not only increased representation of women in managerial candidates, but also opened up opportunities for employees regardless of gender, and enhanced the overall pool of managerial candidates.

Governance (G)

Diversity in the boardroom is also critical for high quality decision-making, transparency and soundness in a company's governance structure. Recruit Holdings continues to enhance the diversity of skills, experience, and backgrounds of the board members and is committed to achieving approximately 50% women's representation among the Board of Directors members¹⁵ by FY2030.

Recruit Holdings received approval on its proposal for the Board of Directors members including Katrina Lake as a new addition at its Annual General Meeting of Shareholders in June 2023. After the approval, the representation of women increased from approximately 27% to approximately 33%.¹⁵ This appointment broadened the diversity of the Board of Directors members from a gender perspective, as well as in terms of nationality, age, skills and experience.

The Board of Directors has resolved to set mid-term targets over a three-year period for both GHG emissions reduction and gender parity, and beginning in FY2022 Recruit Holdings has linked the achievement of these targets to a percentage of the long-term incentive compensation¹⁶ for the executive directors and corporate officers in charge of driving and realizing these ESG goals. Please refer to "Sustainability Policy and Actions" for more details.

-
- ¹ GHG emissions throughout our business activities are the sum of direct emissions from the use of fuels in owned or controlled sources and are referred to as Scope 1. Indirect emissions from the use of purchased electricity, heat, or steam in owned or controlled sources are referred to as Scope 2 GHG emissions from the value chain are referred to as Scope 3, and comprise indirect emissions other than Scope 1 and 2. The entire value chain represents the sum of Scopes 1, 2 and 3 GHG emissions. The Company aims to achieve carbon neutrality upon completion of the following steps: measurement of GHG emissions, obtaining an accredited third-party assurance on the amount of GHG emissions, and offsetting of those emissions.
 - ² All GHG emission figures are approximate numbers calculated based on the GHG Protocol. Additionally, independent third-party assurances have been obtained from SOCOTEC Certification Japan and SCS Global Services for GHG emissions and avoided GHG emissions.
 - ³ The GHG emission reduction target is based on the results from FY2022 to FY2024. The women's representation target for employees is based on the results from April 1, 2022 to April 1, 2025. The women's representation target for members of the Board of Directors is based on the results from July 1, 2022 to July 1, 2025.
 - ⁴ Near-term targets to 1.5°C is a short-term target defined by the Science Based Targets initiative (SBTi) and established in line with the science-based level of reduction in GHG emissions required to limit the global temperature rise to below 1.5°C compared to the temperatures before the Industrial Revolution.
 - ⁵ CDP is a British charity-controlled non-governmental organization (NGO) established in 2000. It owns one of the world's largest environmental databases, working with large global financial institutions to disclose the environmental impact of companies.
 - ⁶ The amount of GHG emissions avoided through the Indeed Interview is more than approximately 13,000t-CO₂, a contribution beyond the Group's value chain mitigation, so it is not included in the calculation of the Group's Scope 1, Scope 2 or Scope 3 GHG emissions.
 - ⁷ Difference calculated using time from a job seeker's application on Indeed to the job for which they ultimately were hired to the time of the hire for hires made on Indeed in the United States between January 2022 and January 2023. The data set analyzed included sponsored jobs only hosted on Indeed using one of these two pricing models: Pay Per Application and Pay Per Click. Pay Per Application is a newer pricing model where employers only pay for job applicants that meet their criteria. Pay Per Click is Indeed's standard sponsored job pricing model, where employers pay when a job seeker clicks on their sponsored job listing.
 - ⁸ For jobs on Indeed that (a) were less than 14 days old and (b) had applications between November 1, 2022 through December 31, 2022, an analysis revealed a statistically significant difference in the number of days for an employer to make a hire on Indeed between jobs that used Assessments and those that did not. Time to hire was defined as the period from the day the job was posted on Indeed to the day that the job was closed by the employer with the reason that the employer hired a candidate on Indeed.
 - ⁹ In the United States, approximately 70 million people have a criminal record (source: The Sentencing Project), and the unemployment rate of job seekers with a criminal record is approximately five times higher than the US average (source: Prison Policy Initiative).
 - ¹⁰ A U.S. Chamber of Commerce Foundation study from 2016 found that 53% of veterans are unemployed for four months or longer after leaving the military. We recognize veterans who are looking for a new opportunity or transitioning from military service to civilian life may have difficulty matching their skills and experience to the job market.

- ¹¹ This indicates barriers that hinder job hunting, such as being unable to connect to the Internet and a resultant lack of access to a job platform, and/or lack of transportation to interviews and work.
- ¹² Represents number of hires made on Indeed reported from both job seeker and employer sources through our Hired Signal measurement, from May 1, 2021 - March 31, 2023, globally for job seekers, who faced at least one of the following barriers: education, criminal record, military experience, disability or lack of essentials such as a computer or internet access.
- ¹³ The initiatives as of today include providing assistance through the Company's online job platform, and through partnerships with NPOs and other organizations with whom the Company collaborates. The Company may also aim to reduce other various barriers, including newly emerging issues in the labor market by FY2030.
- ¹⁴ Senior executive positions are defined as Senior Vice Presidents and Corporate Professional Officers of Recruit Holdings and Matching & Solutions Strategic Business Unit (SBU), and CEOs of the Company's major subsidiaries and heads of key functions in the HR Technology and Staffing SBUs. The respective percentages of women in managerial positions and total employees are calculated from Recruit Holdings, SBU Headquarters and the primary operating companies of each SBU. Managerial positions mean those that have subordinate employees, including delegated contracting officers.
- ¹⁵ The Board of Directors members are defined as Directors and Audit and Supervisory Board members.
- ¹⁶ Compensation based on ESG target achievements is set as a part of board incentive plan (BIP) trust (stock) compensation. Eligibility to receive this compensation and the payout amount will depend on whether or not the three-year target is achieved.

Business Strategies of Each SBU

In support of the Company's strategies, each SBU's business strategies are as follows:

HR Technology

HR Technology aims to further grow HR Matching revenue globally through Indeed and Glassdoor while the demand for an efficient job seeking experience and hiring process empowered by technology continues to rise.

Matching & Solutions

In the future, Matching & Solutions will further expand its SaaS solutions, which are business support tools, to create an ecosystem that supports all economic activities related to the operations of our business clients, including fintech services.

Staffing

Staffing aims to achieve steady financial performance by providing job seekers with flexible working opportunities, and by offering employers a flexible workforce across a wide range of industries. Japan aims to maintain a stable adjusted EBITDA margin while Europe, US, and Australia focus on continuous improvement of adjusted EBITDA margin.

Capital Allocation Policy

The Company's capital allocation policy has the following priorities:

- Product development and marketing expense for existing businesses for future growth
- Continuous payment of stable per-share dividends
- Strategic M&A mainly focused on HR Technology in the HR Matching Market
- Share repurchase program, depending on the capital markets environment and the outlook of the Company's financial position

The Company focuses on achieving capital efficiency and applies a hurdle rate exceeding the cost of capital when evaluating each investment opportunity. The Company's ROE target is approximately 15%.

Sustainability Policy and Actions

The Company believes that it can make a positive impact on society and the global environment through its corporate activities and by doing so, prosper together with all its stakeholders and take an essential step toward achieving sustainable growth. Therefore, as part of its management strategy, the Company has integrated its sustainability initiatives and established specific timelines and targets to realize our Commitment to Sustainability for FY2030, which was set in May 2021.

The forward-looking statements in the text are based on certain assumptions that the Company considers reasonable as of the date of submission of the Annual Report. However, actual results may differ significantly due to various factors.

Our Policy and Actions for Sustainability as a Whole

Governance

The Board of Directors makes the necessary structural arrangements for the Company's efforts to address sustainability and oversees these efforts through deliberations by the Sustainability Committee — one of the Board's advisory bodies. The Sustainability Committee discusses the impact, risk and opportunities of sustainability, and policies, strategies and plans to mitigate risks and seize opportunities. In its oversight process, the Board supervises business plans, investments and loans, including response measures and their progress.

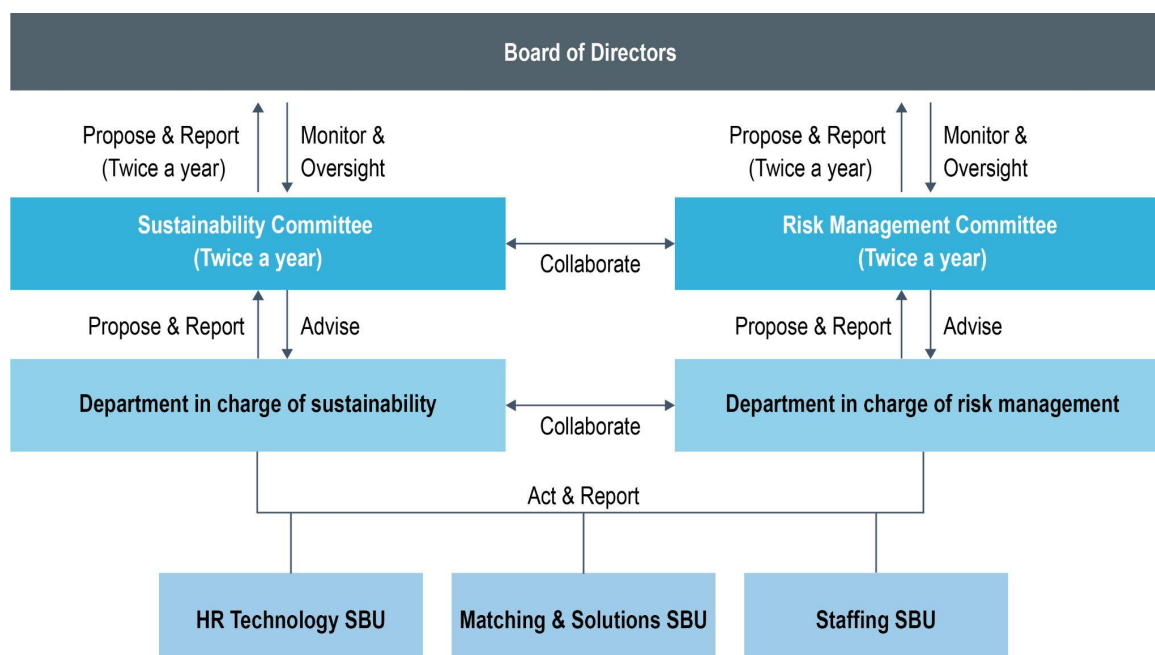

The Executive Vice Presidents who serve as CEOs of each Strategic Business Unit (SBU) and as internal members of the Sustainability Committee collaborate to devise sustainability strategies and plans to mitigate negative impacts and risks while promoting efforts to maximize positive effects and seize opportunities throughout their business operations.

The Executive Vice President in charge of sustainability is responsible for leading our sustainability initiatives and reports to the Board on their progress. Directly under the Executive Vice President, the Company has established a department in charge of driving forward sustainability initiatives. The department is responsible for gathering group-wide sustainability information, identifying and evaluating sustainability impact, risks and opportunities, formulating policies and strategies, implementing and managing action plans, and engaging in dialogue with stakeholders.

Risk Management

Every year, the Company gathers our stakeholder perspectives on sustainability-related themes and analyzes evolving social trends. Utilizing this information, the Sustainability Committee assesses the Company's impact, risks and opportunities and identifies key issues to be addressed. Sustainability risks identified by the Sustainability Committee are integrated into the Company's risk management processes. These risks are centrally and comprehensively evaluated and managed by the Risk Management Committee. Detailed discussions related to mid- to long-term sustainability risks and opportunities are delegated to the Sustainability Committee. The Sustainability Committee, in coordination with the Company's Risk Management Committee, reports the results of these discussions to the Board.

Management framework for sustainability impact, risks and opportunities (roles and meeting bodies)

*Please see “Composition of the Board and Committees” under the chapter “Corporate Governance Overview” for the Sustainability Committee and the Risk Management Committee.

Refer to "Our Actions on Climate Change and Adoption of the Recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD), Risk Management" for climate-related risk management and "Our Policies and Actions for Development of Our Organization, Employees and Workplace, Risk Management" for human capital-related risk management.

Major Risks and Opportunities

a. Key Risks

Below is a list of the key sustainability risks we have identified — including their likelihood of occurrence and financial impact — as determined through our analysis of evolving social trends. “↗” indicates that the likelihood of occurrence is expected to increase, while “→” indicates the likelihood of occurrence is not expected to change significantly toward FY2030.

Key Sustainability Risks	Likelihood	Financial Impact
1 Failure to address data security and data privacy	Middle↗	High
2 Decline in human capital	Low→	High
3 Decline in business ethics	Low→	High
4 Violations of human rights	Low→	High
5 Deterioration of the global environment and stricter social requirements and regulations	Middle↗	Middle
6 Weakened corporate governance	Low→	High

b. Key Opportunities

Below is a list of the key sustainability opportunities the Company has identified — including their likelihood of occurrence and financial impact — as determined through its analysis of evolving social trends. “↗” indicates that the likelihood of occurrence is expected to increase, while “→” indicates the likelihood of occurrence is not expected to change significantly toward FY2030.

	Key Sustainability Opportunities	Likelihood	Financial Impact
1	Further advances in technology	High↗	High
2	Aging of the working population and diversification of needs for work styles, especially in developed countries	High↗	High
3	Strengthening measures to reduce economic and social disparities	Middle↗	Middle
4	Increased awareness of DEI (Diversity, Equity, Inclusion)	High↗	High
5	Labor migration to adapt to climate change and changes in the labor market to achieve a low-carbon society	Middle↗	Middle

c. Strategy, Metrics and Goals

Material Foundation for Corporate Activities

The Company sets material foundations for corporate activities as strategies to reduce major risks and seize opportunities. The Company reinforces initiatives for each theme in the material foundations, and the Board of Directors monitors them based on discussions in the related Committees which are advisory bodies to the Board of Directors. The material foundation for its corporate activities and responses are as follows.

Data Security and Data Privacy (Risk 1 Opportunity 1)

For the Company, safe-guarding Data Security and Data Privacy is non-negotiable and it places high priority on measures the Company takes. The Company has developed a range of appropriate initiatives to protect the data and information in its possession based on the importance and characteristics of such data and information. The Company has also established structures and measures to align with applicable laws and regulations of each country and area in which it operates. The Board of Directors discusses and monitors the initiatives, based on discussions in the Risk Management Committee. Please refer to “Risk Factors” in this document for more details about Data Security and Data Privacy.

Human Capital (Risk 2 Opportunity 4)

The Company has positioned value creation by its empowered employees as a renewed priority for management, and will take further actions to support diversity, equity and inclusion (DEI), employee engagement and human resource development and creation of an environment that intrinsically motivates employees. Please refer to “Our Policies for Improving Internal Environment and Human Resource Development to Strengthen Human Capital” in this chapter for more details about the initiatives taken for human capital management of the Company.

Corporate Ethics and Compliance (Risk 3)

The Company views corporate ethics and compliance as fundamental principles underpinning its corporate activities. The Company’s approach to ethics and compliance is to strive to meet society’s expectations and demands through appropriate action, both as a company and as individuals, beyond the framework of purely legal compliance. The initiatives in this area include employee training and whistleblowing programs. The Board of Directors monitors corporate ethics and compliance initiatives, based on discussions in the Compliance Committee. Please refer to “Internal Controls and their Operational Status” for more details about corporate ethics and compliance.

Human Rights (Risk 4 Opportunity 2, 3)

The Company has formulated the Recruit Group Human Rights Policy, which was approved by the Board of Directors, based on Sustainability Committee discussions. This policy is set to protect all

employees, temporary workers — including those who work for its business clients through the Staffing SBU — and its senior management. The Company is also committed to respecting and protecting any human rights that may be affected by the rapid development of technology.

Conservation of the Planet (Risk 5 Opportunity 5)

We only have one planet and we believe that everyone has a responsibility to protect the health and longevity of our home. The Company has introduced various initiatives focused on environmental conservation and has highlighted climate change as one of the most important issues to address. The Company has set a group-wide target to reduce its GHG emissions as part of its commitment to achieve carbon neutrality. The progress of this initiative will be monitored by the Board of Directors based on discussions in the Sustainability Committee. Please refer to “Our Actions on Climate Change and Adoption of the Recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD)” for more details.

Corporate Governance (Risk 6)

The Company endeavors to strengthen its corporate governance by designating the COO, Executive Vice President and Director as a responsible person for corporate governance including ESG. Based on its initiatives, the Board of Directors confirms the appropriateness of its corporate governance and its compensation structure based on discussions in its advisory bodies such as the Nomination and Compensation Committees. Please refer to the “Corporate Governance” section in this document for more information about corporate governance and compensation.

Commitment to Sustainability

The Company introduced “Prosper Together” in May 2021, aiming to deliver sustainable growth that is shared by all stakeholders. Specific metrics and goals have been set as a part of its commitment to sustainability as detailed below. One particular area of focus within this is the social commitment: Having a job is one of the most important facets of life for many people and so the Company aims to create an impact through its products and services, while seizing business opportunities.

Environmental (Risk 5, Opportunity 1,5)

We only have one planet and everyone has a responsibility to protect the health and longevity of our home. The Company is committed to protecting our environment by focusing on reducing GHG emissions — a key issue against which the Company is taking action to address climate change.

Commitment to the Environment

- Achieving carbon neutrality throughout our business activities² in FY2021
- Achieving carbon neutrality across our entire value chain² by FY2030

In order to accelerate our efforts to become carbon neutral throughout the entire value chain (Scope 1, 2 and 3),² the Company has set a three-year reduction target³ that aligns with the reduction level required by the Paris Agreement adopted in December 2015, which aims to limit the increase in global average temperature to less than 1.5 °C above that of the pre-industrial era. The Company also continues to contribute to the fight against climate change through its products and services. Refer to “Our Actions on Climate Change and Adoption of the Recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD)” for more details.

Social (Risk 2,3,4 Opportunity 1,2,3,4)

According to an OECD study, approximately 40% of people could fall into poverty if they went without income for three months or more.⁴ As a leader in the global two-sided talent marketplace, helping match job seekers to hiring employers, the Company is well positioned to expand employment opportunities for all and reduce the time to get hired.

All too often, traditional hiring practices have the unfortunate potential to reinforce systemic labor market biases and barriers that cannot be solved by speed and matching improvements alone. Through reducing various biases and barriers in the labor market, the Company will increase access to opportunities for all job seekers and contribute to shortening the time it takes to find a job, helping

people achieve economic security through employment.

Commitment to Social Impact

- Reduce the time it takes to get hired by half by FY2030 compared to that of FY2021⁵
- Help 30 million people⁶ facing barriers in the labor market around the world get hired by FY2030

The diversity of the Company's employees has been the source of its value creation from the very beginning. Betting on the passion and ideas of the employees has long been its competitive advantage. This is why its corporate agenda continues to prioritize a diverse, equitable and inclusive (DEI) workforce that empowers individuals and fosters innovation. In particular, the Company will prioritize gender issues by establishing group-wide targets and accelerate its efforts to achieve them.

Commitment to Employee Diversity

- Achieving gender parity among senior executives, those in managerial positions and all employee levels⁷ by FY2030 at the Company

To achieve the goal of increasing the percentage of women at each level to around 50% by FY2030, the Company has established a three-year target to accelerate its efforts. Refer to Business Overview, Employees, Diversity, Equity and Inclusion for more details. For our initiatives for human capital management, refer to "Our Policies and Actions for Development of Our Organization, Employees and Workplace, Governance."

Governance (Risk 1, 6 Opportunity 4)

Diversity in the boardroom is critical for high quality decision-making, transparency and soundness in the Company's governance structure, and Recruit Holdings continues to enhance the diversity of skills, experience and backgrounds of the Board of Directors members.⁸

Commitment to Board Diversity

- Increase the percentage of women among the Board of Directors members⁸ to around 50% by FY2030 through proposing the election of women for Directors and Audit and Supervisory Board members at the annual general meeting of shareholders

Furthermore, to achieve the goal of increasing the percentage of women employees to around 50% by FY2030, the Company has established a three-year target³ and accelerated its efforts. In FY2022, Recruit Holdings linked the achievement of these targets to a percentage of the long-term incentive compensation⁹ for the executive directors and corporate officers in charge of driving and realizing these ESG goals.

Please refer to "Prosper Together - Seek sustainable growth shared by all stakeholders" of the Business Strategies section for our FY2022 performance toward our sustainability commitment.

¹ In this document, the term "FY" refers to Recruit Holdings' Fiscal Year. "FY" refers to the 12-month period commencing April 1 of the year indicated, ending on March 31 of the following year.

² GHG emissions throughout our business activities are the sum of direct emissions from the use of fuels in owned or controlled sources and are referred to as Scope 1. Indirect emissions from the use of purchased electricity, heat, or steam in owned or controlled sources are referred to as Scope 2. GHG emissions from the value chain are referred to as Scope 3 and comprise indirect emissions other than Scope 1 and 2. The entire value chain represents the sum of Scopes 1, 2 and 3 GHG emissions. The Company aims to achieve carbon neutrality upon completion of the following steps: measurement of GHG emissions, obtaining an accredited third-party assurance on the amount of GHG emissions and offsetting of those emissions.

³ The GHG emission reduction target is for the term from FY2022 to FY2024. The women's representation target for employees is for the term from April 1, 2022 to April 1, 2025. The women's representation target for members of the Board of Directors is for the term from July 1, 2022 to July 1, 2025.

⁴ The figure is based on data compiled for 28 countries (Source: OECD (2020), How's Life? 2020: Measuring Well-Being).

⁵ The period from the time a user starts an active job search on the Indeed job platform to the time the user confirms the receipt of a job offer.

⁶ The initiatives as of today include providing assistance through the Company's online job platform, and through partnerships with NPOs and other organizations with whom the Company collaborates. The Company may also aim to reduce other various barriers, including newly emerging issues in the labor market by FY2030.

⁷ Senior executive positions are defined as Senior Vice Presidents and Corporate Professional Officers of Recruit Holdings and

Matching & Solutions Strategic Business Unit (SBU), and CEOs of the Company's major subsidiaries and heads of key functions in the HR Technology and Staffing SBUs. The respective percentage of women in managerial positions and total employees are calculated from Recruit Holdings, SBU Headquarters and the primary operating companies of each SBU. Managerial positions mean those that have subordinate employees, including delegated contracting officers.

⁸ The Board of Directors members are defined as Directors and Audit and Supervisory Board members.

⁹ Compensation based on ESG target achievements is set as a part of board incentive plan ("BIP") trust (stock) compensation. Eligibility to receive this compensation and the payout amount will depend on whether or not the three-year target is achieved.

Our Actions on Climate Change and Adoption of the Recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD)

Protecting the global environment is a critical foundation for the Company's corporate activities in order to prosper together with our stakeholders and ensure sustainable growth. Regarding taking action to combat climate change, the Company set a long-term goal to achieve carbon neutrality across our entire value chain by FY2030.¹ As part of such efforts, the Company endorses the recommendations by TCFD and disclose the climate transition plan to address climate change in line with the TCFD framework² in this section.

¹ GHG emissions throughout our business activities are the sum of direct emissions from the use of fuels in owned or controlled sources and are referred to as Scope 1. Indirect emissions from the use of purchased electricity, heat, or steam in owned or controlled sources are referred to as Scope 2. GHG emissions from the value chain are referred to as Scope 3 and comprise indirect emissions other than Scope 1 and 2. The entire value chain represents the sum of Scopes 1, 2 and 3 GHG emissions. The Company aims to achieve carbon neutrality upon completion of the following steps: measurement of GHG emissions, obtaining an accredited third-party assurance on the amount of GHG emissions and offsetting of those emissions.

² A framework indicating climate change-related risks and opportunities created by the Task Force on Climate-related Financial Disclosures (TCFD).

Governance

As a component of the aforementioned sustainability initiatives, the Company has implemented a governance structure to guide its actions addressing climate change. The Senior Vice President in charge of sustainability is responsible for leading its climate-related initiatives. The Officer delivers reports to the Board on climate change measures, the assessment of climate change risks and opportunities and risk mitigation management. Directly under this Officer, the Company has established a department in charge of driving forward sustainability initiatives. The department is responsible for gathering group-wide environmental information, managing the progress of reductions in GHG emissions, identifying and evaluating climate-related risks and opportunities, formulating and implementing related action plans, and conducting surveys and engaging in dialogue with stakeholders.

Risk Management

As a component of the aforementioned sustainability initiatives, the Company actively manages risks and opportunities associated with climate change. For more details of our risk management initiatives, please refer to "Our Policy and Actions for Sustainability as a Whole, Risk Management" of this section.

Strategy

a. Strategic Assumptions

The Company understands that a 4°C increase in average temperature due to climate change would have a significant impact on the world and believes it is critical to limit the average temperature increase to below 1.5°C. Based on two climate change scenarios (+4°C and +1.5°C), the Company analyzes short-, medium- and long-term risks and opportunities through FY2030 and assesses them in terms of likelihood and financial impact. The Board also examines measures to mitigate key risks and capitalize on opportunities. The Company's scenario analysis is based on reports issued by the Intergovernmental Panel on Climate Change (IPCC)¹, the International Energy Agency (IEA) and other international organizations as well as those of similar research agencies.

¹ From Shared Socioeconomic Pathways (SSP) 5-8.5 and SSP1-1.9.

b. Key Risks Relating to Climate Change

The key risks identified through the Company's scenario analysis, their likelihood and their financial impacts are shown below. The financial impact is calculated for each item but only the figures for carbon taxes are shown here as they are considered relatively definitive. “↗” indicates that the likelihood of occurrence is expected to increase toward FY2030, and “→” indicates that the likelihood of occurrence does not change significantly.

Key Climate Change Risks	Likelihood	Financial Impact	Risk Mitigation Measures
1 Increase in price of carbon credits to achieve carbon neutrality	High↗	High	Aim to become carbon neutral through our business activities and value chain by FY2030. Aim to achieve further enhancements in energy efficiency and switch to renewable energy at our facilities. Aim to achieve actual reduction of GHG emissions by promoting remote work, engaging with public policy ² , and conducting dialogues with key stakeholders in our value chain alongside other initiatives.
2 Introduction of carbon taxes and possible increase in price	High↗	Low (approx. 300M yen ¹)	
3 Increase in timber/transportation cost	High→	Low	Continue agreements to source a stable supply of low-GHG emission paper for our information magazine business. Continue engagement with paper manufacturers.
4 Submerged/damaged servers	Low→	High	Begin monitoring flood or damage risks of areas where our servers are located. Consider relocating servers or substituting them with alternatives if risks exceed a certain level.

¹ The estimated carbon tax in FY2030 is based on the following assumptions:

- Carbon tax price: approximately \$300/t-CO₂ (Ref. 2022 version, Net Zero 2050 scenario of the NGFS Climate Scenarios for central banks and supervisors provided by International Institute for Applied Systems Analysis)
- The Company's GHG emissions throughout its business activities (Scope 1 & 2): Approx. 9,000t-CO₂ based on the assumption that there is no change in the Scope 1 emissions from FY2021. The emissions from Scope 2 are assumed to be 0t-CO₂ by switching to renewable energy from FY2021.

² Recruit Group evaluates the feasibility of all climate-related engagement activities (including partnerships with stakeholders in the value chain, the consideration of trade association memberships, public policy engagement and other related activities) in line with the Paris Agreement and our goals on environmental strategy, which are then approved by the responsible corporate officer for execution.

This analysis did not identify any physical or transition risks with significant impacts on the Company's business strategies. Nonetheless, under the governance structure described above, we will continue to closely monitor and reassess the impact of climate change on our group as well as enhance our disclosures of relevant information.

c. Key Opportunities Relating to Climate Change

Key Climate Change Opportunities	Likelihood	Financial Impact
1 Accommodate workforce shifts as an adaptation for climate change	Medium↗	High
2 Accommodate employment needs resulting from the societal transition towards lower-carbon emissions	High↗	Medium

Through this scenario analysis, the Company confirmed that addressing the three strategic pillars of its corporate strategies (Simplify Hiring, Help Businesses Work Smarter, and Prosper Together) and enhancing its resilience to climate change will help mitigate key risks and will position the Company to capture the opportunities resulting from climate change. The Company will continue to pay close attention to trends in society and among stakeholders related to climate change, with the aim of capturing opportunities from such trends across our group. Through such actions, the Company aims to contribute to building a resilient and sustainable labor market. Refer to “Our Policy and Actions for Sustainability as a Whole, Commitment to Sustainability” for more details.

Metrics, Goals and Performance

a. Metrics

The Company uses the amount of GHG emissions (absolute emissions in Scope 1, 2, and 3^{1,2}) calculated in accordance with GHG Protocol as the metrics to manage climate risks and opportunities.

b. Goals

As a corporate strategy, the Company stated in its Commitment to Sustainability which was announced in May 2021 that it aims to achieve carbon neutrality in GHG emissions through its business activities by FY2021.^{1,3} The Company strives to do the same across its entire value chain^{2,3} by FY2030. The Company aims to achieve carbon neutrality by reducing GHG emissions in accordance with the following targets and offsetting the remaining emissions. This reduction target has been validated by the Science Based Targets initiative (SBTi), confirming that it is in line with the goal of limiting global warming to 1.5°C⁴.

- Scope 1+2¹: Reduce GHG emissions by 46.2% by FY2030 (base year: FY2019)
- Scope 3²: Reduce GHG emissions by 30% by FY2030 (base year: FY2019)

In addition, the Board of Directors has resolved to set mid-term targets over a three-year period for GHG emissions reduction, and beginning in FY2022 Recruit Holdings has linked the level of achievement of these targets to a percentage of the long-term incentive compensation⁵ for the executive directors and corporate officers in charge of driving and realizing these ESG goals. For more details, please refer to Our Policy and Actions for Sustainability as a Whole, Major Risks and Opportunities, Strategy, Metrics and Goals.

c. Performance

The Company started to base its calculation of GHG emissions on the GHG Protocol in FY2019. The figure for Scope 1+2 in FY2021 was 9,404t-CO₂ (-53.8% year on year).⁶ The Company also obtained an independent third-party assurance⁷ of its GHG emissions. In addition, the Company achieved its FY2021 goal of carbon neutrality throughout its business activities as planned.^{1,3}

	FY2019 ⁵ (t-CO ₂)	FY2020 ⁵ (t-CO ₂)	FY2021 ⁵ (t-CO ₂)
Scope 1	12,268	7,526	9,053
Scope 2 (Market-based)	29,854	12,831	351
Scope 1+2 (Market-based)	42,122	20,357	9,404

¹ GHG emissions throughout our business activities are the sum of direct emissions from the use of fuels in owned or controlled sources and are referred to as Scope 1. Indirect emissions from the use of purchased electricity, heat, or steam in owned or controlled sources are referred to as Scope 2.

² GHG emissions from the value chain are referred to as Scope 3 and comprise indirect emissions other than Scope 1 and 2. The entire value chain represents the sum of Scopes 1, 2 and 3 GHG emissions.

³ The Company aims to achieve carbon neutrality upon completion of the following steps: measurement of GHG emissions, obtaining an accredited third-party assurance on the amount of GHG emissions and offsetting of those emissions. The Company plans to achieve carbon neutrality in FY2022 as it did in FY2021.

⁴ This is a short-term target defined by the Science Based Targets initiative (SBTi) and established in line with the science-based GHG emission reduction levels required to limit global warming to 1.5°C above pre-industrial levels.

⁵ The GHG emission reduction target is based on the results from FY2022 to FY2024. Compensation based on ESG target achievements is set as a part of board incentive plan ("BIP") trust (stock) compensation. Eligibility to receive this compensation and the payout amount will depend on whether or not the three-year target is achieved.

⁶ All GHG emissions figures are approximate.

⁷ We obtained independent third-party assurance of our GHG emissions from SOCOTEC Certification Japan and SCS Global Services.

Our Policies and Actions for Development of Our Organization, Employees and Workplace

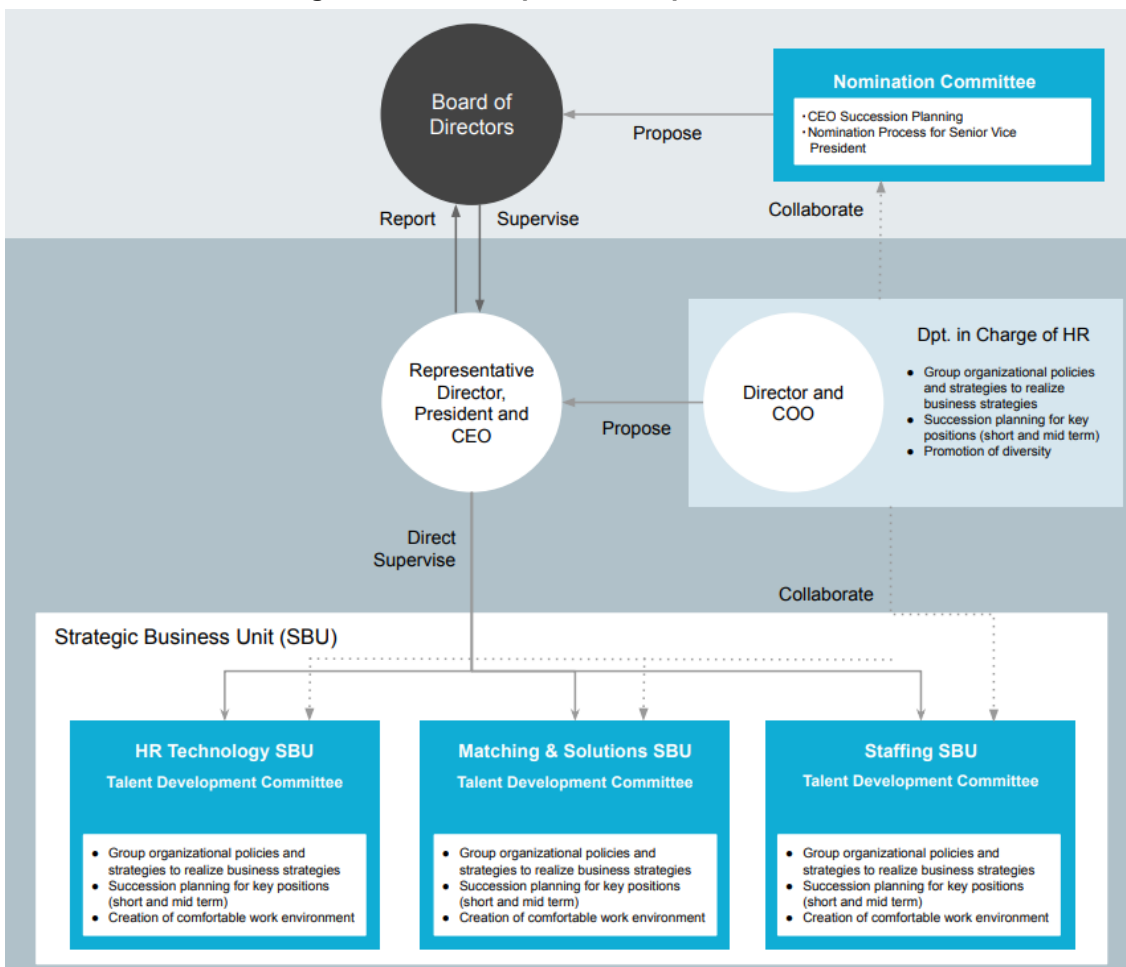

The Company defines strengthening of human capital as the material foundation of its corporate activities, and is working to improve the working environment and developing human resources to enhance its corporate value sustainably.

Governance

Governance is a top priority for the Company, focusing on designing effective group-wide structures, ensuring smooth succession planning for key positions and fostering a positive work culture to achieve diversity, equity and inclusion (DEI). The Board of Directors, in consultation with the Nominating Committee, makes decisions about the key group's structure and personnel to align with the Company's management strategy. The CEO chairs the Human Resources Development Committee which reviews the progress on key personnel succession by each Strategic Business Unit (SBU), including top management positions in major business areas. The Committee defines job requirements, identifies required human resources, shortlists candidates for various timeframes, evaluates their strengths and weaknesses and develops training plans. The Committee conducts an annual progress check on the development status to accelerate these efforts.

Director, Executive Vice President and COO responsible for human resources and human capital reports to the Board of Directors on organizational personnel plans, including risk assessments and opportunities related to human capital and plans to address them. Under the Executive Vice President's supervision, a dedicated department will be established to address optimal group-wide structural and personnel issues that align with the Company's business strategies. The department will oversee succession planning for key positions and promote initiatives that foster a positive corporate culture focused on promoting DEI.

Group-wide Structure to Strengthen Human Capital Development

Risk Management

The Human Resource Development Committee is responsible for overseeing and addressing medium- to long-term human capital risks and opportunities. It conducts detailed discussions on organizational personnel plans including potential risk mitigation and opportunity acquisition measures and reports the results of these discussions to the Board. Risks related to human capital are reported to the Board of Directors before being integrated into the Group risk management process to be centrally and comprehensively evaluated and managed by the Risk Management Committee.

Strategies, Metrics and Goals

The success of each business primarily depends on the strong alignment of the business model and strategy with the human capital and organizational strategy. Accordingly, the Company has delegated major authority over organizational human resources to each SBU to strengthen the link between human capital and business. While each SBU has established its own human capital indicators and targets based on what is critical to the success of its business, the Company has also established group-wide indicators and targets to accelerate its efforts to foster a positive corporate culture focused on promoting DEI, which it considers the highest priority for the Group.

a. Group-wide Initiatives

Maximize the curiosity and passion of our diverse employee base

One of the Company's core values is to "Bet on Passion," a concept centered around respecting individual differences. A diverse employee base has been the source of the Company's value creation since its foundation and betting on people's passion and ideas fueled by their curiosity is its competitive advantage. Therefore, the Company will continue to focus on encouraging self-motivation, personal curiosity and passion, by enhancing its internal environment.

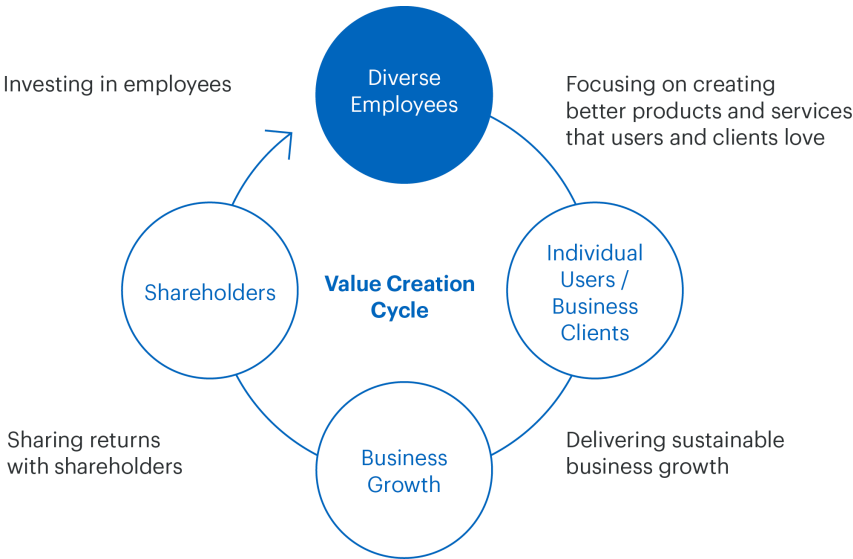

As a basic premise, the Company strives to prevent discrimination and human rights infringements based on class, race, color, sex, language, religion, gender, age, political or other opinion, national or social origin, nationality, property, sexual orientation, gender identity, disability, birth or other status through the "Recruit Group Human Rights Policy." The Company further seeks to promote equal opportunities for all and respect for each individual's own way of living and working. And while the Company is working to increase diversity in each country, region and throughout its operations, it aims to accelerate its initiatives for gender diversity by setting group-wide metrics and targets as part of its corporate strategy. The Board of Directors discusses and monitors the progress of these targets based on discussions of the Sustainability Committee. Refer to Our Policy and Actions for Sustainability as a Whole, Strategies, Metrics and Goals, Commitment to Sustainability - Social for indicators and targets. For more information on employee diversity, refer to Business Overview, Employees, Diversity, Equity and Inclusion.

The Company continuously fosters an organizational culture that maximizes the intrinsic motives of diverse individuals as part of its investment in human capital and intellectual property. For example, the Company and its respective main subsidiaries around the world conduct employee engagement surveys of all employees, so that the Company can understand the issues it needs to solve to improve employee engagement and what initiatives the Company needs to strengthen its corporate culture.

Continuous Organizational Transformation for Prioritizing Social Value

The Company has always aimed to "Wow the World" and address pressing issues in society by creating innovative products and services. To continue to achieve this, the Company is constantly transforming its organization to adapt to changes in the market environment. The ability to drive transformation is a crucial skill for all members of the Board of Directors, regardless of whether they are internal or external, as it strengthens the Company's value creation cycle and enables it to remain agile in the face of challenges. For more information on the required skills for the Board of Directors, refer to Corporate Governance, Corporate Governance Overview of this document.

Our Value Creation Cycle

b. HR Technology SBU

The SBU operates a global job platform, utilizing its extensive data and technology resources to optimize job search and recruitment processes. To thrive in this business, attracting diverse talented individuals, including engineers from around the world and fostering their medium- to long-term commitment to enhancing the enterprise's value is crucial.

Therefore, starting in 2021, the SBU implemented an Employee Stock Ownership Plan Trust (ESOP) for executives and employees. This initiative aims to ensure its recruiting competitiveness remains on par with globally operating technology companies listed on stock exchanges and to incentivize our employees to contribute to the long-term growth of the Company.

Additionally, Indeed, the primary subsidiary of the Company, offers a comprehensive onboarding program called "Indeed University" for newly hired engineers worldwide. This program enables them to deepen their understanding of data-driven decision-making and gain valuable experience in team management through mentorship provided by experienced engineers from various locations.

Furthermore, Indeed utilizes employee data to enhance the overall employee experience throughout their journey with the company, from recruitment to retirement. This approach helps foster a diverse workforce. Indeed has also implemented an inclusive interview rule that prioritizes diversity in the hiring and promotion process. It also collaborates with Inclusion Resource Groups (IRGs) which are employee-led groups dedicated to addressing cross-company issues to improve the experiences of employees from a variety of minority groups.

To foster diverse work styles, Indeed has implemented various systems and mechanisms to promote employee well-being, work-life balance and overall health. For instance, it has introduced an open paid leave system that allows employees to take additional paid time off as needed. Additionally, Indeed has implemented "YOU Days," a monthly company-wide initiative that closes the office for one day, allowing employees to rejuvenate. The SBU also prioritizes creating a comfortable work environment by providing ergonomic equipment for remote working and offering fitness facilities within our office space.

c. Matching & Solutions SBU

The SBU operates an online platform for sales promotion, human resource matching services and SaaS solutions, primarily in the Japanese market. To ensure the success of these businesses, it is crucial to develop products and services that meet market needs and foster an environment that encourages diverse employees to contribute their ideas and passions. Additionally, maximizing the power of teamwork by bringing individuals together who continuously evolve is essential.

To this end, the SBU has established a Mission Grades evaluation structure based on the fundamental

principle that "people are the source of value." This system determines roles and rewards for employees, irrespective of their age, year of entry or experience. The SBU also utilizes a Will-Can-Must management method that connects employees' aspirations with improving their competence through the execution of work. Moreover, the SBU has implemented an organization-wide "Career Web System" that enables employees to pursue job opportunities within its organization by expressing their interest, and the "Ring" program allows employees to create new businesses based on the needs of the society they identify. Through these initiatives, the SBU fosters the autonomous growth of both employees and the organization. Furthermore, the "FORUM" platform facilitates sharing of innovative work and knowledge among employees.

Additionally, the SBU strives to acquire and develop human resources aligned with its business strategy by establishing specific requirements for each position. Whether mid-career or new graduate hiring, the SBU assesses individuals based on their aspirations, skills, and experience within categories such as business growth, product growth, engineering, data specialist, design and finance.

Once employees join the company, it supports their development through a combination of on-the-job training that includes job placements and assignments to enhance their skills, as well as off-the-job training. IT boot camp training for product developers and transition training to facilitate smooth role changes are provided for employees.

The SBU has embraced a new concept called "CO-EN (Park)," which aims to create a space where individual curiosity and passion become the starting point for collaboration and co-creation beyond company boundaries, that connects to value creation. To realize this, the SBU provides a flexible environment to cater to the needs of diverse work styles, including allowing members to have secondary or concurrent jobs and providing opportunities of rehire to those who have previously left the Company.

Since 2006, the SBU has been actively developing systems and support structures to enhance the working experience for diverse employees by establishing a specialized DEI team. Starting in 2021, it is also focusing on improving job satisfaction to promote the activities of individuals from diverse backgrounds. As a first step, the SBU set a gender diversity goal for managerial positions, and started its initiative by clarifying requirements for managerial positions previously based on tacit understanding. This effort has led to an increase in the number of men candidates alongside women candidates, signifying a positive evolution in the SBU's management landscape. Additionally, the SBU is intensifying its efforts to strengthen the human capital by visualizing it through various employee data, including engagement surveys.

d. Staffing SBU

The SBU aims to provide job seekers with employment opportunities, offer flexible labor services to corporate clients and maintain stable operations across various countries, regions and industries. The SBU strives to achieve this by continuously enhancing and maintaining adjusted EBITDA margins. To successfully maximize adjusted EBITDA margins in each region and market we operate in, it is crucial to be agile and efficient in decision-making.

To accomplish this, the SBU has implemented a "unit management" approach within its subsidiaries. Under the system, the leaders of each unit are granted the authority to operate their respective units as if they were independent companies. This approach promotes a sense of ownership among the responsible individuals and facilitates prompt and high-quality decision-making. Through this management framework, employees are empowered with the autonomy to make decisions that impact results, allowing them to enhance their leadership and decision-making skills. This instills high motivation and a sense of responsibility in the workforce.

The SBU places great emphasis on diversity within its decision-making boards. To ensure diversity, it has implemented a succession planning process for key positions that prioritizes diverse candidates before discussing hiring and appointments.

Furthermore, the SBU has introduced a global mentoring system to nurture diverse leaders across different organizations, transcending company and country boundaries. It has implemented engagement surveys at major subsidiaries in various countries and regions to monitor employee engagement and continuously improve our organizational culture. These surveys serve as fixed points for assessing

employee engagement and facilitate a cycle of continuous improvement.

For more detailed information on the Company's human capital, refer to the "Human Capital Management" section of Recruit Group Profile. Additionally, for specific data and detailed measures related to human capital, please refer to the "Human Capital" chapter in the "Social" section of the ESG Data Book.

Risk Factors

Risk Management Structure

Internal Regulations for Risk Management

We consider risk management to be a key priority to ensure the continuity and stable development of our businesses and endeavor to take an active approach to risk management across our operations. We have established the Recruit Group Risk Management Regulations, which provide a comprehensive risk management structure and reporting system for the entire group, and the Recruit Group Escalation Bylaws, which aim to achieve prompt reporting and information sharing related to major issues within the Company.

Risk Management Committee

The Holding Company established the Risk Management Committee, which serves as an advisory body to the Board of Directors, with Senior Vice Presidents as members. The Committee monitors the status of each of the SBU risk management functions, and engages in comprehensive discussions concerning the risks affecting the Company based on a group-wide risk map addressing the risk items of the Company including each SBU. The Risk Management Committee then selects the high-priority risks of the Company and implements appropriate countermeasures including monitoring policies.

Risk Management Structure in the Holding Company and Each SBU

We have established the position of Director in charge of the Risk Management Division, and this Director also serves as our Executive Vice President. Because we believe that the viewpoints and perspectives appropriate for responding to such risks differ between Japan and overseas markets, we have assigned separate Senior Vice Presidents in charge of Japan (Risk Management Japan) and overseas (Risk Management International) matters to serve under the Risk Management Division of Recruit Holdings with the aim of responding to the high-priority risks applicable to each relevant region in a manner that is appropriate to the characteristics of such region.

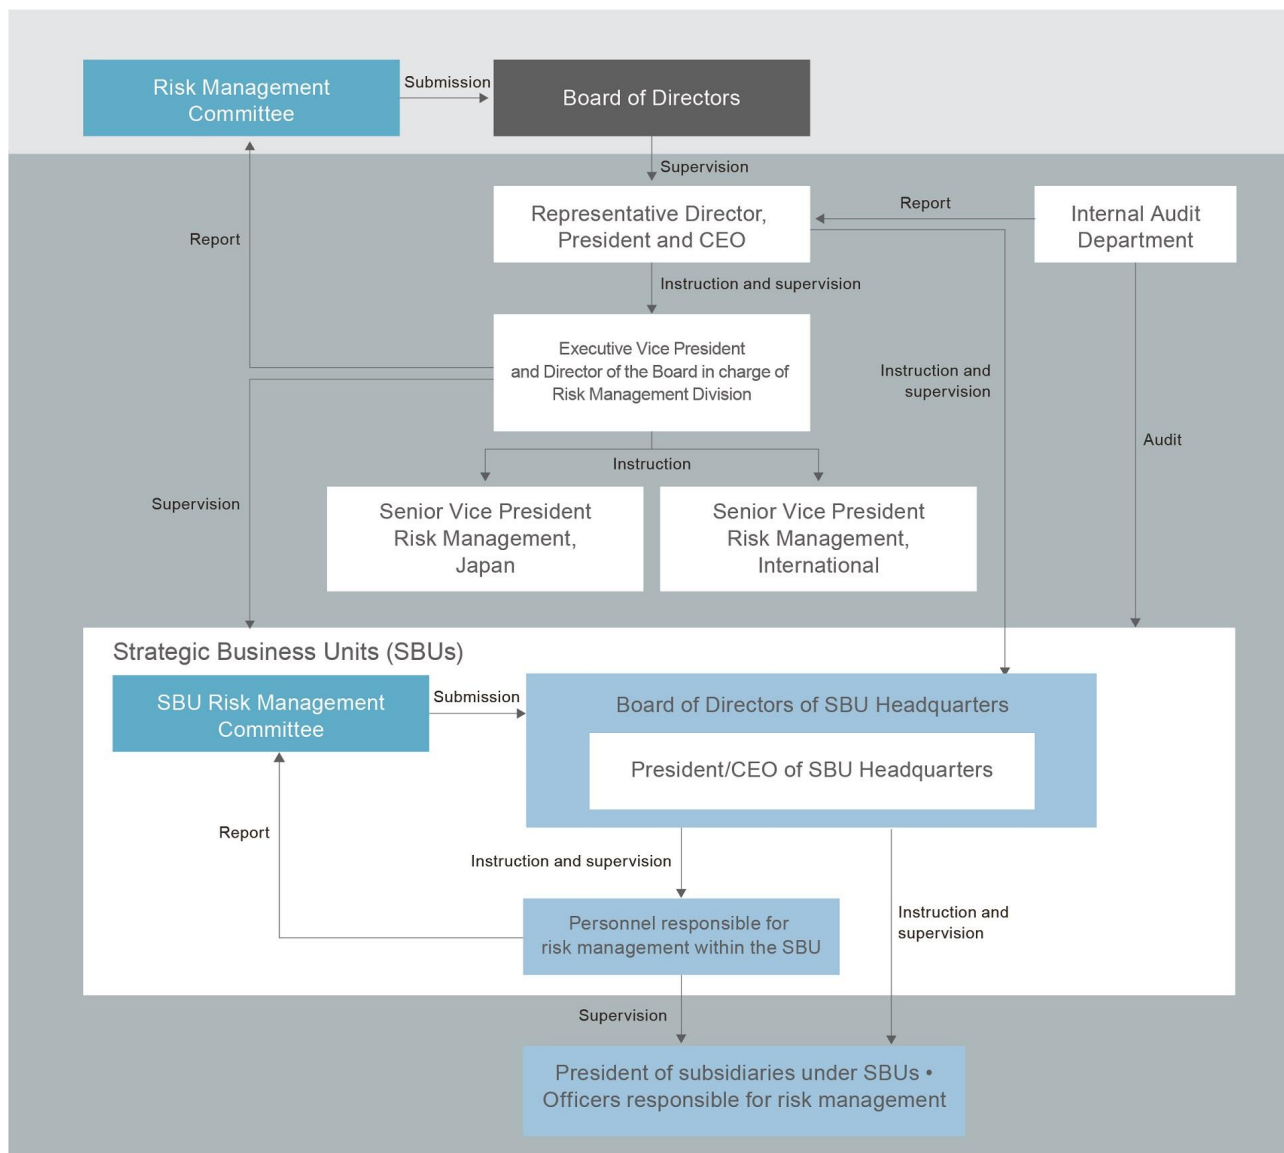

The department in charge of risk management shares information and collaborates with our Internal Audit Department in a timely manner so that our Internal Audit Department can efficiently conduct operational audits of the status of responses to high-priority risks of the Company.

Risk management structure of each SBU is as follows.

- a. Subsidiaries of each SBU are required to carry out risk management functions by identifying relevant risks, assessing materiality of such risks, and implementing countermeasures in response to such risks. The SBU Headquarters of each SBU appoints personnel responsible for risk management within the SBU with the task of overseeing the risk management function of the SBU and monitoring the risk management status related to the business of the SBU including its subsidiaries.
- b. The SBU Risk Management Committee convenes on a semi-annual basis in order to assess and discuss the risks concerning the businesses operated under the SBU, determine high-priority risks relevant to the SBU and implement countermeasures, and monitor the risk management status of such risks. The Executive Vice President and Director in charge of the Risk Management Division of Recruit Holdings also participates in the SBU Risk Management Committee meetings to oversee the status of risk management functions in each SBU.

The Risk Management Division of the Holding Company, which oversees the secretariat of the Risk Management Committee, regularly reports on risk management activities to our Board of Directors, and has established a structure and reporting system that enables the Board of Directors to properly monitor the status of risks affecting the Company and the countermeasures in response to such risks.

Our Risk Management Structure

High-Priority Risks and Key Countermeasures

Among the risks that may affect the Company's financial condition, results of operations and cash flows, the high-priority risks that the Directors and Senior Vice Presidents perceive to be of particular importance and require countermeasures are as follows.

For a detailed explanation of risks associated with Data Security and Data Privacy, which is identified as one of the high-priority risks below, please refer to "The Company may be subject to liability and regulatory action or suffer reputational damage if the Company is unable to maintain the security and the privacy of its data or maintain effective policies and procedures for the storage, management, usage and protection of personal, confidential or sensitive information." under the caption "Risks Related to the Company's Business" below.

Risks associated with Data Security and Data Privacy

Risk Awareness

The Company acquires, manages, and utilizes personal information, including the information of a large number of individual users, in each of our SBUs. We believe it is our obligation not only to comply with the laws of each area and country, but also to respect and protect the privacy of individual users in conformity with the expectations of society.

In the unlikely event of an incident involving personal information, this may not only cause great inconvenience to individual users, but we may suffer from a loss in the value and reputation of our brand and confidence in our services from our individual users. We are also aware that we may be subject to business suspension orders, fines and other sanctions by the authorities, as well as lawsuits filed by individual users or business clients, which could seriously harm the Company's operating results.

For this reason, the Risk Management Committee of Recruit Holdings and the Risk Management Committee of each SBU recognize that data security and data privacy are high-priority risks and continue to implement appropriate measures.

Key Countermeasures¹

Depending on the importance of the data or information in our possession, as well as the characteristics of the data or information to be protected, we have established structures and reporting systems, and measures necessary for each country and area's laws and regulations. For example, we monitor for unauthorized access, detect and block computer viruses, preserve communications and access records that may be used for investigations, and conduct periodic vulnerability tests.

Countermeasures relevant to International

In order to meet industry requirements with regard to data privacy, we have established standards for responding to the laws and regulations in each jurisdiction, such as the GDPR in Europe, CCPA in the State of California, United States, and others. With regard to data security, we have established reference standards such as NIST, ISOs, and CIS20, according to the business and risk characteristics of each SBU.

Countermeasures relevant to Japan

With regard to data privacy, we have established a "Personal Data Policy" and established a privacy center. With regard to data security, we have established dedicated security departments, such as Recruit-CSIRT, to detect damage at an early stage, implement measures to minimize such damage and prevent data breaches.

The Company is proceeding with the implementation of the above measures upon consideration of the necessity of such measures as well as the order of priority of implementing various measures with respect to each subsidiary within the Company.

¹ Here, we describe the key countermeasures that we believe to be effective, as of the date of this document, in mitigating the anticipated impact of our high-priority risks on the performance of our businesses. However, it is possible that such countermeasures may not be effective due to a number of reasons, including information leakage caused by human error or voluntary acts by our personnel or other parties. In addition, even if such countermeasures are appropriately implemented, there is no guarantee that the risks affecting our businesses will be eliminated. Furthermore, it is possible that the significance or nature of the risks we face may change or that the effectiveness of our measures to address such risks may decrease due to amendments to existing laws and regulations or the introduction of new laws and regulations concerning the handling of personal information in the future, the development of new methods of unauthorized access or computer viruses or other factors.

Risks That May Affect the Company's Financial Condition, Results of Operations and Cash Flows

The Company is subject to a number of risks and uncertainties, including but not limited to those described below. Our business, results of operations, financial condition and cash flows could be materially and adversely affected by any such risks and uncertainties.

The following contains forward-looking statements, which reflect the Company's assumptions, estimates and outlook for the future based on the Company's plans and expectations as of March 31, 2022 unless the context otherwise indicates.

Summary

Risks Related to the Company's Business

1. The Company's results of operations could be adversely affected by negative economic, social and geopolitical conditions in the Company's main operating markets and globally.
2. Competition in the various industries in which the Company operates could reduce its profitability or result in a decrease in its market share.
3. The Company may be unable to innovate and adapt with sufficient speed to meet the rapidly changing needs and preferences of its individual users and business clients.
4. The Company must rapidly advance its technological capabilities.
5. The Company may not succeed in executing its business strategies, and its estimate of the scope and size of its total addressable market may not be correct.
6. The Company's past and future acquisitions, joint ventures and strategic alliances could fail to deliver the anticipated benefits or otherwise have an adverse effect on the Company's businesses and results of operations.
7. The Company's expansive global operations expose it to various risks and challenges.
8. The Company's inability to attract and retain qualified employees and maintain a positive work environment for its employees could harm its business and inhibit its ability to operate, grow and achieve innovation successfully.
9. The Company may be subject to liability and regulatory action or suffer reputational damage if the Company is unable to maintain the security and the privacy of its data or maintain effective policies and procedures for the storage, management, usage and protection of personal, confidential or sensitive information.
10. Information technology systems are a critical part of the Company's operations and any cyberattacks, systems failures or other disruptions affecting these systems could have an adverse effect on its business.
11. The Company's software applications may contain defects.
12. The Company's businesses are subject to various laws and regulations.
13. The Company may be subject to legal and arbitration proceedings and litigation, which could be costly and could materially and adversely affect its brands, reputation, business and results of operations.
14. Our reputation and those of our brands are important to our success, and any damage to them could materially and adversely affect our business, financial condition and results of operations.
15. The Company relies on third-party service providers, such as search engine platforms, data center providers, payment providers, sales agents and Internet service providers in various areas of its business.
16. The Company's advertising, sales and marketing efforts may be ineffective, may lead to increased costs and may negatively affect its revenue and margins.
17. The Company's business operations are exposed to natural disasters, terrorism, pandemics, calamities or other factors.
18. Any impairment of the Company's non-current assets, including goodwill and intangible assets, or fluctuations in the value of its securities holdings, could adversely affect its results of operations or financial condition.

19. The Company may have additional tax liabilities.
20. Fluctuations in currency exchange rates could materially and adversely affect the Company's business, financial condition and results of operations.
21. The Company relies on borrowings to finance its operations, and factors such as increases in interest rates for its borrowings could materially and adversely affect us.
22. The Company's operating results may fluctuate, which makes its results difficult to predict and could cause its results to fall short of expectations.
23. The Company's stock price may be volatile or difficult to predict due to fluctuations in its operating results or other factors.

Detailed Description

1. The Company's results of operations could be adversely affected by negative economic, social and geopolitical conditions in the Company's main operating markets and globally.

The performance of the Company's businesses is generally sensitive to economic, social and geopolitical conditions in its main operating markets, including Japan, the United States, Europe and Australia, as well as global economic conditions more generally.

The Company operates its businesses through each of its three SBUs: HR Technology, Matching & Solutions and Staffing. In the Company's HR Matching business, the results of its operations are sensitive to negative developments in the labor and employment market resulting from economic downturns or uncertainty. In times of negative economic conditions, employers may reduce spending on job advertising and other job placement and staffing services or reduce hiring employees or temporary staff due to cost cutting initiatives or increased access to qualified job seekers without the use of advertising or other third-party services. Any such reduction in spending or hiring by employers would in turn reduce demand for the Company's HR Matching business.

In addition, in the Company's Marketing Solutions in its Matching & Solutions segment, adverse economic conditions may affect its business clients' demand for its services due to reduction in advertising expenditures and other cost reduction initiatives or changes in consumer spending activity that negatively affect their businesses. Negative economic trends also typically result in lower sales and downward competitive pressure on the pricing of the Company's services across its businesses, and the Company may be unable to reduce selling and administrative expenses without negatively impacting its market presence, quality of service, infrastructure or capacity to respond to future increases in demand for its services. As a result, the Company's results of operations have historically been negatively impacted by economic downturns.

The outlook for the economy in the Company's main operating markets remains highly uncertain and could be adversely affected by a range of economic, social and geopolitical developments.

For example, the COVID-19 pandemic and various government countermeasures have negatively affected economic activity globally, including consumer and business activity. Although economic conditions in some countries have shown signs of improvement, there is no assurance that this trend will continue.

In addition, with respect to Japan, the economic environment continues to be challenging due to a number of other factors, including rapid inflation in recent periods and longer-term challenges surrounding the impact of unfavorable demographic trends in Japan such as the declining birthrate and the decline and aging of the overall population. Additionally, political and economic tension between the United States and China poses challenges. Any of these regional factors as well as factors outside of the Company's main operating markets, including the impact and potential escalation or prolonging of the military conflict between Russia and Ukraine and related international sanctions imposed on Russia, which have caused significant increases in energy prices, volatility in financial markets and other disruptions, as well as a slowdown of economic growth in China and the potential escalation of

geopolitical risks associated with the Middle East, Taiwan and North Korea, could impact the regional economy and the global economy more generally.

While restrictive measures intended to control the spread of COVID-19 have been relaxed in many countries, it is possible that such measures or additional measures could be reimposed in the event that infections increase due to the emergence of new variants or other reasons. Accordingly, the future economic impact of the COVID-19 pandemic and any countermeasures adopted in response thereto remains uncertain and may vary significantly in terms of severity and duration depending on the country, and it is possible that economic conditions could be affected in some or all of the Company's main operating markets for an extended period.

The Company's SBUs suffered from varying impact of COVID-19. For HR Technology, strong hiring demand of business clients continued as restrictive measures have been relaxed and economic activities have recovered in many countries, but more recently, as a result of increasing interest rates in the United States and widespread layoffs in the technology sector, there are concerns among business clients of an economic downturn, which has resulted in a decrease in hiring activities and a return to more normal balance between supply and demand. Despite these trends, because the balance between supply and demand in the Japanese and European labor markets has not yet returned to normal levels to the same degree as in the United States, revenue of HR Technology has continued to show an increasing trend. However, there is no assurance that this trend will continue and job advertising revenue on HR Technology could be adversely impacted if and when the labor market normalizes and competition for talent between companies eases.

The Matching & Solutions segment comprises Marketing Solutions and HR Solutions which mainly operate in Japan. While economic activities such as travel, dining and weddings are on a recovery trend, the outlook is uncertain as those businesses are susceptible to changes in the business environment including the imposition of COVID-19 related preventative measures. Also, this segment may be impacted by more lasting changes in demand for these services in Japan in response to COVID-19 such as fundamental societal shifts in attitudes towards travel, dining or wedding ceremonies. Revenue will continue to decline to the extent business clients temporarily suspend spending on advertising or choose lower priced advertising packages as a result of the weak business environment.

In HR Solutions, while hiring demand is on a recovery trend as business clients' operations gradually recover, the outlook is uncertain as hiring demand is expected to fluctuate depending on the business environment.

The Staffing segment comprises Japan and Europe, US, and Australia. For Japan, although demand for temporary staff showed a recovery trend in the fiscal year ended March 31, 2023, it is uncertain how sustainable the recovery trend will be. For Europe, US, and Australia, although revenue showed a growth trend in the fiscal year ended March 31, 2023 as economic activities recovered, it is uncertain how sustainable the recovery trend will be.

2. Competition in the various industries in which the Company operates could reduce its profitability or result in a decrease in its market share.

The markets in which the Company operates are highly competitive, and competition has generally intensified in recent years across its businesses. In particular, certain of the Company's operating markets have relatively low barriers to entry, which enables new competitors, including those operating in different industries, to enter these markets relatively easily.

In addition, the Company's ability to keep pace with increasingly rapid advances in technology is also a key competitive factor in many of its businesses. If the Company fails to adapt to changes in technology or if its competitors develop more advanced technologies than those of the Company, its competitive position and market share could be materially and adversely impacted. The Company may be unable to maintain its competitive position in its operating markets by relying on the strength of its brands, its ability to navigate current laws and regulations, financial resources and individual user and business client bases or other competitive advantages.

The Company's current and potential competitors include large global technology companies, including platform businesses, and a variety of global and regional companies operating in one or more of its target markets. These companies may have more advanced technological resources, more compelling business models, greater financial resources, more competitive pricing or ability to provide such pricing, greater global or regional brand awareness, larger user bases, stronger relationships with business clients, greater access to potential employees, temporary staff and other personnel or superior service, sales, marketing and other resources than the Company has.

Market shares, particularly in Internet-based services in the Company's HR Technology and Matching & Solutions segments, have in the past been subject to significant shifts from time to time due to the relative ease for individual users to switch to other services. As a result, the Company's ability to compete effectively depends on its ability to achieve continued innovation and to improve the functionality of existing services and introduce compelling new services in order to effectively respond to the evolving needs and preferences of individual users and business clients.

If the Company fails to keep providing services that gain market acceptance among individual users and business clients and are differentiated from services provided by its competitors, the Company's competitive position and market share could be materially harmed.

The Company's Matching & Solutions segment has a strong market position and has achieved the top market share in terms of revenue for many of its core businesses in Japan, which may make future growth for these businesses more challenging relative to other businesses. If the Company is unable to convince its business clients to maintain or increase their spending with it or if the Company is unable to expand its client base, the Company may not be able to continue to grow these businesses. Even if the Company is able to maintain and further increase its market share, the Company's margins may decrease if the Company is forced to undertake additional advertising and marketing expenditures, lower its pricing for existing services or introduce new services with lower profitability to do so.

3. *The Company may be unable to innovate and adapt with sufficient speed to meet the rapidly changing needs and preferences of its individual users and business clients.*

The Company's business model depends on its ability to offer individual users and business clients services that meet their respective needs and preferences. Accordingly, maintaining the Company's competitive position and market share requires that the Company adapt quickly to changes in such needs and preferences.

For example, increased use of the Internet, social network platforms, mobile devices and other new technologies, such as video conferencing and voice activated speakers, has resulted in information being available more rapidly in real time while new technologies have made it relatively easy for new entrants to build user bases relatively quickly without significant investment. In particular, the Company's ability to offer effective mobile applications that provide individual users with an appealing, easy-to-use mobile experience is an increasingly important factor in maintaining and growing its individual user base and direct user traffic for many of its online services. These and other changes in technology and user behavior have in turn resulted in changes in the needs of the Company's business clients.

The Company must invest significant resources to continually enhance and improve its existing services and to introduce new and innovative features and services that are compelling to individual users and business clients and respond effectively to rapidly evolving technology and the way it is used or implemented by individual users or business clients. If the Company is unable to accurately identify and understand the changes in the needs of its individual users and business clients, including the appropriate balance between such changes in the needs and interests of its individual users and business clients, or if the Company fails to improve or develop its products and services to meet the needs of its individual users or business clients and predict or respond to technological changes in a timely and cost effective manner before its competitors, the Company's individual users and business clients may discontinue use of its products and services.

The Company's businesses are also affected by changes in business client preferences and how and to what extent business clients choose to use its services.

A substantial portion of the Company's revenue is generated from business clients advertising on the Company's online platforms in its HR Technology and Matching & Solutions segments. For certain services, the Company provides more flexible arrangements to meet the needs of business clients including SMEs, and contracts with such business clients are sometimes in the form of relatively short-term advertising arrangements. These short-term arrangements may expose the Company to the risk that its business clients may switch their advertising to competing platforms or reduce the amount of their spending on the Company's platforms, or may not continue to do business with the Company entirely.

In addition, the Company's business clients could decide to reduce or eliminate the budgets they are willing to commit to it if the Company does not provide effective advertising solutions, or if they do not believe that their investment in advertising with it will generate a competitive return relative to other alternatives.

Individual user preferences may change in a manner that increases the Company's costs, such as expenditures required for development of new features or services or increased expectations for user perks or other programs that result in additional costs.

In addition, initiatives taken to respond to rapid changes in individual user needs or preferences can reduce the profitability of the Company's existing services and business models, and there is no assurance that the Company will be able to adjust its business models, including maintaining the appropriate balance between the needs and interests of its individual users and business clients, or develop new business models that allow it to maintain profitability.

4. The Company must rapidly advance its technological capabilities.

The markets in which the Company competes are characterized by rapidly changing technologies, which in turn impact individual user and business client demands and the competitive environment more generally. The Company accordingly believes it is critical to continuously invest in and improve its technological capabilities, the functionality of its system infrastructure and the reliability of its products and systems in response to technological innovation.

In addition, because many of the Company's services are provided over the Internet, the Company needs to continuously modify and enhance its platform to keep pace with changes in Internet-related hardware, software, communications and database technologies and standards. If the Company is unable to respond in a timely and cost-effective manner to these rapid technological developments and changes in standards, the Company's platform may become less marketable, less competitive, or obsolete, and its operating results will be harmed. In addition, the Company may be required to make significant investments in order to advance its technological capabilities, which could in turn impact its profitability.

Developing new technology presents significant technical and business challenges and risks, including the following:

- the Company may invest in technologies or uses of technology that ultimately fail to deliver the benefits the Company anticipates or become obsolete by the time they are launched or fully implemented;
- the Company must attract, train and retain highly skilled engineers and managers in order to build, maintain and expand its information technology services and achieve innovation, and these engineers and managers may be difficult to recruit and expensive to retain;
- the number of different types of mobile devices in use, or the applicable technical standards, could further diversify including as the result of the adoption of 5G mobile technology across the Company's operating markets, substantially increasing its product development and modification costs, and the Company may be unsuccessful in developing appealing products for these devices;
- the Company may fail to maintain or update its technological infrastructure, products and systems to rapidly changing industry or technical standards;
- the cost of upgrading the Company's technology or implementing and operating new technology may be substantial and such upgrades or implementations may not be cost effective;

- any upgrades to the Company's technology and infrastructure may not achieve the desired results or may otherwise prove ineffective;
- the Company may face competition from businesses that have implemented new technology faster than it or make better use of such technology than the Company does;
- products and services incorporating new technology may contain bugs, defects or other design flaws; and
- the continuous development of new devices and technologies makes it difficult to predict future trends in the areas in which the Company operates.

5. The Company may not succeed in executing its business strategies, and its estimate of the scope and size of its total addressable market may not be correct.

In order to achieve further growth of the Company's business, the Company has adopted a number of business strategies as well as its long-term strategic objectives for each of its operating segments. The Company's business strategies entail achieving sustainable growth through the development of a broad, geographically diverse portfolio of businesses and calls for the expansion of existing businesses along with entry into and development of new businesses, in part through prudent use of strategic alliances and acquisitions. Furthermore, the Company's strategies may not be effective, or the Company may be forced to change its strategies in the future due to any number of factors.

The Company has established a number of strategies for each of its operating segments that the Company believes will allow it to achieve long-term revenue and profit growth. However, each of these strategies is subject to a number of risks and uncertainties, including the following:

HR Technology

In the Company's HR Technology segment, the Company intends to pursue continued growth in its online job advertising business including through the Indeed and Glassdoor hiring platforms, while expanding its capabilities through continued growth investments including acquisitions. However, the Company's ability to achieve growth may be largely impacted by developments in overall economic and labor market conditions.

In addition to these external factors, revenue growth may also depend on the Company's ability to grow its user and customer base, increase the number of sponsored jobs as well as prices for its hiring services as it automates more of the recruiting process for its customers. Revenue growth of the HR Technology segment will also depend on its ability to capture a larger share of the HR matching market.

In addition, the Company's recruitment automation solutions may not grow at the pace the Company currently anticipates due to a variety of factors, such as business clients' being less willing to adopt recruitment automation than the Company expects.

Also, the Company may fail to capitalize on anticipated market opportunities for a variety of reasons, such as its failure to adapt to new technologies, changes in the needs of individual users and business clients in the employment market and the constantly evolving regulatory and competitive landscape. As a result, there is no assurance that the Company will be able to achieve growth to the extent the Company expects or at all, or that its investments will achieve the expected benefits.

Matching & Solutions

In the Company's Matching & Solutions segment, the Company operates its online platforms as well as SaaS solutions targeting SMEs for its Marketing Solutions and HR Solutions businesses. The Company may be unable to grow its business in this segment if SMEs do not adopt its SaaS solutions including Air BusinessTools or its online platforms to the extent or within the timeframe the Company expects, or if the Company is required to incur significant costs to acquire new clients, whether due to the Company's failure in effectively acquiring new individual users or SMEs as

business clients or the Company's services being less attractive or innovative than those offered by its competitors.

Staffing

In the Company's Staffing segment, the Company intends to focus on improving profitability across its global operations. However, the Company may experience decreases in profitability, or be unable to achieve improvements in profitability to the extent the Company expects due to the tightening of regulations in any of its major operating environments, or other factors.

The Company also intends to invest in expanding its presence in the market for its HR Matching business. While the Company's HR Matching business currently operates in the online job advertising market through its HR Technology and Matching & Solutions segments, the Company also intends to continue expanding technology-driven solutions from its HR Technology segment that offer different pricing models and create cost efficiencies through automation of traditional human-driven processes in the direct hire, retained search, internal recruitment automation, and temporary staffing markets. For example, the Company has introduced Indeed Hiring Platform, a product that allows employers to manage the hiring process – from posting through interview – directly on Indeed with no additional software.

However, there can be no assurance that the Company will be able to successfully develop and introduce such solutions or that its solutions will gain market acceptance, and the Company may be unable to achieve a return on its investments in these new solutions. Moreover, although the Company has a long-term vision of offering cloud-based recruitment automation solutions that connect job seekers and employers without traditional human-driven processes, there is no assurance that the Company will be able to realize this vision due to a number of factors, including its failure to develop effective solutions or the lack of demand for such solutions materializing or regulatory restrictions. In addition, even if the Company is successful, such development may also result in a reduction in the profitability of its existing traditional businesses.

In assessing its market opportunities, the Company estimates the total addressable market for its businesses based in part on third-party data and in part on its own market research and assumptions. However, there can be no assurance that any estimates of the Company's total addressable market are accurate indications of its actual growth opportunities. In particular, certain of the Company's targeted markets, such as the internal recruitment automation market, are in the early stages of development, which makes the opportunities in these markets inherently difficult to estimate. As a result, the growth opportunities of the Company's businesses may be less than expected, and the Company may misallocate resources in pursuing such growth opportunities.

As the Company expands its existing services or launches new ones, the Company may face intense competition, greater than expected costs in establishing or expanding services and hiring and training the necessary personnel, difficulties predicting market and individual user and business client trends and the performance of its new businesses, returns from new initiatives that are smaller than expected or slower to materialize, unanticipated costs and difficulties, or other challenges that prevent it from successfully realizing its business goals.

On the other hand, it is also possible that the Company may need to exit from existing businesses or withdraw from planned investments or expansions if the Company determines that such business would not yield the desired impact or the growth potential of such business could not justify the required investment outlay. In these cases, such an exit or withdrawal may cause the Company to incur substantial costs and its business, financial condition and results of operations could be materially and adversely affected.

6. The Company's past and future acquisitions, joint ventures and strategic alliances could fail to deliver the anticipated benefits or otherwise have an adverse effect on the Company's businesses and results of operations.

As part of the Company's business strategy, the Company has actively engaged in acquisitions, minority investments, joint ventures and other strategic alliances with third parties primarily to expand its

businesses globally, acquiring new users, to expand its product and service offerings and acquiring related technologies. For example, the Company acquired Glassdoor, Inc. in June 2018 in order to expand and strengthen its HR Technology segment. The Company intends to continue to pursue acquisitions and other strategic investments or alliances in the future as attractive opportunities emerge.

Acquisitions, strategic investments and alliances entail a number of risks, including, among others:

- expenses incurred and difficulties in integrating or assimilating the operations, technology, personnel and culture of acquired businesses;
- the inability to realize the synergy effects, such as technological development, expansion of individual user traffic and business client base or cost reductions, that were anticipated in connection with the transaction;
- the difficulty in ensuring that an acquisition reaches its required regulatory compliance standards;
- the potential disruption of, and the distraction of management from, the Company's regular business operations;
- difficulties and substantial costs in connection with retaining the individual users, business clients, key management or employees of an acquired company;
- the possibility that strategic alliance partners could later become competitors and utilize the know-how and business relationships they developed or acquired while in partnership with the Company;
- the failure to ensure that the companies acquired operate in accordance with the Company's regulatory compliance standards;
- with respect to foreign acquisitions and global expansion, uncertainty regarding, and changes in, foreign laws and regulations, local restrictions on foreign investments and challenges with respect to different employee/employer relationships, labor conditions, existence of workers' councils and labor unions, cultural, linguistic or operational differences and additional risks arising from the local and regional social, political, regulatory and economic environment;
- the possibility of overestimating the value of an acquired company, underestimating its legal or contingent liabilities or receiving insufficient indemnification of liabilities or insufficient escrowed amounts or insurance to secure such indemnities from the seller;
- recording significant goodwill and intangible assets that could be subject to future impairment, as described elsewhere in this section; and
- incurrence of additional debt in connection with financing acquisitions and investments.

As a result of such risks, the Company may not be able to fully realize the benefits that the Company anticipates from any given transaction, including increased revenue and profits and other expected strategic benefits, within the expected timeframe or at all.

Furthermore, for strategic reasons, the Company has in the past acquired and may in the future acquire target companies that are unprofitable, and the consolidation of such target companies into its overall results may materially and adversely affect its consolidated financial condition and results of operations.

Although the Company conducts due diligence reviews of acquisition targets, there can be no assurance that its due diligence process will disclose all relevant risks, legal, compliance or regulatory issues, losses and other liabilities or that its assessment of the target's risks and liabilities will be accurate. In particular, with respect to acquisitions and investments in the technology sector, the Company may have difficulty accurately assessing the future viability and growth trajectory of target companies or technologies, especially where the relevant technologies are in the early stages of development and still relatively untested or are rapidly evolving in ways that are difficult to predict. As a result of these uncertainties, technology companies that the Company acquires may not attain profitability in the timeframe the Company expects or at all, and the Company may be unable to achieve the expected benefits from its investment.

The Company may also face uncertainties when the Company acquires companies with a limited operating history or a management system that requires improvement, which is often the case for early stage companies the Company targets in the technology sector, including potential compliance issues or liabilities that were not identified in due diligence. Accordingly, such risks, losses or other liabilities could have an adverse impact on the Company's business, financial condition and results of operations.

In addition, in cases where the Company acquires non-controlling interests in entities, the Company may not have the capability to effectively monitor or exercise control over the management of the entities in which the Company invests or the direction that the entity will take. As a result, the Company may not be able to cause any companies in which the Company holds non-controlling interests to implement what the Company views as optimal management policies or strategies that would enable it to achieve the expected benefits from strategic investments. This could have an adverse effect on the Company's business, financial condition and results of operations. In addition, joint ventures and other strategic alliances could limit the Company's future flexibility to work with other potential partners.

While the Company intends to continue to explore future opportunities for acquisitions, business alliances and other strategic investments, there is no assurance that the Company will be able to correctly identify attractive opportunities. Even if the Company does correctly identify potential acquisitions, alliances and investments that the Company believes would further its growth strategy, the Company may be unable to negotiate favorable terms with the target company or otherwise be unable to pursue the opportunity due to its inability to secure the necessary financing or obtain necessary regulatory approvals or other reasons.

7. The Company's expansive global operations expose it to various risks and challenges.

The Company has operations in a number of countries and regions including Japan, the United States, Europe and Australia, and the Company is working to further expand its businesses globally. However, the performance of its operations in any particular country or region could suffer or might otherwise fail to meet its expectations due to the following factors, among others:

- adverse economic conditions in the global economy or in its main operating markets as a result of the COVID-19 pandemic;
- poor regional or national economic and political conditions that could adversely impact, among other things, the advertising spend of its business clients;
- difficulties complying with legal or regulatory requirements and oversight by local regulators;
- changes in legal or regulatory requirements that could impact its operating strategies, access to global markets, hiring, and profitability;
- differing individual user and business client expectations and preferences;
- lower availability of Internet access and adoption of mobile devices;
- taxation issues;
- difficulties adapting to local market practice or local culture and customs;
- labor disputes or strikes;
- adverse political developments or general political uncertainty;
- linguistic and communication difficulties;
- a worsening of international relations involving any of the countries in which the Company operates;
- seasonal reductions in business activity;
- a higher risk of litigation in certain regions;
- restrictions on share ownership by foreign entities;
- difficulties hiring and retaining highly skilled management personnel, engineers and other staff;
- lower brand name recognition; and

- difficulties in monitoring business the Company conducts across a diverse range of countries and regions.

Unfavorable performance of the Company's global operations for the above reasons or any other factors would have an adverse effect on its businesses and results of operations. In addition, the Company's exposure to the risks discussed above will increase as its global operations continue to expand.

8. The Company's inability to attract and retain qualified employees and maintain a positive work environment for its employees could harm its business and inhibit its ability to operate, grow and achieve innovation successfully.

For the Company's businesses to be successful, many of its employees must have high levels of technical skill and know-how, strong client relationships and client management skills, a thorough understanding of relevant markets and other specialized knowledge, and have a strong drive to innovate, all of which are in high demand in the Company's industries.

In order for it to remain competitive, grow its businesses and adapt its business models to changing markets, the Company needs to attract, develop and retain talented personnel in a number of areas including management, engineering, sales, and other fields and develop a diverse workforce that brings a wide range of unique backgrounds and perspectives to its businesses. The Company must also continually train its employees to respond to changes in the market for its products and services and evolving technology.

In addition, the Company must also maintain a positive and safe work environment that provides the necessary support and flexibility for its employees and temporary staff in its temporary staffing business, including allowing for remote working arrangements where necessary. Any failure to maintain a positive working environment could result in the infringement of the civil rights of such employees or temporary staff, which could harm the Company's reputation and brands or materially and adversely affect its business, financial condition and results of operations.

Any failure to hire, train, retain, motivate and manage the required workforce may limit the Company's growth, damage its reputation, negatively affect its financial performance, impede its ability to achieve innovation and otherwise harm its business.

In particular, talented and experienced IT engineers have become increasingly important in the Company's HR Technology and Matching & Solutions segments. Due to the Company's increasing dependence on and the scarcity of such engineers, the Company's success going forward depends in part on its ability to continue to recruit, train, develop and retain such personnel, which could have a negative impact on its profitability if the Company is required to pay higher compensation to secure or retain qualified personnel.

If the Company loses key personnel, including key members of its management team and engineers, to competitors or at a rate greater than the Company anticipates, or if the Company has difficulty attracting new, highly talented employees, the Company's reputation and its business, financial condition and results of operations could be materially and adversely affected. There is also a risk that a former employee could utilize knowledge and business relationships developed while employed with it in a competing business.

9. The Company may be subject to liability and regulatory action or suffer reputational damage if the Company is unable to maintain the security and the privacy of its data or maintain effective policies and procedures for the storage, management, usage and protection of personal, confidential or sensitive information.

Due to the nature of the Company's business operations, and the large number of individual users who utilize its services and transmit and store personal information through its systems, the Company possesses a substantial amount of personal, confidential or otherwise sensitive information with respect to current, past or prospective individual users, business clients, and business partners.

The requirements under the Act on Protection of Personal Information of Japan (Act No. 57 of 2003, as amended), or the Act on Protection of Personal Information that apply to the Company's handling and use

of personal information in its Japanese operations have become more stringent. The Company is also subject to laws and regulations regarding personal information in the other countries in which the Company operates, such as the General Data Protection Regulation, or the GDPR, in the EU. Furthermore, many individual US states, such as California, which enacted the California Consumer Privacy Act of 2018, or the CCPA, as amended by the California Privacy Rights Act of 2020, or the CPRA, which will go into effect in 2023, are also increasing regulatory compliance standards regarding the handling and use of personal information.

Certain of these regulations impose fines or direct liability on businesses for data breaches where data security systems are found to be inadequate, in some cases regardless of harm to the affected users, and the potential amount of fines or liability can be substantial. For example, certain violations of the GDPR and the CCPA can result in significant fines or liability, even in some cases where individual users experienced no harm. Compliance with these laws and regulations, the requirements and interpretations of which may differ significantly from country to country, has become more complex in recent years due to the increasing awareness of management of personal, confidential and sensitive information.

Accordingly, the cost of complying with these laws and regulations is substantial and has been increasing. In addition, such laws and regulations related to the handling and use of personal, confidential and sensitive information have become stricter in recent years and may become even more stringent in the future, or the Company may change its policies concerning handling and usage voluntarily or in response to violations of applicable laws and regulations, perceived wrongdoing or for other reasons. As a result, it may become difficult for it to utilize certain information that is critical to the Company's existing products and services or to develop new products and services, which in turn may harm its ability to maintain or grow the number of the Company's individual users or business clients.

Authorities in various countries are considering a number of legislative and regulatory proposals concerning data protection, including measures to ensure that encryption of users' data does not hinder law enforcement agencies' access to that data. In addition, as many consumer and data protection laws and regulations have been in force for a relatively short period, the interpretation and application of consumer and data protection laws and regulations are often uncertain and in flux, and it is possible that these laws and regulations may be interpreted and applied in a manner that is inconsistent with the Company's current data practices.

If the Company fails to comply with any such laws and regulations, the Company could suffer damage to its reputation and its brands, including loss of confidence in its platforms by individual users, business clients or other third parties or in its ability to manage its businesses by current or potential individual users, business clients and business partners. The Company could also be subject to liability or regulatory investigations or legal or other actions from regulators, users or other third parties relating to actual or alleged violations of laws and regulations surrounding data protection and privacy or otherwise. Any new restrictions or limitations relating to data protection and security may result in the deterioration of the quality of the Company's products and services that rely on data and its overall competitive advantage, and possibly result in a loss of individual users or business clients or necessitate a revision or overhaul of its business models and strategies.

The personal and other data the Company collects in connection with its business as well as the technologies the Company uses to manage this data have become increasingly important parts of its business, and the Company relies on the integrity of its systems and security procedures to ensure adequate protection of its data.

However, there can be no assurance that the Company's efforts to ensure the security and proper management of such information will be fully effective. In particular, the Company has in the past experienced cyberattacks of varying degrees targeting its services, and there can be no assurance that such attacks will not occur in the future or that the Company will be able to successfully protect its data from unauthorized access in the event of any future attacks.

In such an event, the number of individual users affected, due to the size of the Company's user base, could be extremely large, potentially resulting in a correspondingly large liability. In addition to cyberattacks, information could be leaked or improperly accessed, used or handled as a result of a range of factors including third-party security breaches, system failures or errors, software bugs, inadequate

policies or procedures, employee error, malfeasance, hacking, theft, faulty password management or other irregularity.

Any unauthorized disclosure or use of, or other failures to properly store, manage or protect, personal, confidential or sensitive information, including any failure to obtain valid consent from affected individual users or business clients, could adversely affect the Company's businesses in a number of ways, including legal liability stemming from claims from individual users, business clients, temporary staff or other third parties, or government investigations, actions or sanctions.

The Company may also incur additional expenses associated with updating or strengthening its systems, policies and procedures, either voluntarily or in response to administrative guidance or other regulatory initiatives. In addition, such incidents could create a negative public perception of the Company's operations or harm its reputation and brand, which could in turn decrease its individual users' and its business clients' confidence in it and damage its relationships with them, causing current or potential individual users or business clients to decline to use its services.

10. Information technology systems are a critical part of the Company's operations and any cyberattacks, systems failures or other disruptions affecting these systems could have an adverse effect on its business.

The analysis, storage, retrieval, management and security of large amounts of data is an important part of the Company's business. Any impairment in the reliability or availability of, or any security breach in, the Company's information systems due to cyberattacks, systems failures or other factors could:

- have an adverse effect on its products and services and their continued availability;
- result in negative publicity about it or its brands or harm its brand strength, reputation and relationships with individual users and business clients;
- harm the continued adoption of its services by individual users and business clients or negatively impact accessibility, performance and load times of its services, which could cause a loss of individual user or business client traffic on its services;
- subject it to legal and regulatory risk including litigation, government investigations or other legal actions;
- result in large monetary judgments or a duty to remediate against it, or result in it voluntarily offering monetary or other compensation to affected parties; and
- materially and adversely affect its business, results of operations and financial condition.

Although the Company has implemented policies and procedures to address these risks, no system can be designed to be completely immune to breaches or outages. The Company's systems are not fully redundant and its disaster recovery planning may not be sufficient. System interruptions and malfunctions can occur for a number of reasons, including cyberattacks, hacking, computer viruses, sabotage, human error, natural disasters, power failures, software errors, hardware problems, network failures, terrorism, geopolitical conflict, difficulties with the Company's service providers, overwhelming online traffic and similar factors.

In particular, cybersecurity-related attacks, intrusions and disruptions, including through spyware, viruses, phishing, denial of service and similar attacks by criminal organizations, hackers, foreign governments and terrorists, have become increasingly prevalent in the Company's industry. The Company has in the past experienced cyberattacks of varying degrees targeting its services, and there can be no assurance that such attacks will not occur in the future or that the Company will be able to successfully defend its systems from any future attacks. In addition, the Company has seen, and expects to continue to see, industry-wide vulnerabilities, such as the Log4j vulnerability reported in December 2021, which could affect the Company's and other parties' systems.

Certain of its services have also experienced downtime due to systems disruptions or other outages. As the Company expands its information technology-based offerings to support business clients' workflows, the Company may be more likely to experience malfunctions of this kind despite any preventative

measures the Company may take, which may result in legal liability for damages or voluntary compensation or other costs or in damage to its reputation.

For example, as part of its efforts to expand operational and management support services for its business clients including SMEs, the Company launched Air BusinessTools, which includes such cloud-based services as point-of-sale (POS) and payment systems. If the Company experiences systems failures in connection with such services, the Company may be held responsible by its individual users and business clients for losses, and the perception of the reliability of its services and its overall reputation could be negatively impacted.

In addition, the Company depends on third parties to provide and maintain certain of its information systems, and accordingly some system problems and failures may be outside of its control. For example, the Company relies on third-party cloud infrastructure providers to host all of its cloud-based services, and its reliance on cloud infrastructure providers will increase as the Company intends to migrate more of its services and data storage to cloud infrastructure in the future. Potential security breaches to the systems of these third-parties, whether resulting from internal or external sources, could significantly harm its business. Furthermore, the cost of developing, maintaining and expanding its information technology infrastructure could also increase substantially in the future.

11. The Company's software applications may contain defects.

The Company provides certain of its services to individual users and business clients through software applications and in some cases, such as AirPAY, a payment system service offered through Marketing Solutions in its Matching & Solutions segment, hardware devices, including mobile and online applications that are highly technical and complex.

The Company's software applications or hardware devices may contain bugs and other defects that interfere with their intended operation that the Company is unable to detect prior to introducing the relevant service. Any defects the Company does not detect and fix may prevent it from providing its services in a responsive and reliable manner and could cause degradations or interruptions of service, negative experiences for individual users and business clients, repair or remediation costs, delays in the release of new products or versions, difficulties in adequately protecting the data of its individual users and business clients or legal liability from various issues such as loss or leakage of confidential or personal information or under applicable regulatory regimes. In particular, as many of its online services have significant user bases, any defects in the Company's software applications could potentially affect a significant user population.

As a result of any such defects, the Company may suffer damage to its reputation, loss of individual users or business clients, loss of revenue or liability for damages, any of which could adversely affect its business and financial results.

In addition, in certain of its businesses, the Company provides its business clients with platforms through which they operate key business functions, such as online reservations, POS, cash registers, payments, and attracting and connecting with individual users.

If there is any defect in the software used to provide these platform services, the Company's business clients may experience disruptions in their business operations or losses or leakage of sensitive or personal data relating to their business or their users, and the Company expects its exposure to these risks will increase as the Company expands its SaaS business through Air BusinessTools, a comprehensive suite of tools aimed at enhancing the efficiency and productivity of business clients including SMEs, in its Matching & Solutions segment.

12. The Company's businesses are subject to various laws and regulations.

The businesses that the Company currently operates, as well as those that the Company may operate in the future, span many fields and countries and consequently are subject to a variety of laws and government regulations such as personal information and data protection, electronic communications, consumer reporting, labor, civil rights and social welfare, anti-bribery, taxation and antitrust laws.

Furthermore, the Company is required to obtain government permission or approval or to register for licenses in order to conduct certain of its businesses, and certain of its businesses are subject to supervision and monitoring by regulatory authorities.

Being subject to these laws and regulations exposes its businesses to certain risks. As a general matter, the legal and regulatory structures that apply to the Company's various businesses are complex and even an inadvertent failure to comply with them could result in fines, penalties, losing permission to operate some of its businesses, being ordered to suspend operations, litigation and other legal proceedings and have an adverse effect on its reputation.

Furthermore, future changes in such laws or regulations or entry into new regulated businesses could necessitate costly compliance expenditures and increase the risk that the Company could fail to comply with applicable requirements or miss business opportunities as a result of restrictions imposed or delays caused by responding to such changes in laws or regulations.

Any new or amended laws and regulations may require it to change its business models or practices, or may prevent it from conducting existing businesses or entering into new businesses, which could adversely impact its business and results of operations and impede it from executing its growth strategy as planned.

For example, there have recently been active discussions among companies globally regarding civil rights and social welfare issues, and if the Company is unable to appropriately respond to changes in the laws and regulations concerning such issues, the Company's brand and reputation may be adversely affected. In addition, taxes imposed on the use of social media, digital services or other mobile applications in certain countries, or other actions by governments that may affect the accessibility of its products or users' technology usage patterns in their countries, may cause a decline in its individual users' engagement with its products.

HR Technology

The Company's HR Technology segment is subject to various laws and regulations. For example, in the United States, the Company's activities may be subject to the Communications Decency Act, the CCPA (as amended by the CPRA), the Telephone Consumer Protection Act, the Wiretap Act, the Stored Communications Act and the Fair Credit Reporting Act as well as various state legislation covering the same or similar topics. In addition, the Company's HR Technology segment is, or is expected to be, subject to other regulations including the GDPR, the Digital Services Act and the Digital Markets Act in the EU and the Act on Protection of Personal Information and the Employment Security Act in Japan. Moreover, legislation regulating the use of AI has been proposed in the EU, and a blueprint for an AI Bill of Rights has been announced in the United States.

If any new laws and regulations are introduced or enforced, or if existing laws and regulations are amended or interpreted in a manner that is unfavorable to us, the Company's HR Technology segment operations may become subject to additional restrictions and costs, and it may require significant time and resources to respond to any new or amended laws or regulations.

Additionally, Indeed is considered an "online platform" under the Digital Services Act. This places certain obligations on the Company, such as transparency obligations for advertisements. Moreover, if the number of users increases and exceeds a certain level in the EU region in the future, further requirements on recommendation systems, etc. would be imposed, and compliance with these obligations may impact the Company's business and results of operations.

There are currently legislative proposals to amend the Communications Decency Act in the United States to significantly increase the Company's potential liability by eliminating or reducing immunities currently available to its platforms which publish material posted by third parties, such as reviews and job solicitations. As another example, the proposed Algorithmic Accountability Act in the United States, similar proposed laws regarding Artificial Intelligence, and interpretations of existing U.S. civil rights laws, may require it to undertake additional compliance costs in implementing its search algorithms and may reduce the effectiveness and confidentiality of its algorithms depending on the extent of government intervention.

Other laws may restrict the use of algorithms or background checks regarding potential employee candidates or even the ability to make recommendations regarding candidates, all of which could have a negative impact on its business. In addition, there are a variety of new laws and proposals in the United States on the federal, state and even local levels placing new security and privacy obligations on companies that handle personal data which could place burdens on the Company that may negatively affect its business.

Additionally, legislators are examining companies that maintain digital marketplaces, such as the Indeed search engine, and may place restrictions on companies placing their own products on such marketplaces. The applicable laws and regulations in the technology sector are still evolving, particularly in Europe and the United States, and more stringent laws and regulations concerning the technology sector may be implemented in the future.

For example, if new requirements or restrictions are imposed on the collection, use and analysis of information regarding user behavior in connection with its services, the Company may be restricted from using such information as planned and be forced to change its strategy and business practices.

As a result of any of the foregoing, the business, financial condition and results of operations of its HR Technology segment may be adversely affected.

Matching & Solutions

In the Company's Matching & Solutions segment, the Company's various services are subject to a number of laws and regulations. For example, the Company is subject to personal information and data protection laws relating to individual user and business client data stored on its systems. With respect to the Company's payment business of its Marketing Solutions, which is offered through AirPAY, which is a cloud-based payment service, the Company is also subject to regulations under the Installment Sales Act of Japan (Act No. 159 of 1961, as amended), or the Installment Sales Act, and are operating with the registration from and under the supervision of the Minister of Economy, Trading and Industry.

In addition, the Company's placement service of its HR Solutions operates on a fee basis with the permission of the Minister of Health, Labour and Welfare in compliance with the Employment Security Act. Changes to the applicable regulations could affect the pricing of the Company's fees. Noncompliance with applicable laws, rules and regulations could lead to the loss of permission to operate or being directly ordered to suspend operations.

Staffing

The Company's Staffing segment is also subject to a number of laws and regulations relating to temporary staffing and employment.

The Company's Staffing segment in Japan operates with a license from and under the supervision of the Minister of Health, Labour and Welfare and is also subject to the Act for Securing the Proper Operation of Worker Dispatching Undertakings and Protection of Dispatched Workers of Japan (Act No. 88 of 1985, as amended), or the Staffing Labor Act and related rules and regulations.

Any business that provides staffing services in Japan but does not comply with applicable laws, rules and regulations, including the Staffing Labor Act, is subject to the risk of being issued a business improvement order, losing its permission to operate as a staffing business or being directly ordered to cease its operations. If temporary workers suffer a work-related accident, the Company may be obligated to make compensation payments as the dispatching agency.

The Company's Overseas operations in the Company's Staffing segment are concentrated in the United States, Europe and Australia. Laws and regulations regarding temporary staffing in these regions may be implemented on a state-by-state (or, in the case of the European Union, member state-by-member state) basis, as well as on a federal, nationwide or region-wide basis. It is also possible that any failure to comply with local laws, rules or regulations in the Company's Overseas operations in its Staffing segment, whether in the United States, Europe, Australia or elsewhere, could result in it losing permission to operate its businesses in the relevant jurisdiction.

Further reforms may be proposed in the future that would introduce additional restrictions on permitted staffing in certain industries and provide additional protections for temporary staff, which could negatively impact the Company's business and results of operations.

As a general matter, future changes in employment-related laws and regulations in Japan and overseas could necessitate costly compliance expenditures and increase the risk that the Company could fail to comply with the applicable requirements.

Changes related to any of the above could materially and adversely affect the Company's business, financial condition and results of operations.

13. *The Company may be subject to legal and arbitration proceedings and litigation, which could be costly and could materially and adversely affect its brands, reputation, business and results of operations.*

The Company is subject to litigation and other legal and arbitration proceedings in the ordinary course of its business.

The Company may in the future be subject to claims, allegations, lawsuits, including class action lawsuits, minimum statutory penalties and regulatory investigations regarding antitrust or competition law violations, patents and other intellectual property, the protection of personal information, data privacy and security, consumer protection, tax, labor and employment, commercial disputes, content generated by its individual users, goods and services offered by advertisers or publishers using its platforms, false or deceptive advertising, delivery of services and alleged actions or other issues relating to the monitoring of its temporary staff, among other matters, from individual users, business clients, competitors, regulators and others, including proceedings originally commenced against third parties such as its individual users and business clients. These proceedings can be expensive and disruptive to its normal business operations.

In addition, the Company cannot be certain that its services, products and features do not infringe on the intellectual property rights of others, and the Company may be subject to infringement claims from third parties. In certain countries non-practicing entities have purchased patents for the sole purpose of filing lawsuits based on these patents or obtaining license fees on them. These proceedings are often protracted and costly, regardless of the merit of the claims involved, and the results may be difficult to predict. The Company cannot be certain that it will succeed in defending future claims, that judgments will not be rendered against it or that any reserves the Company set aside or insurance policies will be adequate to cover any such judgments.

A determination adverse to it in any of these legal proceedings could result in significant costs, penalties or fines or require the Company to pay royalty fees and modify its services and products in order to provide non-infringing substitutes or cease the use of certain services, products or features altogether, which could materially and adversely affect its brands, reputation, business and results of operations.

14. *The Company's reputation and those of its brands are important to its success, and any damage to them could materially and adversely affect the Company's business, financial condition and results of operations.*

The Company believes that the brand identity the Company has developed has significantly contributed to the success of its business and will continue to be a significant competitive factor going forwards. The Company depends on its brands and reputation to maintain and expand its user base, which in most businesses comprises mainly general consumers who tend to have a relatively high level of sensitivity to and awareness of brand and reputation. The Company's business clients, which include a large number of SMEs, are also highly sensitive to our brand and reputation.

The Company's brand and reputation could be harmed due to a number of factors, including defects or errors in its services, cyberattacks and other cybersecurity breaches, failure to adequately protect individual user and business client data, inadequate investments to maintain and enhance its brand and reputation, its competitors' achieving greater brand recognition, adverse media coverage or rumors including on the Internet or social network platforms about it or its business, regardless of whether such

content is true or not, misconduct by its employees or its temporary staff, claims against it by its temporary staff or employees relating to its employment practices, unpermitted use of its brands by a third-party, unfavorable litigation or other factors, regardless of whether such damage was caused by its fault or the fault of others.

Furthermore, as the use of technology and data in its business has become increasingly important, the use of algorithms such as artificial intelligence in its services and its use and management of data on its platforms could lead to negative outcomes or be viewed negatively by some individual users and business clients and adversely affect its reputation and brands.

In addition, in the event that the Company, or one of its individual users or business clients in any of its businesses, engage in misconduct or inappropriate behavior or acts through its platforms or engage in illegal activity such as infringement of third-party intellectual property, violation of personal privacy rights, libel or any other illegal act or malfeasance, its reputation and that of its brands could be materially damaged directly or by association due to its relationship with such individual user or business client.

For example, for certain of the Company's platforms such as its job search engines that provide content or host advertisements that come from or can be influenced by third parties, its reputation or brands may be negatively affected if its individual users or business clients engage in misconduct, illegal activity or other inappropriate behavior such as web spam, phishing, impersonating other people or organizations or posting false, misleading or inappropriate job information or user generated content (UGC) such as employer information or other information. The Company has limited ability to affect the behavior of individual users and business clients, and even in the event that it is able to do so its proposed solution may not be satisfactory to all affected parties. In such cases the Company could be subject to claims or legal proceedings, face harm to the Company's and its brands' reputation, business and results of operations.

The Company is also subject to the risk that third parties could imitate its products or services or use its brands, trademarks, logos or other intellectual property without permission.

Although the Company believes it has in place robust protections for its intellectual property, there can be no assurance that these measures will be successful in preventing others from infringing its intellectual property rights and damaging its and its brands' reputation. Effective intellectual property protection may not be available in every country in which our products and services are made available. In addition, the Company may not be able to discover or determine the extent of any unauthorized use of our proprietary rights, particularly as policing the Internet for improper use of our brands, trademarks and logos increases in difficulty as the Internet expands. Other parties could also initiate claims or legal proceedings alleging that the Company infringes their proprietary rights, which may result in the loss of its ability to use certain brands, trademarks or logos, which could damage our market presence and reputation.

15. *The Company relies on third-party service providers, such as search engine platforms, data center providers, payment providers, sales agents and Internet service providers in various areas of its business.*

The Company relies on third-party service providers in a number of critical areas of its business. The occurrence of any of the below, including the termination or deterioration of its relationships with such third-party service providers, could materially and adversely affect its competitiveness and its business, financial condition and results of operations.

Certain of the Company's services in its HR Technology and Matching & Solutions segments rely on Internet search engines provided by global technology companies primarily for the purposes of ensuring its individual users access to its online platforms. User traffic on the Company's online platforms can be significantly impacted by changes in the search algorithm of the search engine operators or as a result of actions by its competitors that render online search results through its third-party search providers less favorable to us, which would in turn impact its business and presence among users.

The Company's HR Technology segment also relies on third-party publisher networks to drive traffic to its platforms by adding its content to their websites. Any failure of such publisher networks to effectively promote its services could result in reduced user traffic and harm to its business and competitive position.

The Company also offers mobile applications through the platforms of third-party global technology companies to enhance the accessibility of its services and expand its individual user traffic. If the Company becomes unable to provide its applications through these platforms, either due to vendor policies, platform updates or otherwise, the Company's ability to expand its mobile user base and increase user traffic on its services would be adversely affected.

Furthermore, the Company relies on third-party data center providers in its operations, and any disruption or interruption to the data center service or deterioration of the network performance of such service, as well as any increase in server usage fees or other additional costs, could materially and adversely affect the Company's competitiveness and its business, financial condition and results of operations.

The Company also relies on third parties to provide certain payment methods and payment processing services, including the processing of credit card transactions. As a general matter, any third party that has access to data on its systems is a potential entry point for unauthorized access, which exposes it to the risk of security breaches of such third-party systems.

The Company also makes use of third-party sales agents or media agencies to manage sales to, and other relationships with, the Company's business clients to enhance its sales ability and maintain a cost structure that allows it to respond more flexibly to economic volatility. However, the Company's reliance on such sales agents involves certain risks. In particular, because the Company generally works closely with these sales agents over long periods of time, the loss of a sales agent reduces the strength of its sales network and could result in the loss of business clients and transfer of know-how to a competitor.

Additionally, the Company exerts less direct control over third-party sales agents compared to its own employees, and the agents' actions in the course of their work for it or otherwise may harm its reputation or expose it to litigation.

The Company's online services also more generally depend on the ability of the Company's individual users and business clients to access its services through the Internet. Currently, this access is provided by companies that have significant market power in the broadband and Internet access marketplace, and these providers may take measures that could degrade, disrupt, or increase the cost of user access to certain of its products by restricting or prohibiting the use of their infrastructure to support or facilitate its offerings, or by charging increased fees to the Company or its users to provide its offerings.

The Company's services may also be subject to government-initiated restrictions or blockages in some jurisdictions. Any such interference or disruption of access to its online services through the Internet could result in a loss of existing individual users and business clients and increased costs, and could impair its ability to attract, maintain or increase the number of users, customers and advertisers, thereby harming its revenues and growth.

Furthermore, any limitation from the Company's third-party Internet access providers on the use of third-party cookies could reduce its ability to provide targeted information to its individual users and negatively impact various areas of its business.

16. *The Company's advertising, sales and marketing efforts may be ineffective, may lead to increased costs and may negatively affect its revenue and margins.*

As part of its strategy to expand its business, the Company engages in advertising, sales and marketing activities in order to increase recognition of new or existing services and expand its individual user and business client bases. The Company is substantially dependent on its advertising, sales and marketing operations to maintain brand recognition and user traffic on its services and to acquire new business clients and enhance client satisfaction with its services.

In particular, as many Internet users rely on search engines to refer them to products and services, the Company's HR Technology segment and Matching & Solutions segment depend in part on various such search engines to generate user traffic on its websites, particularly when the Company expands into new markets or business areas where the Company does not have an established presence. Thus, maintaining a strong search engine ranking is an important factor in the Company's success in those businesses, and the Company may be required to incur expenses to enhance its search engine rankings as the Company seeks to maintain and expand the market presence of certain businesses. However,

there is no guarantee that such efforts to enhance its search engine rankings would yield the outcome the Company desires.

The Company may also engage in other advertising including online, television and radio advertising to increase awareness of its services on the Internet and more generally among potential individual users and business clients. In the Company's Staffing segment, the Company may also rely on advertising to increase registered temporary staff, particularly in markets where there are labor shortages.

Although the Company may undertake significant additional advertising, marketing and sales costs in order to expand certain businesses, the Company's efforts may not be effective in building its brand recognition or expanding its business to the extent the Company expects or at all.

17. The Company's business operations are exposed to natural disasters, terrorism, pandemics, calamities or other factors.

Despite any preparatory measures the Company takes, the Company's business operations, technology infrastructure, employees and physical assets will remain subject to the risk of fire, earthquakes, tsunamis, typhoons, hurricanes and other natural disasters, blackouts and other power losses, acts of terrorism, criminal cyberattacks, power loss, pandemics and other catastrophic events. Any of these events could impact the Company's ability to provide its services or otherwise operate its business, including due to disruptions affecting the workforce the Company needs to operate its business including its employees, employees of its service providers and its temporary staff, business restrictions under stay-at-home orders and other government measures or damage to its properties.

In particular, any of these catastrophic events could result in disruptions to its operations, including failure of its information systems or data servers that have not been backed up, and in such circumstances its ability to successfully implement its business continuity plan will be crucial to its recovery. In the event that the Company experiences a system failure or systems delays, particularly if these issues are widespread within its infrastructure, or are unable to fully implement its business continuity plan, the Company may be unable to offer certain products and services, and even if they are available, the Company's Internet-based products and services may experience increased load times or other disruptions.

In such an event, the Company's individual users may become dissatisfied and reduce their usage of its products and services or switch to those of its competitors. In addition, disruptions to the business or information systems of its individual users and business clients could damage its brand and reputation and lead to reduced revenues, errors in the transactions that the Company is involved in, or other problems.

In addition, large-scale natural disasters could have secondary adverse effects, such as the destruction or incapacitation of or other harm to its business clients' business operations or deterioration in economic conditions generally or causing its individual users to refrain from engaging in lifestyle activities.

Any of these outcomes could impair the Company's business operations and materially and adversely affect its business, results of operations and financial condition.

18. Any impairment of the Company's non-current assets, including goodwill and intangible assets, or fluctuations in the value of its securities holdings, could adversely affect its results of operations or financial condition.

The Company may be required to record a significant charge on its consolidated financial statements during the period in which any impairment of its non-current assets is determined. Impairment may result from, among other things, deterioration in performance, adverse market conditions, adverse changes in applicable laws or regulations, including changes that restrict the activities of or affect the products and services the Company provides, challenges to the validity of certain registered intellectual property, disposals of group assets, changes in its strategies, increases in interest rates and a variety of other factors.

Accordingly, any determination of impairment of asset value, including goodwill and other intangible assets, could have a material adverse effect on the Company's results of operations.

Moreover, to the extent that the Company acquires early stage companies that have not achieved profitability, the Company may be subject to impairment risk relating to any goodwill and intangible assets recorded in connection with the acquisition.

In addition to goodwill and intangible assets, the Company's other non-current assets, including property and equipment and investments in associates and joint ventures, are also subject to the risk of impairment.

Furthermore, the Company also holds equity securities of certain companies it considers to be necessary business partners in order to maintain and strengthen business relationships with these companies to support its long-term growth. The Company generally recognizes changes in the fair value of these securities as part of other comprehensive income, which has the effect of increasing or decreasing its retained earnings. Declines in the value of such securities could thus have an adverse effect on its financial condition.

19. The Company may have additional tax liabilities.

The Company is subject to income taxes in Japan and many foreign jurisdictions. Significant judgment is required in determining its worldwide provision for income taxes. In the ordinary course of the Company's business, there are many transactions and calculations where the ultimate tax determination is uncertain. The Company regularly is under audit by tax authorities in different jurisdictions.

Economic and political pressures to increase tax revenue in various jurisdictions may make resolving tax disputes favorably more difficult. Although the Company believes its tax calculations are reasonable, the final determination of tax audits, and any related litigation in the jurisdictions where the Company is subject to taxation could be materially different from its historical tax calculations. The results of an audit or litigation could have a material effect on its consolidated financial statements in the period or periods in which that determination is made.

The Company earns a portion of its operating income from outside Japan, and any repatriation of funds currently held in foreign jurisdictions to Japan may result in higher effective tax rates for the Company. In addition, there is risk that the Company's tax exposure could be adversely affected if, for example, tax related laws and regulations, including the interpretation thereof, change due to political or economic conditions in the jurisdiction in which the Company operates.

Further, because the Company is subject to tax examinations by relevant tax authorities on a regular or irregular basis, it is difficult to accurately predict their timing and results. The Company's exposure to the above tax risks could materially and adversely affect its business, results of operations and financial condition.

The Company may also become subject to new taxes applicable to online businesses based on changes in tax laws and regulations and enforcement of such laws and regulations by tax authorities. For example, the Organization for Economic Cooperation and Development (OECD) has been working on a Base Erosion and Profit Shifting Project that, if implemented, would change various aspects of the existing framework under which tax obligations are determined in many of the countries in which the Company operates. Currently, there are ongoing discussions to implement multinational tax systems that would impose a minimum common tax rate across multiple countries as well as tax systems that would redistribute a fixed percentage of profits in excess of a certain amount earned by multinational corporations to market countries in which the corporations operate. As any such frameworks would be subject to further negotiation and implementation by each member country, the timing and ultimate impact of any such changes on the Company's tax obligations are uncertain.

However, there are a number of uncertainties surrounding the actual procedures for applying any of these taxes, and the financial impact of any such taxes on the Company's business and results of operations is unclear.

In addition, in the United States, the Company may become subject to increased state sales taxes in connection with possible changes to its service offerings. In addition, state tax authorities may assert additional state taxes are owed based on interpretations of the current law.

Any changes to international tax laws could impact the tax treatment of the Company's foreign earnings and adversely impact its effective tax rate. Further, changes to tax laws and additional reporting requirements could increase the complexity, burden and cost of compliance.

Due to the large and expanding scale of the Company's international business activities, any changes in taxation of its activities or the combined effect of tax laws in multiple jurisdictions may increase its worldwide effective tax rate, increase the complexity and costs associated with tax compliance (especially if changes are implemented or interpreted inconsistently across tax jurisdictions), and adversely affect its results of operations and financial condition.

20. *Fluctuations in currency exchange rates could materially and adversely affect the Company's business, financial condition and results of operations.*

The Company has substantial operations outside Japan and have significantly expanded its global businesses in recent years. The Company principally conducts its global business transactions in foreign currencies, in particular the US dollar, the Euro and the Australian dollar.

Foreign currency-denominated assets and liabilities are reported in the relevant local currencies and then translated to Japanese yen at the period-end applicable exchange rate, while foreign currency-denominated results of operations are reported in local currencies and then translated to Japanese yen using the spot exchange rate at the date of the transaction or a rate that approximates such rate.

As a result of these factors, fluctuations in foreign currencies against the Japanese yen may adversely affect the impact of favorable results or amplify the impact of unfavorable results at the Company's overseas subsidiaries.

Although the Company may enter into derivatives transactions to hedge a portion of its foreign currency exchange rate risk, there is no assurance that its hedging efforts will be effective in protecting the Company against exchange rate fluctuations. Depending on the size of the exposures and the relative movements of currency exchange rates, if the Company chooses not to hedge or fail to hedge its exposures effectively, the Company could experience a material adverse effect on its results of operations and financial condition.

Furthermore, volatility in foreign exchange rates could negatively affect economic conditions in the Company's operating markets, potentially leading to decreased advertising spending by its business clients or harm its ability to execute acquisitions or other strategic transactions abroad, which is an important piece of its strategy for growth globally, at an acceptable price.

21. *The Company relies on borrowings to finance its operations, and factors such as increases in interest rates for its borrowings could materially and adversely affect it.*

Although the Company finances its operations and investment activities primarily through operating cash flows, the Company also obtains financing through loans from banks and other financial institutions and issuing bonds in the capital markets. The Company may incur additional indebtedness in the future depending on the overall funding environment including interest rate trends. Increases in interest rates could substantially increase its financing costs and may impair its ability to borrow necessary funds on a timely basis.

In addition, the Company's creditworthiness may decline in the future due to adverse changes in the Company's financial condition or business, which would negatively affect its ability to obtain additional borrowings in the future on terms that are acceptable to the Company or at all.

The Company may enter into additional borrowings in the future that may subject it to covenants or other restrictions that can impede its ability to manage its operations.

If the Company fails to comply with such covenants, the repayment of the principal of, or accrued interest on, the Company's loans could be accelerated or the Company could be required to post collateral to secure its borrowings. The Company may also have difficulties in obtaining additional financing on acceptable terms to the extent that its credit ratings decline.

In addition, as a holding company with no business operations of its own, the Company relies on cash flows from subsidiaries to meet its obligations, including to service any debt obligations. The Company's subsidiaries may be restricted in their ability to pay cash dividends or to make other distributions to it and therefore, the Company's ability to meet its obligations may be adversely affected by such restrictions.

22. The Company's operating results may fluctuate, which makes its results difficult to predict and could cause its results to fall short of expectations.

The Company's operating results may fluctuate as a result of a number of factors, many of which are outside of its control.

As a result, comparing its operating results on a period-to-period basis may not be meaningful, and you should not rely on its past results as an indication of its future performance. The Company's operating results in future periods may fall below market expectations as well as its internal business objectives or financial targets. For example, although its HR Technology segment has been a key growth driver in recent years, it is uncertain whether its HR Technology segment will continue to achieve revenue growth at the expected pace or at all. Any of these events could cause its stock price to fall. Each of the risk factors listed in this section in addition to the following factors may affect the Company's operating results:

- its ability to continue to attract and retain individual users and business clients to its services, including by successfully responding to changes in individual user preferences and business client needs;
- its ability to keep pace with rapid changes in technology;
- the amount of revenues and expenses generated and incurred in currencies other than Japanese yen, and its ability to manage the resulting foreign exchange risk;
- the amount and timing of advertising expenses, other operating expenses and capital expenditures related to the maintenance and expansion of its businesses;
- its focus on long-term goals over short-term results;
- acquisitions and other strategic investments;
- introduction of new businesses, products, services and technologies; and
- changes in economic conditions or the business environment, including due to the impact of the COVID-19 pandemic.

Because its businesses are changing and evolving, the Company's historical operating results may not be useful to you in predicting its future operating results.

23. The Company's stock price may be volatile or difficult to predict due to fluctuations in its operating results or other factors.

The trading price of its common stock has been, and is likely to continue to be, volatile. In particular, the Company's operating results may fluctuate significantly due to a number of factors, including the various risk factors discussed in this section, which could negatively affect its stock price.

In addition, the trading price of the Company's common stock may fluctuate significantly in response to numerous other factors, many of which are beyond its control, including:

- the financial projections the Company may provide to the public, any changes in these projections or its failure to meet these projections;
- actions of securities analysts who initiate or maintain coverage of the Company, changes in financial estimates by any securities analysts who follow it, or its failure to meet these estimates or the expectations of investors;
- additional shares of its common stock being sold into the market by the Company, its existing stockholders, or in connection with acquisitions, or the anticipation of such sales;
- changes in the Company's dividend policy or planned share repurchases;

- investor sentiment with respect to the Company's competitors, its business partners, and its industry in general;
- announcements by the Company or its competitors of significant products or features, technical innovations, acquisitions, strategic partnerships, joint ventures or capital commitments;
- changes in operating performance and stock market valuations of technology companies in the Company's industry, including its competitors;
- price and volume fluctuations in the overall stock market, including as a result of trends in global political or economic conditions;
- the inclusion, exclusion, or deletion of the Company's stock from any trading indices;
- media reports regarding the Company's business and financial performance;
- lawsuits threatened or filed against the Company, or developments in pending lawsuits;
- developments in anticipated or new legislation or regulatory actions; and
- other events or factors, including those resulting from pandemics, war or incidents of terrorism, or responses to these events.

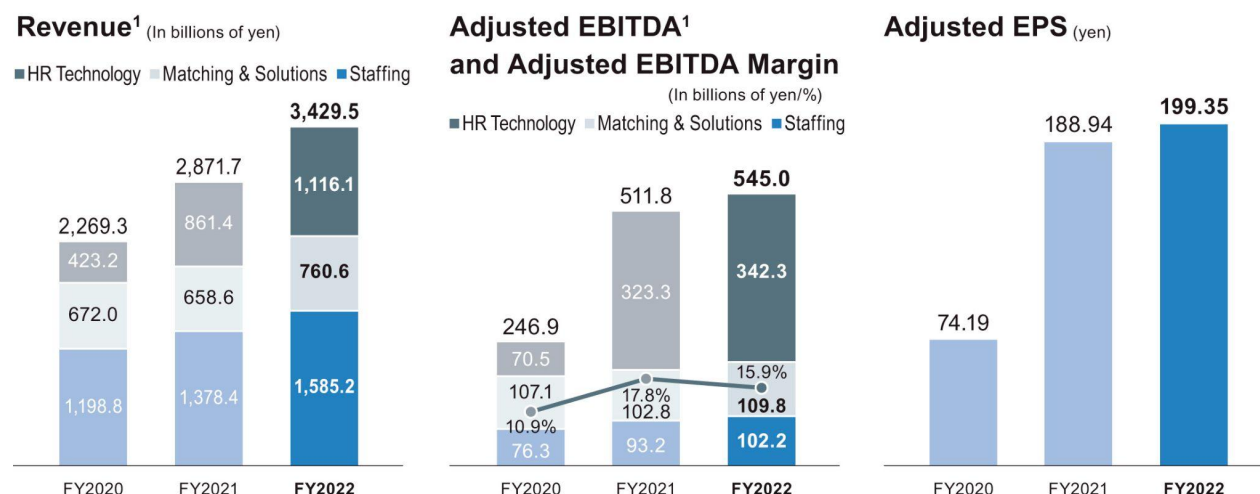

Broad market and industry fluctuations and general economic, political and market conditions, such as recessions, interest rate changes or foreign currency exchange fluctuations, may negatively impact the market price of the Company's common stock regardless of its actual operating performance.

Management's Discussion and Analysis of Financial Position, Results of Operations, and Cash Flows

The following contains forward-looking statements, which reflect the Company's assumptions, estimates and outlook for the future based on the Company's plans and expectations as of March 31, 2023 unless the context otherwise indicates.

Consolidated Results of Operations for FY2022

Consolidated Results of Operations

¹ The sum of the three segments does not correspond with consolidated figures due to Adjustments, such as intra-group transactions.

Consolidated revenue for FY2022 was 3.42 trillion yen, an increase of 19.4% year over year due to the revenue growth in all segments, HR Technology, Matching & Solutions, and Staffing. Excluding the positive impact of exchange rate fluctuations of 286.7 billion yen, consolidated revenue for FY2022 increased 9.4% year over year.

Consolidated operating income for FY2022 was 344.3 billion yen, a decrease of 9.1% year over year mainly due to restructuring charges of 17.6 billion yen related to a workforce reduction and a one time charge of 13.9 billion yen for impairment losses on right-of-use assets related to leased office space in HR Technology, an impairment loss mainly related to software of 9.3 billion yen in Matching & Solutions, and an impairment loss mainly related to software of 3.3 billion yen and an impairment loss on goodwill of 4.4 billion yen in Staffing.

Profit before tax for FY2022 was 367.7 billion yen, a decrease of 3.9% year over year.

Profit for FY2022 was 271.6 billion yen, a decrease of 8.8% year over year and profit attributable to owners of the parent for FY2022 was 269.7 billion yen, a decrease of 9.1% year over year.

Consolidated adjusted EBITDA margin for FY2022 was 15.9%, a decrease from 17.8% for the previous fiscal year, as a result of investments to achieve long-term strategies in the HR Technology and Matching & Solutions businesses. Adjusted EBITDA for FY2022 was 545.0 billion yen, an increase of 6.5% year over year, and adjusted EPS for FY2022 was 199.35 yen, an increase of 5.5% year over year.

From 2022, the Company has changed the adjustment items for adjusted EBITDA and adjusted EPS. For adjusted EBITDA, the share-based payment expenses are included as an adjustment item, and for adjusted EPS, amortization of intangible assets arising due to business combinations is removed as an adjustment item. The new definition is applied retroactively to all of adjusted EBITDA and adjusted EPS in this business report.

Research and development expenses in FY2022 were 168.9 billion yen, consisting primarily of compensation expenses for engineering and other technical employees responsible for the development of new products and enhancement of existing products using new technologies. The majority of research and development expenses were related to HR Technology.

Significant accounting policies, estimates, and assumptions

The consolidated financial statements of the Company have been prepared in accordance with IFRS.

The significant accounting policies used for the preparation of the consolidated financial statements are mainly described in “Financial Information, Consolidated Financial Statements and Notes, 3 Significant Accounting Policies.”

The significant accounting estimates and assumptions used for the preparation of the consolidated financial statements are mainly described in “Financial Information, Consolidated Financial Statements and Notes, 4. Significant Accounting Judgments, Accounting Estimates and Assumptions.” Assumptions used for the impairment tests on goodwill are described in “Financial Information, Consolidated Financial Statements and Notes, 11. Goodwill and Intangible Assets.”

These estimates and assumptions are based on management’s best judgment based on historical experience and various factors deemed to be reasonable. By their nature, however, due to uncertainties in these estimates and assumptions, they may differ from the amounts recognized in the consolidated financial statements of future periods.

Results of Operations by Segment

HR Technology

- Global online matching and hiring platform that offers advertising and other human resources matching solutions

Revenue for FY2022 was 1.11 trillion yen, an increase of 29.6% year over year, and on a US dollar basis, revenue increased 7.7%. In the first half of FY2022, demand for talent globally remained strong leading to increased demand for Indeed and Glassdoor’s hiring products and services, but hiring demand continued to normalize globally and the imbalance between supply and demand continued to moderate in the second half of FY2022.

Adjusted EBITDA margin was 30.7%, a decrease from 37.5% for the previous fiscal year, and adjusted EBITDA for FY2022 was 342.3 billion yen, an increase of 5.9% year over year. In order to achieve the Company’s business strategy to Simplify Hiring, HR Technology hired employees focused on product and technology initiatives in the first half of FY2022. Considering the change in the business environment we paused hiring and significantly reduced operational cost including the advertisement in the second half of

this fiscal year.

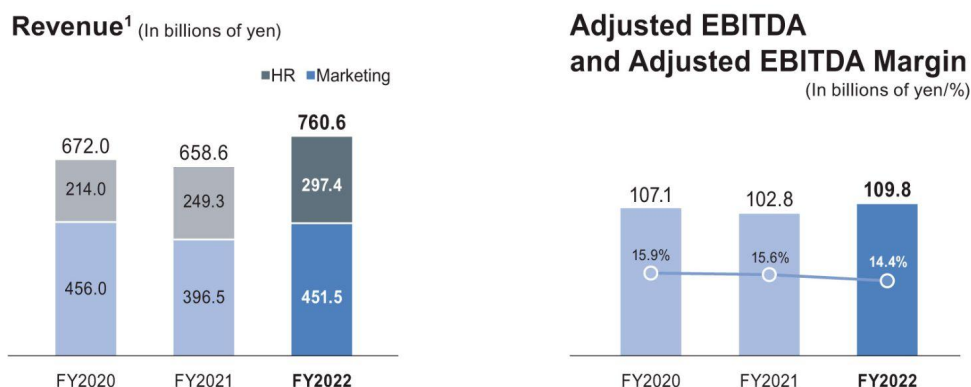

Matching & Solutions

Marketing Solutions:

Provides matching platforms in a variety of industries, such as Housing & Real Estate, Beauty, Travel, Bridal, Dining and others, to connect individual users and business clients. Offers cloud-based SaaS solutions to improve business clients' efficiency of operations.

HR Solutions:

A variety of HR services mainly in Japan through online platforms and print media for job seekers and business clients.

¹ The sum of the segments does not correspond with consolidated figures due to Other and Elimination, such as intra-group transactions.

Revenue for FY2022 was 760.6 billion yen, an increase of 15.5% year over year.

Revenue in Marketing Solutions increased 13.9%. Revenue in Housing & Real Estate and Beauty, which together account for more than 50% of the revenue of Marketing Solutions, increased year over year and continued to be the primary drivers of revenue growth and revenue in Housing & Real Estate, Beauty, Travel, Bridal, and Dining all increased year over year.

Revenue for HR Solutions increased 19.3% as hiring demand recovered in Japan. Revenue in the part-time job advertising business which is concentrated in the hospitality sector, was impacted by the state of emergency and priority preventative measures in the first half of FY2022 but the hiring demand was even more aggressive compared to FY2021. As the measures were lifted at the end of September 2021, the hiring demand increased and resulted in revenue growth. Also, revenue in the placement service increased year over year, due to increased hiring demand in many industries which utilize placement services while some business clients began to act cautiously on hiring.

Adjusted EBITDA for FY2022 was 109.8 billion yen, an increase of 6.8% and adjusted EBITDA margin for FY2022 decreased to 14.4% as Matching & Solutions executed strategic marketing activities and investment for SaaS solutions.

In Air Business Tools, the number of AirPAY accounts as of March 31, 2023 increased 40.2% year over year. Of the approximately 394,000 AirPAY registered accounts as of March 31, 2023, approximately 226,000 accounts also subscribed to other Air BusinessTools solutions (cross-use).

Staffing

• **Japan:** Staffing services in Japan

• **Europe, US, and Australia:** Staffing services mainly in Europe, US, and Australia

¹ Sum of revenue from individual companies after consolidation adjustments for Europe, US, and Australia.

Revenue for FY2022 was 1.58 trillion yen, an increase of 15.0% year over year. Excluding the positive impact of foreign exchange rate fluctuations, revenue increased 7.8% year over year.

Revenue in *Japan* increased 13.1% due to an increase in the number of temporary staff on assignment as demand for staffing services continued to grow year over year.

Revenue in *Europe, US, and Australia* also increased 16.5%. Excluding the positive impact of exchange rate fluctuations, revenue increased 3.7% due to continued growth in demand for staffing services in each region, despite a slowdown in demand related to supporting COVID-19 mitigation efforts that existed in FY2021, while the uncertain economic outlook also led to slower growth in overall staffing demand.

Adjusted EBITDA margin for FY2022 was 6.5%, a decrease from 6.8% for FY2021, and adjusted EBITDA for FY2022 was 102.2 billion yen, an increase of 9.6% year over year.

In *Japan*, adjusted EBITDA margin for FY2022 in Japan decreased compared to the previous year to 8.2% due to increased advertising expenses to attract temporary staff. In *Europe, US, and Australia*, adjusted EBITDA margin was 5.2%.

The Outstanding Amount of Goodwill for each SBU as of March 31, 2023

The following table presents the outstanding amount of goodwill for each SBU as of March 31, 2023. Staffing recorded 4.4 billion yen of impairment loss of goodwill in Australia.

(In billions of yen)	Outstanding Goodwill
HR Technology	246.9
Matching & Solutions	-
Japan	-
Overseas	-
Staffing	216.0
Japan	27.7
US	17.0
Europe	168.1
Australia	3.0
Total	462.9

Capital Resources and Liquidity

Basic Policy

The Company's basic policy is to obtain funds from global financial markets through debt as necessary, while maintaining appropriate credit ratings and strong consolidated financial position, in order to secure liquidity required for smooth operations and to invest flexibly for its long-term business strategy that will lead to increasing its enterprise value.

The Company aims to maintain a sufficient level of shareholders' equity while achieving appropriate capital efficiency, in order to respond flexibly to investment opportunities for future growth while at the same time enhancing its ability to address possible risks relating to its business operations and assets.

Use of Capital

The Company allocates its capital mainly to working capital, corporate taxes, mergers and acquisitions, asset acquisitions and capital expenditures by its SBUs as well as repayments of borrowings, payment of interest, payment of dividends, and share repurchases.

Fundraising

The Company's primary source of liquidity for working capital and investments are cash flows from operating activities. However, the Company may consider and execute external financing when various conditions are deemed favorable, such as demand for funds, interest rate trends, repayment amount, redemption period of existing interest-bearing debt, amount to be raised, and financing structure.

For short-term working capital, the Company primarily utilizes borrowings from financial institutions and/or commercial paper. For mid- to long-term needs, the Company will raise funds mainly through borrowings from financial institutions and/or the corporate bond market. To maintain flexible financing capabilities, the Company has registered a maximum 200.0 billion yen worth of corporate bonds for potential issuances, the full amount of which is unused as of March 31, 2023.

Additionally, the Company has entered into overdraft agreements with four financial institutions to secure liquidity and raise working capital funds efficiently. The maximum amount of borrowings under these overdraft agreements is 113.0 billion yen as of March 31, 2023, and the entire amount remains unused. In addition, the Company entered into a committed credit facility agreement providing for a total commitment

amount of 200.0 billion yen. The entire amount available under these credit facilities remains unused as of March 31, 2023. The Company maintains these overdraft agreements and credit facilities to ensure sufficient liquidity in the event of significant changes in the business environment.

The table below sets forth a breakdown of the book value of interest-bearing debt by payment due period as of March 31, 2023. Each amount shown is the required cash outflow by payment due period excluding discounts and including interest payments.

(In billions of yen)	Book value	Payment due period		
		1 year or less	Over 1 year through 5 years	Over 5 years
Bonds	19.9	20.0	-	-
Borrowings	15.2	14.3	0.0	1.5
Total	35.2	34.4	0.0	1.5

Credit Ratings

The Company has long-term credit ratings of A from S&P Global Rating Japan, A3 from Moody's Japan, AA from Rating and Investment Information, Inc. (R&I), and AA+ from Japan Credit Rating Agency, Ltd. (JCR) as of March 31, 2022. The Company has short-term credit ratings of a-1+ from R&I.

Cash Management

In order to maximize overall capital efficiency, the Company prioritizes internal lending and borrowing within the Company over external financing, mainly through a cash management system, when it is legally permissible and economically reasonable to do so.

The Company maintains internal liquidity of cash and cash equivalents by consolidating the cash management operations of all currencies to the Holding Company and its subsidiaries, which provide internal treasury management services.

Fund Management

The Company invests only in principal-guaranteed financial instruments that are deemed safe and efficient, and does not engage in such investments for speculative purposes.

Policy of Strategic Shareholdings

In principle, the Company's policy is to reduce strategic shareholdings. The decision on whether or not to hold each company's stock is made based on a comprehensive assessment of the economic value of its stock, cost of capital, strategic importance, environment, social and governance (ESG) aspects, and other factors. The Board of Directors scrutinizes these shareholdings once a year and deliberates the reduction of these holdings if they do not meet the above criteria.

As of March 31, 2023, the total amount of strategic shareholdings held by the Holding Company and Recruit Co., Ltd. was 86.4 billion yen, which is 5.3% of the consolidated total equity.

(In millions of yen)	The Holding Company		Recruit Co., Ltd.	
	Unlisted	Listed	Unlisted	Listed
Number of issuers	3	12	4	4
Amount on the balance sheet	1,800	65,790	1,528	17,350

Analysis of Consolidated Financial Position

(In billions of yen)	As of March 31, 2022	As of March 31, 2023	Variance	% Change
Assets				
Total current assets	1,182.0	1,465.3	283.2	24.0%
Total non-current assets	1,241.4	1,327.9	86.4	7.0%
Total assets	2,423.5	2,793.2	369.7	15.3%
Liabilities				
Total current liabilities	695.5	782.7	87.1	12.5%
Total non-current liabilities	351.6	369.5	17.8	5.1%
Total liabilities	1,047.2	1,152.3	105.0	10.0%
Equity				
Total equity attributable to owners of the parent	1,363.7	1,627.0	263.2	19.3%
Non-controlling interests	12.5	13.9	1.4	11.3%
Total equity	1,376.2	1,640.9	264.6	19.2%

Total current assets as of March 31, 2023 increased by 283.2 billion yen compared to the end of FY2021 mainly due to an increase in cash and cash equivalents from increased operating cash flows and from the sale of a portion of shares as part of the going private transaction of 51job, Inc., despite the cash outflows for the Share Repurchases by resolution of the Board Directors on October 17, 2022

The maximum amount of borrowings under overdraft agreements was 113.0 billion yen as of March 31, 2023, and the entire amount remained unused. In addition, committed credit facilities with a total maximum borrowing amount of 200.0 billion yen, for which the Company entered into an agreement on March 31, 2021, remained unused as of March 31, 2023.

Also, the Company has registered a maximum 200.0 billion yen worth of corporate bonds for potential issuances in Japan, the full amount of which is unissued as of March 31, 2023.

The following table presents cash and cash equivalents, interest-bearing debt and net cash, the amount calculated by subtracting interest-bearing debt from cash and cash equivalents.

(In billions of yen)	FY2021	FY2022	Variance	% Change
Cash and cash equivalents	669.5	877.3	207.8	31.0%
Interest-bearing debt	60.6	35.2	(25.3)	-41.8%
Net cash	608.9	842.0	233.1	38.3%

As of March 31, 2023, cash and cash equivalents and interest-bearing debt which includes bonds and borrowings, excluding lease liabilities, on a consolidated basis were 877.3 billion yen and 35.2 billion yen, respectively. Net cash, the amount calculated by subtracting interest-bearing debt from cash and cash equivalents, was 842.0 billion yen, an increase of 233.1 billion yen compared to the end of FY2021.

Analysis of Consolidated Cash Flows

(In billions of yen)	FY2021	FY2022	Variance
Net cash flows from operating activities	439.6	438.1	(1.4)
Net cash flows from investing activities	(70.7)	(32.6)	38.0
Net cash flows from financing activities	(254.3)	(252.0)	2.3
Effect of exchange rate changes on cash and cash equivalents	54.0	54.3	0.3
Net increase (decrease) in cash and cash equivalents	168.5	207.8	39.3
Cash and cash equivalents at the beginning of the period	501.0	669.5	168.5
Cash and cash equivalents at the end of the period	669.5	877.3	207.8

As of March 31, 2023, cash and cash equivalents were 877.3 billion yen, an increase of 207.8 billion yen from the end of FY2021.

As a result of a review in light of Recruit Holdings' standards prepared in accordance with applicable laws and regulations, there were no material contracts.

Research and Development

Research and development expenses in FY2022 were 168.9 billion yen, consisting primarily of compensation expenses for engineering and other technical employees responsible for the development of new products and enhancement of existing products using new technologies. The majority of research and development expenses were related to HR Technology.

Facilities

Overview of Capital Expenditures

The total amount of capital expenditures for FY2022 was 112.3 billion yen. This was primarily due to an increase in right-of-use assets from the renewal of lease contracts, and the development and acquisition of software.

HR Technology

For FY2022, capital expenditures of 34.9 billion yen were made primarily for the enhancement of various facilities. There were no significant disposals or sales of facilities.

Matching & Solutions

For FY2022, capital expenditures of 57.9 billion yen were made primarily for the development and acquisition of software. There were no significant disposals or sales of facilities.

Staffing

For FY2022, capital expenditures of 19.2 billion yen were made primarily due to an increase in right-of-use assets from the renewal of lease contracts and the enhancement of various facilities. There were no significant disposals or sales of facilities.

Others

There were no significant acquisitions, disposals or sales of facilities.

Status of Major Facilities

The Holding Company

Recruit Holdings does not own any major facilities as it is a pure holding company.

Subsidiaries in Japan

As of March 31, 2023

Company name	Office name (Address)	Segment name	Description of facilities	Carrying amount (In millions of yen)				Number of employees ²	
				Buildings and structures	Software	Right-of-use assets	Other ¹		Total
Recruit Co., Ltd.	Headquarters, etc. (Chiyoda-ku, Tokyo, Japan)	Matching & Solutions	Offices, facilities, etc.	10,631	97,607	70,666	12,534	191,438	18,429 [233]

¹ "Other" under Carrying amount is the total for tools, furniture, and fixtures.

² The figures in parentheses in the "Number of employees" section are the annual average number of contract employees.

Overseas Subsidiaries

As of March 31, 2023

Company name	Office name (Address)	Segment name	Description of facilities	Carrying amount (In millions of yen)				Number of employees ⁴	
				Buildings and structures	Software	Right-of-use assets	Other ¹		Total
RGF OHR USA, INC. ²	Headquarters, etc. (Delaware, United States)	HR Technology	Offices, facilities, etc.	23,210	1	87,999	18,575	129,786	15,606 [83] ⁵
RGF Staffing B.V. ³	Headquarters, etc. (Flevoland, Netherlands)	Staffing	Offices, facilities, etc.	2,288	3,535	10,198	1,429	17,452	4,325 [573]

¹ "Other" under Carrying amount is the total for tools, furniture, and fixtures.

² The figures shown in the table above are the total amounts which include the amounts for RGF OHR USA, INC. and its subsidiaries, etc., as well as Indeed Ireland Operations Limited and its subsidiaries, etc.

³ The figures shown in the table above are the total amounts which include the amounts for RGF Staffing B.V., RGF Staffing France SAS, RGF Staffing Germany GmbH, RGF Staffing the Netherlands B.V., Unique NV, and 55 other companies.

⁴ The figures in parentheses in the "Number of employees" section are the annual average number of contract employees.

⁵ The headcount reduction announced in March 2023 by a subsidiary under the HR Technology business will be reflected in FY2023.

Facility Establishment and Disposal Plans

Major Facility Establishment Plans

The Company has no major facility establishment plans.

Major Facility Disposal Plans

The Company has no major facility disposal plans.

Stock Options

Stock Option Plan

The Company adopts a stock option plan under which stock options are issued based on the Companies Act of Japan.¹

The number of the grantees of the stock options resolved as of the submission date of this document are as follows.

Resolution Date	Meeting of Resolution	Directors	Senior Vice President and Corporate officer and key management personnels
June 20, 2013	Annual Meeting of Shareholders	4	13
June 26, 2014	Annual Meeting of Shareholders	4	13
August 10, 2015	Board of Directors meeting	4	17 ²
July 16, 2019	Board of Directors meeting	5	6
July 8, 2020	Board of Directors meeting	4	5
July 14, 2021	Board of Directors meeting	4	5
July 8, 2022	Board of Directors meeting	3	9

¹ At the Annual Meeting of Shareholders on June 17, 2021, it was resolved to issue stock options for up to 1.4 billion yen per year as compensation for Directors, excluding independent Directors. The maximum number of stock options granted per year shall be 18,000, and the number of shares underlying each option shall be 100 shares.

² This includes one Senior Vice President who had already retired as of the allotment date of the stock options, as a stock option as equity compensation had been granted to this Senior Vice President as performance-based compensation for FY2014.

The status of stock options as of the end of March 2023 and the end of May 2023 was as follows.

Stock Options Issued in 2013

Stock Options as equity compensation resolved at the following meetings were issued on August 31, 2013.

- Resolution of the Annual Meeting of Shareholders held on June 20, 2013
- Resolution of the Board of Directors meeting held on July 31, 2013

	As of the end of the current fiscal year (March 31, 2023)	As of the end of the month prior to the submission date (May 31, 2023)
Number of stock options	73 ¹	73 ¹
Type, details, and number of shares underlying stock options	219,000 shares of common stock ^{1,3,4}	219,000 shares of common stock ^{1,3,4}
Amount to be paid in upon exercise of stock options (Yen)	1	Same as left
Exercise period of stock options	September 1, 2013 - August 31, 2033	Same as left
Issue price and amount to be capitalized upon exercise of stock options (Yen)	Issue price: 317 ^{3,4} Amount to be capitalized: 159	Same as left
Conditions for exercise of stock options	A holder of stock options can only exercise their options within 10 days from the date on which they lose their position as Director, Senior Vice President, or Corporate Professional Officer of the Company.	Same as left
Matters concerning transfer of stock options	The acquisition of stock options through transfer shall require the approval of the Board of Directors of the Company.	Same as left
Matters concerning allotment of stock options following reorganization	Please refer to the Note below ²	Same as left

Stock Options Issued in 2014

Stock Options as equity compensation resolved at the following meetings were issued on December 26, 2014.

- Resolution of the Annual Meeting of Shareholders held on June 26, 2014
- Resolution of the Board of Directors meeting held on November 13, 2014

	As of the end of the current fiscal year (March 31, 2023)	As of the end of the month prior to the submission date (May 31, 2023)
Number of stock options	80 ¹	80 ¹
Type, details, and number of shares underlying stock options	240,000 shares of common stock ^{1,4}	240,000 shares of common stock ^{1,4}
Amount to be paid in upon exercise of stock options (Yen)	1	Same as left
Exercise period of stock options	December 27, 2014 - December 26, 2034	Same as left
Issue price and amount to be capitalized upon exercise of stock options (Yen)	Issue price: 1,016 ⁴ Amount to be capitalized: 508	Same as left
Conditions for exercise of stock options	A holder of stock options can only exercise their options within 10 days from the date on which they lose their position as Director, Senior Vice President, or Corporate Professional Officer of the Company. The successor of a holder of stock options shall be able to exercise their stock options for a period of one year from the date of death of the holder of stock options or until the end of the exercise period prescribed above, whichever is earlier.	Same as left
Matters concerning transfer of stock options	The acquisition of stock options through transfer shall require the approval of the Board of Directors of the Company.	Same as left
Matters concerning allotment of stock options following reorganization	Please refer to the Note below ²	Same as left

Stock Options Issued in 2015

Stock Options as equity compensation resolved at the Board of Directors meeting held on August 10, 2015 were issued on September 25, 2015.

	As of the end of the current fiscal year (March 31, 2023)	As of the end of the month prior to the submission date (May 31, 2023)
Number of stock options	903 ¹	903 ¹
Type, details, and number of shares underlying stock options	270,900 shares of common stock ^{1,4}	270,900 shares of common stock ^{1,4}
Amount to be paid in upon exercise of stock options (Yen)	1	Same as left
Exercise period of stock options	September 26, 2015 - September 25, 2035	Same as left
Issue price and amount to be capitalized upon exercise of stock options (Yen)	Issue price: 1,061 ⁴ Amount to be capitalized: 531	Same as left
Conditions for exercise of stock options	A holder of stock options can only exercise their options within 10 days from the date on which they lose their position as Director, Senior Vice President, or Corporate Professional Officer of the Company (If a holder of stock acquisition options has retired from all of these positions on the allotment date of the stock options, within one year from the day following the allotment date of the stock options). The successor of a holder of stock options shall be able to exercise their stock options for a period of one year from the date of death of the holder of stock options or until the end of the exercise period prescribed above, whichever is earlier.	Same as left
Matters concerning transfer of stock options	The acquisition of stock options through transfer shall require the approval of the Board of Directors of the Company.	Same as left
Matters concerning allotment of stock options following reorganization	Please refer to the Note below ²	Same as left

¹ The number of shares underlying each stock option (the "Number of Shares Granted") shall be as follows: 3,000 shares for stock options resolved in 2013 and 2014, and 300 shares for stock options resolved in 2015.

In the event that the Company conducts a stock split (which shall include gratis allotment of shares of common stock of Recruit Holdings; the same shall apply hereinafter for statements concerning a stock split) or reverse stock split of its common stock, the Number of Shares Granted shall be adjusted in accordance with the following formula. Any fractional shares resulting from such adjustments shall be rounded down.

Number of Shares Granted after adjustment

=

Number of Shares Granted before adjustment

×

Ratio of stock split or reverse stock split

If other unavoidable circumstances that require an adjustment of the Number of Shares Granted occur, the Company may adjust the Number of Shares Granted to a reasonable extent.

² If the Company implements organizational restructuring, such as a merger in which the Company is dissolved, or share exchange or transfer in which the Company becomes a wholly-owned subsidiary, the holders of remaining stock options at the time the organizational restructuring comes into effect (the "Remaining Stock Options") shall be provided with stock options in the restructured company as described in Article 236, Paragraph 1, Item 8, (a), (d), or (e) of the Companies Act of Japan (the "Restructured Company") based on the following conditions. In this case, the Remaining Stock Options shall become void. However, this shall be limited to cases in which the provision of stock options in the Restructured Company in accordance with the following

conditions to provide with stock options in the Restructured Company is stipulated in an absorption-type merger agreement, a consolidation-type merger agreement, a share exchange agreement, or a share transfer plan.

- Number of stock options in the Restructured Company to be granted

The same number as the number of Remaining Stock Options held by each holder of Remaining Stock Options shall be granted.

- Type of shares of the Restructured Company underlying the stock options

This shall be shares of common stock of the Restructured Company.

- Number of shares of the Restructured Company underlying the stock options

This shall be a number based on reasonable adjustments to the number of underlying shares determined in consideration of the conditions of the organizational restructuring (the "Number of Shares After Succession"). Any fractional shares due to such adjustments shall be rounded down.

- Amount of assets to be contributed upon exercise of stock options.

The amount of assets to be contributed upon exercise of a stock acquisition right shall be the amount calculated by multiplying the amount to be paid in (1 yen per share) for shares to be contributed upon exercise of a stock acquisition right by the Number of Shares Granted.

- Period for exercising the stock options

This shall be the period from either the commencement date of the period during which the stock options can be exercised as set forth in the "Exercise period of stock options" in the above table, or the effective date of the organizational restructuring, whichever is later, through the final date of the period during which the stock options can be exercised as set forth in the "Exercise period of stock options."

- Matters regarding common stock and legal capital surplus that will be increased due to issuance of shares upon exercise of stock options

The above matters shall be determined based on the following conditions:

- The amount of common stock to be increased when shares are issued upon the exercise of stock options shall be half of the maximum amount of common stock to be increased, which is calculated in accordance with Article 17, Paragraph 1 of the Regulation on Corporate Accounting of Japan. Fractions of less than one yen due to the calculation shall be rounded up.
- The amount of legal capital surplus to be increased when shares are issued upon the exercise of stock options shall be the amount calculated by deducting the amount of common stock to be increased as stated above from the maximum amount of common stock to be increased as stated above.

- Restrictions on the acquisition of stock options by transfer

The acquisition of stock options by transfer shall require the approval of the Restructured Company.

- Conditions for the acquisition of stock options

The Company may acquire stock options for no consideration, on a date separately prescribed by the Board of Directors, if one of the following proposals is approved by a resolution of an Annual Meeting of Shareholders of the Company (or if it has been approved by a resolution of the Board of Directors meeting, in case a resolution of the Annual Meeting of Shareholders is not required): a proposal to approve the amendment of the Articles of Incorporation that creates a provision for the Company to acquire all of the shares underlying the stock options by a resolution of an Annual Meeting of Shareholders of the Company; a proposal to approve a merger agreement in which the Company is a dissolving company; or a proposal for a share exchange agreement or share transfer plan in which the Company becomes a wholly-owned subsidiary.

- Conditions for the exercise of stock options

Conditions for the exercise of stock options shall be determined in accordance with the "Conditions for exercise of stock options" in the above table.

- In cases where the number of shares to be granted to the holder of stock options who had exercised their stock options includes a fraction of less than one share, such fraction shall be rounded down.

³ The Company implemented a ten-for-one stock split on July 31, 2014. As a result, adjustments were made to the "number of shares underlying stock options" and the "issue price and amount to be capitalized upon issuance of shares through exercise of stock options" for the stock options resolved in 2013. The initial Number of Shares Granted for the stock options resolved in 2014 has been adjusted to reflect the stock split.

⁴ The Company implemented a three-for-one stock split on July 1, 2017. As a result, adjustments were made to the "number of shares underlying stock options" and the "issue price and amount to be capitalized upon issuance of shares through exercise of stock options."

Stock Options Issued in 2019

Stock Options as equity compensation resolved at the Board of Directors meeting held on July 16, 2019 were issued on July 31, 2019.

Matters concerning transfer of stock options	The acquisition of stock options through transfer shall require the approval of the Board of Directors of the Company.	Same as left
Matters concerning allotment of stock options following reorganization	Please refer to the Note below ²	Same as left

¹ The number of shares underlying each stock option (the "Number of Shares Granted") shall be 100. In the event that the Company conducts a stock split (which shall include gratis allotment of shares of common stock of Recruit Holdings; the same shall apply for statements concerning a stock split) or reverse stock split of its common stock after the allotment date of the stock options (the "Allotment Date"), the Number of Shares Granted shall be adjusted in accordance with the following formula. Any fractional shares resulting from such adjustments shall be rounded down.

$$\text{Number of Shares Granted after adjustment} = \text{Number of Shares Granted before adjustment} \times \text{Ratio of stock split or reverse stock split}$$

If after the Allotment Date, a merger or company split, or any other unavoidable circumstances that require an adjustment of the Number of Shares Granted occur, the Company may adjust the Number of Shares Granted to a reasonable extent.

- ² If the Company implements organizational restructuring, such as a merger in which the Company is dissolved, absorption-type company split in which the Company is a splitting company, incorporation-type company split, or share exchange in which the Company becomes a wholly-owned subsidiary, or share transfer, the holders of remaining stock options at the time the organizational restructuring comes into effect (the "Remaining Stock Options") shall be provided with stock options in the restructured company as described in Article 236, Paragraph 1, Item 8, (a) through (e) of the Companies Act of Japan (the "Restructured Company") based on the following conditions.

In this case, the Remaining Stock Options shall become void. However, this shall be limited to cases in which the provision of stock options in the Restructured Company in accordance with the following conditions is stipulated in an absorption-type merger agreement, a consolidation-type merger agreement, an absorption-type company split agreement, an incorporation-type company split plan, a share exchange agreement, or a share transfer plan.

- Number of stock options in the Restructured Company to be granted
The same number as the number of Remaining Stock Options held by each Stock Options Holder shall be granted.
- Type of shares of the Restructured Company underlying the stock options
This shall be shares of common stock of the Restructured Company.
- Number of shares of the Restructured Company underlying the stock options
This shall be a number determined in accordance with Note 1 above, in consideration of the conditions of the organizational restructuring.
- Amount of assets to be contributed upon exercise of stock options
The amount of assets to be contributed upon exercise of the options to be delivered shall be the amount calculated by multiplying the exercise price after the organizational restructuring obtained as a result of the adjustment of the exercise price by the number of shares of the Restructured Company underlying the stock options to be determined pursuant to the above item "Number of shares of the Restructured Company underlying the stock options," in consideration of the conditions of the organizational restructuring.
- Period for exercising the stock options
This shall be the period from either the commencement date of the period during which the stock options can be exercised as set forth in the "Exercise period of stock options" in the above table, or the effective date of the organizational restructuring, whichever is later, through the last date of the period during which the stock options can be exercised as set forth in the "Exercise period of stock options."
- Matters regarding common stock and legal capital surplus that will be increased due to issuance of shares upon exercise of stock options
The above matters shall be determined based on the following conditions:
 - The amount of common stock to be increased when shares are issued upon the exercise of stock options shall be half of the maximum amount of common stock, etc. to be increased, which is calculated in accordance with Article 17, Paragraph 1 of the Regulation on Corporate Accounting of Japan. Fractions of less than one yen due to the calculation shall be rounded up.
 - The amount of legal capital surplus to be increased when shares are issued upon the exercise of stock options shall be the amount calculated by deducting the amount of common stock to be increased as stated above from the maximum amount of common stock, to be increased as stated above.
- Restrictions on the acquisition of stock options by transfer
The acquisition of stock options by transfer shall require the approval of the Restructured Company.
- Conditions for the exercise of stock options
Conditions for the exercise of stock options shall be determined in accordance with the "Conditions for exercise of stock options" in the above table.
- Matters relating to the acquisition of stock options
If a stock acquisition right holder becomes unable to exercise the stock options in accordance with the provisions of the "Conditions for exercise of stock options" in the above table or the provisions of the stock options allotment agreement before the exercise of the options, the Company may acquire the relevant stock options for no considerations, on a date separately prescribed by the Board of Directors.
- In cases where the number of shares to be granted to the holder of stock options who had exercised their stock options includes a fraction of less than one share, such fraction shall be rounded down.

Details of Share Ownership Plans for Directors, Key Management Personnel, and Employees

- The Company has implemented an Equity Incentive Scheme (the "Scheme") for Directors and Key Management Personnel of Recruit Holdings and its subsidiaries.
- The Company has also implemented an Equity Incentive Plan ("Plan") primarily for HR Technology SBU employees, utilizing shares of Recruit Holdings.

Equity Incentive Scheme for Directors and Key Management Personnel

Purpose of Implementation

The Scheme was implemented as a long-term incentive plan for Directors and Key Management Personnel, and by establishing a strong connection between their compensation and shareholder value the Company believes this Scheme contributes to an increase in mid- to long-term enterprise value. The Scheme was implemented for Directors and Key Management Personnel of Recruit Holdings in 2016, and for Directors and Key Management Personnel of its subsidiaries in 2018.

Overview of the Scheme

The Scheme adopts the structure used for a Board Incentive Plan Trust (the "BIP Trust"), in which Directors and Key Management Personnel are granted Recruit Holdings shares or receive the monetary equivalent value of such shares ("Recruit Holdings shares, etc.") according to their rank, and in cases where there are performance linked targets, the level of attainment of such targets; similar to Performance Share plans and Restricted Stock plans in the United States and Europe. The Company plans to continuously use the Scheme by setting a new BIP Trust every year, or changing and making additional entrustment to the existing BIP Trust before the original trust period expires.

Type	Category	Number of Shares	Number of Recipients
BIP Trust	Directors (Excluding Independent Directors)	36,300	1
	Independent Directors	0	0

Equity Incentive Plan for Employees

Purpose of Implementation

The Company believes that the Plan will emphasize to its employees the significance of their contributions toward enhancing the Company's enterprise value in the mid- to long-term. The Company has decided to implement the Plan, with new grants beginning in the calendar year 2021.

Equity-based incentives have become a standard practice for publicly listed global technology companies. As a result, the Company believes that the implementation of this plan, for which the main recipients are primarily employees in the HR Technology SBU, will be an invaluable tool for recruiting and retaining talent globally.

Overview of the Plan

The Plan operates through an Employee Stock Ownership Plan Trust ("ESOP Trust"). The ESOP Trust is a mechanism designed with reference to equity incentive schemes. The Plan delivers the shares of Recruit Holdings acquired by the ESOP Trust to employees based on the terms set forth in the Plan.

The Company plans to continuously use the Plan by setting a new ESOP Trust every year, or changing and making additional entrustment to the existing ESOP Trust before the original trust period expires.

Outline of the ESOP Trust Agreement

	FY2021 Agreement	FY2022 Agreement 1	FY2022 Agreement 2

¹ The number of treasury stock held at June 27, 2023 does not include the number of shares of less than one unit purchased between June 1, 2023 and the submission date of this document.

² The number of shares of treasury stock held during FY2022 and the period under review does not include the number of shares of Recruit Holdings held in the trust account of the BIP Trust and the equity-settled ESOP Trust.

Basic Policy on Profit Distribution and Dividends

The Company's primary use of capital is to invest for its long-term business strategy in order to achieve sustainable profit growth and increase enterprise value. The Company believes that this approach will contribute to the common interests of shareholders. The Company also considers the return of capital to its shareholders in the form of dividends to be an important part of its capital allocation strategy. The Company strives to continuously pay stable per-share dividends considering its long-term cash needs and financial position.

The Company may consider implementing share repurchase programs, depending on the capital market environment and the outlook of its financial position.

Total annual dividend for FY2022 is 22.0 yen per share, which consists of an interim dividend of 11.0 yen per share and a year-end dividend of 11.0 yen per share.

The Company basically declares dividends twice a year. Matters stipulated in Article 459, Paragraph 1 of the Companies Act of Japan, including cash dividends, are not resolved at the Annual Meeting of Shareholders, but at Board of Directors meetings, unless otherwise provided by laws and regulations.

Total annual dividend forecast for FY2023 is 23.0 yen per share, which consists of an interim dividend of 11.5 yen per share and a year-end dividend of 11.5 yen per share.

Resolution date at the Board of Directors meetings	Total dividend (In millions of yen)	Dividend per share (In yen)
November 14, 2022	18,143	11.0
May 15, 2023	18,116	11.0

Corporate Governance

Corporate Governance Overview

Basic Policy on Corporate Governance

Guided by Recruit Group Management Philosophy, the Board of Directors prioritizes corporate governance policies and practices that are designed to achieve long-term growth, increased corporate and shareholder value, and benefits for all of our stakeholders. Our stakeholders include employees, individual users and business clients, as well as our shareholders, business partners, non-profit organizations (NPOs) and non-governmental organizations (NGOs), national and other governments, and local communities.

In order to further enhance corporate value in the future, the Company believes it is important to prosper together with all stakeholders through all corporate activities with a sound governance foundation. Therefore, the Company has redefined its commitment to sustainability as well as setting ESG targets, and defines corporate governance as one of our material foundations for our corporate activities, and prioritizes related initiatives.

Corporate Governance Overview

The Company's corporate governance structure is a "Company with an Audit and Supervisory Board" as defined under the Companies Act of Japan. In this structure, Audit and Supervisory Board members appointed by shareholders conduct audits of the execution of the duties by Directors as an independent body from the Board of Directors. This is the foundation for the Company's efforts to ensure and improve transparency, soundness, and efficiency of management.

Under this structure, the Company has appointed multiple independent Directors and independent Audit and Supervisory Board members who are highly independent. The Company also has voluntarily established committees to serve as advisory bodies to the Board of Directors, including the Nomination, Compensation, Compliance, Risk Management, and Sustainability Committees. To enhance independence, the Nomination and Compensation Committees are all chaired by Independent Directors and have a majority of independent members.

Annually, the Board of Directors analyzes and assesses its own effectiveness, confirms whether deliberations are conducted properly from the perspective of various stakeholders, and carries out initiatives for improvement.

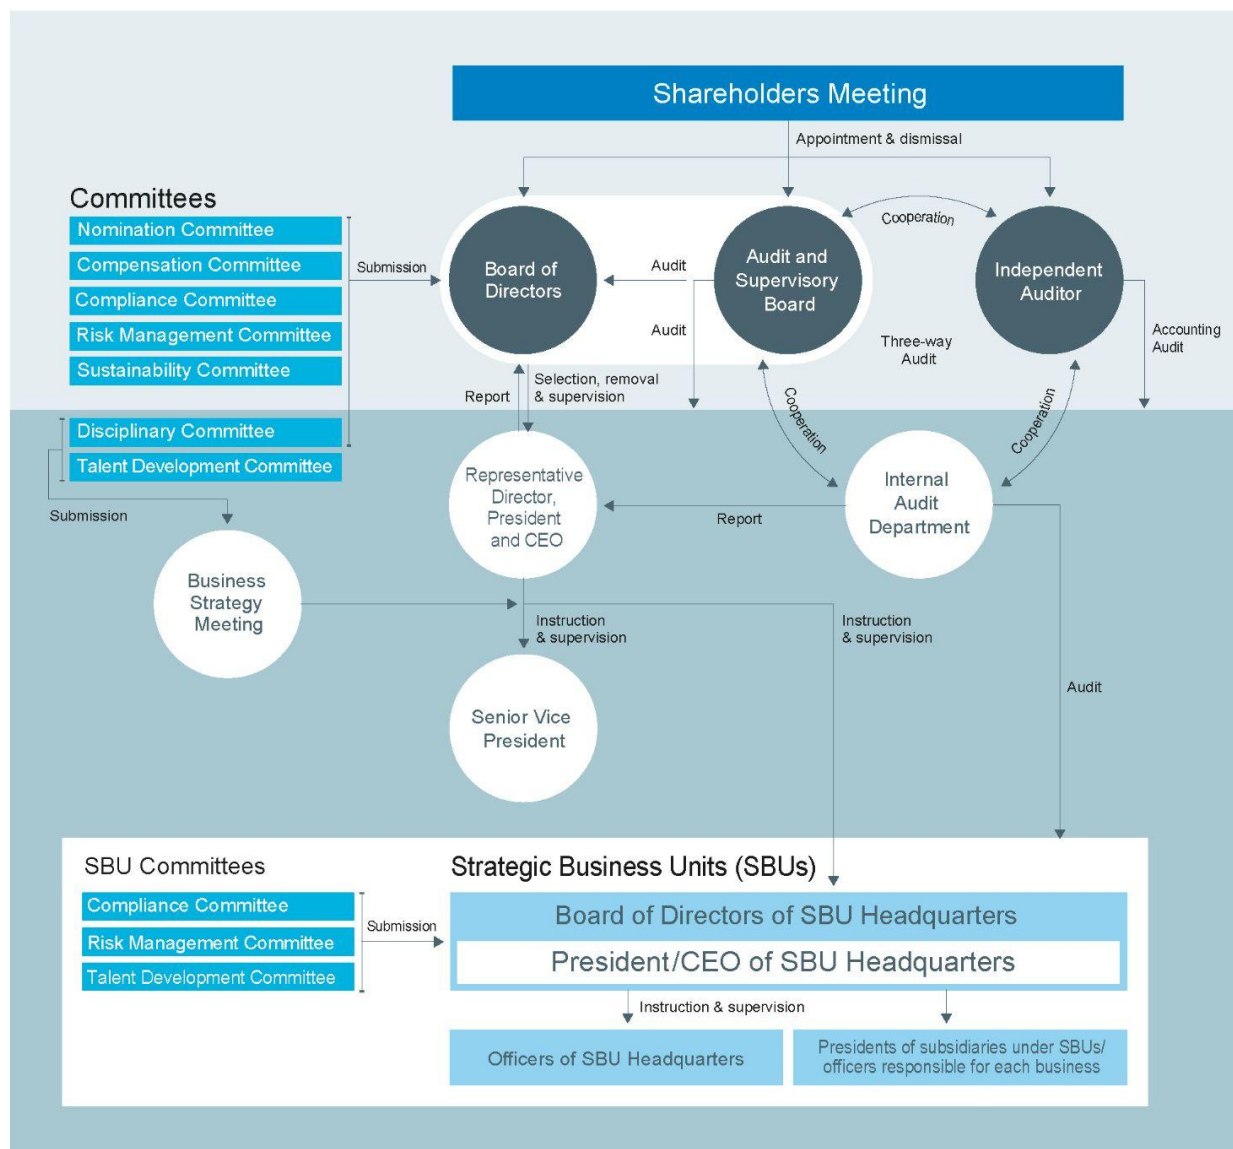

Furthermore, the Company has appointed Senior Vice Presidents, and established the Business Strategy Meeting to serve as an advisory body to the CEO, in order to enhance the Company's decision-making process and execution. The Business Strategy Meeting discusses important matters for the Company and the CEO approves the execution of such matters.

The Company has organized management units called Strategic Business Units ("SBU"). Each SBU has established a managing company, or SBU Headquarters, which manages the subsidiaries of each SBU.

After deciding basic management policies and important matters, and clarifying the scope of responsibilities, the Board of Directors delegates certain decision-making authority to the Business Strategy Meeting, SBU Headquarters, and other relevant bodies.

Through this arrangement, the Company aims to ensure that our corporate governance mechanisms are functioning sufficiently, both in terms of timely decision-making and effective internal control.

Corporate Governance Structure

The following are the SBU Headquarters:

- HR Technology SBU : RGF OHR USA, INC.
- Matching & Solutions SBU : Recruit Co., Ltd.
- Staffing SBU : RGF Staffing B.V.

Important decisions for the SBUs are made by the Board of Directors of each SBU Headquarters. The majority of the Board of Directors of each SBU Headquarters comprises non-Executive Directors who are appointed by the Holding Company. President/CEO of SBU Headquarters concurrently serve as Senior Vice Presidents of the Holding Company.

Board of Directors

Role of the Board of Directors

The Board of Directors seeks to increase enterprise and shareholder value in the mid-to long-term. The responsibilities of the Board of Directors include:

- Setting basic management policies to achieve the Company's strategic objectives

- Conducting oversight of operations and management
- Making decisions that could have a major impact on the Company
- Resolving matters required to be resolved by the Board of Directors as stipulated in relevant laws and regulations

Board of Directors meetings are held at least once every three months. The Board of Directors makes decisions on matters which significantly impact the Company's corporate governance and/or the Company's consolidated financial performance, such as investments above a certain threshold and key personnel matters. The Board of Directors delegates authority over other business matters to the Business Strategy Meeting and other decision-making bodies according to their appropriate level of responsibilities.

Criteria for determining organizational decision-making authority are set forth in the rules on decision-making authority. These rules are reviewed at least once per year by the Board of Directors and revised as necessary.

Composition of the Board of Directors

The Board of Directors is composed of eight Directors and four Audit and Supervisory Board members, including four Independent Directors and two Independent Audit and Supervisory Board members.

As a result of its growth, the Company today operates across many business sectors and geographic locations, engages with a broad universe of individual users and business clients, and employs people from diverse backgrounds. The Company recognizes that the Board of Directors should reflect this diversity to ensure that it sustains the high-quality discussions that drive innovation and the long-term success of the Company.

As for the size of the Board of Directors, the Company believes that the Board of Directors should have an appropriate number of members in order to foster high-quality discussions. Under the Company's Articles of Incorporation, the Board of Directors may have a maximum of eleven Directors.

In addition, we have a structure in which different persons serve as the Chairperson of the Board of Directors and the CEO. We believe that checks and balances are effective and this structure contributes to the strengthening of governance by separating the roles of the Chairperson of the Board of Directors and the CEO.

Policy for Selecting Directors

The approach to selecting candidates for the Board of Directors is to choose qualified personnel from a pool of diverse candidates who can fulfill the duties and responsibilities of the position by considering their skills, leadership and professional experience, personal background, judgment, personality, and insight, without discrimination based on attributes of gender, age, nationality or ethnicity. Current Directors who are considered for renomination are evaluated on these criteria as well as their performance on the Board and number of terms of office. These candidates are elected individually at the Annual Meeting of Shareholders.

In order to further improve the quality of management decision-making, the Company is working to increase the diversity of the Board of Directors. The Company has specifically set a target for gender, and aims to propose candidates for election to its Annual Meeting of Shareholders, to achieve an approximately 50% ratio of women out of the total number of Directors and Audit and Supervisory Board members by FY2030. As of June 27, 2023, four of the twelve members of the Board of Directors including Audit and Supervisory Board members are women.

The Company has a policy that at least one third of the Directors are Independent Directors who maintain appropriate separation from management execution. As of June 27, 2023, there are eight Directors, of which four are reported as Independent Directors to the Tokyo Stock Exchange. Independent Directors are selected based on the above criteria as well as their management experience at corporations operating globally and/or that are publicly listed.

The Company expects Independent Directors to play the following roles in addition to supervising the management of the Company:

- To provide the Company with advice based on their management experience in corporations operating globally and/or that are publicly listed, which are necessary for the Company to further enhance its enterprise value and shareholder value in the mid-to long-term period.
- To play a leading role in matters related to selection and dismissal, compensation and evaluation of Directors and Senior Vice Presidents as a chair and/or member of the Nomination and Compensation Committees.
- To oversee decision-making in cases where any potential conflict of interest exists between Directors and the Company. The Board of Directors acts as the decision-making body for matters that may cause conflicts of interest by ensuring the decision is delivered under the presence of Independent Directors as well as independent Audit and Supervisory Board members.

In order to ensure that Independent Directors fulfill the above roles, the Company takes the following measures:

- To share and discuss the topics discussed during the Compliance Committee and Risk Management Committee with the Board of Directors for the purpose of creating an environment that allows Directors and Senior Vice Presidents to take appropriate risks when making decisions.
- To share and discuss the topics discussed during the Sustainability Committee as well as the voice of our shareholders with the Board of Directors for the purpose of ensuring the discussions at the Board appropriately reflect the diverse perspectives of our stakeholders.

In addition to the above mentioned Independent Directors, the Board appoints one non-Executive Director who does not execute business operations, but who has in-depth knowledge of and experience in the Internet industry.

Activities of the Board of Directors

The Board of Directors strives to foster an atmosphere that encourages free, open, and constructive discussion and exchange of opinions. The Board of Directors expects independent Directors to raise issues, actively comment, and advise, on matters in their areas of expertise and experience.

To ensure the Board of Directors has open and constructive discussion, meetings are conducted according to the following procedures:

- Draft versions of Board of Directors meeting materials are distributed to participants at least three business days prior to meetings.
- Along with Board of Directors meeting materials, the administrators provide summaries of the agenda discussion points. The administrators make a concerted effort to deliver the summaries three business days prior to meetings. In addition, the administrators explain to the Chairperson of the Board, Independent and non-Executive Directors the agenda details in advance of the meetings.
- The annual schedule for Board of Directors meetings is decided during the previous fiscal year, and at the beginning of each fiscal year the schedule for important agenda items is confirmed.
- The frequency of meetings, matters for deliberation and time devoted to discussion are reviewed each fiscal year and adjusted as necessary, based on the performance in the prior fiscal year and strategy for subsequent fiscal years.

The Board of Directors also provides opportunities for free discussion among participants outside of regular meetings, spending about the same amount of time as in the Board of Directors meetings, in order to encourage an active exchange of opinions.

Concrete Agenda of the Board of Directors

In addition to monitoring the management execution such as business performance and risks, the Board of Directors mainly discussed the following agenda during FY2022.

- Business portfolio strategy
- Sustainability strategy
- Corporate governance structure
- Capital policy and shareholder returns

As for the business portfolio strategy, the Board of Directors discussed the progress and promotion policy of "Simplify Hiring" and "Help Businesses Work Smarter." Please refer to "Business Strategies of the Company" in the "Business Overview" section for more details. In addition, the Board of Directors discussed risks and countermeasures related to the execution of the strategy based on the deliberations of the Risk Management Committee. Please refer to "High-Priority Risks and Key Countermeasures" and "Risks That May Affect the Company's Financial Condition, Results of Operations and Cash Flows" in the "Business Overview" section for more details.

As for the sustainability strategy, the Board of Directors resolved on the progress and plans for sustainability activities to achieve the ESG commitments of "Prosper Together" based on the deliberations of the Sustainability Committee. Please refer to "Business Strategies of the Company" in the "Business Overview" section for more details.

As for the corporate governance structure, the Board of Directors resolved on the structures of the Board of Directors and the Audit and Supervisory Board to improve diversity and independence based on the deliberations of the Nomination Committee. Please refer to "Board of Directors" in the "Corporate Governance" section for more details.

As for the capital policy and shareholder returns, in addition to stable and continuous dividends, the Board of Directors discussed and resolved on the share buyback program after considering the capital markets environment and the outlook of the Company's financial position. Please refer to the following URLs for more details.

Analysis and Evaluation of the Effectiveness of the Board of Directors

Overall comment

We assess the effectiveness of the Board overall annually, and review and implement improvement measures for the issues identified. As a result of evaluation of the effectiveness of the Board of Directors meetings for FY2022, the Board played an appropriate role, and the Board exercised its responsibilities appropriately, both in the supervision of, and decision-making over, execution. The Board is highly effective. The Board will further improve its effectiveness based on the issues identified through the evaluation process to continue to increase the corporate value and shareholder value as an attractive corporation for all stakeholders.

Evaluation method

As a method of evaluation, the secretariat of the Board leads the survey of directors and Audit and Supervisory Board members and obtains individual opinions from independent directors and Audit and Supervisory Board members. The result of the analysis is deliberated at the Board and reflected on the agenda for the following year and various measures. We have adopted this method with the understanding that the self-assessment by directors and Audit and Supervisory Board members who have deep understanding of the status of the Company is highly effective. In addition, the Board of Directors'

effectiveness evaluation in the previous fiscal year confirmed that the Board of Directors is capable of open discussion.

Initiatives based on the evaluation of effectiveness for FY2021

Below initiatives were implemented and making progress with regard to the issues identified at the previous fiscal year's evaluation, i.e., measures to further enhance deliberations by the Board of Directors and measures to further strengthen the management structure:

- On-site meetings, which had been postponed due to the spread of the new coronavirus infection, resumed in June 2022, and board members held intensive discussions on a wide range of topics, including short-term business environment outlook and medium- to long-term strategy discussions.
- The addition of one new independent Director in June 2023 has increased the diversity of the Board of Directors in terms of nationality, age, gender, and other attributes, in addition to strengthening the Board's overall knowledge of technology, listing on the U.S. stock market, and corporate management.

Measures based on the results of the Board of Directors' evaluation for FY2022

The Board of Directors has confirmed that it will prioritize the following measures to further improve the effectiveness of the Board of Directors through the effectiveness evaluation for FY2022.

- Measures to further strengthen the management structure
 - Consideration of medium- and long-term options, etc., centered on the Nomination Committee, regarding the diversification and independence with respect to the composition of the Board of Directors and the strengthening of the executive structure, including the executive directors.
- Measures to further enhance deliberations by the Board of Directors
 - To continue deliberations on "Business Portfolio Strategy and Associated Risk Management," "Capital Market Strategy" and "Sustainability Transformation" as important discussion topics for the Company this year.
 - Ongoing on-site meetings to enhance mid- to long-term strategy discussions.

Audit and Supervisory Board

Role of the Audit and Supervisory Board

The Audit and Supervisory Board is responsible for the following:

- Supervising the activities and performance of each Director as well as the Board of Directors as a whole and auditing the maintenance and operational status of internal control policies, procedures, and processes, based on the audit plan.
- Evaluating the appropriateness and performance of the Independent Auditor.

All members of the Audit and Supervisory Board attend the Board of Directors meetings as part of their oversight responsibilities. In addition, one or more standing Audit and Supervisory Board members must attend the Business Strategy Meeting to enhance the oversight function.

The Audit and Supervisory Board generally meets once a month and holds extraordinary meetings as needed.

Composition of the Audit and Supervisory Board

The Audit and Supervisory Board comprises four members, including two independent members. One substitute Audit and Supervisory Board member has been elected, in order to avoid any potential non-compliance with the statutory requirement that at least half of the members of the Audit and Supervisory Board be independent members.

Policy for Selecting Audit and Supervisory Board Members

The approach to selecting candidates for the Audit and Supervisory Board is to select qualified persons with suitable experience and capabilities and with the necessary knowledge in the areas of finance, accounting, and legal affairs, to fulfill the duties and responsibilities as an Audit and Supervisory Board member. The Company has two standing Audit and Supervisory Board members who deeply understand the business of the Company, and two independent Audit and Supervisory Board members, one with expertise in legal affairs and one with expertise in finance and accounting.

All the Audit and Supervisory Board members make efforts to continuously expand their knowledge in order to fulfill their audit function in areas such as finance, accounting, and legal affairs through appropriate training courses funded by the Company. For example, the Audit and Supervisory Board members seek to deepen their understanding of the latest accounting standards and important matters for auditing by taking relevant training and seminars offered by the Japan Audit and Supervisory Board Members Association or by outside audit and assurance firms.

Advisory Bodies to the Board of Directors: Nomination and Compensation Committees

The Nomination and Compensation Committees advise the Board of Directors. Each committee has a majority of independent members and is chaired by an independent Director in order to enhance the transparency and objectivity of the decision-making process.

These committees review and consider the nomination, evaluation, and compensation of Directors and Senior Vice Presidents in each fiscal year. Final decisions are made by resolution of the Board of Directors.

The roles of each committee are as follows:

Nomination Committee

The Nomination Committee deliberates on the nomination, succession and dismissal of the CEO, and appropriateness of the process for nominating and dismissing candidates for Directors and Senior Vice Presidents.

In the latest fiscal year the three main topics deliberated by the Nomination Committee were as follows:

- Nomination and succession planning of the CEO
- Governance structure and skills matrix of the Board of Directors
- Appropriateness of the process for nominating candidates for Directors and Senior Vice Presidents

The Nomination Committee has reviewed the CEO appointment by considering whether the current CEO has effectively performed their role in light of the Company's progress in implementing our mid- to long-term strategy, business performance, and so forth. The Committee then presented a proposal to reappoint the current CEO for the following fiscal year to the Board of Directors. As for the succession plan, the Committee evaluated the appropriateness and implementation progress of the development plan for potential successors, taking into account the talent requirements established based on our corporate strategy and anticipated timing of leadership transitions. Furthermore, during the latest fiscal year, each of the three SBU briefed the Nomination Committee on progress made to the succession plan for key posts, which also serve as the pipeline for CEO succession.

The Nomination Committee has also conducted a comprehensive review of the governance structure that ought to be implemented, alongside the skills matrix of the Board of Directors. The Committee took into consideration the outcomes of the evaluation of the effectiveness of the Board of Directors and deliberated on the policies for the evolution of the governance structure, as well as the specific skill sets that ought to be further enhanced through future appointments to the Board of Directors. Drawing from these discussions, the Committee advanced the candidacy of Katrina Lake as a new independent Director, for the Board of Directors' consideration.

Regarding the nomination of Directors and Senior Vice Presidents, the Nomination Committee discussed the best management structure, taking into account the mid- to long-term governance policy and the timing of planned CEO succession. The Committee deliberated on the adequacy of the aforementioned process from the selection of candidates to the resolutions by the Board of Directors. Directors or Senior Vice Presidents can be dismissed in cases where it is recognized that they have significantly harmed the enterprise value of the Company due to violation of laws and regulations or other similarly significant reasons. In such cases, the Nomination Committee reviews the individual's conduct and makes a recommendation to the Board of Directors.

Compensation Committee

The Compensation Committee deliberates on policies relating to the determination of compensation for Directors and Senior Vice Presidents, evaluation procedures, compensation structure, the individual evaluation of Directors and Senior Vice Presidents, as well as individual compensation amounts.

In the latest fiscal year the three main topics deliberated and approved by the Compensation Committee were as follows:

- Individual performance evaluation for the latest fiscal year
- Compensation levels and metrics for performance-based compensation for the following fiscal year
- Proposal for revision of maximum amount of compensation for independent Directors submitted to the Annual Meeting of Shareholders held on June 26, 2023.

The Compensation Committee conducted the individual performance evaluations for the latest fiscal year. The Executive Director under evaluation was not present during the process, and the evaluation was based on the review of the missions established for each individual prior to the start of the fiscal year. For the evaluation of the individual performance of the two Representative Directors, an independent Director serving as the chair of the Committee formulated a draft proposal after conducting interviews with all Executive Directors and Standing Audit and Supervisory Board members. The proposal was then deliberated upon by the Compensation Committee.

The compensation levels for the following fiscal year were determined by referencing data on the executive compensation in similar-sized companies in the same industry, both domestically and overseas, during the most recent fiscal year and so forth. For the compensation levels of Executive Directors, the Compensation Committee discussed and decided on each Executive Director's expected roles for the following year, with the individuals in question absent during the process. Furthermore, the Compensation Committee discussed the metrics for performance-based compensation and confirmed that the Annual Incentives for Executive Directors would remain linked to consolidated adjusted EBITDA growth, and the mechanism to automatically tie compensation to business performance would thus be maintained.

The Compensation Committee evaluated the appropriateness of the proposal for revision of maximum amount of compensation for independent Directors submitted to the Annual Meeting of Shareholders held on June 26, 2023, by referencing compensation ceilings of major domestic companies.

Please refer to the "Compensation" section in this document for more information on the Company's compensation policy and results.

Other Advisory Bodies to the Board of Directors

Compliance Committee

An advisory body to the Board of Directors chaired by the Representative Director, President and CEO. The Committee deliberates on compliance themes and measures of the Company. The Committee decides and evaluates action plans based on the information collected from the Holding Company's administrative departments and subsidiaries. The Compliance Committee's deliberations and decisions are reported to the Board of Directors for promoting a compliance mindset.

Risk Management Committee

An advisory body to the Board of Directors chaired by the Executive Vice President and Director in charge of the Risk Management Division. The Committee deliberates on key risk themes and measures of the Company. The Committee monitors the status of risk management at each SBU as well as identifies and determines the risks deserving of particular attention, which are reported to the Board of Directors.

Sustainability Committee

An advisory body to the Board of Directors chaired by the Executive Vice President and Director in charge of sustainability. The Committee deliberates on the Company's sustainability strategy and monitors its progress. The Committee's participants include the CEO, the Chairperson, the Director in charge of sustainability, Senior Vice Presidents who are in charge of each SBU, and outside experts.

The Committee addresses important sustainability agendas of the Company, such as discussions to achieve the ESG commitment set forth as a management strategy, aiming to prosper together with all stakeholders. Based on the Committee's deliberation, the Board of Directors then resolves the direction and action plans that promote the Company's sustainability activities, and monitors the progress.

Other Advisory Bodies

Business Strategy Meeting

An advisory body to the CEO and chaired by the CEO, the meeting attendees deliberate on matters mainly relating to investments and personnel for which authority has been delegated by the Board of Directors. The meeting consists of Executive Directors, Senior Vice Presidents in charge of corporate functions and standing Audit and Supervisory Board members.

Talent Development Committee

An advisory body to the Business Strategy Meeting with participation by Senior Vice Presidents of the Company, the Committee deliberates on matters concerning the fostering of key talent, including the planning and monitoring of their career development and professional growth.

Disciplinary Committee

An advisory body to the Board of Directors and Business Strategy Meeting, the Committee deliberates on the recommended disciplinary action for the Company's personnel including its employees.

Composition of the Board and Committees as of June 27, 2023

Independent Independent Director as reported to the Tokyo Stock Exchange

Important Skill and Expertise and Reason for selection

Corporate Management

The Company is listed on the Tokyo Stock Exchange Prime Market and operates a wide range of businesses, including HR Technology, Matching & Solutions, and Staffing in more than 60 countries around the world. Therefore, the Company has identified "Corporate Management" as an important skill, as its sustainable growth requires corporate management skills to manage its business portfolio in accordance with the expectations of its diverse stakeholders.

Finance

To maximize long-term corporate and shareholder value, the Company flexibly and proactively invests in new businesses, research and development, cross-border M&A, and other growth investments. The Company has identified "Finance" as an important skill, as finance strategies are critical to the realization of corporate strategy.

Legal/Risk Management

In order to ensure the continuous and stable growth of the Company, it has established a systematic risk management system and is actively engaged in risk management while complying with relevant laws and regulations. The Company has identified "Legal/Risk Management" as an important skill because it is necessary for the Board of Directors to determine and oversee effective risk management policies.

Global Business

The Company operates businesses and services in more than 60 countries and territories around the world. Therefore, the Company has identified "Global Business" as an important skill for making important management decisions.

Technology

The Company aims to further improve and accelerate the efficiency of matching by leveraging technology and data to provide the best options for individual users and to help corporate clients further improve their business efficiency. To this end, the Company has identified "Technology" as an important skill for making critical management decisions.

HR Business

The HR Matching market includes job advertising & talent sourcing tools, direct hire, retained search, internal recruitment automation, and temporary staffing. The Company is committed to making it easier and faster for people to get jobs, while reducing the cost and time to hire for employers across the HR Matching market. Our goal is to automate many of the steps in the hiring process and to improve the quality and speed of matching across all three SBUs. To this end, the Company has identified the "HR business" as an important expertise for making key management decisions on the Board of Directors.

ESG/Sustainability

The Company believes that positive impact on society and the global environment through our entire corporate activities and coexistence and co-prosperity with all stakeholders will lead to our sustainable growth, and the company has defined this as one of its management strategies. To this end, the Company has identified "ESG and Sustainability" as an important expertise for making important management-related decisions at the Board of Directors.

Transformation

Since our founding, the Company has been committed to "Opportunities for Life" and has achieved sustainable growth by repositioning its business portfolio to eliminate society's disadvantages (dissatisfaction, inconvenience, and anxiety) through the creation of new value. The Company believes that its DNA is to continue transforming itself to create new value, and the Company has identified "Transformation" as a key expertise common to all members of its Board of Directors, both internal and external.

Name	Skills
Masumi Minegishi	Corporate Management <ul style="list-style-type: none">- As Representative Director, President and CEO of the Company from 2012 to 2020, Masumi Minegishi has achieved business portfolio reorganization by aggressively investing capital in M&A in the global market to transform the Company into a global technology company. In addition, he has a proven track record of evolving the governance of the Company, having taken the Company public on the Tokyo Stock Exchange in 2014.- He has served as an Outside Director of Konica Minolta, Inc. and ANA

Name	Skills
------	--------

HOLDINGS Inc. since 2022.

Global Business

- As Representative Director, President and CEO, he led the Company's transformation into a global company by raising the ratio of overseas sales from approximately 4% in FY2012 to approximately 45% in FY2019.

Technology

- As Senior Vice President of the Company, he led the digitalization of the magazine business in the area of sales promotion. After assuming the position of Representative Director, President and CEO, he accelerated digitalization across Japan and led the M&A of a global technology company.

HR Business

- After assuming the position of Representative Director, President and CEO, he led the global expansion of the HR business through acquisitions of job matching and staffing companies such as Indeed, Inc. and Glassdoor, Inc.

Transformation

- By strongly promoting the digitalization of our business, he drove the reorganization of our business portfolio. In addition, he has demonstrated and proven his ability to bring the Company to the global stage through IPOs and M&As.

Hisayuki Idekoba	<p>Corporate Management</p> <ul style="list-style-type: none"> - Hisayuki Idekoba led the acquisition of Indeed Inc. in 2012, after which he led its growth as its CEO. Later, as a Director, Senior Executive Vice President of the Company, he drove the transformation of the entire group. He has served as Representative Director, President and CEO from April 2021. <p>Global Business</p> <ul style="list-style-type: none"> - He led the Company's post-acquisition growth through cross-border M&A to become a global leader in the HR matching market, and since 2018, he has strongly promoted global governance as a director of the SBU Headquarters overseeing the HR technology and staffing businesses. <p>Technology</p> <ul style="list-style-type: none"> - In the area of sales promotion in Japan, he promoted the digitalization of business by transforming the information magazine business using technology and the promotion of online reservations, etc. After the acquisition of Indeed, Inc., he has led the evolution of the global platform business using technology and data. <p>HR Business</p> <ul style="list-style-type: none"> - Aiming to create a "Getting a job with the push of a button" he has conceived and strongly led the evolution of HR matching using technology and data beyond the existing framework of the HR business industry. <p>Transformation</p> <ul style="list-style-type: none"> - In Japan, he led the digital shift of the information magazine business, thereby reorganizing the business portfolio. He has since transformed the Company into a global HR matching company through cross-border M&A and subsequent business growth.
------------------	---

Ayano Senaha	<p>Legal/Risk Management</p> <ul style="list-style-type: none"> - As a Senior Vice President of the Company since 2018, Ayano Senaha has promoted the establishment of a governance structure that balances business strategy and risk management, and has served as the Chairman of the Company's Risk Management Committee since 2021.
--------------	--

Name	Skills
------	--------

Global Business

- As a Director of a UK staffing company since 2013 and Managing Director since 2014, she led the growth of the business after cross-border M&A. Since 2018, as Director of the headquarters of the HR Technology business and its main subsidiaries, she has been driving the strengthening of global governance.

Internal Controls and their Operational Status

Important details of the Company's internal control policies, procedures, and processes were approved as follows by resolution of the Board of Directors meeting on March 15, 2023.

Measures to Ensure That Directors and Employees of the Company Comply with Laws and Regulations and the Articles of Incorporation in the Execution of Their Duties

Governance Structure

- A Board of Directors, which must include independent Directors, shall be established at the Company to carry out decision-making on important matters.
- An Audit and Supervisory Board, which shall include independent Audit and Supervisory Board members, shall be established at the Company. The Company's Audit and Supervisory Board members shall audit the execution of duties by the Company's Directors by attending meetings of the Board of Directors and other important meetings and investigating the state of operations and similar matters on the basis of the audit standards established by the Audit and Supervisory Board.
- The Company shall establish a Nomination Committee and Compensation Committee, each chaired by an independent Director, to conduct deliberations on the nomination, appointment, evaluation and compensation of the Directors and Senior Vice Presidents.
- The Company shall dispatch its Directors to each SBU Headquarters, such that the Company's Directors account for a majority of the Board of Directors of each SBU Headquarters and supervise the management of each SBU Headquarters.

Internal Audit

- An Internal Audit Department shall be established within the Company, under the direct control of the Representative Director, President and CEO, and shall conduct audits of the Company's managers, employees, and similar personnel (collectively, "Recruit Affiliated Persons") and their compliance with laws and regulations, as well as the Articles of Incorporation and company policies.

Code of Ethics and Internal Policies

- The "Recruit Group Code of Ethics" shall be established and all Recruit Affiliated Persons shall be informed thereof.
- While giving due consideration to the autonomy and independence of the Company's subsidiaries, the "Recruit Group Policies" shall be established as shared group-wide policies for Recruit Holdings and its subsidiaries on matters such as decision-making, investment management, finance, human resource management, risk management, and compliance, in order to realize unified group-wide management of the whole Company.

Structure for Compliance

- The Company shall establish the “Recruit Group Compliance Policy” that sets forth basic policies regarding compliance. The Company’s Board of Directors shall appoint an individual with ultimate responsibility for compliance, establish a department in charge of compliance, make decisions on basic group-wide compliance policies, and monitor the effectiveness of the compliance measures. The Representative Director, President and CEO, shall convene and serve as chairperson of the Compliance Committee and shall evaluate the effectiveness of each SBU’s compliance program and make decisions on the group-wide compliance plan at the Business Strategy Meeting.
- The Board of Directors of each SBU Headquarters shall appoint an individual with ultimate responsibility for compliance at the SBU, make decisions on the SBU’s basic compliance policies, and monitor the effectiveness of the SBU’s compliance measures. The CEO of each SBU Headquarters shall convene and serve as chairperson of the Compliance Committee for the SBU and shall evaluate the effectiveness of the SBU’s compliance and make decisions on and inspections of the SBU Headquarters’ operational plans.
- The CEO of each subsidiary of the Company shall appoint an individual with ultimate responsibility for compliance at the subsidiary, evaluate the effectiveness, and make decisions on and inspections of the subsidiary’s operational plans of its compliance.

Whistleblowing Policy

- The Holding Company and its subsidiaries shall establish measures, including reporting hotlines for harassment and/or illegal or other improper behavior, to promptly transmit information to the applicable department in charge of compliance within the Company or the relevant subsidiary, in the event that a Recruit Affiliated Person discovers a potential issue related to internal controls. The department in charge of compliance that receives the report shall promptly and thoroughly investigate the matter, decide on response measures in consultation with the related departments, and implement appropriate response measures.

Training

- The Holding Company and its subsidiaries shall plan and conduct necessary training for Recruit Affiliated Persons to ensure compliance with the “Recruit Group Code of Ethics” and internal policies.

Disciplinary Actions

- In the event that a violation of laws, regulations, internal policies, or other compliance rules is discovered, the Holding Company and its subsidiaries shall impose strict measures against any Recruit Affiliated Persons involved in such violation.

Preventing All Relationships with Anti-Social Forces

- The Holding Company and its subsidiaries shall establish procedures to prevent all relationships, including business relationships, with anti-social forces, as defined by the Japanese government.

Policies and Procedures concerning Retention and Management of Information regarding the Execution of Duties by the Company’s Directors

- The Holding Company shall establish the “Documents and Contracts Management Policy,” providing for the creation and retention of documents and materials related to Directors’ execution of their duties, including documents such as the minutes of Annual Meetings of Shareholders, meetings of the Board of Directors, and Business Strategy Meetings.
- The length of time of, and department responsible for, the retention of the documents described in the previous paragraph shall be as set forth in the “Documents and Contracts Management Policy.”

Documents shall be retained in a manner that allows them to be viewed upon request by Recruit Holdings' Directors and Audit and Supervisory Board members.

Internal Policies and Other Measures concerning Management of Risk of Loss

- The Company shall establish the "Recruit Group Risk Management Policy" and "Recruit Group Risk Escalation Rules" to provide comprehensive, group-wide risk management.
- The Company's Board of Directors shall appoint an individual with ultimate responsibility for group-wide risk management, establish a department in charge of risk management, and make decisions on the basic policies regarding, and monitor the status of, the Company's risk management. In addition, the Risk Management Committee, chaired by the Director responsible for group-wide risk management, shall monitor risk management within each SBU and identify risks. Based on the results of these committee meetings, the Business Strategy Meeting shall identify and determine risks requiring particular attention at the group level and discuss measures to mitigate such risks.
- The Board of Directors of each SBU Headquarters shall appoint an individual with ultimate responsibility for risk management at the SBU and make decisions on basic policies regarding, and monitor the status of, the SBU's risk management. In addition, through the SBU Risk Management Committee attended by those responsible for the respective management functions of each SBU Headquarters, the Board of Directors of each SBU Headquarters shall monitor the status of risk management at each SBU as well as identify and determine the risks deserving of particular attention.
- The CEO of each of the Company's subsidiaries shall be ultimately responsible for risk management at the subsidiary and shall appoint an individual to oversee risk management at the subsidiary, identify risks for the subsidiary and determine the significance of such risks.
- If a serious incident occurs that may affect the Company as a whole, the Company shall establish a crisis management task force to address the situation.

Measures to Ensure the Efficient Execution of Duties by the Company's Directors and Its Subsidiaries

- The Company's Board of Directors or the Business Strategy Meeting shall set group-wide management targets for the Company and shall make these targets widely known within the Company as a whole, while also setting specific targets to be achieved by each function of the Company in order to achieve the group-wide targets. The Company's Senior Vice Presidents in charge of each function shall determine and execute efficient methods of achieving these targets.
- The Company's Board of Directors shall regularly review the Company's progress in achieving these targets and, by promoting improvements such as eliminating or reducing factors that impede efficiency and increase the likelihood of achieving the targets.
- The Company shall establish a Business Strategy Meeting as an advisory body to the CEO and shall carry out discussions on necessary matters regarding management of the Company as a whole.
- In addition, expert committees such as the Sustainability Committee shall be set up as advisory bodies to the Company's Board of Directors or the Business Strategy Meeting.

Policies and Procedures to Ensure the Reliability of Internal Controls for Financial Reporting

The Company shall establish the "J-SOX General Policy," the policy for the Japanese regulatory framework similar to Sarbanes-Oxley (SOX), and a system of internal control for financial reporting based on the internal control reporting system described in the Financial Instruments and Exchange Act of Japan.

Policies and Procedures concerning Reporting to the Holding Company regarding the Execution of Duties by Subsidiaries' Directors and Similar Persons

- The Holding Company shall establish internal divisions to oversee each SBU. Based on requests from such oversight divisions, Directors of the subsidiaries shall regularly report their business results and the status of implementation of their business strategies to their respective oversight divisions.
- The Holding Company and SBU Headquarters shall share information regarding their management activities on a regular basis, and discuss management policies, as needed.
- The Company shall establish the "Group Management Policy of the Recruit Group" and require the Company's subsidiaries to obtain approval of the Holding Company regarding important issues and make a prior confirmation with or subsequent report to the relevant departments of the Company.

Matters concerning Appointment of Employees to Assist Audit and Supervisory Board Members in Their Audit Duties

The Company shall appoint one or more persons as "Assistants to support the Company's Audit and Supervisory Board members" ("Assistants") and make an official announcement of the appointment.

Matters relating to Ensuring the Independence of Employees from the Company's Directors Described in the Preceding Item and the Effectiveness of Instructions Given to the Employees

Assistants shall only follow the directions provided by the Audit and Supervisory Board members in supporting their duties. The opinions of the Audit and Supervisory Board members and the Audit and Supervisory Board shall be respected with regard to the appointment, transfer, evaluation, and discipline of these Assistants.

Procedures concerning Reports to the Company's Audit and Supervisory Board Members

Recruit Affiliated Persons and the Company's Independent Auditor shall report to the applicable Audit and Supervisory Board members of the Company on the matters set forth below. Measures shall be put in place to allow for reporting in a timely manner by means of meetings, interviews, telephone, email, and similar methods.

- Material matters regarding business management
- Matters that have the potential to cause significant loss to the Company
- Material matters regarding internal auditing and risk management
- Material violations of laws, regulations, or the Articles of Incorporation
- Any other material matters regarding internal controls

The Company's Audit and Supervisory Board members and the Internal Audit Department shall cooperate with the Directors and Audit and Supervisory Board members of each SBU Headquarters and its subsidiaries as needed and share information on a regular basis.

Measures to Ensure That Individuals Reporting on Matters Described in the Preceding Item Are Not Unfavorably Treated on the Basis of Such Reporting

The Company shall establish the "Recruit Group Compliance Policy" under which any individual who has made a report described in the preceding item may not be subjected to unfavorable treatment such as dismissal, unjustified transfer, or similar measures due to him or her reporting such matters in good faith.

Matters relating to Policies concerning Procedures for Making Advance Payments or Reimbursements of Expenses Incurred in Connection with the Execution of Duties by the Company's Audit and Supervisory Board Members and Treatment of Other Expenses or Obligations Associated with the Execution of Duties by These Members

The Company shall bear the costs of the budget requested in advance by the Audit and Supervisory Board members for expenses necessary to execute their duties. In addition, the Company's Audit and Supervisory Board members may request payment from the Company of expenses incurred in urgent or unexpected circumstances, and the Company shall bear such costs.

Other Measures to Ensure the Effectiveness of Audits by Audit and Supervisory Board Members

The Company's Audit and Supervisory Board members and Audit and Supervisory Board shall hold regular meetings to exchange opinions with the Representative Director, President and CEO and with the Company's Independent Auditor, respectively.

Agreement with Directors and Audit and Supervisory Board Members

Agreement for Limitation of Liability of Non-Executive Directors and Audit and Supervisory Board Members

The Company has entered into an agreement with each of the non-Executive Directors and with Audit and Supervisory Board members, to limit their liability under Article 423, Paragraph 1 of the Companies Act of Japan. The maximum amount of liability for damages covered in the agreement is the minimum amount required under applicable laws and regulations. The limitation of liability, however, applies only when the respective personnel has performed their duties in good faith and are not deemed negligent.

Directors and Officers Liability Insurance Contract

Since the Company is promoting global business development, it has entered into a directors and officers liability insurance contract principally to hire and retain outstanding executives globally, who have the knowledge, experience and professional relationships on a high level, and to enable them to execute their duties without fear of failure.

Directors, Audit and Supervisory Board members, and Senior Vice Presidents (including their inheritors) and employees of the Company including its subsidiaries (excluding those whose total assets are more than 25% of the consolidated assets of the Company, or whose securities are publicly traded on any exchanges in the US), among others, are named as the insured of the contract. The Company pays all of the insurance premiums. The insurance contract covers any losses, legal defense costs, etc. caused by the insured persons' execution of their duties, and which are claimed for during the term of insurance. However, the contract does not cover any losses caused by dishonest or improper conduct such as willful breach of duty or criminal acts.

Items Defined in the Company's Articles of Incorporation

Number of Directors

The Articles of Incorporation stipulate that the Company shall have no more than 11 Directors.

Requirements for Resolutions on the Appointment of Directors

The Articles of Incorporation stipulate that resolutions on the appointment of Directors require the attendance of at least one-third of shareholders with voting rights at Shareholders Meeting, and approval based on the majority of those voting rights. The Articles of Incorporation also stipulate that resolutions on the appointment of Directors shall not be based on cumulative voting.

Requirements for Special Resolutions of Shareholders Meeting

The Articles of Incorporation stipulate that special resolutions of Shareholders Meeting as stipulated in Article 309, Paragraph 2 of the Companies Act of Japan require the attendance of at least one-third of shareholders with voting rights, and approval based on at least two-thirds of those voting rights. The purpose of this is to facilitate the smooth operation of Shareholders Meeting by relaxing the quorum for special resolutions at the meeting.

Decision-making Body for Dividends from Surplus

The Articles of Incorporation stipulate that the matters stipulated in each item of Article 459, Paragraph 1 of the Companies Act of Japan concerning dividends from surplus may be determined through a resolution of the Board of Directors without requiring a resolution of Shareholders Meeting, unless separately stipulated by laws and regulations. The purpose of this is to delegate authority over dividends from surplus to the Board of Directors so that profits can be returned to shareholders in a flexible manner.

Share Buyback

Pursuant to the provisions of Article 165, Paragraph 2 of the Companies Act of Japan, the Articles of Incorporation stipulate that the Company may buy back its own shares based on a resolution of the Board of Directors. The purpose of this is to buy back the shares through market transactions to enable the execution of flexible capital policies in response to changes in the business environment.

Liability Exemption for Directors and Audit and Supervisory Board Members

Pursuant to the provisions of Article 426, Paragraph 1 of the Companies Act of Japan, the Company may, to the extent permitted by laws and regulations, exempt Directors (including former Directors) and Audit and Supervisory Board members (including former Audit and Supervisory Board members) from liability for damages due to negligence of their duties by a resolution of the Board of Directors. The purpose of this is to create an environment in which Directors and Audit and Supervisory Board members can fully demonstrate their abilities and fulfill their expected roles in the performance of their duties.

Leadership

Board of Directors

MASUMI MINEGISHI

Director since 2009

Representative Director and Chairperson

Age: 59

- Director of Recruit Co., Ltd.
- Director of RGF Staffing B.V.
- Member of the Board of Directors of Georg Fischer Ltd.

Reasons for being appointed as a Director

Ayano "Sena" Senaha has served as COO of the Company since 2021 and Senior Vice President since 2018. Ms. Senaha has played a major role in the rapid globalization of the Company, having led and contributed to several post-merger integrations and having developed a corporate governance structure which ensures the balance of business strategies and risk management. Ms. Senaha has served as a Director of the Company since 2020 and we believe that she is an appropriate person to sustainably improve the enterprise value of the Company, and should continue to serve as a Director.

Director (Non-Executive)

Age: 55
 (Date of Birth: November 26th, 1967)

Number of Company shares held: 219,850

Career summary:

Rony Kahan was appointed Director of Recruit Holdings in 2018. He has also served as Chairman and Director of Indeed since 2013. Rony started his career in the HR industry in 1998 by co-founding jobsinthemoney.com, which became the leading job site for finance professionals. In 2003 he sold the business, and the following year, co-founded Indeed with the mission to help people get jobs. This novel approach to the job search market caught the attention of Recruit Holdings, which acquired Indeed in 2012. Working together with the new leadership team, Mr. Kahan successfully grew Indeed into the world’s leading job search engine.

Meeting body in charge as of June 2023

Board of Directors, Business Strategy Meeting

Term of office:

From June 26, 2023 to the conclusion of the Annual Meeting of Shareholders to be held in 2024.

Career summary, positions and responsibilities

*Unless otherwise stated, position refers to Recruit Holdings Co., Ltd.
 Current position

June	2018	Director*
April	2018	Chairman and Director* of RGF OHR USA, INC.
October	2013	Chairman and Director* of Indeed, Inc.
September	2012	CEO of Indeed, Inc.
November	2004	Co-founder, President, and Chairman of the Board of Indeed, Inc.
August	1998	Co-founder of jobsinthemoney.com, Inc.

Significant concurrent position(s)

- Chairman and Director of Indeed, Inc.
- Chairman and Director of RGF OHR USA, INC.

Reasons for being appointed as a Director

Rony Kahan is a co-founder of Indeed, Inc., a consolidated subsidiary of Recruit Holdings. We are confident that his extensive track record of innovation, his deep expertise and broad connections in the HR technology industry will help us further accelerate the global expansion of our HR technology business. Mr. Kahan has served as a Director of the Company since 2018 and we believe that he is an appropriate person to sustainably improve the enterprise value of the Company, and should continue to serve as non-Executive Director.

March	2000	Executive Officer and Senior General Manager of Group Management Strategy Headquarters at Asahi Breweries, Ltd.
April	1972	Joined Asahi Breweries, Ltd.

Significant concurrent position(s)

- Honorary Advisor of Asahi Group Holdings, Ltd.
- Independent Director of Obayashi Corporation

Reasons for being appointed as a Director

Naoki Izumiya has a strong background in advanced corporate communication strategy, a track record of executive development, and extensive experience enhancing enterprise value through aggressive acquisition and successful synergistic integration of overseas companies. Mr. Izumiya has served as an independent Director of Recruit Holdings since 2018. We believe that he is an appropriate person to advise the Company on overall management and supervise the execution of the business, and should continue to serve as independent Director.

The Company expects independent Directors to play the following roles in addition to supervising the management of the Company:

- To provide the Company with advice based on their management experience in corporations operating globally and/or that are publicly listed, which are necessary for the Company to further enhance its enterprise value and shareholder value in the mid- to long-term period.
- To play a leading role in matters related to selection and dismissal, evaluation and compensation of Directors and Senior Vice Presidents as a chair and/or member of the Nomination and Compensation Committees.
- To oversee decision-making in cases where any potential conflict of interest exists between Directors and the Company. The Board of Directors acts as the decision-making body for matters that may cause conflicts of interest by ensuring the decision is delivered under the presence of Independent Directors as well as independent Audit and Supervisory Board members.

Independence criteria

Naoki Izumiya meets both the requirements for independence stipulated by the Tokyo Stock Exchange and those of the Holding Company.

Mr. Izumiya has within the past 10 years served as Chairman and Representative Director of Asahi Group Holdings, Ltd., and serves as Independent Director of Obayashi Corporation.

These companies have business relationships with the Company. However, such transactions account for less than 1% of the consolidated revenue of these companies and Recruit Holdings, respectively, and are thus too small to be material.

Therefore, the Company believes that Mr. Izumiya has sufficient independence where there are no potential conflicts of interests with general shareholders.

April	1987	Joined Sony Corporation

Significant concurrent position(s)

Director, President COO and CFO, Representative Corporate Executive Officer of Sony Group Corporation

Reasons for being appointed as a Director

Hiroki Totoki has deep insight, cultivated through years of managing a global company with diversified business portfolios and experience leading technology-based business development. Mr. Totoki has served as an independent Director of Recruit Holdings since 2018. We believe that he is an appropriate person to advise the Company on overall management and supervise the execution of business, and should continue to serve as independent Director.

The Company expects independent Directors to play the following roles in addition to supervising the management of the Company:

- i. To provide the Company with advice based on their management experience in corporations operating globally and/or that are publicly listed, which are necessary for the Company to further enhance its enterprise value and shareholder value in the mid- to long-term period.
- ii. To play a leading role in matters related to selection and dismissal, evaluation and compensation of Directors and Senior Vice Presidents as a chair and/or member of the Nomination and Compensation Committees.
- iii. To oversee decision-making in cases where any potential conflict of interest exists between Directors and the Company. The Board of Directors acts as the decision-making body for matters that may cause conflicts of interest by ensuring the decision is delivered under the presence of independent Directors as well as independent Audit and Supervisory Board Members.

Independence criteria

Hiroki Totoki meets both the requirements for independence stipulated by the Tokyo Stock Exchange and those of the Holding Company.

Mr. Totoki currently serves as Director, President, COO and CFO, Representative Corporate Executive Officer of Sony Group Corporation, which has a business relationship with the Company. However, such transactions account for less than 1% of the consolidated revenue of Sony Group Corporation and Recruit Holdings, respectively, and are thus too small to be material.

Therefore, the Company believes that Mr. Totoki has sufficient independence where there are no potential conflicts of interests with general shareholders.

Career summary:

Keiko Honda has served as an independent Director of the Recruit Holdings' Board since 2022. She is highly experienced in corporate management, financial economics, ESG, and is currently an Adjunct Professor and Adjunct Senior Research Scholar on ESG investing at Columbia University School of International and Public Affairs, a position she has held since 2020. Ms. Honda began her career at Bain & Company Japan in 1984. In 1986, she joined Shearson Lehman Brothers Securities Co., Ltd., and later joined McKinsey & Company. Ms. Honda became the first female senior partner in the Asian division, where she advised on corporate strategy and M&A for 24 years since 1989. Ms. Honda was appointed Executive Vice President in 2013, and served as CEO and Executive Vice President of Multilateral Investment Guarantee Agency of the World Bank Group from 2014 to 2019.

Term of office:

From June 26, 2023 to the conclusion of the Annual Meeting of Shareholders to be held in 2024.

Career summary, positions and responsibilities

**Current position*

June	2022	Independent Director* of Recruit Holdings Co., Ltd
June	2020	Outside Director* of Mitsubishi UFJ Financial Group, Inc.
March	2020	Independent Director* of AGC Inc.
January	2020	Adjunct Professor and Adjunct Senior Research Scholar* at Columbia University School of International and Public Affairs
October	2019	Retired from Multilateral Investment Guarantee Agency (World Bank Group)
June	2014	CEO and Executive Vice President of Multilateral Investment Guarantee Agency (World Bank Group)
July	2013	Executive Vice President of Multilateral Investment Guarantee Agency (World Bank Group)
July	2007	Senior Partner of McKinsey & Company
July	1999	Partner of McKinsey & Company
July	1989	Joined McKinsey & Company, Inc. Japan
May	1986	Joined Shearson Lehman Brothers Securities Co., Ltd.
April	1984	Joined Bain & Company Japan, Inc.

Significant concurrent position(s)

- Adjunct Professor and Adjunct Senior Research Scholar at Columbia University School of International and Public Affairs
- Independent Director of AGC Inc.
- Outside Director of Mitsubishi UFJ Financial Group, Inc.

Reasons for being appointed as a Director

Keiko Honda has served in key roles in both financial institutions and consulting firms at a time when they were expanding their business globally, and has a great wealth of experience and knowledge in management and finance, as well as a high level of expertise with regard to ESG issues. Ms. Honda has served as an independent Director of Recruit Holdings since 2022. We believe that she is an appropriate person to advise the Company on overall management and supervise the execution of business, and should continue to serve as an independent Director.

The Company expects independent Directors to play the following roles in addition to supervising the management of the Company:

- To provide the Company with advice based on their management experience in corporations operating globally and/or that are publicly listed, which are necessary for the Company to further enhance its enterprise value and shareholder value in the mid- to long-term period.
- To play a leading role in matters related to selection and dismissal, evaluation and compensation of Directors and Senior Vice Presidents as a chair and/or member of the Nomination and Compensation Committees.
- To oversee decision-making in cases where any potential conflict of interest exists between Directors and the Company. The Board of Directors acts as the decision-making body for matters that may cause conflicts of interest by ensuring the decision is delivered under the presence of independent Directors as well as independent Audit and Supervisory Board members.

Independence criteria

Keiko Honda meets both the requirements for independence stipulated by the Tokyo Stock Exchange and those of the Holding Company.

Ms. Honda currently serves as Independent Director of AGC, Outside Director of Mitsubishi UFJ Financial Group, and Adjunct Professor and Adjunct Senior Research Scholar at Columbia University School of International and Public Affairs. They have business relationships with the Company. However, such transactions account for less than 1% of the consolidated revenue of these companies and Recruit Holdings, respectively, and are thus too small to be material.

In addition, she has within the past 10 years served as CEO and Executive Vice President of Multilateral Investment Guarantee Agency (World Bank Group), which has no material business relationship with the Company.

Therefore, the Company believes that Ms. Honda has sufficient independence where there are no potential conflicts of interests with general shareholders.

January	2011	Founder and CEO of Stitch Fix, Inc.
September	2007	Joined Leader Ventures, LLC
September	2005	Joined EY-Parthenon (formerly The Parthenon Group, LLC)

Significant concurrent position(s)

Executive Chairperson of the Board of Stitch Fix, Inc.

Reasons for being appointed as a Director

Katrina Lake has a wealth of experience and extensive knowledge gained both from building a technology based platform business in the US, and her tenure serving as CEO and Chairperson of an expanding business that is publicly traded on the US stock exchange. She also has experience serving on the Board of Directors of some platform companies, including one that was publicly traded. We believe that she is an

appropriate person to advise the Company on overall management and supervise the execution of business to serve as independent Director.

The Company expects independent Directors to play the following roles in addition to supervising the management of the Company:

- i. To provide the Company with advice based on their management experience in corporations operating globally and/or that are publicly listed, which are necessary for the Company to further enhance its enterprise value and shareholder value in the mid- to long-term period.
- ii. To play a leading role in matters related to selection and dismissal, evaluation and compensation of Directors and Senior Vice Presidents as a chair and/or member of the Nomination and Compensation Committees.
- iii. To oversee decision-making in cases where any potential conflict of interest exists between Directors and the Company. The Board of Directors acts as the decision-making body for matters that may cause conflicts of interest by ensuring the decision is delivered under the presence of independent Directors as well as independent Audit and Supervisory Board members.

Independence criteria

Katrina Lake meets both the requirements for independence stipulated by the Tokyo Stock Exchange and those of the Holding Company.

Ms. Lake currently serves as Executive Chairperson of the Board of Stitch Fix, Inc., which has a business relationship with the Company. However, such transactions account for less than 1% of the consolidated revenue of Stitch Fix, Inc. and Recruit Holdings, respectively, and are thus too small to be material.

Therefore, the Company believes that Ms. Lake has sufficient independence where there are no potential conflicts of interests with general shareholders.

June	1993	Partner at Deloitte Touche Tohmatsu LLC	
March	1984	Certified Public Accountant	
October	1980	Joined Tohmatsu & Awoki Audit Corporation (currently Deloitte Touche Tohmatsu LLC)	

Significant concurrent position(s)

- Chief of Yoichiro Ogawa CPA Office
- Outside Director of Honda Motor Co., Ltd.

Reasons for being appointed as an Audit and Supervisory Board member

Yoichiro Ogawa has international accounting expertise as a certified public accountant and has management experience, having served as CEO of a global accounting firm. Mr. Ogawa brings a neutral and objective perspective supported by deep insight and a wealth of international experience. We believe that he is an appropriate person to supervise the Company's overall management and that he should continue to serve as an independent Audit and Supervisory Board member.

Independence criteria

Yoichiro Ogawa meets both the requirements for independence stipulated by the Tokyo Stock Exchange and those of the Holding Company.

Mr. Ogawa currently works as Chief of Yoichiro Ogawa CPA Office, which has no material business relationship with the Company.

In addition, he has within the past 10 years worked for Deloitte Touche Tohmatsu Limited, Deloitte Touche Tohmatsu LLC, and the Deloitte Tohmatsu Group, and currently serves as Outside Director of Honda Motor Co., Ltd. These companies have business relationships with the Company.

However, such transactions account for less than 1% of the sales of those companies and Recruit Holdings consolidated revenue, respectively, and are thus too small to be material.

Therefore, the Company believes that Mr. Ogawa has sufficient independence where there are no potential conflicts of interests with general shareholders.

- Outside Audit and Supervisory Board Member of circlace Inc.
- Outside Director of TOKYO ROPE MFG. CO., LTD.
- Outside Audit and Supervisory Board Member of Hino Motors, Ltd.*

* Mr. Natori is scheduled to retire as an Outside Audit and Supervisory Board Member of Hino Motors, Ltd. at their Annual Meeting of Shareholders to be held on June 27 2023.

Reasons for being appointed as an Audit and Supervisory Board member

Katsuya Natori has developed expertise as a lawyer and has international legal experience, heading the legal department at several global IT companies. Mr. Natori brings a neutral and objective perspective supported by his deep insight and a wealth of international experience. We believe that he is an appropriate person to supervise the Company's overall management and should continue to serve as an independent Audit and Supervisory Board member.

Independence criteria

Katsuya Natori meets both the requirements for independence stipulated by the Tokyo Stock Exchange and those of the Holding Company.

Mr. Natori currently serves as Managing Partner of ITN Partners, Outside Audit and Supervisory Board Member of circlace, Inc. and Hino Motors, Ltd., and Outside Director of TOKYO ROPE MFG. CO., LTD.

These companies have business relationships with the Company. However, such transactions account for less than 1% of the consolidated revenue of these companies and Recruit Holdings, respectively, and are thus too small to be material.

In addition, he serves as Supervisory Director of Global One Real Estate Investment Corporation, which has no material business relationship with the Company.

Therefore, the Company believes that Mr. Natori has sufficient independence where there are no potential conflicts of interests with general shareholders.

* The above shares held are as of May 31, 2023 and include a stake in the Recruit Group Officer Stock Ownership Association and a stake in American Depositary Receipt ("ADR"). Other information is based on information available as of June 27, 2023.

* The Company reported Naoki Izumiya, Hiroki Totoki, Keiko Honda and Katrina Lake to the Tokyo Stock Exchange as independent Directors, and reported Yoichiro Ogawa and Katsuya Natori as independent Audit and Supervisory Board members as specified by the Tokyo Stock Exchange.

Status of Independent Directors and Independent Audit and Supervisory Board Members

The Company selects both independent Directors and independent Audit and Supervisory Board members who are independent and have various kinds of experience. We believe that each of them serves as each function appropriately and fulfill each role sufficiently. None of the independent Directors and independent Audit and Supervisory Board members have been enrolled in Recruit Group.

For our approach to selecting independent Directors and independent Audit and Supervisory Board members, please refer to "Policy for Selecting Directors" and "Policy for Selecting Audit and Supervisory Board Members" in the "Corporate Governance Overview."

Activities of Independent Directors and Independent Audit and Supervisory Board Members during FY2022

For the attendance record of each person at the Board of Directors meetings, the Audit and Supervisory Board meetings, and Committees during FY2022, please refer to "Attendance for FY2022" in the "Corporate Governance Overview."

Naoki Izumiya, Independent Director

Naoki Izumiya has made statements in the Board of Directors meeting from a practical perspective as an independent Director, based on his deep insight cultivated through his experience as President and Representative Director as well as Chairman of the Board of Asahi Group Holdings, Ltd., a global manufacturing company, and as an outside Director of listed companies.

As Chairman of the Nominating Committee he demonstrated strong leadership, in improving the transparency of the selection process of Directors and Senior Vice Presidents, including the CEO. He also served as a member of the Compensation Committee, and contributed to discussions surrounding the compensation and evaluation of Directors and Senior Vice Presidents.

Hiroki Totoki, Independent Director

Hiroki Totoki has made statements in the Board of Directors meeting from a practical perspective as an independent Director, based on his deep insight cultivated through his experience as Director, Executive Deputy President and CFO, Representative Corporate Executive Officer of Sony Group Corporation, a global company with diversified business portfolios, and as Director of its group companies.

As Chairman of the Compensation Committee, he demonstrated strong leadership in discussions on the compensation and evaluation of Directors and Senior Vice Presidents. He also served as a member of the Nomination Committee and contributed to discussions and to improving transparency in the process of appointing Directors and Senior Vice Presidents, including the CEO.

Keiko Honda, Independent Director

Keiko Honda has made statements in the Board of Directors meeting from a practical perspective as an independent Director, based on her deep insight cultivated through her experience in key roles in both financial institutions and consulting firms.

She contributed to discussions as a member of the Nomination Committee and to improving transparency in the process of appointing Directors and Senior Vice Presidents, including the CEO.

She also contributed to discussions as a member of the Compensation Committee on the compensation and evaluation of Directors and Senior Vice Presidents.

Yoichiro Ogawa, Independent Audit and Supervisory Board Member

Yoichiro Ogawa made statements in the Board of Directors meeting from a neutral and objective perspective as an independent Audit and Supervisory Board member, based on international accounting knowledge gained as a certified public accountant and extensive international experience gained through management experience at a global accounting firm.

For the activities in the Audit and Supervisory Board meetings, please refer to “Status of Audits.”

He also contributed to discussions as a member of the Nomination Committee and to improving transparency in the process of appointing Directors and Senior Vice Presidents, including the CEO.

Katsuya Natori, Independent Audit and Supervisory Board Member

Katsuya Natori made statements in the Board of Directors meeting from a neutral and objective perspective as an independent Audit and Supervisory Board member, based on a high level of insight in corporate and international legal affairs cultivated through experience as a lawyer and as head of the legal department of a global IT company.

For the activities in the Audit and Supervisory Board meetings, please refer to “Status of Audits.”

He also contributed to discussions as a member of both the Compensation Committee on the compensation and evaluation of Directors and Senior Vice Presidents.

Independence Criteria of Independent Directors and Independent Audit and Supervisory Board Members

The Company selects Independent Directors and Independent Audit and Supervisory Board members in accordance with the independence standards established by the Tokyo Stock Exchange. In addition, the Company has a policy to select candidates who meet all of the following criteria:

- In case the candidate, or an entity for which the candidate serves as an executive member, is a shareholder of the Company, the voting rights held by the candidate or the entity should not exceed 10%.
- Transactions between the Company and the entity, where the candidate is an executive member, should not exceed 1% of the Company's consolidated revenue during the most recent fiscal year.
- Transactions between the Company and the entity, where the candidate is an executive member, should not exceed 1% of the consolidated revenue of the entity to which the candidate belongs during the most recent fiscal year.

Cooperation between Independent Directors and Independent Audit and Supervisory Board Members with respect to Internal Audits, Audits Conducted by the Audit and Supervisory Board and Audits Conducted by the Independent Auditor

- Independent Directors receive reports from the Internal Audit Department, the Audit and Supervisory Board members, the Independent Auditor, and the internal control divisions at the Board of Directors meetings as appropriate to promote mutual cooperation. In addition, by attending the Nomination Committee and Compensation Committee, which are advisory bodies to the Board of Directors, as chairpersons or members, they are able to improve the transparency and fairness of management.
- Independent Audit and Supervisory Board members receive reports from other Audit and Supervisory Board members, the Independent Auditor, and the Internal Audit Department at the Audit and Supervisory Board meetings on the methods and results of their respective audits as appropriate, and individually exchange information with them as appropriate to promote mutual cooperation. In addition, they monitor and evaluate the operational status and the maintenance of internal controls from an independent standpoint in their capacity as independent Audit and Supervisory Board members, and receive reports from the internal control divisions as necessary during the audit process.

Support and Training for Directors and Audit and Supervisory Board Members

Training Policy for Directors and Audit and Supervisory Board Members

At the time of their appointment, new Directors and Audit and Supervisory Board members are provided with an overview of the Company, basic information on matters such as management strategies, financial strategies, risk management policies and high-priority areas for audits. Thereafter, Directors and Audit and Supervisory Board members pursue opportunities to continuously update their knowledge. For instance, outside experts are invited to workshops as necessary, including when changes are made to the Companies Act of Japan or other regulations. In addition, visits to business sites are organized when needed to promote understanding of the business.

Senior Vice Presidents in charge of strategies for principal businesses are asked to provide independent Directors and independent Audit and Supervisory Board members with information to deepen their understanding of the businesses. Opportunities are provided to deepen understanding of the corporate culture, business, and employees through Recruit Group knowledge-sharing events. Directors and Audit and Supervisory Board members also participate as necessary in outside seminars on accounting, finance and risk management and in internal seminars led by invited outside experts.

Support for Independent Directors

The Administrators of the Board of Directors provide various forms of support to ensure independent Directors are able to appropriately oversee the performance of Executive Directors. This support includes advance briefings on agenda items to be discussed at the Board of Directors meetings and the provision of relevant supporting information.

Support for Independent Audit and Supervisory Board Members

Standing Audit and Supervisory Board members and assistants to Audit and Supervisory Board members provide necessary support to independent Audit and Supervisory Board members to ensure the appropriate and prompt conduct of audits. Such support includes sharing materials and agenda items discussed at important meetings that independent Audit and Supervisory Board members did not attend. Subsidiaries with a standing Audit and Supervisory Board member provide reports to the Audit and Supervisory Board of the Company. Furthermore, the Audit and Supervisory Board members themselves visit subsidiaries and interview management to check on business conditions.

Collaboration between Independent Directors and Independent Audit and Supervisory Board Members

These support functions are supplemented by the following established procedures:

- One independent Director is assigned to coordinate with the independent Directors, and to communicate and coordinate with Directors and Senior Vice Presidents and for collaboration with Audit and Supervisory Board members or the Audit and Supervisory Board.
- As necessary, following Board of Directors meetings, separate meetings attended only by independent Directors and independent Audit and Supervisory Board members may be held, in order to more effectively gather information without affecting the independence of each other.
- The Board of Directors approves internal audit plans for the fiscal year prepared by the Internal Audit Department, and internal audit reports are issued biannually to ensure coordination among independent Directors, independent Audit and Supervisory members and the Internal Audit Department.

Status of Audits

Mutual Cooperation among Internal Audits, Audits by the Audit and Supervisory Board Members and Audits by the Independent Auditor

The Company has adopted a three-way audit through which audits are conducted by the Audit and Supervisory Board members, an audit and assurance firm which serves as an Independent Auditor, and the Company's Internal Audit Department. Audits by Audit and Supervisory Board members and the Independent Auditor are statutory. Internal audits are voluntary, focusing on internal independent evaluations of the internal control structure and prevention of internal misconduct, and carried out under the direction of management.

The Internal Audit Department, Audit and Supervisory Board members, and the Independent Auditor mutually cooperate. Audit and Supervisory Board members request the Independent Auditor and the Internal Audit Department to report on their methods and results as required at the meetings of the Audit and Supervisory Board. In addition, the standing Audit and Supervisory Board members exchange information individually with the Independent Auditor and the Internal Audit Department on a regular basis. The Internal Audit Department reports and shares information when requested by an Audit and Supervisory Board member or the Audit and Supervisory Board, and shares information separately with the Independent Auditor.

Status of Internal Audits, Audits by the Audit and Supervisory Board Members, and Audits by the Independent Auditor; and the Relationship with the Internal Control Division are as follows:

Internal Audits

Internal audits are conducted by the Internal Audit Department, which consists of sixteen members that includes some members with professional qualifications, such as Certified Internal Auditor, Certified Information System Auditor, and Certified Public Accountant as of April 1, 2023 and reports directly to the Representative Director, President and CEO. The main duty of the Internal Audit Department is to conduct audits of operations and internal controls related to financial reporting, based on its annual audit plan. The audit results are reported to the Representative Director, President and CEO as well as the Audit and Supervisory Board and the Board of Directors.

The Internal Audit Department evaluates the operational status and the maintenance of internal controls. When a deficiency is found, the Internal Audit Department notifies the audited division and the departments responsible for internal controls to improve the situation. The Internal Audit Department also follows up on the status of improvements to ensure that the business of the Company is conducted appropriately.

Audits by the Audit and Supervisory Board Members

The Audit and Supervisory Board comprises four members, including two independent members, and meets once a month in principle. The Audit and Supervisory Board determines the auditing policy and the division of duties, and audits the performance of the Directors in accordance with the annual audit plan. The audits focus on the internal controls, compliance and risk management system of the Company.

The Audit and Supervisory Board works to improve effectiveness and efficiency of the audit process. This means ensuring that there is adequate time to conduct audits, engaging in active monitoring, and providing guidance for prevention and handling of cases of misconduct, deficiencies, and other negative issues. This is achieved by communicating and coordinating with the Audit and Supervisory Board members and other officers of subsidiaries and by receiving periodic reports on the audit results of the subsidiaries and associates. The Independent Auditor also provides periodic audit reports.

In order to evaluate Directors' performance of their duties, the Audit and Supervisory Board oversees maintenance and operation of internal controls, and receives reports from the departments responsible for internal controls and the Internal Audit Department. Additionally, the Company has designated Assistants to assist all Audit and Supervisory Board members including independent members in the performance of their duties.

Attendance and Activities at the Audit and Supervisory Board Meetings

During FY2022, the Audit and Supervisory Board meetings were held 16 times.

The attendance record of each Audit and Supervisory Board member at the Audit and Supervisory Board meetings and the activities

¹ The Audit and Supervisory Board meetings were held 11 times since Takashi Nishimura was appointed as a standing Audit and Supervisory Board member at the Annual Meeting of Shareholders on June 21, 2022.

Concrete agenda of the Audit and Supervisory Board during FY2022

During FY2022, the Audit and Supervisory Board discussed and exchanged opinions on basic audit matters stipulated in laws and regulations and the Articles of Incorporation. In addition to the basic audit matters, the Audit and Supervisory Board discussed and exchanged the opinion on important matters for auditing based on reports by standing Audit and Supervisory Board members and related departments.

Priority Audit Matters

In addition to the basic audit matters, the Audit and Supervisory Board examined the following three priority audit matters set for FY2022 with the perspective of the Company achieving sustainable growth and increasing enterprise value over the mid-to long-term.

- Transparency of corporate governance at management level
- Appropriateness of governance at each SBU
- Internal control and progress to the countermeasures for top risks recognized by Recruit Group without any overestimates

Basic Audit Matters

The Audit and Supervisory Board examined issues below including related risks as basic audit matters following the annual audit plan:

- Audit related to the execution of duty by each Director
- Audit related to the monitoring of business execution and Internal Controls
- Audit related to the audit by Independent Auditor

The Audit and Supervisory Board conducted major activities as follows based on basic audit matters above.

Audit related to the execution of duty by each Director

Attending the meetings of the Board of Directors and other committees, confirming the status of execution, requesting explanations as necessary, and expressing opinions.

Communicating and exchanging information with Representative Director and Internal Directors, gathering information and exchanging opinions on the audit items.

Conducting meetings with independent Directors and independent Audit and Supervisory Board members, exchanging information and opinions on the audit items with them.

Reporting on the audit status of priority audit matters to the Board of Directors every six months.

Audit related to the monitoring of business execution and Internal Controls

Attending the Business Strategy Meetings and other important meetings to confirm the status of business execution, requesting explanations as necessary, and expressing opinions.

Communicating and exchanging information with the Senior Vice Presidents and the heads of divisions, and collecting information and exchanging opinions on auditing matters.

Receiving periodic audit reports from Audit and Supervisory Board members and non-Executive Directors of the Company's subsidiaries, collecting information and exchanging opinions on audit matters.

Receiving periodic reports from the departments responsible for internal controls and internal audits, on the status of maintenance and operation of the internal controls, requesting explanations as necessary, and expressing opinions.

Audit related to the audit by Independent Auditor

Confirming the annual audit plan of the Independent Auditor in advance and deliberating the possibility of consent to the fees for the Independent Auditor and other matters. This is based on the policy of unifying

the accounting audits of the Company including overseas consolidated subsidiaries with the same accounting firm network and conducting audits including non-statutory voluntary audits.

Interviewing and deliberating the audit opinions and recommendations of the Independent Auditor regarding the quarterly and annual financial statements.

Receiving information on, and exchanging opinions of, important accounting audits performed by the Independent Auditor on the Company including consolidated overseas subsidiaries.

Confirming with the Independent Auditor the potential candidate items for Key Audit Matters (“KAM”) and the perception of risk related to each KAM with taking business performance as well as incidents occurred during this fiscal year into the consideration, and exchanging opinions from the perspectives of material events, uncertainty, and audit difficulty.

As part of the annual evaluation of the Independent Auditor, together with the accounting division, investigating and understanding the actual status of the audit work of the Independent Auditor based on the evaluation criteria of quality control system, independence, expertise, understanding of business fields and global expansion, and requesting necessary improvements. Discussing the policy for the selection and dismissal of the Independent Auditor, taking into consideration the period of continuous audit of the audit firm and its Designated Engagement Partners.

Audits by the Independent Auditor

Name of the Independent Auditor

Ernst & Young ShinNihon LLC

Consecutive Auditing Period

Since 1984

Certified Public Accountants Who Performed the Audit

Hitoshi Matsuoka

Yoshifumi Mitsugi

Takuto Miki

Composition of Assistants Involved in the Audit Work

20 certified public accountants and 22 other assistants

Policy for the Selection of the Independent Auditor and Reasons for the Selection

The Company has selected Ernst & Young ShinNihon LLC as its Independent Auditor as a result of a comprehensive consideration of relevant factors including its quality control system, independence, expertise, and the understanding of the business areas the Company is engaged in on a global scale.

Evaluation of the Independent Auditor by the Audit and Supervisory Board

The Audit and Supervisory Board evaluates the Independent Auditor in accordance with the policy below.

- The Audit and Supervisory Board of the Company shall dismiss the Independent Auditor upon the consent of all Audit and Supervisory Board members, in the case that the Independent Auditor falls under any of the items prescribed in Article 340, Paragraph 1 of the Companies Act of Japan.
- In cases other than the above, where the conduct of a proper audit is deemed difficult due to factors such as the occurrence of an event damaging the eligibility and independence of the Independent Auditor, the Audit and Supervisory Board shall propose the dismissal or non-reappointment of the Independent Auditor to the Shareholders Meeting.

The Audit and Supervisory Board assesses the appropriateness of the performance of the duties of the Independent Auditor through discussions when receiving regular audit reports from the Independent Auditor. At the same time, the independence and expertise of the Independent Auditor are confirmed by receiving reports on the securing of independence by the Independent Auditor and exchanging opinions on those occasions. In addition, as an annual evaluation of the Independent Auditor, the Audit and Supervisory Board, together with the accounting division of the Company, prepares evaluation standards, investigates and gains an understanding of the status of the audit work of the Independent Auditor, and conducts an evaluation.

Other

The Independent Auditor or engagement partners of the Independent Auditor engaged in the Company's audit have no special interests in the Company. In addition, the Independent Auditor receives an internal control report from the Representative Director, conducts internal control audits, monitors and verifies the development of an internal control and its operational status, and receives reports from the Internal Control Division as necessary in the audit process. At the same time, the Independent Auditor holds discussions with management to understand the general situation such as the nature of the business and trends in the business environment, and to understand management's assessment of internal controls and fraud risk.

Fees for Independent Auditor

(In millions of yen)

Type	FY2021		FY2022	
	Audit fees	Non-audit fees	Audit fees	Non-audit fees
The Holding Company	-	0	-	-
Consolidated subsidiaries	508	29	627	76
Total	508	29	627	76

Non-audit services for the Holding Company and its consolidated subsidiaries include various advisory services.

Fees based on Other Important Audit Certification Services

Not applicable.

Policy to Determine Compensation for the Independent Auditor

Audit fees for the Independent Auditor are determined through a comprehensive consideration based on factors including the contents of audits up to the previous fiscal year and the contents of the auditing plan for the current fiscal year presented by the Independent Auditor.

Reason why the Audit and Supervisory Board Agreed to the Fees for the Independent Auditor

The Audit and Supervisory Board verified the auditing time outlined in the auditing plan, change in the amount of audit fees, and past auditing plans and their performance results. As a result of careful review of the adequacy of the estimated amount of the fees, the Audit and Supervisory Board has approved the fees to be paid to the Independent Auditor, pursuant to the provisions of Article 399, Paragraph 1 of the Companies Act of Japan.

Compensation

Compensation Policies for FY2023

Basic Compensation Policies

The compensation for Directors, Audit and Supervisory Board members and Senior Vice Presidents is determined in accordance with the following policies:

- Set compensation levels that will be attractive to outstanding management talent globally.
- Make compensation plans highly performance-based.
- Connect compensation to mid- to long-term enterprise value.
- Make the compensation decision process highly objective and transparent.

Compensation Levels

Compensation levels are set at a commensurate rate with peer companies, both in Japan and overseas, which are similar in both business and scale.

To set the individual compensation levels for each executive of the Company, we use data from outside database services, etc. regarding compensation levels for equivalent posts at benchmark companies.

We also take into consideration factors relating to each individual such as what the Company expects from each individual to set the most appropriate compensation levels.

This method for determining the compensation level is not only used for the executives of the Company, but is also used to determine the appropriate compensation level for those who occupy important posts in each SBU.

Compensation Elements

The Company's compensation for executives is composed of "Base Salary (Cash)," "Annual Incentive (Cash)," "BIP Trust Long-term Incentive (Equity)," and "Stock Option Long-term Incentive (Equity)." The goals of each type of compensation and the method for payout are explained below.

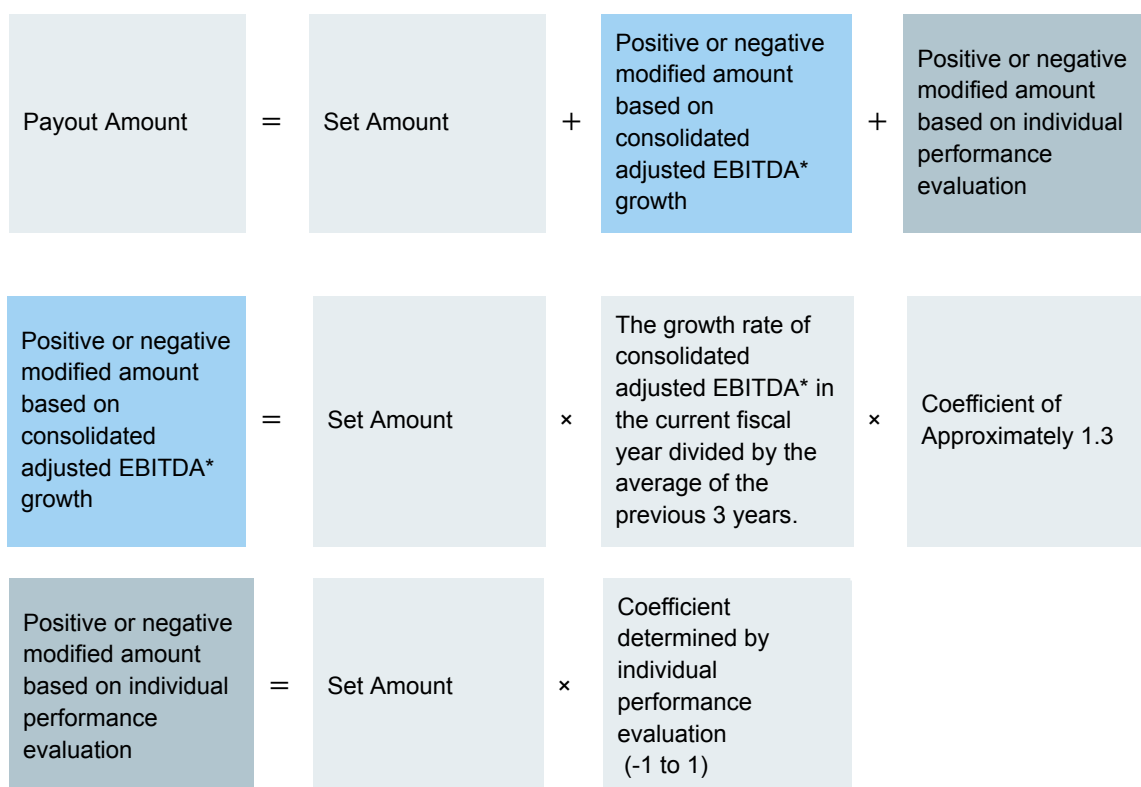

Base Salary (Cash)

This element is aimed at securing excellent management personnel and encouraging sound job performance. The amount is set according to the individual role of each executive and is paid in monthly installments.

Annual Incentive (Cash)

This element is meant to motivate executives to achieve their annual goals. The actual payout amount, based on a set amount according to each role, is linked to the growth rate of adjusted EBITDA, a key management performance indicator of the Company, and each individual's performance evaluation, the calculation of which is outlined below.

The payment method is payment of the set amount each month in the current fiscal year, and then payment of the additional amount in the following fiscal year, or collection of the modified amount from the executive, in the case of a negative modified amount, monthly, over the following fiscal year. The calculation for the payout of annual incentives is as expressed below.

* The definition of adjusted EBITDA used to calculate the annual incentive payout amount for the evaluation period for FY2023 is as follows:

- Adjusted EBITDA = Operating income + depreciation and amortization (excluding depreciation of right-of-use assets) + share-based payment expenses ± other operating income/expenses

Furthermore, if the forecasted adjusted EBITDA is lower than the average of the previous 3 years, the Company may choose to determine the amount paid in the current fiscal year by deducting the anticipated negative modified amount from the set amount.

Regarding the individual performance evaluations, before the beginning of each fiscal year, the Compensation Committee sets the expected responsibilities of each role, and then the Compensation Committee reviews and evaluates performance at the end of the fiscal year.

In order to realize the Company's business strategy to "Prosper Together - Seek sustainable growth shared by all stakeholders," the Board of Directors of the Company has resolved to make a commitment to sustainability, and announced group-wide ESG targets in May 2021. In keeping with this commitment, we have decided to include initiatives for important ESG themes in the annual evaluation of each Senior Vice President, including Executive Directors, that will subsequently be reflected in their compensation.

Long-term Incentive: BIP Trust (Equity)

This element is intended to motivate executives to improve the Company's enterprise value over the mid- to long-term. By giving executives the right to receive shares in the future, we encourage them to contribute to sustainably increasing enterprise value. The amount of shares of the Company equivalent to the set amount, according to the role of each individual executive, will be acquired and stored in a trust account to be delivered, in principle, upon retirement.

From FY2022, in order to encourage swift action toward realizing the Company's business strategy to "Prosper Together - Seek sustainable growth shared by all stakeholders," we decided to link part of the BIP Trust compensation for Executive Directors to the ESG goals. In FY2022, regarding the three goals of Reduction of Greenhouse Gas Emissions as a measure against climate change, Ratio of Female Employees, and Ratio of Female Members of the Board of Directors for which

goals are set for FY2030, we set multiple quantitative target values as mid-term targets for the three years leading up to FY2024 linking it to part of the BIP Trust. In FY2023, approximately 15% of BIP Trust awards for Executive Directors will be linked to the achievement of these target values. If a target value is not achieved, then the shares attributed to such a target value will not be vested to Executive Directors. These target values are based on deliberation by the Sustainability Committee, which includes outside experts, and then are approved by the Board of Directors.

Long-term Incentive: Stock Options (Equity)

This element is intended to motivate executives to increase the Company's enterprise value over the mid- to long-term. By giving executives the right to earn value from their awards only when the stock price rises, we encourage them to contribute to enhance both shareholder value and enterprise value.

By allocating the amount of stock options equivalent to the set amount according to the roles of each individual executive, and allowing them to exercise the stock options after a certain period set by the Board of Directors, the recipient, by exercising the shares, may acquire the shares at the value of the allotment date closing stock price.

The stock options may be exercised within the period that commences one year from the start date of the fiscal year in which the allotment date of the stock acquisition rights occurs and ends within 10 years from the allotment date. In principle, all stock options will be exercisable after three years or more have passed from the start date of the fiscal year in which the allotment date occurs.

The Presidents/CEOs of each SBU headquarters serve as Senior Vice Presidents of the Company. By applying the above compensation design and setting mid- to long-term incentives (equity) as a large proportion of their total compensation, the Company aims to motivate them to improve business performance and increase enterprise value with a long-term perspective.

In order to encourage swift action at the front lines of the business geared toward realizing the Company's business strategy to "Prosper Together - Seek sustainable growth shared by all stakeholders," the CEOs of each SBU headquarters will also have a portion of their BIP Trust compensation linked to ESG goals.

For the purpose of attracting and retaining outstanding management talent globally, and in cases where personnel were recruited based on standards of markets with significantly different hiring practices and laws and regulations from those of Japan, the Company may adopt a compensation design or policy differing from the one described above.

However, only if the Compensation Committee, which is chaired by an independent Director and has a majority of independent members, determines that this exception is necessary will a differing compensation design or policy be adopted.

In such a case, with regards to the BIP Trust, the vesting of shares may occur during the recipient's tenure in office, however, with regards to the vesting timing, when the vesting of shares occurs in a single installment, the timing of vesting of shares will not occur until at least two years or more have passed from the start date of the fiscal year in which the recipient is eligible to receive grants.

When the vesting of shares occurs in multiple installments, the period of the vesting of shares will not begin until at least one year or more has passed from the start date of the fiscal year in which the recipient is eligible to receive grants, and in such a case, the average length of the period required for the vesting to be completed shall be two years or more*.

* For example, the following schemes may be used to meet this requirement:

- Of the shares to be granted, one-third will be vested after one year, one-third after two years, and one-third after three years (in this case the average length of the period is two years); and
- Of the shares to be granted, one-quarter will be vested after one year, one-quarter after two years, one-quarter after three years, and one-quarter after four years (in this case the average length of the period is 2.5 years).

Ratio of Compensation Elements for FY2023

For FY2023, the following ratios of compensation elements are planned to be paid to Directors and Audit and Supervisory Board members.

In the case of Directors, excluding independent Directors, the achievement percentage of set targets will be reflected in their compensation relative to a set amount which is determined using benchmark data from outside database services, etc. Their incentive ratio, especially for long-term incentives, increases in line with an increasing role and responsibility.

Compensation for independent Directors and Audit and Supervisory Board members consists of base salary only, not tied to performance, considering the importance of their role of oversight from an independent and objective standpoint.

The below compensation elements ratios are planned for FY2023:

	Base Salary (Cash)	Annual Incentive (Cash)	Long-term Incentive (Equity)	
			BIP Trust	Stock Options
Directors excluding independent Directors ²	15%	15%	48%	22%
Independent Directors	100%	-	-	-
Audit and Supervisory Board members	100%	-	-	-

¹ The ratio of compensation elements above is based on a model with a target achievement rate of 100%.

² The percentage to be paid to Directors excluding independent Directors is shown as the average for the four applicable Directors.

³ In FY2022, the ratio of compensation elements for Directors excluding independent Directors, was Base Salary (Cash) 37%, Annual Incentive (Cash) 16%, BIP Trust (Equity) 33%, and Stock Options (Equity) 14%. The ratio for independent Directors and Audit and Supervisory Board members was 100% Base Salary (Cash).

Governance

The Company has established a Compensation Committee as an advisory body to the Board of Directors. The Compensation Committee is chaired by an independent Director and has a majority of independent members. This committee is established for the purpose of enhancing objectivity and transparency of compensation for Directors and Senior Vice Presidents.

The compensation amount for each Director is determined by the Board of Directors, taking into account reports by the Compensation Committee. The compensation for each Audit and Supervisory Board member is determined by the Audit and Supervisory Board based on consultation among its members.

The Company appoints external compensation consultants to provide objective viewpoints and expertise in compensation practices. With their support, the Company reviews its compensation levels and compensation

elements in light of external data, the economic environment, industry trends, the state of business management, and other factors.

In addition, the Company has clawback clauses that limit, or claim the return of part or all of, long-term incentive compensation if there is any malfeasance, misconduct, or any other serious violation of duties or internal rules during the term of office of a Director and Senior Vice Presidents.

The amount of individual compensation for Directors and Audit and Supervisory Board members are determined within compensation ranges approved at the Annual Meeting of Shareholders. Dates and details of resolutions are as follows.

Compensation for Directors

Types of compensation	Resolution date	Applicable recipients	Total amount and shares	Number of applicable recipients at the time of the resolution
Base Salary ¹ Annual Incentive	June 26, 2023	Directors	Total annual amount not to exceed 1.6 billion yen (of which annual total for independent Directors not to exceed 300 million yen)	8 Directors, including 4 independent Directors
Long-term Incentive	BIP Trust June 17, 2021	Directors, excluding independent Directors	Total annual amount not to exceed 2.0 billion yen Not to exceed 700,000 shares annually	4 Directors, excluding independent Directors
	Stock Options June 17, 2021	Directors, excluding independent Directors	Total annual amount not to exceed 1.4 billion yen Annual number of stock options not to exceed 18,000 ²	4 Directors, excluding independent Directors

¹ As of March 31, 2023, the content of compensation approved at the Annual Meeting of Shareholders of Recruit Holdings held on June 19, 2019 is still in effect. The applicable recipients were Directors, and the maximum total annual amount was 1.4 billion yen (including 100 million yen for independent Directors) and the number of applicable recipients at the time of the resolution was seven Directors (including two independent Directors).

² The target number of shares per one stock option is 100 shares.

Compensation for Audit and Supervisory Board Members

Types of compensation	Resolution date	Applicable recipients	Total amount and shares	Number of applicable recipients at the time of the resolution
Base salary	June 20, 2017	Audit and Supervisory Board members	Total monthly amount not to exceed 10 million yen	4 Audit and Supervisory Board members

Compensation Setting Process

Individual compensation amounts for each Director are determined by the Board of Directors taking into account the reports by the Compensation Committee. The compensation amount for each Audit and Supervisory Board member is determined by the Audit and Supervisory Board based on consultation among its members. The amount of individual compensation for Directors and Audit and Supervisory Board members are determined within compensation ranges approved at the Annual Meeting of Shareholders.

The Board of Directors also decides the policy for deciding the compensation of Directors and Senior Vice Presidents, and the details of the compensation structure based on discussions surrounding the calculation logic and exact calculated compensation range, in the Compensation Committee.

Individual compensation amounts for Directors other than the Representative Directors, are approved by the President, CEO who also serves as a Representative Director (Hisayuki Idekoba for FY2022) to ensure efficient Board management. The authority to approve this decision is delegated to the Representative Director, President and CEO following a resolution by the Board of Directors on the condition that the decision is made with respect to the results of the deliberation by the Compensation Committee.

Results for Compensation

Total Compensation Amount in FY2022

(In millions of yen, unless otherwise stated)

Executive level	Total compensation	Amount of compensation by type				Allowance for retirement benefits, etc. ¹	Number of applicable recipients
		Cash compensation		Equity compensation			
		Base salary	Annual incentive	Long-term incentive			
				BIP Trust	Stock options		
Directors, excluding independent Directors	1,858	168	367	826	495	-	4

Employees with Director Level Secondments

There are currently no employees with Director level secondments.

Targets for Compensation Paid in FY2022

The target and result of the performance indicator related to annual cash incentives paid in FY2022 are as follows:

(In billions of yen, unless otherwise stated)

	Performance indicators	Target	Actual
Annual Incentive ¹	Adjusted EBITDA for FY2021	286.6 ²	479.3

¹ In addition to the above, individual performance evaluations are reflected in annual incentives.

² For the annual incentive, since this award is linked to the adjusted EBITDA growth compared to the average adjusted EBITDA of the previous 3 years, this target value represents the average adjusted EBITDA from FY2018 to FY2020.

Target for Compensation to Be Paid in FY2023

The target and result of the performance indicator related to annual cash incentives scheduled to be paid in FY2023 is as follows:

(In billions of yen, unless otherwise stated)

	Performance indicators	Target	Actual
Annual Incentive ¹	Adjusted EBITDA for FY2022	361.8 ²	545.0

¹ In addition to the above, individual performance evaluations are reflected in annual incentives.

² For the annual incentives, since this award is linked to the adjusted EBITDA growth compared to the average adjusted EBITDA of the previous 3 years, this target value represents the average adjusted EBITDA from FY2019 to FY2021.

³ Definition of adjusted EBITDA is shown at the beginning of this document.

Actions of the Board of Directors and Committees in FY2022

The Compensation Committee met two times in FY2022, and all members of the Committee were in attendance. The main matters for deliberation and resolution are as follows:

- Compensation level and elements for executives
- Evaluation and determination of compensation of individual Directors

Of the Board of Directors meetings held in the current fiscal year, discussions were held two times on matters related to executive compensation.

When deciding the details of compensation for Directors, the Compensation Committee conducts a multifaceted examination of the proposal and reports to the Board of Directors. As the report is done in a manner that is consistent with our decision-making policy, the Board of Directors will adopt the proposal in keeping with the results of the report. We judge this process to be in keeping with our decision-making policy.

Stocks Held by the Company

Classification of Stocks Held by the Company

The Company classifies stocks for investment into those solely for investment purposes and those for other purposes.

Stocks Held solely for Investment Purposes

Stocks held solely for investment purposes refers to stocks held for the purpose of generating capital gains through changes in stock prices or income through dividends related to the shares.

The Holding Company and Recruit Co., Ltd. don't hold stocks solely for investment purposes.

Stocks Held for Other Purposes

Stocks held for other purposes are classified as strategic shareholdings and deemed shareholdings.

- Strategic shareholdings refer to shares held for maintaining or strengthening business relationships important to business strategies. The Holding Company and Recruit Co., Ltd. hold strategic shareholdings.
- The Holding Company and Recruit Co., Ltd. don't hold deemed shareholdings.

Policy of Strategic Shareholdings

In principle, the Company's policy is to reduce strategic shareholdings. The decision on whether or not to hold each company's stock is made based on a comprehensive assessment of the economic value of its stock, cost of capital, strategic importance, environment, social and governance (ESG) aspects, and other factors. The Board of Directors scrutinizes these shareholdings once a year and deliberates the reduction of these holdings if they do not meet the above criteria.

The total amount of strategic shareholdings held by the Holding Company and Recruit Co., Ltd. was 86.4 billion yen, which was 5.3% of total equity as of March 31, 2023.

Exercising voting rights of strategic shareholdings is to be carried out appropriately upon verifying the agenda item and judging whether or not such proposed item contributes to improvement of shareholder value. If the agenda item significantly damages expected shareholder value, the Company will not judge it positively. If the Company casts a dissenting vote to an agenda item, it will be reported to the Board of Directors and the Company will encourage the investee to improve such item through a constructive communication.

If a company that holds shares of the Company as strategic shareholdings indicates the intention to sell the shares, the Company will do nothing to hinder the sale, such as indicating resulting reductions in business transactions between the companies.

Furthermore, the Company does not conduct business transactions that may harm the shared interests of the Company and its shareholders, such as continuing business transactions with companies that are strategic shareholders without adequately verifying the economic rationality of the transactions.

Stocks Held for Purposes Other than Pure Investment by the Holdings Company

The Holding Company holds the largest amount of stocks held by the Company on the Balance Sheet of the Company.

Financial Information

Preparation of Consolidated Financial Statements and Non-consolidated Financial Statements

- The consolidated financial statements of the Company have been prepared in accordance with IFRS, based on the provisions set forth in Article 93 of the Ordinance on Terminology, Forms, and Preparation Methods of Consolidated Financial Statements (Ordinance of the Ministry of Finance No. 28 of 1976, the “Ordinance on Consolidated Financial Statements”).
- The non-consolidated financial statements of the Company have been prepared based on the Ordinance on Terminology, Forms, and Preparation Methods of Financial Statements, etc. (Ordinance of the Ministry of Finance No. 59 of 1963, the “Ordinance on Financial Statements, etc.”). Recruit Holdings falls under a Special Company Submitting Financial Statements and prepares the non-consolidated financial statements pursuant to Article 127 of the Ordinance on Financial Statements, etc.

Audit Certificate

Pursuant to the provisions set forth in Article 193-2, Paragraph 1 of the Financial Instruments and Exchange Act, the Company’s consolidated financial statements and non-consolidated financial statements for the year ended March 31, 2023 have been audited by Ernst & Young ShinNihon LLC.

Special Efforts to Ensure Appropriateness of Consolidated Financial Statements and Establishment of System for Preparing Consolidated Financial Statements Appropriately Based on IFRS

The Company has taken special efforts to ensure the appropriateness of consolidated financial statements and has worked to establish a system for appropriately preparing consolidated financial statements based on IFRS. The details are as follows:

- In order to properly understand the content of accounting standards and establish a system that can respond appropriately to revisions to accounting standards, the Company has joined the Financial Accounting Standards Foundation and has participated in seminars held by organizations with expertise.
- In order to prepare appropriate consolidated financial statements based on IFRS, the Company works to keep itself updated about the latest IFRS by obtaining press releases and standards disclosed by the International Accounting Standards Board. In addition, the Company develops internal rules and manuals to comply with IFRS and applies them in its accounting treatment.

Notes to Consolidated Financial Statements

1 Reporting Entity

Recruit Holdings Co., Ltd. (the “Holding Company” or “Recruit Holdings”) is a stock company incorporated under the Companies Act of Japan and domiciled in Japan. The addresses of its registered headquarters and principal business locations are disclosed on its website (<https://recruit-holdings.com/>). The details of businesses and principal activities of the Holding Company and its subsidiaries (the “Company”) are described in “5 Operating Segments.”

The Company’s consolidated financial statements for the year ended March 31, 2023 were approved on June 26, 2023 by Hisayuki Idekoba, Representative Director, President and CEO, Ayano Senaha, Director, Executive Vice President in charge of Finance, and Akihiko Mori, Senior Vice President in charge of Finance, Accounting, and Tax.

2 Basis of Preparation

Compliance with IFRS

The Company’s consolidated financial statements are prepared in accordance with IFRS. The Company applies the provisions of Article 93 of the Ordinance on Consolidated Financial Statements as it meets the requirements of the “Specified Company applying Designated IFRS” prescribed in Article 1-2 of the same ordinance.

Basis of Measurement

The consolidated financial statements are prepared on a historical cost basis except for certain assets and liabilities including financial instruments that are measured at fair value as described in “3 Significant Accounting Policies.”

Functional Currency and Presentation Currency

The consolidated financial statements are presented in Japanese yen, which is the functional currency of the Holding Company, and figures less than one million yen are rounded down to the nearest million yen.

3 Significant Accounting Policies

Unless otherwise indicated, the following accounting policies have been applied to all periods stated in the consolidated financial statements.

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and the Company’s equity in its associates. In cases where the accounting policies applied by a subsidiary or an associate are different from those applied by the Company, adjustments are made to the subsidiary’s or the associate’s financial statements as necessary. Intragroup balances of receivables and payables, intragroup transactions, and unrealized gains and losses arising from intragroup transactions are eliminated in preparing the consolidated financial statements.

Subsidiaries

A subsidiary is an entity that is controlled by the Company. Control is achieved if the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. The Company obtains control of a subsidiary on its acquisition date, and the subsidiary is included in the consolidation from such date until the date on which the Company loses control. A subsidiary with a different closing date is consolidated based on its provisional financial statements as of the consolidated closing date. Changes in the ownership interest of a subsidiary without a loss of

control are accounted for as equity transactions. Any difference between the adjustment of non-controlling interests and the fair value of the consideration received is recognized directly in equity as the equity attributable to owners of the parent. Any gain or loss arising from the loss of control is recognized in profit or loss. Comprehensive income of a subsidiary is allocated to the equity attributable to owners of the parent and the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

Associates

An associate is an entity over which the Company has significant influence but does not have control or joint control. An associate is accounted for using the equity method from the date on which the Company obtains significant influence until the date on which it loses such influence.

Business Combinations

The Company accounts for each business combination by applying the acquisition method. The consideration transferred in a business combination is measured as the sum of the acquisition-date fair values of the assets transferred, the liabilities incurred by the acquirer to former owners of the acquiree and the equity interests issued by the acquirer, including any contingent consideration, if applicable.

Identifiable assets acquired and liabilities assumed in a business combination are measured at fair value at the acquisition date.

Acquisition-related costs incurred in a business combination are expensed as incurred.

Goodwill is initially measured as the excess of the aggregate of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of the Company's previously held equity interest in the acquiree, over the fair value of the net identifiable assets and liabilities assumed at the acquisition date.

If the initial accounting for a business combination is incomplete by the date of approval of this consolidated financial statements, the Company reports provisional amounts for the items for which the accounting is incomplete. The Company retrospectively adjusts the provisional amounts recognized at the acquisition date as an adjustment during the measurement period when new information about facts and circumstances that existed as of the acquisition date and, if known, would have affected the recognized amounts for the business combination. The measurement period shall not exceed one year from the acquisition date.

Effects of Changes in Foreign Exchange Rates

The Company's consolidated financial statements are presented in Japanese yen, which is the functional currency of the Holding Company. Each entity in the Company determines its own functional currency, and the financial statements of each entity are measured using that functional currency.

Transactions in foreign currencies are translated into the functional currency of each of the subsidiaries and the associates at the spot exchange rate on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rates prevailing at the closing date. Non-monetary assets and liabilities measured at historical cost that are denominated in foreign currencies are translated into the functional currency using the exchange rates at the date of the initial transaction. Non-monetary assets and liabilities measured at fair value that are denominated in foreign currencies are translated into the functional currency using the spot exchange rates at the date when the fair value is determined. Differences arising from the translation and settlement are recognized as profit or loss. When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange difference is also recognized in other comprehensive income.

The assets and liabilities of foreign operations are translated using the spot exchange rate at the closing date, while income and expenses of foreign operations are translated using the spot exchange rate at the date of the transaction or a rate that approximates such rate. The resulting translation differences are recognized as other comprehensive income. In cases where a foreign operation is disposed of, the cumulative amount of translation differences related to the foreign operation is recognized in profit or loss on disposal.

Financial Instruments

Financial Assets

Recognition, Classification and Measurement of Financial Assets

Financial assets are recognized when the Company becomes a party to the contract of the financial instruments. The Company measures all financial assets at fair value at initial recognition and classifies them as financial assets measured at amortized cost, financial assets measured at fair value through other comprehensive income (“FVTOCI financial assets”), or financial assets measured at fair value through profit or loss (“FVTPL financial assets”).

Financial Assets Measured at Amortized Cost

The Company classifies financial assets that satisfy the following conditions as financial assets measured at amortized cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets measured at amortized cost are initially recognized as the sum of the fair value and transaction costs, and subsequently measured at amortized cost using the effective interest method less impairment losses. Interest income, gains or losses on derecognition, and impairment losses are recognized as finance income or costs in profit or loss.

FVTOCI Financial Assets

FVTOCI Debt Financial Assets

The Company classifies debt financial assets that satisfy the following conditions as FVTOCI debt financial assets measured at fair value through other comprehensive income:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

FVTOCI debt financial assets are initially recognized as the sum of the fair value and transaction costs, and subsequent changes in fair value (other than impairment losses) are recognized in other comprehensive income. The cumulative amount in other comprehensive income is reclassified to profit or loss upon derecognition of the asset. Interest income, gains or losses on derecognition, and impairment losses are recognized as finance income or costs in profit or loss.

FVTOCI Equity Financial Assets

Of financial assets measured at fair value, the Company classifies equity financial assets for which the Company has made an irrevocable election at initial recognition to present subsequent fair value changes in other comprehensive income as FVTOCI equity financial assets measured at fair value through other comprehensive income. The Company, in principle, designates all equity financial assets as FVTOCI equity financial assets.

FVTOCI equity financial assets are initially recognized as the sum of the fair value and transaction costs. Subsequent changes in fair value as well as gains or losses on derecognition are recognized in other comprehensive income, and their cumulative amount is immediately reclassified to retained earnings after being recognized in other components of equity.

Dividends received on FVTOCI equity financial assets are recognized as finance income when

entitlement to the dividends is established, except for cases where the dividend clearly represents the recovery of part of the cost of the investment.

FVTPL Financial Assets

The Company classifies all financial assets including derivatives as FVTPL financial assets, unless these are measured at amortized cost or at fair value through other comprehensive income as stated above.

FVTPL financial assets are initially recognized at fair value, and any subsequent changes in fair value as well as any gains or losses on disposal are recognized as finance income or costs in profit or loss.

Impairment of Financial Assets

The Company recognizes a provision for expected credit losses on financial assets measured at amortized cost or FVTOCI debt financial assets.

The Company assesses at the end of each reporting period whether credit risk on a financial asset has increased significantly since initial recognition. If the credit risk on a financial asset has increased significantly since initial recognition, the provision for that financial asset is measured at an amount equal to lifetime expected credit losses. If credit risk has not increased significantly, the provision is measured at an amount equal to 12-month expected credit losses. Whether credit risk has increased significantly or not is determined based on changes in default risk.

For trade receivables that do not contain a significant financing component, the provision is measured at an amount equal to lifetime expected credit losses under a simplified approach, based on historical evidence of credit losses, regardless of changes in the credit risk.

Derecognition

The Company derecognizes a financial asset when the contractual rights to cash flows arising from the financial asset expire or substantially all the risks and rewards of ownership of the financial asset are transferred.

Interests in a transferred financial asset created or retained by the Company are recognized separately as assets or liabilities.

Financial Liabilities

Recognition, Classification and Measurement of Financial Liabilities

Financial liabilities are recognized when the Company becomes a party to the contract of the financial instruments. The Company measures all financial liabilities at fair value at initial recognition and classifies them as financial liabilities measured at amortized cost or financial liabilities measured at fair value through profit or loss ("FVTPL financial liabilities").

Financial Liabilities Measured at Amortized Cost

The Company classifies all financial liabilities as financial liabilities measured at amortized cost, except for:

- FVTPL financial liabilities (including derivative liabilities)
- financial guarantee contracts
- contingent consideration recognized in a business combination

Financial liabilities measured at amortized cost are initially recognized as the fair value less transaction costs, and subsequently measured at amortized cost using the effective interest method.

FVTPL Financial Liabilities

FVTPL financial liabilities are initially recognized at fair value and any subsequent changes in fair value are recognized as finance income or costs in profit or loss, unless the hedge accounting criteria are met.

Derecognition

The Company derecognizes financial liabilities when the obligations are discharged, canceled, or expired.

Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is presented in the consolidated statement of financial position only if there is a currently enforceable legal right to set off the recognized amounts, and there is an intention either to settle on a net basis or to realize the asset and settle the liability simultaneously.

Derivatives and Hedge Accounting

Derivatives

To hedge foreign currency risks and risks of changes in interest rates, the Company enters into derivative contracts, including interest rate swaps, currency swaps and forward foreign exchange contracts. These derivatives are initially recognized as assets or liabilities at fair value at the date on which the contracts are entered into, and subsequently measured at fair value at the end of the reporting period. The changes in the fair value of derivatives (gains and losses on valuation of derivatives) are immediately recognized in profit or loss if hedge accounting is not applied. The changes in the fair value of derivatives which purpose is to hedge foreign currency risks are presented in the consolidated statement of profit or loss after being offset by exchange rate differences (foreign exchange gains and losses) that arise from changes in foreign exchange rates of monetary items denominated in foreign currencies.

Hedge Accounting

When the hedging relationship qualifies for hedge accounting, the Company accounts for a part of the derivatives as cash flow hedges. The effective portion of changes in the fair value of derivatives designated as cash flow hedges is recognized in other comprehensive income, and the cumulative amount is recognized in other components of equity. The amount recognized in other components of equity is reclassified to profit or loss in order to offset the effects arising when the hedged item is recognized in profit or loss. The ineffective portion of cash flow hedges is immediately recognized in profit or loss.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash on hand, demand deposits, and short-term investments due within three months from the date of acquisition that are readily convertible to cash and which are subject to an insignificant risk of changes in value.

Property and Equipment

Property and equipment are measured at cost less accumulated depreciation and accumulated impairment losses by using the cost model.

The costs of property and equipment include those directly attributable to the acquisition of the asset and the estimate of the costs of dismantlement, removal and restoration.

Property and equipment are depreciated using the straight-line method over the useful life of each significant component of the asset. The depreciation method, useful lives and residual values are reviewed at the end of each fiscal year, and the effects of any changes in estimates, if any, are accounted for as changes in accounting estimates prospectively by including it in profit or loss in the period of the change and future periods.

Major useful lives of property and equipment are as follows:

- Buildings and structures: 2 to 50 years
- Tools, furniture and fixtures: 2 to 20 years

Intangible Assets

Intangible assets are measured at cost less accumulated amortization and accumulated impairment losses by using the cost model.

Intangible assets acquired separately are measured at cost at initial recognition. Identifiable intangible assets acquired through business combinations separately from goodwill are measured at fair value at the date on which the Company obtains control.

Expenditures on research activities are expensed as incurred. Expenditures on development activities are capitalized only if all of the following can be demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale
- the Company's intention to complete the intangible asset, and use or sell it
- the Company's ability to use or sell the intangible asset
- how the intangible asset will generate probable future economic benefits
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset
- the Company's ability to measure reliably the expenditure attributable to the intangible asset during its development

Intangible assets with definite useful lives are amortized using the straight-line method over their useful lives. The amortization method and useful lives are reviewed at the end of each fiscal year, and the effects of any changes in the estimates are accounted for as changes in accounting estimates, if any, prospectively by including it in profit or loss in the period of the change and future periods. Intangible assets with indefinite useful lives are not amortized.

Major useful lives of intangible assets are as follows:

- Software: 5 years
- Customer-related assets: 2 to 15 years

Leases

At the inception of a contract, the Company assesses whether the contract is, or contains, a lease based on the substance of the contract.

A lease liability is recognized and measured at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate at the commencement date of the lease if the interest rate implicit in the lease is not readily determinable. After the commencement date, the lease liability is measured by increasing or reducing the carrying amount to reflect interest on the lease liability and the lease payments made, and remeasuring the carrying amount as necessary to reflect any lease modifications. The lease term is determined as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the option is reasonably certain to be exercised, and periods covered by an option to terminate the lease if the option is reasonably certain not to be exercised.

Right-of-use assets are measured at cost less accumulated depreciation and accumulated impairment losses by applying the cost model. The cost of a right-of-use asset includes the amount of the initial measurement of the lease liability at the commencement date, any lease payments made at or before the commencement date less lease incentives, and restoration costs required by the lease contract. Right-of-use assets are depreciated using the straight-line method over the lease term. The lease term is reassessed upon the occurrence of a significant event or a significant change in circumstances that affects whether the lessee is reasonably certain to exercise the extension option, or not to exercise the termination option. When the lease term is modified, the lease liability will be remeasured and, in principle, the amount of right-of-use assets will be adjusted.

The Company has elected not to recognize right-of-use assets and lease liabilities for leases which are of low value.

Impairment of Non-financial Assets

At the end of each reporting period, the Company assesses whether there is any indication that its assets may be impaired. If any such indication exists, impairment tests are performed to assess the recoverable amount of the asset or the cash-generating unit (“CGU”) to which it belongs. Intangible assets with indefinite useful lives and those not yet available for use are not amortized, and tested for impairment annually irrespective of whether there is any indication of impairment, or whenever there is an indication of impairment.

The recoverable amount is measured at the higher of an asset or CGU’s fair value less costs of disposal and its value in use. The value in use is calculated by discounting the estimated future cash flows to their present value with a pre-tax discount rate that reflects the time value of money and the risks specific to the asset or CGU. If the recoverable amount of an individual asset or a CGU is less than its carrying amount, the carrying amount is reduced to the recoverable amount, and an impairment loss is recognized as “Other operating expenses” in the consolidated statement of profit or loss.

For assets for which impairment losses were recognized in prior periods, the Company assesses at the closing date whether there is any indication of a reversal of an impairment loss. If there is an indication of a reversal of an impairment loss, and the recoverable amount of an individual asset or a CGU exceeds its carrying amount, the impairment loss is reversed to the lower of its recoverable amount and the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized for the asset in prior periods.

Goodwill

Goodwill is measured at cost less accumulated impairment losses. Goodwill is allocated to a CGU or a group of CGUs that is expected to benefit from the synergies of the business combination. A CGU or a group of CGUs to which goodwill is allocated is determined based on the smallest level unit at which the goodwill is monitored for internal management purposes, and no larger than an operating segment.

The Company performs an impairment test for the CGU or the group of CGUs to which goodwill was allocated at a specified point of time in each fiscal year or whenever there is an indication of impairment. If the recoverable amount of a CGU or a group of CGUs is less than its carrying amount in an impairment test, the difference is recognized as an impairment loss, in principle. In recognizing the impairment loss, the carrying amount of goodwill allocated to the CGU or the group of CGUs is reduced, and then the carrying amounts of the other assets in the CGU or the group of CGUs are reduced pro rata on the basis of the carrying amount of each asset. An impairment loss for goodwill is recognized in profit or loss as “Other operating expenses” and is not reversed in subsequent periods.

Non-current Assets Held for Sale

An asset or asset group for which the value is expected to be recovered through a sale transaction rather than through continuing use is classified as a non-current asset or disposal group held for sale if (i) it is highly probable that the asset or disposal group will be sold within one year, (ii) the asset or disposal group is available for immediate sale in its present condition, and (iii) the Company’s management has made a commitment to sell the asset or disposal group. Non-current assets held for sale are not depreciated or amortized and are measured at the lower of their carrying amount and fair value less costs to sell.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Where the effect of the time value of money is material, the amount of the provision is measured at the present value of the expenditures expected to be required to settle the obligation. In calculating the present value, the Company uses a pre-tax discount rate that reflects the current market assessments of the time value of money and the risks specific to the liability.

Post-employment Benefits

The Company operates defined contribution plans and defined benefit plans as retirement benefit plans for employees.

Defined Contribution Plans

Retirement benefit costs for defined contribution plans are recognized in profit or loss for the period over which the employees render the related services.

Defined Benefit Plans

For each defined benefit plan, the Company calculates the present value of defined benefit obligations and the related current service cost and past service cost using the projected unit credit method, and recognizes them as an expense. The discount rate is determined by reference to the closing-date market yields on high quality corporate bonds for the period corresponding to the discount period, which is set on the basis of the period until the expected date of benefit payment in each future fiscal year. Net interest on the net defined benefit liability is recorded as cost of sales or selling, general and administrative expenses. Remeasurements of the net defined benefit liability incurred in the current period are recognized as other comprehensive income, and the cumulative amount is immediately reclassified to retained earnings after being recognized in other components of equity.

Equity

Common Stock and Share Premium

For equity instruments issued by the Company, the issue prices are recorded in common stock and share premium, and the transaction cost (net of related tax effects) directly attributable to the issuance is deducted from common stock and share premium proportionally on the basis of the issue price.

Treasury Stock

When shares of treasury stock are acquired, the consideration paid including the transaction cost (net of related tax effects) directly attributable to the acquisition is recognized as a deduction from equity. When shares of treasury stock are sold, the consideration received is recognized as an increase in equity.

Share-based Payment

The Company has introduced the following equity-settled equity compensation plan.

Equity-settled Stock Options

The Company grants equity-settled stock options as an incentive plan for the Directors of the Board, Senior Vice Presidents and Corporate Professional Officers (Senior Vice Presidents and Corporate Professional Officers are collectively referred to as "Senior Management") and key management personnels of Recruit Holdings. The Company recognizes the services received as consideration for the stock options as an expense, and the corresponding amount is recognized as an increase in equity. The expense is estimated at the fair value of the stock options at the grant date. The fair value is calculated, taking into account the terms and conditions of the options, primarily by using the Black-Scholes model.

Equity-settled Board Incentive Plan ("BIP") Trust

The Company has introduced an equity-settled BIP Trust as an incentive plan for the Directors of the Board and Senior Management of Recruit Holdings and some of its subsidiaries. Consideration for the services received is measured with reference to the fair value of the shares of Recruit Holdings' common stock at the grant date and is recognized as an expense over its vesting period while the corresponding amount is recognized as an increase in equity.

Equity-settled Employee Stock Ownership Plan (“ESOP”) Trust

The Company has introduced an equity-settled ESOP Trust as an incentive plan for the employees of its subsidiaries. Consideration for the services received is measured with reference to the fair value of shares of Recruit Holdings’ common stock at the grant date and is recognized as an expense over its vesting period while the corresponding amount is recognized as an increase in equity. The fair value at the grant date is measured as the market price of the shares adjusted for expected dividends.

Revenue Recognition

The Company recognizes revenue based on the following five-step approach. The details of revenue recognition for each segment are described in “21 Revenue.”

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

The incremental costs of obtaining a contract are recognized as an asset (“asset recognized for costs of obtaining contracts”) if those costs are expected to be recoverable. The incremental costs of obtaining a contract are those costs that the Company incurs to obtain a contract with a customer that it would not have incurred if the contract had not been obtained.

An asset recognized for costs of obtaining contracts is amortized on a systematic basis that is consistent with the transfer to the customer of the services to which the asset relates, unless the amortization period of the asset is one year or less. If the amortization period of the asset is one year or less, the incremental costs of obtaining a contract are expensed when incurred by using the practical expedient in IFRS 15.

Income Taxes

Income tax expense is the sum of current tax expense and deferred tax expense and recognized in profit or loss, except for taxes arising from items that are directly recognized in other comprehensive income or in equity and taxes arising from business combinations.

Current Tax Expense

Current tax expense is measured at the amount expected to be paid to or refunded from the taxation authorities using the tax rates (and tax laws) that have been enacted or substantively enacted by the closing date.

Deferred Tax Expense

Deferred tax expense is calculated based on the temporary differences between the tax base for assets and liabilities and their carrying amount for accounting purposes at the closing date. Deferred tax assets are recognized for deductible temporary differences, unused tax credits and unused tax losses to the extent that it is probable that future taxable profit will be available against which they can be utilized. Deferred tax liabilities are recognized, in principle, for all taxable temporary differences.

Deferred tax assets are not recognized for the following temporary differences:

- temporary differences arising from the initial recognition of assets or liabilities in transactions that are not business combinations and affect neither accounting profit nor taxable profit (tax loss) at the time of transaction, and
- deductible temporary differences arising from investments in subsidiaries and associates where it is probable that the temporary difference will not reverse in the foreseeable future or it is not probable that future taxable profit will be available against which the temporary difference can be utilized.

Deferred tax liabilities are not recognized for the following temporary differences:

- temporary differences arising from the initial recognition of goodwill,
- temporary differences arising from the initial recognition of assets or liabilities in transactions that are not business combinations and affect neither accounting profit nor taxable profit (tax loss) at the time of transaction, and
- taxable temporary differences arising from investments in subsidiaries and associates where the Company is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

There are certain cases where assets and liabilities arising from a single transaction are recognized at the same amount. In such transactions, deferred tax liabilities are recognized for taxable temporary differences of the recognized assets, and deferred tax assets are recognized for deductible temporary differences of the recognized liabilities. Deferred tax assets and liabilities are measured using the tax rates that are expected to apply to the year when the asset is realized or the liability is settled, using the tax rates (and tax laws) that have been enacted or substantively enacted by the closing date. Deferred tax assets and deferred tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and the assets and liabilities related to income taxes are levied by the same taxation authority on the same taxable entity or different taxable entities which intend to settle on a net basis.

Earnings per Share

Basic earnings per share is determined by dividing the profit (loss) attributable to the common shareholders of the parent by the weighted average number of shares of common stock outstanding, adjusted for shares of treasury stock, during the period. Diluted earnings per share is adjusted for the effect of all dilutive potential shares of common stock.

4 Significant Accounting Judgments, Accounting Estimates and Assumptions

In preparing the consolidated financial statements, management makes judgments, accounting estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, revenue and expenses.

Estimates and assumptions are based on management's best judgments based on historical performance and various factors considered reasonable. By their nature, however, actual results may differ from the estimates and assumptions made. Estimates and their underlying assumptions are continuously reviewed. The effects of changes in accounting estimates are recognized prospectively by including it in profit or loss in the period of the change and future periods.

Estimates and assumptions that significantly affect the amounts recognized in the consolidated financial statements are as follows:

Method of Fair Value Measurement of Financial Instruments

When measuring the fair values of certain financial instruments, the Company uses a valuation technique that includes unobservable inputs. The unobservable inputs may be affected by changes in uncertain future economic conditions. As of March 31, 2023, such accounting estimates were recognized under "Other financial assets" in the consolidated statement of financial position.

Impairment of Property and Equipment, Right-of-use Assets, Goodwill and Intangible Assets

The Company tests property and equipment, right-of-use assets, goodwill and intangible assets for impairment in accordance with "3 Significant Accounting Policies." Recoverable amounts in impairment tests are measured based on assumptions such as growth rates and discount rates that are used in the estimates of future cash flow projections. These assumptions are determined by management's best estimates and judgments. However, they may be affected by changes in uncertain future economic conditions. As of March

31, 2023, such accounting estimates were recognized under “Property and equipment,” “Right-of-use assets,” “Goodwill,” and “Intangible assets” in the consolidated statement of financial position. The details of goodwill and intangible assets are described in “11 Goodwill and Intangible Assets.”

Assessment of Defined Benefit Obligations

The Company operates defined benefit plans as retirement benefit plans. For each defined benefit plan, the present value of defined benefit obligations and the related costs including service cost are determined based on the actuarial assumptions such as discount rates, mortality rates and other factors. These assumptions are determined by management’s best estimates and judgments. However, they may be affected by changes in uncertain future economic conditions. As of March 31, 2023, such accounting estimates were recognized under “Net liability for retirement benefits” in the consolidated statement of financial position.

Recoverability of Deferred Tax Assets

Deferred tax assets are recognized for deductible temporary differences, unused tax credits and unused tax losses to the extent that it is probable that sufficient future taxable income will be available against which the deductible temporary differences can be utilized. The period in which it is probable that sufficient future taxable income will be available and the amount of the future taxable income are determined by management’s best estimates and judgments. However, they may be affected by changes in uncertain future economic conditions. As of March 31, 2023, such accounting estimates were recognized under “Deferred tax assets” in the consolidated statement of financial position.

5 Operating Segments

Overview of Reportable Segments

The Company’s operating segments are components of the Company for which discrete financial information is available and whose operating results are reviewed regularly by the Board of Directors to decide on the allocation of operating resources and assess business performance. The Company has three operating segments by type of business, HR Technology, Matching & Solutions, and Staffing, which are also the reportable segments. Beginning FY2022, the Media & Solutions segment has changed its name to Matching & Solutions.

HR Technology consists of two operations, US and non-US. Matching & Solutions consists of two operations, Marketing Solutions and HR Solutions. Staffing consists of two operations, *Japan*, and *Europe, US and Australia*.

The details of these segments are described in “21 Revenue.”

Information about Reportable Segments

Previously, segment profit (loss) denoted adjusted EBITDA (operating income + depreciation and amortization (excluding depreciation of right-of-use assets) ± other operating income/expenses). However, beginning FY2022, the Company changed its calculation method of segment profit (loss) and added share-based payment expenses as an adjustment item to better reflect its cash flow generation and to enhance comparability with other companies globally. Accordingly, segment profit (loss) after the change denotes adjusted EBITDA (operating income + depreciation and amortization (excluding depreciation of right-of-use assets) + share-based payment expenses ± other operating income/expenses). Segment information for FY2021 has also been prepared using the calculation method after the change.

Revenue from external customers in Adjustments includes revenue that is not allocated to a specific reportable segment, and segment profit (loss) of Adjustments includes corporate expenses not allocated to any reportable segments. Corporate expenses consist primarily of general and administrative expenses that are not allocable to the segments. Intersegment revenues or transfers are calculated based on a price used in similar transactions with external customers. Segment assets and liabilities are not disclosed as they are not subject to review for deciding on the allocation of operating resources and assessing business performance.

For the Year Ended March 31, 2022

(In millions of yen)

	Reportable Segment				Adjustments	Consolidated
	HR Technology	Matching & Solutions	Staffing	Total

Current assets	1,903	6,629
Non-current assets	182,240	228,326
Total	184,143	234,955

¹ Equity financial assets are generally classified as financial assets measured at fair value through other comprehensive income.

² Debt financial assets are classified as financial assets measured at fair value through profit or loss.

³ Guarantee deposits for leases are classified as financial assets measured at amortized cost.

Financial Assets Measured at Fair Value through Other Comprehensive Income

Equity financial assets, such as shares, are held primarily for maintaining and strengthening relationships with business partners. These assets are designated as financial assets measured at fair value through other comprehensive income.

The breakdown of financial assets measured at fair value through other comprehensive income is as follows:
(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
Financial assets with active markets	88,156	84,020
Financial assets without active markets	65,482	87,414
Total	153,639	171,434

The names of securities of financial assets with active markets and their fair values as of March 31, 2022 and 2023 are shown below. Financial assets without active markets consist primarily of investment in Internet-related industries.

As of March 31, 2022

(In millions of yen)

(In millions of yen)

	Goodwill	Customer-related assets	Software ¹	Other ²	Total
As of April 1, 2021	460,082	142,720	365,685	101,920	1,070,408
As of March 31, 2022	500,458	154,747	412,622	111,686	1,179,515
As of March 31, 2023	534,433	164,746	452,895	124,655	1,276,730

Accumulated Amortization and Accumulated Impairment Losses

(In millions of yen)

	Goodwill	Customer-related assets	Software ¹	Other ²	Total
As of April 1, 2021	60,720	81,920	255,436	66,176	464,253
As of March 31, 2022	64,441	99,327	305,310	80,290	549,368
As of March 31, 2023	71,456	115,117	340,537	99,007	626,119

¹ Software mainly comprises internally generated software.

² Other mainly includes trademark rights.

³ Amortization is mainly included within "Selling, general and administrative expenses" in the consolidated statement of profit or loss.

⁴ Research and development expenses recognized as expenses for the years ended March 31, 2022 and 2023 are 85,013 million yen and 168,986 million yen, respectively.

Significant Intangible Assets

Significant items included in intangible assets are customer-related assets arising from the acquisition of shares in RGF Staffing B.V. (39,963 million yen and 37,383 million yen as of March 31, 2022 and 2023, respectively). The remaining amortization period as of March 31, 2023 is 7 years.

Impairment Tests on Goodwill

The Company groups its assets by CGU, the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows generated from other assets or groups of assets, by considering managerial units of operations, in principle. Goodwill is allocated to each CGU or group of CGUs that is expected to benefit from the synergies of the business combinations at the acquisition date.

In HR Technology, the entire operation is tested for impairment as a single CGU as it is expected to benefit from the synergies among its entities, and goodwill is monitored for internal management purposes considering that fact. In Staffing, each of the composing entities is tested for impairment as a CGU or a group of CGUs, in principle, in light of their unique business environment.

The balance of goodwill of each CGU or group of CGUs are as follows:

(In millions of yen)

Reportable Segment	CGU or group of CGUs	As of March 31, 2022	As of March 31, 2023
HR Technology	HR Technology	227,099	246,959
Staffing	RGF Staffing B.V.	158,049	168,120
	Other entities	50,869	47,897
Total		436,017	462,977

The Company's significant goodwill is those relating to HR Technology and those arising from the acquisition of shares in RGF Staffing B.V.

The Company tests goodwill for impairment annually irrespective of whether there are any indications of impairment, or whenever there is an indication of impairment.

An impairment loss on goodwill is recognized when the recoverable amount of the CGU or the group of CGUs is lower than its carrying amount. The recoverable amount is based on the value in use, which is calculated using the present value of estimated pre-tax 5-year future cash flows based on a business plan approved by the management of each CGU.

The estimated 5-year future cash flows are determined based on internal and external sources including market growth rates as well as management's assessment of future trends in the industry and historical data. For the periods subsequent to the period covered by the estimated future cash flows, the Company calculates the terminal value based on indefinite life by discounting the future cash flows estimated by using a conservative growth rate determined by considering the environment of the country and the industry in which the CGU belongs. The pre-tax discount rate is determined based on the weighted average cost of capital considering the time value of money and the risks specific to the assets.

Key assumptions used in determining the recoverable amount of each CGU or group of CGUs are as follows:

(%)

Reportable Segment	CGU or group of CGUs	As of March 31, 2022		As of March 31, 2023	
		Growth rate	Discount rate	Growth rate	Discount rate
HR Technology	HR Technology	2.2	7.8	2.1	12.6
Staffing	RGF Staffing B.V.	0.0	7.5	2.4	11.7
	Other entities	0.0-1.2	8.6-12.1	0.0-3.6	13.1-18.0

The Company considers that significant impairment is unlikely to occur in each CGU or group of CGUs to which goodwill is allocated, even if key assumptions used for the impairment tests change within a reasonably foreseeable range.

For goodwill relating to RGF Staffing B.V., as of March 31, 2023, a decrease of 2.0% in the growth rate or an increase of 1.4% in the discount rate could result in the recoverable amount being equal to the carrying amount.

Impairment of Goodwill and Intangible Assets

Impairment losses on goodwill and intangible assets are recorded within “Other operating expenses” in the consolidated statement of profit or loss.

There are no significant impairment losses on goodwill and intangible assets for the year ended March 31, 2022.

Major impairment losses on goodwill and intangible assets for the year ended March 31, 2023 are as described in “23 Other operating expenses.”

12 Leases

Overview of Leases

The Company leases office buildings and other assets as a lessee. Some lease contracts have renewal options. There are no significant restrictions imposed by lease contracts (such as restrictions on additional borrowings and additional leases).

The breakdown of expenses related to leases is as follows:

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Depreciation of right-of-use assets		
Buildings and structures	40,478	39,900
Other	3,036	3,440
Total	43,514	43,340
Interest expenses on lease liabilities	3,109	3,655
Expenses on leases of low-value assets ¹	2,319	3,560

¹ For leases for which the underlying asset is of low value, the lease payments are recognized as an expense on a straight-line basis over the lease term.

The breakdown of right-of-use assets is as follows:

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
Buildings and structures ¹	181,439	180,018
Other	5,620	5,017
Total	187,060	185,036

¹ The increase in right-of-use assets for the years ended March 31, 2022 and March 31, 2023 are 26,246 million yen and 50,734 million yen, respectively.

Future Cash Outflows to which the Company is potentially exposed that are not reflected in the Measurement of Lease Liabilities

There are no significant future cash outflows to which the Company is potentially exposed that are not reflected in the measurement of lease liabilities.

Cash Outflows related to Leases

Total cash outflows for leases for the years ended March 31, 2022 and 2023 are 48,385 million yen and 52,534 million yen, respectively.

13 Income Taxes

Deferred Tax Assets and Deferred Tax Liabilities

The breakdown by major component of deferred tax assets and deferred tax liabilities is as follows:

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
Deferred tax assets		
Unused tax losses	7,790	4,001
Liabilities related to employee benefits	54,932	51,532
Share-based payment	8,507	16,559
Lease liabilities	57,034	59,177
Contract liabilities	8,596	12,144
Research and development expenses	24,665	49,047
Other	29,313	45,232
Total deferred tax assets	190,841	237,695
Deferred tax liabilities		
Investments in subsidiaries and associates	82,853	84,204
Right-of-use assets	50,126	50,124
Property and equipment, goodwill and intangible assets	22,062	21,142
Other	21,705	28,538
Total deferred tax liabilities	176,748	184,011
Net deferred tax assets (liabilities)	14,092	53,684

¹ In recognizing deferred tax assets, the Company takes into account taxable temporary differences, future taxable profit and tax planning.

The breakdown of changes in deferred tax assets and deferred tax liabilities is as follows:

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Net deferred tax assets (liabilities)		
Beginning balance	(33,488)	14,092
Recognized through profit or loss	44,811	48,194
Recognized in other comprehensive income	1,149	(9,029)
Other ¹	1,620	426
Ending balance	14,092	53,684

¹ Other includes exchange differences on the translation of foreign operations.

Deductible Temporary Differences and Unused Tax Losses for which Deferred Tax Assets are not recognized in the Consolidated Statement of Financial Position

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
Deductible temporary differences	197,414	345,505
Unused tax losses	39,259	47,597

The breakdown by expiration of unused tax losses for which deferred tax assets are not recognized in the consolidated statement of financial position is as follows:

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
1 year or less	183	38
Over 1 year through 5 years	1,833	2,193
Over 5 years and indefinite period	37,242	45,366
Total	39,259	47,597

Breakdown of Income Tax Expense

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Current tax expense	129,838	144,290
Deferred tax expense	(44,811)	(48,194)
Total	85,026	96,096

Reconciliation between Statutory Effective Tax Rates and Actual Effective Tax Rates

(%)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Statutory effective tax rate	30.6	30.6
(Adjustments)		
Difference from applicable tax rates for subsidiaries	(6.3)	(7.1)
Share of profit (loss) of associates and joint ventures	(0.4)	(0.2)
Tax credits	(1.5)	(4.4)
Tax effects related to investments in subsidiaries and associates	0.8	3.6
Changes in the assessment for recoverability of deferred tax assets	(1.0)	0.8
Other	0.1	3.0
Actual effective tax rate	22.2	26.1

¹ The Company is mainly subject to income tax, inhabitant tax and enterprise tax (deductible for tax purposes), based on which the statutory effective tax rates have been calculated at 30.6% for the years ended March 31, 2022 and 2023. The overseas subsidiaries are subject to local income taxes.

14 Trade and Other Payables

The breakdown of trade and other payables is as follows:

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
Accounts payable - trade	67,306	74,162
Accrued expenses	188,599	230,009
Other	27,944	45,743
Total	283,849	349,916

¹ Trade and other payables are classified as financial liabilities measured at amortized cost.

15 Bonds and Borrowings

The breakdown of bonds and borrowings is as follows:

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023	Average interest rate (%) ¹	Maturity (year)
Bonds ²	19,982	19,991	0.22	2024
Borrowings	40,654	15,283	(0.06)	2023 - 2033
Total	60,636	35,274	-	-
Current liabilities	26,236	33,845		
Non-current liabilities	34,400	1,429		
Total	60,636	35,274		

¹ Average interest rate is the weighted average interest rate on the balance of borrowings and others at year-end, and the effective interest rates that reflect the effect of hedging through interest rate swaps and currency swaps are listed.

² The breakdown of bonds is as follows:

(In millions of yen)

Name of issuer	Name of bond	Date of issuance	As of March 31, 2022	As of March 31, 2023	Interest rate (%)	Collateral	Maturity date
The Holding Company	Second series unsecured bonds	March 9, 2017	19,982	19,991	0.22	Unsecured	March 8, 2024

16 Other Liabilities

The breakdown of other liabilities is as follows:

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
Contract liabilities ¹	75,204	78,113
Accrued consumption taxes	42,958	43,170
Accrued bonuses	81,948	56,305
Accrued paid holiday	53,743	56,160
Other	52,373	51,878
Total	306,229	285,628
Current liabilities	295,776	277,442
Non-current liabilities	10,452	8,185
Total	306,229	285,628

¹ Contract liabilities are unsatisfied performance obligations for which consideration has been received. When the Company satisfies the performance obligations under the contract, related revenues are recognized. Information on the Company's main performance obligations is provided in "21 Revenue." Most of the performance obligations related to contract liabilities outstanding as of April 1, 2022 were satisfied and related revenues were recognized in the year ended March 31, 2023. Revenue recognized in the year ended March 31, 2023 from performance obligations satisfied (or partially satisfied) in previous periods, due to changes in transaction prices or other reasons, is not material. The balance of contract liabilities as of April 1, 2021 was 58,300 million yen.

17 Provisions

The breakdown of and the changes in provisions are as follows:

For the Year Ended March 31, 2023

(In millions of yen)

	Provision for point program ¹	Asset retirement obligations ²	Other	Total
Beginning balance	10,171	10,331	3,979	24,482
Increase	6,819	1,146	1,926	9,892
Decrease due to utilization	(9,806)	(720)	(1,122)	(11,648)
Reversal	(322)	(4)	(1,096)	(1,423)
Other	5	446	190	642
Ending balance	6,867	11,200	3,878	21,945
Current	6,867	130	2,878	9,876
Non-current	-	11,069	999	12,068
Total	6,867	11,200	3,878	21,945

¹ The Company offers points to users to promote sales, and a provision for point program is recognized for estimated future expenses associated with the redemption of points by users based on historical performance. There is uncertainty about the amount or timing of the use of the points by users.

² Asset retirement obligations are recorded for the obligation to restore assets to their original condition, such as those associated with lease contracts for offices used by the Company, at the amount that is expected to be paid in the future primarily based on historical performance and third-party estimates. Expenditure for the restoration is expected to be incurred mainly after one year, but may be affected by future business plans and other factors.

18 Employee Benefits

Post-employment Benefits

The Company operates lump-sum retirement benefit plans, defined benefit corporate pension plans and defined contribution pension plans as retirement benefit plans.

Lump-sum retirement benefit plans are unfunded plans that are not externally funded but internally funded to pay lump-sum benefits. Lump-sum retirement benefits are paid based on compensation, service period, points earned in each service year and other conditions, pursuant to the provisions of retirement benefits, such as those under the employment rules of the Holding Company and each subsidiary.

Some of the Company's subsidiaries operate defined benefit corporate pension plans which pay lump-sum benefits or pension benefits based on points earned in each service year. Those subsidiaries bear the responsibility for executing operations faithfully to control and manage the funds in compliance with laws and regulations on behalf of the plan participants.

Amounts recognized relating to Defined Benefit Plans in the Consolidated Financial Statements

The amount of net defined benefit liability (asset) recognized in the consolidated statement of financial position is as follows:

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
Present value of defined benefit obligations (funded)	9,206	9,461
Fair value of plan assets	5,630	5,358
Subtotal	3,575	4,103
Present value of defined benefit obligations (unfunded)	56,419	57,141
Total	59,994	61,244
Amount recognized in the consolidated statement of financial position		
Net liability for retirement benefits	59,994	61,244

The weighted average duration of defined benefit obligations is as follows:

(In years)

	As of March 31, 2022	As of March 31, 2023
Weighted average duration	9.9	10.8

Reconciliation of Defined Benefit Obligations

Changes in the present value of defined benefit obligations are as follows:

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Present value of defined benefit obligations at the beginning of the year	62,489	65,625
Current service cost	8,963	8,024
Interest expense	194	287
Benefits paid	(6,301)	(6,239)
Differences arising from the remeasurement of the present value of the defined benefit obligations ¹	84	(1,309)
Other	195	214
Present value of defined benefit obligations at the end of the year	65,625	66,603

¹ The differences arising from the remeasurement of the present value of the defined benefit obligations resulted primarily from changes in financial assumptions.

Reconciliation of Plan Assets

Changes in the fair value of plan assets are as follows:

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Fair value of plan assets at the beginning of the year	5,450	5,630
Contributions to the plan	433	494
Other	(253)	(766)
Fair value of plan assets at the end of the year	5,630	5,358

The breakdown of the fair value by type of plan assets is as follows:

(In millions of yen)

	As of March 31, 2022	As of March 31, 2023
Cash and cash equivalents	94	152
General accounts of life insurance companies	3,603	3,466
Investment trusts ¹	1,753	1,740
Other	178	-
Total	5,630	5,358

¹ Investment trusts are investment vehicles such as commingled investment funds and are primarily invested in marketable securities such as Japanese stocks, foreign stocks, Japanese bonds and foreign bonds in active markets.

Effects on Future Cash Flows

Actuarial Assumptions

Significant actuarial assumptions (in the form of weighted averages) are as follows:

	As of March 31, 2022	As of March 31, 2023
Discount rate	0.5%	1.0%

Sensitivity Analysis

The effects of a 0.5% increase or decrease in the discount rate on the present value of defined benefit obligations as of the end of the year are as follows:

This analysis assumes that the other variables are constant, but in reality the assumptions do not always change independently.

Negative figures represent a decrease in the present value of defined benefit obligations, while positive figures represent an increase in the present value of defined benefit obligations.

(In millions of yen)

	Changes in assumptions	As of March 31, 2022	As of March 31, 2023
Discount rate	0.5% increase	(2,596)	(2,901)
	0.5% decrease	2,995	3,183

Effects on Defined Contribution Plans

Expenses for contributions to the Company's defined contribution pension plans for the years ended March 31, 2022 and 2023 are 67,720 million yen and 87,184 million yen, respectively, which are recognized as "Cost of sales" and "Selling, general and administrative expenses," in the consolidated statement of profit or loss.

Employee Benefit Expenses

The total amounts of employee benefits expense included in "Cost of sales" and "Selling, general and administrative expenses" in the consolidated statement of profit or loss for the years ended March 31, 2022 and 2023 are 1,725,123 million yen and 2,048,466 million yen, respectively.

19 Common Stock and Other Items of Equity

Common Stock

	Number of shares authorized (No-par value common stock)	Number of shares issued (No-par value common stock)
As of April 1, 2021	6,000,000,000	1,695,960,030
Changes during the period	-	-
As of March 31, 2022	6,000,000,000	1,695,960,030
Changes during the period	-	-
As of March 31, 2023	6,000,000,000	1,695,960,030

Treasury Stock

	Number of shares
As of April 1, 2021 ¹	61,763,564
Changes during the period ²	24,922,826
As of March 31, 2022 ¹	86,686,390
Changes during the period ³	30,158,414
As of March 31, 2023 ¹	116,844,804

¹ Includes shares of the Company held by the BIP Trust and the ESOP Trust of 1,389,130 shares, 12,738,818 shares, and 67,803,787 shares, as of April 1, 2021, March 31, 2022 and March 31, 2023, respectively.

² The increase in the number of shares of treasury stock for the year ended March 31, 2022 resulted mainly from the purchase of 26,555,258 treasury stocks based on the resolution at the meeting of the Board of Directors held on January 28, 2022. This includes the increase of 470,600 shares from the purchase of the shares of the Company by the BIP Trust and the ESOP Trust and the decrease of 1,915,012 shares from the disposal and delivery of the shares of the Company by the BIP Trust and the ESOP Trust.

³ The increase in the number of shares of treasury stock for the year ended March 31, 2023 resulted mainly from the purchase of 35,004,100 treasury stocks based on the resolution at the meeting of the Board of Directors held on October 17, 2022. This includes the increase of 435,500 shares from the purchase of the shares of the Company by the BIP Trust and the ESOP Trust and the decrease of 5,126,631 shares from the disposal and delivery of the shares of the Company by the BIP Trust and the ESOP Trust.

Share Premium

The Companies Act of Japan prescribes that at least one-half of the consideration received on the issuance of shares must be recognized as common stock and the remaining amount must be recognized as legal capital surplus, which is included in share premium. Legal capital surplus may be reclassified to common stock by resolution at the Shareholders Meeting.

Retained Earnings

The Companies Act of Japan prescribes that one-tenth of the amount of dividends from distributable profits must be set aside as legal capital surplus or legal retained earnings until the total amount of legal capital surplus and legal retained earnings reaches 25% of the amount of common stock. Legal retained earnings may be utilized to reduce a deficit or be reversed to retained earnings by resolution at the Shareholders Meeting.

20 Dividends

The amounts of dividends paid are as follows:

For the Year Ended March 31, 2022

Resolution	Type of shares	Total amount of dividends (In millions of yen)	Dividend per share (Yen)	Record date	Effective date
May 17, 2021 Meeting of the Board of Directors ¹	Common stock	17,173	10.5	March 31, 2021	June 18, 2021
November 15, 2021 Meeting of the Board of Directors ²	Common stock	17,309	10.5	September 30, 2021	December 10, 2021

¹ The total amount of dividends includes dividends of 14 million yen on the shares of Recruit Holdings held by the BIP Trust.

² The total amount of dividends includes dividends of 152 million yen on the shares of Recruit Holdings held by the BIP Trust and the ESOP Trust.

For the Year Ended March 31, 2023

Resolution	Type of shares	Total amount of dividends (In millions of yen)	Dividend per share (Yen)	Record date	Effective date
May 16, 2022 Meeting of the Board of Directors ¹	Common stock	17,031	10.5	March 31, 2022	June 22, 2022
November 14, 2022 Meeting of the Board of Directors ²	Common stock	18,143	11.0	September 30, 2022	December 12, 2022

¹ The total amount of dividends includes dividends of 133 million yen on the shares of Recruit Holdings held by the BIP Trust and the ESOP Trust.

² The total amount of dividends includes dividends of 426 million yen on the shares of Recruit Holdings held by the BIP Trust and the ESOP Trust.

Dividend whose record date is in the year ended March 31, 2023 but whose effective date is in the following fiscal year is as follows:

Resolution	Type of shares	Total amount of dividends (In millions of yen)	Dividend per share (Yen)	Record date	Effective date
May 15, 2023 Meeting of the Board of Directors ¹	Common stock	18,116	11.0	March 31, 2023	June 27, 2023

¹ The total amount of dividends includes dividends of 745 million yen on the shares of Recruit Holdings held by the BIP Trust and the ESOP Trust.

21 Revenue

Reconciliation of Disaggregated Revenue to Segment Revenue

The reconciliation of revenue disaggregated by major goods/service and operating segments is as follows:
(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
HR Technology	861,400	1,116,159
US	644,090	812,715
Non-US	217,309	303,443
Matching & Solutions	658,616	760,687
Marketing Solutions	396,548	451,594
HR Solutions	249,358	297,496
Other and Elimination	12,709	11,596
Staffing	1,378,492	1,585,274
Japan	604,943	684,161
Europe, US and Australia	773,549	901,112
Adjustments	(26,804)	(32,601)
Total	2,871,705	3,429,519

Due to the growth in revenue of HR Technology, effective from FY2022, revenue of HR Technology is disaggregated into two categories: the US and non-US.

The Company has three reportable segments, HR Technology, Matching & Solutions, and Staffing, whose operating results are reviewed regularly by the Board of Directors to decide on the allocation of operating resources and to assess business performance.

Revenues from these businesses are recognized based on contracts with customers.

The amount of variable considerations included in revenue is immaterial. Furthermore, the amount of promised consideration does not include any significant financing components.

HR Technology

The Company receives consideration from customers by providing services which enable job seekers to search for opportunities and customers to find candidates by operating an online matching and hiring platform. Revenue is recognized when the performance obligation is satisfied, which is when an individual user accesses or submits an application to the customer's job information through a paid advertisement

placed by the customer on the online job search engine site.

Matching & Solutions: Marketing Solutions

The Company receives advertising fees from customers by providing housing, beauty, travel, bridal and dining related information through its websites and printed media to prospective users of the services or purchasers of the products. For online advertisement placement services, regarding advertisement-related services with a guaranteed placement period, the Company has an obligation to place an advertisement over a period specified in a contract. Since the performance obligation is satisfied over time, revenue is recognized over the contract period on a straight-line basis.

For advertisement placement services in printed media, the Company provides advertisement-related services without a definite placement period to customers based on a contract, under which it is obliged to place an advertisement on a specific page of a printed media. Accordingly, the Company considers the performance obligation to be satisfied at the issuance date of the printed media, and revenue is recognized when the media containing the advertisement are displayed at stores and are available for purchase or browsing by consumers, or when they are delivered to subscribers.

Matching & Solutions: HR Solutions

The Company provides employment matching services where it introduces job seekers considering a career change to customers recruiting mid-career professionals by determining the requirements for a successful candidate and then selecting candidates whose work experience, skills and intention meet those requirements. The Company receives referral fees from the customer when the referred job seeker is employed and recognizes revenue at the time of employment. Regarding employment placement services, the Company has an obligation to provide individual employment arrangement services based on a contract. Since the performance obligation is satisfied at the time of employment, revenue is recognized at that point of time.

The Company also receives advertising fees from customers who are recruiting new graduates or mid-career professionals by supporting the entire process from recruitment to employment through advertisement placements on its websites and printed media.

For online advertisement placement services, regarding advertisement-related services with a guaranteed placement period, the Company has an obligation to place an advertisement over a period specified in a contract. Since the performance obligation is satisfied over time, revenue is recognized over the contract period on a straight-line basis.

For advertisement placement services in printed media, the Company provides advertisement-related services without a definite placement period to customers based on a contract, under which it is obliged to place an advertisement on a specific page of a printed media. Accordingly, the Company considers the performance obligation to be satisfied at the issuance date of the printed media and revenue is recognized when the media containing the advertisement are displayed at stores and are available for purchase or browsing by consumers, or when they are delivered to subscribers.

Regarding the sale of a set of services or a series of placements, the Company determines the stand-alone selling price for each underlying service at the inception of the contract, and allocates the transaction price in proportion to those stand-alone selling prices.

Any discount is allocated in proportion to the stand-alone selling prices to each performance obligation in the contract.

Staffing

The Company provides staffing services for clerical jobs, manufacturing jobs and light duty works, as well as various specialist positions to customers. For staffing services, the Company has an obligation to provide personnel based on a contract. The Company considers the performance obligation to be satisfied when labor is provided by the temporary employee. Accordingly, revenue is recognized based on the total number

of hours worked by the temporary employee during their dispatched period.

Contract Balances

The details of receivables (accounts receivable - trade), and contract liabilities arising from contracts with customers are described in “7 Trade and Other Receivables,” and “16 Other Liabilities,” respectively.

Transaction Price allocated to the Remaining Performance Obligations

Applying the expedient in IFRS 15, the Company does not disclose information on contracts with an individual expected contract period of one year or less or contracts for which revenue is recognized in the amount to which the Company has a right to invoice directly based on the value of the services performed. The Company has no significant transactions with an individual expected contract period exceeding one year.

Assets recognized for Costs of Obtaining or Fulfilling Contracts with Customers

The amount of assets recognized for costs of obtaining or fulfilling contracts with customers in the years ended March 31, 2022 and 2023 are not material.

22 Selling, General and Administrative Expenses

The breakdown of selling, general and administrative expenses is as follows:

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Sales commission	31,320	35,645
Promotion expenses	58,056	78,851
Advertising expenses	231,253	264,916
Employee benefit expenses	555,984	750,732
Service outsourcing expenses	154,468	222,639
Rent expenses	20,592	29,976
Depreciation and amortization	118,571	117,310
Other	80,057	103,171
Total	1,250,305	1,603,242

23 Other Operating Expenses

The breakdown of other operating expenses is as follows:

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Impairment losses ¹	16,698	31,073
Losses from disposals of subsidiary shares	1,002	-
Restructuring expenses ²	150	17,898
Loss on retirement of property and equipment and intangible assets	886	2,628
Other	4,305	2,288
Total	23,043	53,888

¹ Includes impairment losses of 13,902 million yen on right-of-use assets and property and equipment in connection with the integration of offices in HR Technology, impairment losses of 9,374 million yen on software and other assets in connection with the decline in profitability of certain cash-generating units in Matching & Solutions, impairment losses of 4,419 million yen on goodwill in connection with the decline in profitability of certain cash-generating units as well as impairment losses of 3,365 million yen on software in connection with changes in development plans in Staffing for the year ended March 31, 2023.

² Includes an expense of 17,685 million yen related to a workforce reduction of approximately 2,400 employees, which consisted 15% of HR Technology segment's employees, for the year ended March 31, 2023.

24 Other Comprehensive Income

The breakdown of other comprehensive income and the tax effects thereof (including non-controlling interests) are as follows:

(In millions of yen)

Category	For the Year Ended March 31, 2022			For the Year Ended March 31, 2023		
	Before tax effects	Tax effects	After tax effects	Before tax effects	Tax effects	After tax effects
Items that will not be reclassified to profit or loss:						
Net change in financial assets measured at fair value through other comprehensive income						
Amount recognized	530	922	1,452	20,067	(8,879)	11,188
Changes during the year	530	922	1,452	20,067	(8,879)	11,188
Remeasurements of defined retirement benefit plans						
Amount recognized	(547)	167	(380)	524	(145)	378
Changes during the year	(547)	167	(380)	524	(145)	378

26 Equity Compensation

Stock Options

Overview

The Company has a stock option plan under which stock options are granted to Directors of the Board, Senior Vice Presidents and Corporate Professional Officers (Senior Vice Presidents and Corporate Professional Officers are collectively referred to as “Senior Management”) and key management personnels of Recruit Holdings. Stock options are granted to target individuals as resolved by the Board of Directors of Recruit Holdings based on terms approved by its Shareholders Meeting.

The Company’s stock option plan is accounted for as an equity-settled share-based payment.

The Company implemented a ten-for-one stock split of its common stock effective July 31, 2014 and a three-for-one stock split of its common stock effective July 1, 2017. Number of shares granted for stock options presented in each fiscal year are adjusted to reflect these stock splits.

Equity compensation agreements outstanding as of the year ended March 31, 2023 are as follows:

Type	For the Year Ended March 31, 2014	For the Year Ended March 31, 2015	For the Year Ended March 31, 2016	For the Year Ended March 31, 2020	For the Year Ended March 31, 2021	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Grant date	August 31, 2013	December 26, 2014	September 25, 2015	July 31, 2019	July 27, 2020	July 29, 2021	July 25, 2022
Number of shares granted	1,002,000 shares of common stock	876,000 shares of common stock	967,800 shares of common stock	434,900 shares of common stock	282,100 shares of common stock	720,800 shares of common stock	504,400 shares of common stock
Contractual life	20 years	20 years	20 years	10 years	10 years	10 years	10 years
Method of settlement	Equity	Equity	Equity	Equity	Equity	Equity	Equity
Vesting conditions	—	—	—	(Note 1)	(Note 1)	(Note 1)	(Note 1)
Exercise period	From September 1, 2013 to August 31, 2033 ^{2,3}	From December 27, 2014 to December 26, 2034 ^{2,3}	From September 26, 2015 to September 25, 2035 ^{2,3}	From July 31, 2019 to July 30, 2029 ^{2,4}	From July 27, 2020 to July 26, 2030 ^{2,4}	From April 1, 2022 to July 28, 2031 ^{2,4}	From April 1, 2023 to July 24, 2032 ^{2,4}

¹ In principle, vesting conditions require continuous service until the vesting date, and stock options are vested in stages depending on the service period starting from the grant date.

² The exercise period is specified in the allotment agreement. If stock options are not exercised within the exercise period, the stock acquisition rights are forfeited.

³ The stock option holders may exercise their options only within 10 days from the date on which they cease to be Directors of the Board and Senior Management during the exercise period.

⁴ The stock option holders may exercise their options only for the period up to the earlier of the day that is the last day of the exercise period of the stock options or three years from the date on which they cease to be Directors of the Board, Senior Management, or key management personnels during the period.

Estimation Method for Fair Value of Unit Price of Stock Options Granted

The fair value of unit price of the stock options is estimated by applying the Black-Scholes model. The grant-date weighted average fair values of the stock options granted during the years ended March 31, 2022 and 2023 are 1,619 yen and 1,646 yen, respectively.

The assumptions used in the Black-Scholes model for valuing the stock options granted during the years are as follows:

For the Year Ended March 31, 2022				
Vesting period	From July 29, 2021 to April 1, 2022	From July 29, 2021 to April 1, 2023	From July 29, 2021 to April 1, 2024	From July 29, 2021 to April 1, 2025
Remaining life of options	5.5 years	6 years	6.5 years	7 years
Share price	5,762 yen	5,762 yen	5,762 yen	5,762 yen
Exercise price	5,762 yen	5,762 yen	5,762 yen	5,762 yen
Volatility ¹	34.506%	34.506%	34.506%	34.506%
Dividend per share	20 yen	20 yen	20 yen	20 yen
Risk-free interest rate	(0.129)%	(0.130)%	(0.127)%	(0.123)%

¹ Calculated based on historical daily share prices since going public.

For the Year Ended March 31, 2023				
Vesting period	From July 25, 2022 to April 1, 2023	From July 25, 2022 to April 1, 2024	From July 25, 2022 to April 1, 2025	From July 25, 2022 to April 1, 2026
Remaining life of options	5.5 years	6 years	6.5 years	7 years
Share price	4,700 yen	4,700 yen	4,700 yen	4,700 yen
Exercise price	4,700 yen	4,700 yen	4,700 yen	4,700 yen
Volatility ¹	38.144%	38.144%	38.144%	38.144%
Dividend per share	21 yen	21 yen	21 yen	21 yen
Risk-free interest rate	0.019%	0.036%	0.053%	0.070%

¹ Calculated based on historical daily share prices since going public.

Share-based Payment Expenses

Expenses for the stock option plan, which are included within “Selling, general and administrative expenses” in the consolidated statement of profit or loss, for the years ended March 31, 2022 and 2023 are 596 million yen and 710 million yen, respectively.

Changes in the Number of Stock Options and Weighted average Exercise Prices thereof

The weighted average share prices upon exercise of stock options during the year are 5,653 yen and 5,463 yen for the years ended March 31, 2022 and 2023, respectively. The weighted average remaining contractual lives as of March 31, 2022 and 2023 were 10.2 years and 9.1 years, respectively.

Changes in the number of stock options and weighted average exercise prices thereof are as follows:

	For the Year Ended March 31, 2022		For the Year Ended March 31, 2023	
	Number of options	Weighted average exercise price (Yen)	Number of options	Weighted average exercise price (Yen)
Outstanding at the beginning of the year	1,711,400	1,463.90	2,243,600	2,888.30
Granted	720,800	5,762.00	504,400	4,700.00
Exercised	188,600	945.77	155,400	1.00
Forfeited	-	-	-	-
Expired at maturity	-	-	-	-
Outstanding at the end of the period	2,243,600	2,888.30	2,592,600	3,413.84
Outstanding and exercisable at the end of the period	1,614,400	1,873.29	1,785,300	2,600.14

Board Incentive Plan Trust

Overview of the Board Incentive Plan Trust

The Company has introduced an equity compensation plan using an equity-settled Board Incentive Plan Trust as an incentive plan for the Directors of the Board and Senior Management of Recruit Holdings and some of its subsidiaries.

The plan is implemented as a long-term incentive plan for the Directors and Senior Management, and is intended to motivate them to improve the Company's business performance and increase its enterprise value over the mid- to long-term, by clarifying and strengthening the interrelation between their compensation and shareholder value. In the plan, the Directors and Senior Management are granted the Recruit Holdings' shares or receive the monetary equivalent value of such shares according to their ranks or the level of attainment of performance targets when linked to business performances.

The plan is accounted for as an equity-settled share-based payment.

Share-based Payment Expenses

Expenses for the Board Incentive Plan Trust, which are included within "Selling, general and administrative expenses" in the consolidated statement of profit or loss, for the years ended March 31, 2022 and 2023 are 1,760 million yen and 1,692 million yen, respectively.

Method for Measurement of Fair Value of the Recruit Holdings Shares granted during the Year Based on the Board Incentive Plan Trust

The weighted average fair value of the Recruit Holdings' shares granted during the year is determined based

on the following preconditions:

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Number of shares granted (Shares)	477,198	294,972
Weighted average fair value (Yen) ¹	6,075	4,712
Vesting conditions	(Note 2)	(Note 2)

¹ For shares granted, the fair values are measured based on observable market prices.

² In principle, vesting conditions require continuous service until the vesting date.

Equity-settled Employee Stock Ownership Plan Trust

Overview of the Equity-settled Employee Stock Ownership Plan Trust

The Company has introduced an equity-based incentive plan using an equity-settled Employee Stock Ownership Plan Trust as an incentive plan for employees of its subsidiaries.

The plan is implemented as a long-term incentive plan for the employees and is intended to motivate them to improve the Company's business performance and increase its enterprise value over the mid- to long-term, by clarifying and strengthening the interrelation between their compensation and shareholder value. In the plan, the employees are granted the Recruit Holdings' shares or receive the monetary equivalent value of such shares according to the vesting period.

This plan is accounted for as an equity-settled share-based payment.

Share-based Payment Expenses

Expenses for the Employee Stock Ownership Plan Trust, which are included within "Selling, general and administrative expenses" in the consolidated statement of profit or loss, for the years ended March 31, 2022 and 2023 are 30,090 million yen and 70,303 million yen, respectively.

Method for Measurement of Fair Value of the Recruit Holdings Shares granted during the Year Based on Equity-settled Employee Stock Ownership Plan Trust

The weighted average fair value of the Recruit Holdings' shares granted during the year is determined based on the following preconditions:

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Number of shares granted (Shares)	13,068,080	33,831,014
Weighted average fair value (Yen) ¹	5,621	4,398
Vesting conditions	(Note 2)	(Note 2)

¹ For shares granted, the fair values are measured based on observable market prices. Expected dividends are incorporated into the measurement of fair value.

² In principle, vesting conditions require continuous service until the vesting date.

27 Financial Instruments

Capital Management

Details of capital management are as presented in "Capital Resources and Liquidity" in "Management's Discussion and Analysis of Financial Position, Results of Operations, and Cash Flows."

Financial Risk Management

In the course of conducting its business activities, the Company is exposed to financial risks (credit risk, liquidity risk, foreign currency risk, interest rate risk, and price risk). The Company monitors these financial risks in order to avoid or reduce the risks as necessary.

The Company uses derivative transactions to hedge foreign currency risk and interest rate risk, and not for speculative purposes.

Credit Risk Management

The Company's trade receivables such as notes and accounts receivable - trade are exposed to customer credit risk.

The Company reviews new clients to understand and mitigate at an early stage the potential uncollectability of receivables due to deterioration in their financial conditions. Regarding trade receivables, the Company manages the due dates and balances of each client and also monitors the financial condition of major clients on a regular basis. In addition, the Company enters into transactions only with financial institutions with high credit ratings to mitigate counterparty risk. The Company is not exposed to credit risk that is excessively concentrated in a particular counterparty. Besides from guarantee obligations, the Company's maximum exposure to credit risk is the carrying amount of the financial assets presented in the consolidated statement of financial position after impairment.

Reconciliation of Loss Allowance

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Beginning balance	10,242	12,003
Increase	10,806	13,493
Decrease (utilization)	(7,489)	(11,994)
Decrease (reversal)	(1,952)	(1,993)
Decrease due to loss of control	(149)	(36)
Other	545	603
Ending balance	12,003	12,075

Assessment of Credit Risk Exposure

Trade and other receivables

The Company is not exposed to credit risk that is excessively concentrated in any single counterparty or group to which it belongs.

Liquidity Risk Management

The Company manages its liquidity risk by preparing and updating a cash management plan at each subsidiary level, ensuring liquidity is available based on estimated revenue and expenditures, and realizing group financing through a cash-pooling system. In addition, the Company has entered into commitment line contracts with financial institutions to further prepare for liquidity risk.

Financial liabilities by maturity are as follows. Contractual cash flows are presented as undiscounted cash flows including interest payments.

As of March 31, 2022

(In millions of yen)

	Carrying amount	Contractual cash flows	1 year or less	Over 1 year through 5 years	Over 5 years
(Financial liabilities other than derivatives)					
Trade and other payables	283,849	283,849	283,849	-	-
Bonds and borrowings	60,636	61,168	26,520	33,265	1,382
Lease liabilities	210,789	215,563	41,468	100,647	73,447
(Derivatives)					
Derivative liabilities ¹	0	0	0	0	-
Total	555,276	560,583	351,839	133,912	74,830

As of March 31, 2023

(In millions of yen)

	Carrying amount	Contractual cash flows	1 year or less	Over 1 year through 5 years	Over 5 years
(Financial liabilities other than derivatives)					
Trade and other payables	349,916	349,916	349,916	-	-
Bonds and borrowings	35,274	35,992	34,406	80	1,505
Lease liabilities	219,680	236,840	44,954	121,684	70,202
(Derivatives)					
Derivative liabilities ¹	-	-	-	-	-
Total	604,870	622,749	429,276	121,764	71,707

¹ Cash flows are expected to affect profit or loss mostly in the same periods as they occur.

Foreign Currency Risk

Foreign Currency Risk Management

The Company is exposed to the risk of rapid fluctuation of foreign exchange rates.

For certain foreign currency-denominated receivables and payables, the foreign currency fluctuation risk is hedged on an individual basis.

Foreign Currency Sensitivity Analysis

The effect of a 1% strengthening of Japanese yen against the US dollar on profit before tax of the Company in each reporting period is as follows. Currencies other than the one used in the analysis are assumed to be

constant. In addition, this analysis does not include the effects of translating financial instruments denominated in the functional currency as well as the assets and liabilities of foreign operations into Japanese yen.

A 1% weakening of Japanese yen against the US dollar on profit before tax of the Company will have an opposite effect by the same amount as shown in the following table.

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Profit before tax		
US dollar	(14)	(18)

Interest Rate Risk

Interest Rate Risk Management

Borrowings are appropriated for working capital and funds for capital investment, and since a large portion of borrowings have floating interest rates, they are exposed to interest rate fluctuation risk.

Regarding interest rate fluctuation risk of borrowings, interest rate swaps are used to fix a portion of or the entire interest expense.

Price Risk

Price Risk Management

The Company is exposed to market price fluctuation risk associated with equity instruments.

Equity instruments are managed by regularly monitoring the market prices and financial condition of issuers and, on an ongoing basis, evaluating the holding status in light of the relationship with issuers.

Price Sensitivity Analysis

Assuming that the fair values of all equity financial assets with active markets decrease by 10% at the end of each fiscal year, the effects on other comprehensive income (before tax effects) are as follows:

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Other comprehensive income (before tax effects)	(8,815)	(8,402)

Derivatives and hedge accounting

Risk Management Policies

The Company uses derivatives to hedge foreign currency risk and interest rate risk. Derivatives are limited to transactions with actual demand and not entered into for speculative purposes. Where natural hedges cannot be used against market risk, the Company applies hedge accounting by designating such derivatives as hedges based on the risk management policies.

To mitigate interest rate risk and foreign currency risk arising from business operations, cash flow hedges are applied. The Company generally assesses qualitatively whether the critical terms for the hedged item and

the hedging instrument are matched or closely aligned, or quantitatively whether changes in the values of the hedged item and the hedging instrument have an offsetting relationship on the same risk in order to confirm the economic relationship between the hedged item and the hedging instrument. For a hedging relationship in which ineffectiveness is expected to occur, the amount of the ineffectiveness is determined using a quantitative method. The Company implements highly effective hedges, and the amount of hedge ineffectiveness is not material.

Derivatives subject to hedge accounting are managed under the risk management policies, and part or all of the risk is hedged.

Quantitative Information on Derivatives (Subject to Hedge Accounting)

(In millions of yen)

	Hedging instrument	As of March 31, 2022		As of March 31, 2023	
		Notional amount	Carrying amount	Notional amount	Carrying amount
Interest rate risk	Interest rate swaps	14,974	(0)	4,991	0
Interest rate risk/ Foreign currency risk	Interest rate and currency swaps	22,461	1,936	7,487	1,444
Total		37,436	1,935	12,478	1,444

Assets and liabilities arising from derivatives are recorded within “Other financial assets” and “Other financial liabilities,” respectively, in the consolidated statement of financial position. The fair values are determined based on prices presented by financial institutions. The period in which cash flows are expected to occur under cash flow hedges is one year, and is expected to affect profit or loss mostly in the same periods as they occur.

Effects of Applying Hedge Accounting on the Consolidated Statement of Profit or Loss and the Consolidated Statement of Comprehensive Income

(In millions of yen)

	For the Year Ended March 31, 2022		For the Year Ended March 31, 2023	
	Gain (loss) on hedge recognized in cash flow hedge reserves	Amount reclassified from cash flow hedge reserves to profit or loss	Gain (loss) on hedge recognized in cash flow hedge reserves	Amount reclassified from cash flow hedge reserves to profit or loss
Interest rate risk	16	(1)	2	(1)
Interest rate risk/ Foreign currency risk	1,845	(1,995)	1,772	(1,763)
Total	1,862	(1,996)	1,775	(1,764)

The amount reclassified from cash flow hedge reserves to profit or loss is recorded within “Finance income” or “Finance costs” in the consolidated statement of profit or loss.

28 Fair Value Measurement

Method of Fair Value Measurement

Assets

Since cash and cash equivalents, and trade and other receivables are settled within a short period of time, their carrying amounts approximate their fair values.

The fair value of other financial assets other than the following are determined by discounting the future cash flows to their present value by using an interest rate that reflects the remaining term and credit risk of the asset, and their carrying amounts approximate their fair value.

Equity Financial Assets and Debt Financial Assets

The fair value of stocks included in equity financial assets for which active markets exist is determined based on market prices. The fair value of stocks included in equity financial assets and debt financial assets for which active markets do not exist is assessed mainly based on transaction prices in the latest arm's length transactions.

Derivative Assets

The fair value of derivative assets is determined based on prices presented by financial institutions.

Liabilities

Since trade and other payables, and short-term borrowings are settled within a short period of time, their carrying amounts approximate their fair values.

The fair value of long-term borrowings is determined by discounting the future cash flows to the present value by using an interest rate that would be applied to new similar borrowings.

The fair value of bonds is determined with reference to market prices.

The fair value of other financial liabilities other than the following are determined by discounting the future cash flows to the present value by using an interest rate that reflects the remaining term and credit risk of the liability, and their carrying amounts approximate their fair values.

Derivative Liabilities

The fair value of derivative liabilities is determined based on prices presented by financial institutions.

Fair Value Hierarchy

Fair value measurements in the Company are categorized, depending on their observability in the market, into three different levels which are defined as follows:

Level 1: Fair value measured at quoted prices in active markets

Level 2: Fair value determined, either directly or indirectly, by using observable prices other than Level 1

Level 3: Fair value determined using valuation techniques based on significant unobservable inputs

When more than one input is used to measure the fair value, the level of the fair value is determined based on the lowest level input that is significant to the measurement of the overall fair value. There were no significant transfers between Level 1, Level 2 and Level 3 during the years ended March 31, 2022 and 2023. The Company recognizes transfers between the levels of the hierarchy at the end of the reporting period

during which the event causing the transfer occurred.

The Breakdown by Level of Financial Assets and Liabilities Measured at Fair Value on a Recurring Basis

The breakdown by level of the fair value hierarchy of financial instruments is as follows:

As of March 31, 2022

(In millions of yen)

	Carrying amount	Level 1	Level 2	Level 3
Financial assets				
Equity financial assets	153,639	88,156	2,427	63,055
Derivative assets	1,936	-	1,936	-
Total	155,576	88,156	4,364	63,055
Financial liabilities				
Derivative liabilities	0	-	0	-
Total	0	-	0	-

As of March 31, 2023

(In millions of yen)

	Carrying amount	Level 1	Level 2	Level 3
Financial assets				
Equity financial assets	171,434	84,020	-	87,414
Debt financial assets	30,426	-	-	30,426
Derivative assets	2,878	-	2,878	-
Total	204,739	84,020	2,878	117,841
Financial liabilities				
Derivative liabilities	-	-	-	-
Total	-	-	-	-

Equity financial assets categorized within Level 1 are mainly stocks for which active markets exist.

Derivative assets and derivative liabilities categorized within Level 2 are mainly derivative financial instruments including interest rate swaps, currency swaps and forward foreign exchange contracts.

Equity financial assets categorized within Level 3 are mainly unlisted stocks for which active markets do not exist. Debt financial assets are convertible bonds for which active markets do not exist.

Reconciliation from the beginning balance to the ending balance of financial assets categorized within Level 3 of the fair value hierarchy is as follows:

As of March 31, 2022

(In millions of yen)

	Equity financial assets	Debt financial assets
Beginning balance	41,825	-
Profit or loss ¹	-	-
Other comprehensive income ²	19,677	-
Purchase	9,143	-
Sale	(2,654)	-
Other	(4,936)	-
Ending balance	63,055	-
Total unrealized profit or loss recognized as profit or loss for financial assets held as of March 31, 2022	-	-

As of March 31, 2023

(In millions of yen)

	Equity financial assets	Debt financial assets
Beginning balance	63,055	-
Profit or loss ¹	-	686
Other comprehensive income ²	23,784	-
Purchase ³	759	29,882
Sale	(2,117)	-
Other	1,932	(141)
Ending balance	87,414	30,426
Total unrealized profit or loss recognized as profit or loss for financial assets held as of March 31, 2023	-	686

¹ Related to financial assets measured at fair value through profit or loss and is included in "Finance income" and "Finance costs" under the consolidated statement of profit or loss.

² Related to financial assets measured at fair value through other comprehensive income and is included in "Net change in financial assets measured at fair value through other comprehensive income" under the consolidated statement of comprehensive income.

³ Purchase in the debt financial assets column is mainly the increase of convertible bonds received during FY2022 as consideration for the sale of a portion of shares as part of the going private transaction of 51job, Inc.

Financial Assets and Financial Liabilities Measured at Amortized Cost

The carrying amount and fair value of financial assets and financial liabilities measured at amortized cost are as follows:

(In millions of yen)

	As of March 31, 2022		As of March 31, 2023	
	Carrying amount	Fair value	Carrying amount	Fair value
Bonds	19,982	19,980	19,991	19,994

The above table does not include financial assets and financial liabilities measured at amortized cost whose carrying amount approximates their fair value.

The fair value hierarchy of bonds is categorized as Level 2.

29 Cash Flow Information

Reconciliation of Liabilities from Financing Activities

Changes in liabilities from financing activities are as follows:

(In millions of yen)

	Borrowings	Bonds	Lease liabilities	Total
Balance at April 1, 2021	62,825	49,955	304,989	417,770
Cash movements	(24,913)	(30,000)	(42,956)	(97,870)
Changes due to new leases, contract modifications, etc.	-	-	(63,109)	(63,109)
Effects of changes in foreign exchange rates	2,742	-	12,411	15,154
Other	(0)	26	(546)	(519)
Balance at March 31, 2022	40,654	19,982	210,789	271,425
Cash movements	(24,980)	-	(45,318)	(70,299)
Changes due to new leases, contract modifications, etc.	-	-	42,335	42,335
Effects of changes in foreign exchange rates	(390)	-	11,874	11,483
Other	-	9	-	9
Balance at March 31, 2023	15,283	19,991	219,680	254,954

¹ Cash movements in "Borrowings" represent the net amount of "Proceeds from long-term borrowings," "Net increase (decrease) in short-term borrowings" included in "Other," and "Repayments of long-term borrowings" under cash flows from financing activities in the consolidated statement of cash flows.

² Changes due to new leases, contract modifications, etc., under "Lease liabilities" in the year ended March 31, 2022 include a decrease due to the remeasurement of lease liabilities associated with the reassessment of lease terms in the initial measurement of office buildings in Japan.

30 Related Party Transactions

Transactions with Related Parties

Transactions with related parties and the balance of debt obligations are as follows:

As of March 31, 2022

There are no significant transactions with related parties (except for those eliminated in the consolidated financial statements).

As of March 31, 2023

(In millions of yen)

Attribute	Name of related party	Transaction detail	Transaction amount	Outstanding balance
Associate	51job, Inc.	Partial disposal of the shares of 51job, Inc.	68,984	-

¹ As a result of the sale of a portion of shares as part of the going private transaction of 51job, Inc. and the receipt of convertible bonds and cash as consideration, investments in equity-method associates and joint ventures were decreased. Details on the convertible bonds received are stated in "28 Fair Value Measurement." In addition, proceeds from sales of investments in associates and joint ventures of 39,531 million yen are recorded. Transaction terms and conditions are determined based on a consent between the parties after negotiating each item separately.

Compensation for Key Management Personnel

Compensation for the Directors of the Board of the Holding Company are as follows:

(In millions of yen)

Type	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Annual Incentive	656	969
Post-employment benefits	0	-
Share-based payments	1,382	1,322
Total	2,040	2,291

31 Major Subsidiaries

Major subsidiaries of the Holding Company are as follows:

Share repurchase

The Company announced that its Board of Directors resolved on May 17, 2023 to conduct a share repurchase of its common stock of up to 23,000,000 shares through a tender offer (the "Self Tender Offer") as the specific purchase method pursuant to Article 156, Paragraph 1 of the Companies Act, as applied by replacing certain terms pursuant to Article 165, Paragraph 3 of such Act, and the provisions of the Company's Articles of Incorporation.

The Company completed the share repurchase of its common stock on June 14, 2023.

Reason of the share repurchase

The Company acknowledges that there has been a certain degree of concern in the capital markets regarding the possibility of uncoordinated sales by its Japanese business shareholders putting downward pressure on its stock price. Previously, when the Company was notified that several of its shareholders intended to reduce their holdings, the Company conducted secondary equity offerings and a self tender offer to provide these shareholders with opportunities to sell a large volume of shares at the same time in a coordinated manner.

Recently, the Company considered options to provide an opportunity for the smooth sale of its shares after Dai Nippon Printing Co., Ltd., which holds the largest ownership percentage among the Company's Japanese business shareholders, notified the Company of its intention to reduce by half its ownership stake in the Company's common stock by the end of March 2024.

The Company considered the intention of Dai Nippon Printing Co., Ltd., the potential impact on the Company's share price from the large uncoordinated sales of shares over a short period, the capacity to pursue future strategic business investments, the capital market's environment as well as the outlook of its financial position, and has determined it is appropriate to acquire its own shares in accordance with the Company's capital allocation policy.

As a specific measure, the Company has decided to acquire its shares from Dai Nippon Printing Co., Ltd. through a self tender offer at the purchase price of 3,326 yen as agreed by the shareholders of Dai Nippon Printing Co., Ltd., and has entered into a tender offer agreement.

The Company has determined that the Self Tender Offer enables the Company to minimize its cash outflow while enhancing shareholder value.

Details of the Board of Directors resolution concerning the share repurchase

Type of shares to be repurchased:	Common shares of the Company
Total number of shares to be repurchased:	23,000,100 shares (Maximum) (Up to 1.35% of total number of shares issued and outstanding)
Total purchase price:	76,498 million yen (Maximum)
Acquisition period:	From May 18 to July 31, 2023
Method of the purchase:	Self tender offer

Details of common stock repurchased pursuant to the Board of Directors resolution described above

Type of shares repurchased:	Common shares of the Company
Total number of shares repurchased:	18,827,759 shares

Notes to Non-consolidated Financial Statements

Notes to Non-consolidated Financial Statements are as follows;

Significant Accounting Policies

Valuation Standards and Valuation Methods of Assets

Valuation standards and valuation methods of securities

Shares of Subsidiaries and Associates

Stated at cost using the moving-average method

Available-for-sale Securities

- Available-for-sale securities other than those without market value
Market value method (Valuation differences are directly recorded as equity and cost of securities sold is calculated by the moving-average method)
- Available-for-sale securities without market value
Stated at cost using the moving-average method

Depreciation and Amortization Methods of Non-current Assets

Property, Plant and Equipment

Straight-line method

The principal useful lives are as follows:

- Buildings: 2 to 50 years
- Tools, furniture and fixtures: 2 to 15 years

Intangible Assets

Straight-line method

The principal years of amortization are as follows:

- Software (for internal use): 5 years (period available for internal use)

Accounting Standards for Allowances and Provisions

Allowance for doubtful accounts

In order to provide for losses due to bad debt, for general receivables, an estimated uncollectible amount is recorded according to the historical bad debt ratio. For specific receivables from companies in financial difficulty, an estimated uncollectible amount is recorded by assessing the collectability of each receivable individually.

Provision for retirement benefits for Directors (and Other Officers)

In order to provide for the payments of retirement benefits to Directors (and other officers), an estimated amount of benefits payable at the end of the fiscal year is recorded in accordance with the internal rules.

Provision for Board Incentive Plan Trust

In order to provide for the grant of shares of the Holding Company to Directors (and other officers), an estimated amount of shares to be granted in proportion to the points awarded to Directors (and other officers) is recorded in accordance with the stock delivery regulations.

Significant Hedge Accounting

Hedge Accounting

Deferred hedge accounting is applied.

Exceptional treatment is applied to interest rate swaps that meet the requirements for exceptional treatment. Integrated treatment (exceptional treatment/appropriation treatment) is applied to interest rate and currency swap transactions that meet the requirements for integrated treatment.

Hedging Instruments and Hedged Items

Hedging instruments	Hedged items
Interest rate swap	Interest on borrowings
Interest rate and currency swap	Foreign currency-denominated debt

Hedging Policy

The Holding Company engages in interest rate swap transactions and interest rate and currency swap transactions in order to hedge the risks associated with fluctuations in interest rates and foreign exchange rates.

Methods for Evaluating the Effectiveness of Hedges

Evaluation of effectiveness on exceptional treatment for interest rate swaps and integrated treatment for interest rate and currency swaps is omitted.

Standards for Revenue and Expense Recognition

Royalty income

The Holding Company recognizes revenue based on the following five-step approach.

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

The Holding Company earns royalty income as consideration for granting the right to use Recruit brands, to which it has rights, to its subsidiaries. The Holding Company has an obligation to grant rights to use Recruit brands to its subsidiaries over a period specified in a contract. Revenue is recognized over the contract period as the performance obligation is satisfied over time.

Dividends from subsidiaries and associates

Dividends from subsidiaries and associates are recognized on the effective date.

Other Important Matters That Form the Basis for Preparing Non-consolidated Financial Statements

Translation of Significant Assets and Liabilities Denominated in foreign currencies into Japanese Yen

Monetary receivables and payables denominated in foreign currencies are translated into Japanese yen at the spot exchange rate at the closing date, and translation adjustments are treated as gains or losses.

Application of the Consolidated Taxation System

The Company previously applied the Consolidated Taxation System; however, by filing a notification not to shift to the Group Tax Relief System, it has ceased to apply the Consolidated Taxation System from FY2022.

Significant Accounting Estimates

Valuation of Stocks of Subsidiaries and Associates

Amount on the financial statements

(In millions of yen)

	For the Year Ended March 31, 2022	For the Year Ended March 31, 2023
Stocks of subsidiaries and associates	827,403	1,193,418

Information on significant accounting estimates for identified items

Stocks of subsidiaries and associates include investments in RGF Staffing B.V. of 402,140 million yen for the years ended March 31, 2022 and 2023.

The Holding Company determines whether there is a significant decline in the value in substance by comparing the value in substance which reflects excess earnings power expected when the Holding Company acquired RGF Staffing B.V. with the carrying amount. The excess earnings power based on the forecast expected at the time of the acquisition of RGF Staffing B.V. and its subsidiaries in staffing business reflects a customer base and brand strength possessed by each company in their respective country, as well as synergies obtained by utilizing know-how accumulated based on the experiences in other subsidiaries in the staffing business in the group.

When the Holding Company assesses if the excess earnings power is impaired, the Holding Company considers the 5-year future cash flow projection based on a business plan, the growth rates for the periods subsequent to the period covered by the business plan, and the discount rates used in the impairment test of goodwill for preparation of its consolidated financial statements. The future cash flow projection is mainly affected by market growth rates (please refer to "Impairment Tests on Goodwill" under "11 Goodwill and Intangible Assets" in "Notes to the Consolidated Financial Statements").

The assessment as of March 31, 2022 and 2023 shows that the value in substance has not decreased significantly compared with the carrying amount. Therefore, the Holding Company determined that it did not need to impair the shares in RGF Staffing B.V., and recorded no valuation loss on the shares.

The business plan used for determining whether there is a significant decline in the value in substance, which reflects excess earnings power, is prepared based on management's best estimate.

Changes in Presentation Methods

Matters Related to Statement of Income

Commission for purchase of treasury shares, which was included in Other under Non-operating expenses in the year ended March 31, 2022, is separately presented in the year ended March 31, 2023, due to its increased materiality. To reflect this change in presentation, the amount of 37 million yen, which was presented as Other under Non-operating expenses in the statement of income of the previous fiscal year, has been classified as Commission for purchase of treasury shares.

Additional Information

Board Incentive Plan (“BIP”) Trust

The Company has introduced an equity compensation plan using a Board Incentive Plan (“BIP”) Trust as an incentive plan for the Directors, Senior Vice Presidents and Corporate Professional Officers of Recruit Holdings and its subsidiaries.

Overview of the transaction

Please refer to “26 Equity Compensation” in “Notes to the Consolidated Financial Statements.”

Shares of Recruit Holdings held by the BIP Trust

Shares of Recruit Holdings held by the BIP Trust are recorded as treasury stock in equity at their carrying amount in the trust. The carrying amount and number of shares of the above treasury stock are 6,363 million yen and 1,714,565 shares as of March 31, 2022 and 7,475 million yen and 1,883,815 shares as of March 31, 2023.

Employee Stock Ownership Plan (“ESOP”) Trust

The Company has introduced an equity-based incentive plan using an ESOP Trust as an incentive plan for employees of its subsidiaries.

Overview of the transaction

Please refer to “26 Equity Compensation” in “Notes to the Consolidated Financial Statements.”

Shares of Recruit Holdings held by the ESOP Trust

Shares of Recruit Holdings held by the ESOP Trust are recorded as treasury stock in equity at their carrying amount in the trust. The carrying amount and number of shares of the above treasury stock are 54,349 million yen and 11,024,253 shares as of March 31, 2022 and 313,182 million yen and 65,919,972 shares as of March 31, 2023, respectively. Due to the disposal of treasury stock to the trust, treasury stock has increased 25,745 million yen and 67,320 million yen as of March 31, 2022 and March 31, 2023, respectively.

¹ Under "Main Business" is the name of the Segment each company belongs to.

² Managerial positions refer to all employees who have subordinates, excluding senior executives under service agreements, as of Apr 1, 2023. It has been calculated in accordance with the Women's Active Engagement Act, including incoming seconded employees that have been assigned to the respective company and excluding outgoing seconded employees that have been assigned to companies outside the respective company.

³ Calculations are based on each company's original workers. We have calculated the percentage of men taking childcare leave, etc. as referred to in Article 71-4, item (ii) of the Ordinance for Enforcement of the Childcare and Caregiver Leave Act, pursuant to the provisions of the Childcare and Caregiver Leave Act in the current consolidated fiscal year. Childcare leave, etc. includes both taking childcare leave stipulated by law and benefiting from leave systems, etc. for childbirth and childcare purposes.

⁴ Calculations are based on each company's original employees, including agency temps dispatched through the respective company to other companies and excluding agency temps dispatched to the respective company in the current fiscal year. Accordingly, for the Staffing segment, figures include each consolidated subsidiary company's agency temps, i.e. our clients' temporary workforce (who we payroll on their behalf).

⁵ "Permanent employees" refers to those on indefinite contracts.

⁶ We estimate the number of part-time and fixed-term employees, etc. based on their working hours as a proportion of the prescribed working hours of permanent employees (8 hours a day).

⁷ As of Apr 1, 2023, Recruit Kitakanto Marketing Co.,Ltd. has been merged into Recruit Co., Ltd. and the calculation has been therefore omitted.

⁸ The hyphen ("-") denotes situations where the calculation is not possible, i.e. when it is not possible to calculate the percentage of men taking childcare leave due to the absence of childbirth by their spouse during the consolidated fiscal year, or when it is not possible to calculate the gender pay gap, due to there being no eligible male or female employees for assessment throughout the consolidated fiscal year.

Audit of Financial Statements

Opinion

Pursuant to the first paragraph of Article 193-2 of the Financial Instruments and Exchange Act, we have audited the accompanying consolidated financial statements of Recruit Holdings Co., Ltd. and its subsidiaries (the Company), which comprise the consolidated statement of financial position as of March 31, 2023, and the consolidated statement of profit or loss, comprehensive income, changes in equity, and cash flows for the year then ended, and notes to the consolidated financial statements. In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as of March 31, 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs) pursuant to the provisions of Article 93 of the Ordinance on Terminology, Forms and Preparation Methods of Consolidated Financial statements.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of the audit of the consolidated financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of goodwill related to RGF Staffing B.V.	
Description of Key Audit Matter	Auditor's Response
<p>As described in the Note 11 Goodwill and Intangible Assets to the consolidated financial statements, the Company has recognized goodwill of JPY 168,120 million arising from the acquisition of RGF Staffing B.V., which operates a staffing business across Europe, and discloses the underlying assumptions used in impairment test of the goodwill.</p> <p>In conducting the impairment test, the Company measures the recoverable amount of a cash-generating unit or a group of cash-generating units (collectively "CGU") to which goodwill is allocated based on value in use. Value in use is calculated using the present value of estimated pre-tax 5-year future cash flows based on a business plan approved by management of each CGU. The estimated 5-year future cash flows are determined based on internal and external sources including market growth rates as well as management's assessment of future trends in the industry and historical data. For the periods subsequent to the period covered by the estimated future cash flows, the Company calculated the terminal value based on indefinite life by discounting the future cash flows estimated using a growth rate assumption determined considering the environment of the country and the industry to which the CGU belongs. The pre-tax discount rate is determined based on the weighted average cost of capital considering the time value of money and the risks specific to the assets.</p> <p>Key assumptions used in estimating value in use are: market growth rates within the estimated future cash flows based on the 5-year business plans; the growth rate for the periods subsequent to the period covered by the business plans; and the discount rate. The business plans are prepared based on management's best estimate.</p> <p>The estimates of the market growth rates used in the estimate of future cash flows based on the 5-year business plans and the growth rate for the</p>	<p>We performed audit procedures to assess the valuation of goodwill related to RGF Staffing B.V. including:</p> <ul style="list-style-type: none"> - We assessed whether the estimated 5-year future cash flows are based on the business plans approved by management. For market growth rates that are a key assumption in estimating future cash flows, we inquired of management regarding the rationale of the rates and compared them to available external data such as forecast of staffing market growth rate per country provided by an external organization, performed trend analysis based on actual past performance, assessed progress toward business plans for the period subsequent to the date of the impairment test, and performed a sensitivity analysis. - For the growth rate for the period beyond the 5-year period, we inquired of management regarding the rationale for the rate, performed a comparison to economic forecasts published by an external organization, performed trend analysis based on actual past performance, and performed a sensitivity analysis. - With the involvement of the valuation specialists of our network firm for valuation methodologies for value in use and discount rate, we evaluated the acceptability of the valuation methodologies used by the Company according to the accounting standards and the consistency of the inputs used to calculate the discount rate with publicly available external data. For the discount rate, we performed a sensitivity analysis.

<p>period beyond the 5 year period used in the impairment test are subject to uncertainties and require management's judgement because those rates are affected by changes in the employment environment driven by changes in the economic conditions. The estimate of the discount rate requires highly specialized knowledge in consideration of its method and inputs. For the year ended March 31, 2023, a rise in the discount rate due to a rise in interest rates had a significant impact to the calculation of the value in use. Therefore, we determined the valuation of goodwill to be a key audit matter.</p>

Other information

The other information consists of the information included in the Annual Report, other than the consolidated financial statements, the financial statements and our auditor's reports thereon. Management is responsible for preparation and disclosure of the other information. Audit and Supervisory Board Members and Audit and Supervisory Board are responsible for overseeing the Group's reporting process of the other information.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management, Audit and Supervisory Board Members and Audit and Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern and disclosing, as required by IFRSs, matters related to going concern.

Audit and Supervisory Board members and Audit and Supervisory Board are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise

professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- In making those risk assessments, we consider internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the purpose of the audit of the consolidated financial statements is not expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation in accordance with IFRSs.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit and Supervisory Board members and Audit and Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit and Supervisory Board members and Audit and Supervisory Board with a statement that we have complied with the ethical requirements regarding independence that are relevant to our audit of the financial statements in Japan, and to communicate with them all relationships and other matters that may reasonably be thought to have impacts on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit and Supervisory Board members and Audit and Supervisory Board, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Audit of Internal Control

Opinion

Pursuant to the second paragraph of Article 193-2 of the Financial Instruments and Exchange Act, we have audited the management's report on internal control over financial reporting of Recruit Holdings Co., Ltd., as of March 31, 2023.

In our opinion, the management's report on internal control over financial reporting referred to above, which represents that the internal control over financial reporting of Recruit Holdings Co., Ltd. as of March 31, 2023 is effectively maintained, presents fairly, in all material respects, the results of management's assessment of

internal control over financial reporting in conformity with standards for assessment of internal control over financial reporting generally accepted in Japan.

Basis for Opinion

We conducted our internal control audit in accordance with auditing standards for internal control over financial reporting generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Internal Control Audit section of our report. We are independent of the Company in accordance with the ethical requirements in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management, Audit and Supervisory Board Members and Audit and Supervisory Board for the Management's Report on Internal Control over Financial Reporting

Management is responsible for designing and operating effective internal control over financial reporting and for the preparation and fair presentation of its report on internal control in accordance with standards for assessment of internal control over financial reporting generally accepted in Japan.

Audit and Supervisory Board members and Audit and Supervisory Board are responsible for overseeing and verifying the design and operating effectiveness of internal control over financial reporting.

There is a possibility that misstatements may not be completely prevented or detected by internal control over financial reporting.

Auditor's Responsibilities for the Internal Control Audit

Our responsibility is to obtain reasonable assurance about whether the management's report on internal control over financial reporting is free from material misstatement, and to express an opinion from an independent perspective on an internal control report, based on our internal control audit.

As part of an audit in accordance with auditing standards for internal control over financial reports generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Perform audit procedures to obtain audit evidence for the assessment results for internal control over financial reporting in management's report on internal control. Internal control audit procedures selected and applied depend on the auditor's judgment, taking into account the significance of effects on the reliability of financial reporting.
- Examine representations on the scope, procedures, and results of assessment of internal control over financial reporting made by management, as well as evaluating the overall presentation of management's report on internal control.
- Obtain sufficient appropriate audit evidence regarding the results of assessment of internal control over financial reporting in the management's report on internal control. We are responsible for direction, supervision and performance of the audit of management's report on internal control. We remain solely responsible for our audit opinion.

We communicate with the Audit and Supervisory Board members and Audit and Supervisory Board regarding the planned scope and timing of the internal control audit, results of the internal control audit, including identified material weakness which should be disclosed, the results of remediation, and other matters that are required by auditing standards for internal control.

We also provide the Audit and Supervisory Board members and Audit and Supervisory Board with a statement that we have complied with the ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to have impacts on our independence, and where applicable, related safeguards.

Conflicts of Interest

We have no interest in the Company which should be disclosed in accordance with the Certified Public Accountants Act.

Opinion

Pursuant to the first paragraph of Article 193-2 of the Financial Instruments and Exchange Act, we have audited the accompanying non-consolidated financial statements of Recruit Holdings Co., Ltd. (the Holding Company), which comprise the balance sheet as of March 31, 2023, and the statement of income, the statement of changes in equity, significant accounting policies, the notes to the non-consolidated financial statements and the related supplementary schedules for the year then ended.

In our opinion, the accompanying non-consolidated financial statements present fairly, in all material respects, the non-consolidated financial position of the Holding Company as of March 31, 2023, and its non-consolidated financial performance for the year then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Non-Consolidated Financial Statements section of our report. We are independent of the Holding Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of the audit of the financial statements as a whole, and in forming the auditor's opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of investment in RGF Staffing B.V.	
Description of Key Audit Matter	Auditor's Response
<p>As described in the Note Significant Accounting Estimates to the financial statements, the Company has recognized an investment of JPY 402,140 million in RGF Staffing B.V., which operates a staffing business across Europe, and discloses estimation uncertainties related to the valuation of investments in subsidiaries and associates.</p> <p>The Company determines whether there is a significant decline in value in substance by comparing the value in substance which reflects excess earnings power expected when the Company acquired RGF Staffing B.V. with the carrying amount. The excess earnings power based on the forecast expected at the time of the acquisition of RGF Staffing B.V. and its subsidiaries in the staffing business reflects a customer base and the brand strength possessed by each company in their respective country, as well as synergies obtained by utilizing know-how accumulated based on the experiences in other subsidiaries in the staffing business in the group. When the Company assesses if the excess earnings power is impaired, the Company considers the 5-year future cash flow projection based on a business plan, the growth rate for the periods subsequent to the period covered by the business plan, and the discount rate used in the impairment test of goodwill for preparation of its consolidated financial statements. The future cash flow projection is mainly affected by market growth rates. The business plan used for determining whether there is a significant decline in the value in substance, which reflects excess earnings power, is prepared based on management's best estimate.</p> <p>For the valuation of the investment in RGF Staffing B.V., to determine whether there is a significant decline in the value in substance which reflects the excess earnings power, the estimates of the market growth rates used in estimate of future cash flows included in the 5-year business plan which is the same business plan used in the impairment test of goodwill for preparation of consolidated financial statements and the growth rate for the period beyond the 5 year period used in the impairment test are subject to uncertainties</p>	<p>We performed audit procedures to assess the valuation of the investment in RGF Staffing B.V. including:</p> <ul style="list-style-type: none"> • We compared past business plan to actual results to assess if the excess earnings power is impaired. In addition, we primarily performed following procedures regarding matters which the Company considered when it assessed if the excess earnings power is impaired: <ul style="list-style-type: none"> - For the market growth rates included in the 5-year cash flow projection based on the business plan which is the same business plan used in the impairment test of goodwill for consolidated financial statements, we inquired of management regarding the rationale for the rates and compared them to available external data such as forecast of staffing market growth rate per country provided by an external organization, performed trend analysis based on actual past performance, and performed a sensitivity analysis. - For the growth rate for the periods beyond 5-year period, we inquired of management regarding the rationale for the rate, performed a comparison to economic forecasts published by an external organization, performed a trend analysis based on actual past performance, and performed a sensitivity analysis. - With the involvement of the valuation specialists of our network firm for discount rate, we evaluated the consistency of the inputs used to calculate the discount rate with publicly available external data. For the discount rate, we performed a sensitivity analysis. • We evaluated management's comparison on the value in substance which reflects excess earnings power and the carrying amount.

<p>and require management's judgement because those rates are affected by changes in the employment environment driven by changes in the economic conditions. The estimate of a discount rate requires highly specialized knowledge in consideration of its method and inputs. For the year ended March 31, 2023, a rise in the discount rate due to a rise in interest rates had a significant impact to the impairment test of goodwill for preparation of its consolidated financial statements. Therefore, we determined the valuation of the investment in RGF Staffing B.V. to be a key audit matter.</p>

Other information

The other information consists of the information included in the Annual Report, other than the consolidated financial statements, the financial statements and our auditor's reports thereon. Management is responsible for preparation and disclosure of the other information. Audit and Supervisory Board Members and Audit and Supervisory Board are responsible for overseeing the Company's reporting process of the other information.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management, Audit and Supervisory Board Members and Audit and Supervisory Board for the Non-Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these non-consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of non-consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the non-consolidated financial statements, management is responsible for assessing the Holding Company's ability to continue as a going concern and disclosing, as required by accounting principles generally accepted in Japan, matters related to going concern.

Audit and Supervisory Board members and Audit and Supervisory Board are responsible for overseeing the Holding Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Non-Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the non-consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate they could reasonably be expected to influence the economic decisions of users taken on the basis of these non-consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the non-consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

- In making those risk assessments, we consider internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the purpose of the audit of the non-consolidated financial statements is not expressing an opinion on the effectiveness of the Holding Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Holding Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the non-consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Holding Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the non-consolidated financial statements, including the disclosures, and whether the non-consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation in accordance with accounting principles generally accepted in Japan.

We communicate with the Audit and Supervisory Board members and Audit and Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit and Supervisory Board members and Audit and Supervisory Board with a statement that we have complied with the ethical requirements regarding independence that are relevant to our audit of the financial statements in Japan, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Audit and Supervisory Board members and Audit and Supervisory Board, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Conflicts of Interest

We have no interest in the Holding Company which should be disclosed in accordance with the Certified Public Accountants Act.

Notes to the Readers of Independent Auditor's Report

This is an English translation of the Independent Auditor's Report as required by the Financial Instruments and Exchange Act of Japan for the conveniences of the reader.

Notes:

1. The above is a digital version of the matters stated on the original audit report. The original is stored separately by the Holding Company (the company submitting the securities report).
2. XBRL data is not included in the scope of the audit.
